But little of interest has transpired in Congress during the past week. The House had put under arrest Mr. Simonton, correspondent of the N. Y. Times, for refusing to answer questions before a committee relative to the bribery matter.

What we stated in relation to the reservoir was derived from good authority, and where we referred to other facts, it was from personal cognizance.

One thing has been clearly established, namely, that the water power in dry seasons is insufficient to supply that element at fires. This was the case at the fire in W.
