

THE GAZETTE.

LEWISTOWN, PA.

Thursday, February 12, 1857.

The next session of Mattawana School, McVeytown, will open on the 6th of April.

The Principal of this institution has a high reputation for scholarship and integrity which has already secured for it a very liberal support.

The executors of Samuel Kyle, dec'd, will sell a large lot of personal property at public sale on the 24th inst.

An election for officers of the Lewistown and Kishacoquillas Turnpike Company will be held on the second Monday of March.

BROOKS AND HIS COADJUTORS. Mr. Keit, in noticing the death of Brooks in the House, said—

"Earth never pillowed on its bosom a truer son, nor Heaven opened wide its gates to receive a manlier spirit."

To which Mr. Savage added: "History records but one Thermopylae, but there ought to have been another, and that for Preston S. Brooks. Brutus stabbed Caesar in the Capitol, and whatever may be thought of the justice of the deed, the world has ever since approved and applauded the act."

So shall the scene in the Senate Chamber carry the name of the deceased to all future generations, long to be remembered after all here shall be forgotten, and when these proud walls shall have crumbled into ruins."

These eulogies are pronounced on a man who openly proclaimed himself while living a disunionist, and to have been so from his youth—upon one who stealthily attacked a Senator in the Capitol for words spoken in debate, and subsequently acknowledged that he had the weapons of an assassin with him, and had his foul blows failed in disabling Mr. Sumner, would have used them—upon one who, in defiance of the laws of God and man, sought every means by insult and conduct to involve himself in a murderous duel!

We would not disturb the dead, but if souls will rise in high places, and desecrate all that is manly and patriotic by such infamous comparisons, let the epitaph of Brooks be now written as History will write it.

BEYING TURKEYS.—The following is said to be the way they do business in Wall street, New York:

I say to Mr. Broker Jones, "loan me a thousand dollars for a month on this fifteen hundred of stock, and this collateral." He answers, "I'll do it, but I must have a pretty fat turkey."

"How much?" "Well, fifty dollars." "I agree. So he takes my securities and gives me nine hundred and fifty dollars. When I repay him I give him a thousand. The odd fifty is his "turkey."

Turkey this, is it? You oblige a man—he makes you a present of a turkey. I oblige a man by lending him money on good security—he gives me a figurative turkey for doing it.

The Indiana Register advocates a repeal of the tonnage tax on the Pennsylvania Railroad. Thus far this tax has become a considerable item of revenue to the State, and we apprehend if it goes on increasing, it will be a difficult matter for the railroad company to get a bill passed releasing them from it.

The discovery of Daguerre has opened a wide field for improvement in Heliography or sun-pictures. To Daguerretism followed Photography and Ambrotypy, and now another new mode called Haliotyping has been invented. The latter is said to bring out a portrait in a manner so as to make it appear as if a figure was placed behind the glass.

LATEST NEWS.

THE NEW YORK TRAGEDY.

New York, Feb. 10.—The excitement about the mystery of Dr. Burdell's murder continues unabated.

The coroner, as usual, had a large number of letters that he had received in regard to the murder. Among them was one advising him to watch the movements of Dr. Roberts, who was the first person sent for by Mrs. Cunningham on the morning that the murder was discovered.

Dr. Roberts was afterwards examined, but his testimony was quite unimportant. He only testified to the condition of the dead body when he saw it, and to the fact of the difficulties existing between Dr. Burdell and Mrs. Cunningham, as reported by other witnesses.

He said that Burdell said one day to him, "We have both been wrong, but all is settled now. I intend to be their friend through life."

Dr. Burdell's private ledger, which was examined, contains a charge made on the 28th of October, the day of the alleged marriage between him and Mrs. Cunningham. This proves that he was in this city on that day, and not in Saratoga, as reported.

Mary Miller was called and sworn. She testified to having been in Dr. Burdell's room on Friday, the day of his murder. The doctor begged of her a loan of a hundred dollars. Young Snodgrass was again in court, but nothing new was elicited from him.

Mrs. Cunningham will be committed to the Tombs to-day.

The latest evidence seems to point towards Eckel and Mrs. Cunningham as the guilty parties.

Boston, not to be behind New York, has also got up a murder case, it being reported that the late postmaster at Hingham was poisoned by his wife, arsenic having been found in his stomach.

RUN ON THE MONTGOMERY COUNTY BANK. NORRISTOWN, Feb. 10.—Considerable excitement exists here on account of a run on the "Montgomery County Bank." It commenced yesterday. All the afternoon there was quite a crowd about the Bank, which was kept open till 8 o'clock, and was busy paying demands. Many causes are assigned for the commencement of this run, but what the true one is I cannot say.

This morning the bank was opened earlier than usual, and the run again commenced, which promises to be more exciting than it was yesterday.

Pennsylvania Legislature.

On the 5th Mr. Parcell presented the subjoined petition from a number of ladies and others in favor of the right of suffrage, &c.

To the Honorable the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met:

In accordance with the admitted principles of our Government, that "Governments are just only when they obtain the consent of the governed," and that "taxation and representation are inseparable," we, adult men and women of Lewistown, Pennsylvania, pray your honorable body to take such measures for the practicable application of the above named principles, as shall secure to women the elective franchise, they being now held strictly amenable to laws to which they are not allowed to give their consent, and taxed without a vote:

John Hamilton, Margaret Hoover, Eliza A. Belford, C. E. Gwin, Jane Zeigler, James H. McCord, Isabella B. McEwen, C. Hoover, Mary E. Waters, James M'Dowell, Margaret S. Shaw, Margaret Fichtorn, Maria E. Patton, M. G. Hamilton, Martha Rittenhouse, Betha M. Cosby, H. M. Rittenhouse, M. A. Summerville, Thomas Stuart, Hally Wilson, I. J. Stine, Marion W. Shaw, T. M. Wittey, Jr., Josephine Logue, Anna M. E. Burns, Kate Hopper, M. A. Harding, Julia Klink, A. E. Shaw, Bernard Reilly, M. A. Drake, H. H. Comfort, E. L. Drake, Jas. H. Alter, M. Jane Mabbett, S. E. B. Warner.

On the following day the Speaker stated that a resolution had passed the House yesterday to refer a petition from certain ladies, asking for the right of suffrage, to a select committee composed of the bachelor members of the House. It was difficult for him to appoint the committee, not being acquainted with the domestic relations of members. He wished that the bachelor members would rise in their seats, in order that the Clerk might take down their names.

The following gentlemen were then appointed on said committee: Messrs. M'Callmont, Longaker, Backhouse, Hiestand, Hines, Knight, Vickers, Ramsey, (Philadelphia) Benson, Wagonseller, Westbrook, Calhoun and Eyster.

In the House, the Speaker announced the following committee to prepare a bill apportioning the State into Senatorial and Representative districts, in pursuance of a resolution to that effect:

Messrs. Foster, Mumms, Calhoun, Ball, Roberts, Penrose, Yeansley, Smith, (Cambria) Longaker, Backhouse, Patrikin, Heines, Innis, Benson and Hine.

Mr. Patrikin, from the select committee in relation to the contested seat of John Ramsey, made a report which was signed by all of the Committee, in favor of allowing Mr. Ramsey his seat, contested by George R. Smith of Philadelphia, which was accepted by the House, and the Committee was discharged. A resolution was passed allowing Mr. Smith mileage and pay at the rate of \$4 per day for the time he has been contesting the seat of Mr. Ramsey.

A bill was introduced by Mr. Eyster, of Allegheny county, making every description of property in the State subject to taxation for all purposes, except burial grounds, cemeteries, and such buildings and property as are purchased and sustained by a general fund raised by legal taxation, and except such corporations as are especially exempt from taxation by the law creating them. This exception would include court houses, jails, county buildings and other public property built and sustained either by the State or County taxation. The bill would subject to taxation for all purposes, State, county, borough or township and school, all the church property in the State not especially exempted by the charter of the corporation holding such property. Mr. Patrikin proposes, in a bill offered by him in the House, to exempt the salaries of presidents and professors of colleges, and teachers in academies and common schools, from taxation.

In the Senate, Mr. Penrose has introduced a bill authorizing a sale of the Main Line to the Pennsylvania Railroad Company for \$9,000,000 of stock in that company. The principal features of the bill are that in case of such sale the Governor is to subscribe \$3,000,000 of said stock to the Sunbury and Erie Railroad Company, and the Railroad Company is released from the tonnage tax, tax on dividends, and interest on the bonds and land or property. This, it will at once be seen, would do little or nothing towards reducing the public debt, and therefore ought to meet with no favor.

The religious meetings in the Lutheran Church continue with unabated zeal.

Dead.—E. A. Penniman, formerly a prominent politician of Philadelphia.

The Dallas treaty, by which it was thought our relations with England had been fully adjusted, meets with much opposition in the U. S. Senate.

John Gadd, who was appointed Supervisor of the Upper Juniata Division last fall, died on Friday of pleurisy.

W. S. H. Keys has been convicted of assault and battery on a little girl and sentenced to three months imprisonment in the Blair county jail.

Some of the Lancaster papers are out in favor of a prosecution against the late President and Cashier (Longenecker and Bachman) of the Lancaster Bank.

The Birmingham bridge over the Little Juniata, was not carried away by the ice flood, as first reported, but sustained some damage which prevented the cars from passing over it for a day.

It was reported yesterday that the supervisor and canal hands had a family quarrel. As we heard the story the major is right, and in defiance of threats, ought to "shoot the deserters" and "hang the mutineers."

LOCAL AFFAIRS.

GENERAL BREAK UP.—Ice Flood.—The moderate weather prevailing last week, with occasional rain and heavy fogs, had the effect of melting the snow and ice very generally. On Saturday evening Kishacoquillas and Jack's creeks poured a considerable body of water into the river, which continued until Sunday morning, when the latter also began to rise. About 11 o'clock a heavy body of ice broke up below the bridge, forcing its way down the dam and forming occasional gorges, which however were quickly broken up. A few hours after the ice above the bridge gave way, and for a while came down in masses that shook that structure to its foundations—the river in the meanwhile having risen from sixteen to eighteen feet above low water mark. The ice was of unusual thickness, and almost at the start knocked out some stones from the first pier, which gradually gave way until about one-third of it had been dismantled.—Contrary to general expectation the superstructure continued in its place, with no perceptible injury except a slight sinking of the second span. It is however rendered impassable, except for foot passengers, thus for a time cutting off all trade with the railroad. Some of the other piers were also slightly injured. The company immediately set to work for the purpose of making such temporary repairs as to render it safe, and if the weather should not prove too boisterous, it will probably be in condition for the passage of vehicles at the close of the week.

That the bridge was not carried away bodily is undoubtedly owing to the railroad bridges above, as had not the solid stone piers of those structures broken up the ice, it must have given way. Notwithstanding a cold rain which set in during the afternoon, the river shore was lined with persons watching the moving panoramas of ice and water, now and then relieved by drift wood, a skiff, flat, fish basket, or a flock of geese, who, strangely enough, seem to enjoy a ride on a cake of ice amazingly. We noticed four skiffs in sight at one time.

The canal has suffered considerable damage, and if the Newton Hamilton dam is broken as badly as reported, navigation will hardly be resumed from the Narrows up before May or June. The level below this place might readily be put in boating order by obtaining the water power from Sterrett's Lewistown Mills, which having steam power in addition, could readily dispense with it for a time. Should affairs above be as bad as represented, this would be the proper course for the Canal Commissioners to pursue. The Jack's creek aqueduct, which had been undergoing some repairs, and was nearly finished, was turned into an ice house by the flood, great piles having been lodged in it. It has also probably been injured. At other points the tow path is lined with ice or has been scarred, and the canal in places is considerably washed. Major Eisenbise however will, we presume, increase his battalion into a regiment, and with his accustomed go-ahead-attentiveness, speedily put this part into proper trim.

The business of the Lewistown Station for January, 1857, was as follows:

Freight received, \$814 12  
forwarded, 3301 98  
Tolls, 4 12

Passengers, 4129 23  
1234 97

Total amount, \$5355 20

Among the principal articles forwarded were the following:

Poultry, 5,669 pounds.  
Fruit, 19,151 "  
Cloverseed, 151,004 "  
Butter, 10,911 "  
Eggs, 991 "  
Axes, 36,685 "  
Iron, 192,334 "  
Flour, 2,056 bbls.

Head of Horses, 66  
" Cattle, 34  
" Hogs, 159  
" Sheep, 597

LARGE Calf.—A calf was lately raised on the farm of S. Witherow, Esq., of Beaver Dam Mills, which places the upper part of this county a little ahead of every other part. When one day old it weighed 105 lbs. and at six weeks was disposed of to Adam Harshbarger, President of the Mifflin county Agricultural Society, for \$25, weighing at the time over 200 lbs.

The butchers' stalls under the Town Hall are now lighted with gas—pipes having been introduced for their accommodation by the Town Council.

Mr. A. J. Warner will deliver a lecture before the Apprentices' Literary Society on Saturday evening next.

The weather, which had been rather pleasant from our last issue up to Tuesday afternoon, suddenly changed about that time with a snow squall from the west, and yesterday morning was again decidedly wintery.

SAD DEATH.—We regret to learn that Wm. Thomas, a brother of Geo. W. Thomas, Esq., of this place, met with an awful death at Alliance, Ohio, by the burning of his shop, in which he was sleeping at the time. The fire was discovered and his cries heard, but the door having been locked, before aid could be furnished, he had ceased to exist. The deceased formerly resided in Lewistown.

The following is the average value of the worn Spanish coin at the United States Mint in Philadelphia:

Quarters, 234 cents.  
Eighths or Leves, 10 9-10 do  
Sixteenths or Fips, 5 1/2 do

It has been ascertained that the Spanish coins which are not defaced or clipped, are, in reality, worth something more than the American.

GENERAL THAW—GREAT FLOODS.

By the following items of news from different sections, it will be seen that the recent thaw extended over the United States, and has no doubt resulted in much damage:

ALBANY, Feb. 9.—A tremendous flood occurred last night, causing damage estimated to amount to two millions. The city, during the night, was a scene of the utmost confusion, both from fire and water, and laborers were working all night in removing the goods from the stores in the lower part of the city. The second stories were thought safe, but at 11 o'clock the water began rising rapidly, and the workmen were obliged to desist for their own safety.

The water continued rising till 4 o'clock this morning, when it reached a point three feet higher than ever before known, flooding the whole lower part of the city as high up as Green street. The lower parts of Herkimer, Hudson and the parallel streets are submerged to the first story, and Broadway flooded from the Exchange to the Deleran House. The stores and cellars on the west side are all filled with water, and all the streets between Broadway and the river are navigable by boats. A large number of cattle have been drowned.

GREENFIELD, Mass., Feb. 9.—The Greenfield river has overflowed its banks several feet. At Deerfield, Stebbins' Great Mill has been swept away, and much other damage occasioned.

St. LOUIS, Feb. 9.—The Mississippi has risen about 18 feet since Saturday morning, and is still rising, and immense quantities of ice are floating down. The Missouri is open above Jefferson City, and is pouring out a high flood.

The Illinois is open all the way, and has risen 12 to 15 feet at Peoria, and is still rising. The Upper Mississippi is rising, but it is not known how far it is open. Heavy rains have been general throughout the West, and numerous land slides have occurred along the railroads.

CHICAGO, Feb. 10.—The flood has occasioned an immense damage in this vicinity to the railroads, bridges, mills, telegraphs, &c.

On Friday last, at Aurora, two bridges, a saw mill, a planing mill, and carriage factory, with large quantities of lumber, were swept off. It is also feared that several lives were lost.

The Rock Island Railroad Bridge, at Manisgane, and also the Michigan Central Railroad Bridge, at Ypsilanti, and the bridge at Niles, together with several over the St. Joseph's and Kalamazoo rivers, were either carried away or injured.

Both branches of the Chicago river rose several feet on Saturday. The southern portions of the city are still submerged, but the river is not falling.

The damage to the Burlington and Quincy Railroads is estimated at \$100,000.

The Susquehanna.—We learn from Harrisburg that the Cumberland Valley bridge has not been carried away, but several of the piers were injured. The ice on the railroad between Harrisburg and Middletown has been removed.

The Columbia bridge has been injured, but not seriously. A great deal of property along the river has been destroyed.

The Freshet at Trenton.—The water on Monday night at Trenton, N. J., attained an unparalleled height. The floor of the Delaware bridge at that point is thirty-two feet above the usual level of the river. On Monday night the water was two feet above the floor of the bridge.

Lancaster County.—Along the Conestoga the damage has been severe. The Independent Whig says—

"The Lock House at No. 1, occupied by John Manly, as keeper, had its whole front torn away and mired from its foundation, while himself and wife were in the act of securing their furniture. They succeeded, but not without loss. It is supposed the lock itself is entirely demolished, as one gate and the wing wall had already yielded to the devouring element. The saw mill opposite, Mr. Lintner's, is injured to a great extent. We understand that the bridge at Snaveley's is considerably injured. Rank's flour mill was the next to suffer; the water rose to the second floor of the mill, doing considerable damage to the stock, and tearing away a portion of the gable end of the mill. The City Water Works was flooded to the second story; the dam, here, was level, the abutments of the ice are damaged. At Great's landing the ice at one time reached within a few inches of the bridge floor. The last bag of salt had just been conveyed from the basement story of the Forwarding Company's Warehouse when the unwelcome 'swell' intruded; the building received some slight damage. The bridge at Snaveley's was lifted from its abutments and deposited some distance lower down the creek. At the falling mill below, the ice, part of the bridge and rails so gorged the stream that the ice below did not move, and this morning no damage was done below that. It is hoped that as the stream subsides all fear of further damage will be over. The mill at Snaveley's is said to be badly damaged, but we did not hear to what extent.

Holloway's Pills, the best Remedy in the Union for Female Complaints.—These Pills are particularly recommended to the citizens of the Union for their extraordinary efficacy in female complaints; and they are alike valuable either to the daughter verging into womanhood, or the mother at the turn of life. It has been proved beyond all contradiction, that those celebrated Pills will cure all disorders to which females are peculiarly subject, and enable them to pass their critical periods of life, without exposing themselves to those dangers they too often incur by other treatment.

ILLINOIS LANDS.—The attention of farmers and others about removing to the west, or desirous of making safe investments, is requested to the advertisement of Joseph Milliken, Esq., offering for sale 20,000 acres of Prairie Lands in Central Illinois. These lands are located in a climate congenial to our own, near the great lines of railway that traverse the State, and for fertility and easy cultivation are unsurpassed. Among those who have already made purchases are Wm. Mitchell of Lewistown, Joseph Tice of Granville, John M. Bell of Derry, and others, who examined them in person and will cheerfully testify to their value. The lands will be sold low, and offer the strongest inducements for emigrants from this and neighboring counties to form neighborhoods, and thus in a measure relieve the tediousness arising from settling among strangers in a strange land.

Married.

On the 5th inst., by Rev. James S. Woods, D. D., JOHN DENNISTON, Esq., of Chicago, Ill., to Miss MARIA M., daughter of Joseph Milliken, Esq., of this place.

On the same day, by the same, JAMES A. JUNKIN, Esq., to Miss REBECCA C. DONAHOO, both of this place.

On the same day, at the Black Bear Hotel, by Rev. C. M. Kink, GEO. W. FLECK to Miss MARTHA J. STINE, both of near McVeytown.

On the same day, by the same, JOHN H. SPECE to Miss MARY ANN PRICE, both of Lewistown.

On the 10th inst., by the same, at the house of Mrs. Mann near Reedsville, ANDREW TRESSLER (formerly of Perry county) to Miss SUSANNA C. BAIRD.

Died.

On Monday last, DANIEL WILLIS, son of Joseph A. and Sophia Fichtorn, aged 8 months.

O, weep not, parents, for your child, For peaceful is his rest; His spirit now in sweetest bliss Sleeps calm in Jesus' breast.

From earthly care and sorrow now, He is forever free, And loud his infant voice is heard In songs of heavenly glee.

A few more years and you shall meet, Your child at God's right hand, Where now his bless'd and happy soul Joins with the angel band.

THE MARKETS.

LEWISTOWN, Feb. 12, 1857.

Lewistown Flour, per 100 lbs. \$4 00  
Superfine " 3 75  
Freedom " 3 50

Barley 75  
Rye, per bushel, 60  
Oats, do. 45  
Corn, do. 50

Cloverseed, per bushel, 65  
Timothyseed, " 50  
Butter, good, per lb. 20  
Eggs, per dozen, 18  
New Potatoes, per bushel, 00  
Pork per cwt., 65

The Lewistown Mill is paying \$1.50 for red wheat, 1,400,000 for white wheat, according to quality.

Alfred Marks, at the new Steam Mill, is paying for White Wheat 1,400,000, Red 1,30.

N. B.—Wheat taken on store, with privilege to the owner to sell or ship by boat.

Philadelphia Cattle Market.

8000 Sheep arrived at Lowrie's Avenue Drive Yard, during the week. Prices from \$3 to \$8 per head, and from 9 to 11 cents per lb. net. 450 head of Cattle good quality, 95 head Ohio Cattle, prices from \$9 to 10 1/2 per head; 50 head Susquehanna Cattle, price from \$10 to 11 per 100 lbs. net; 50 head of Chester county Cattle, middling quality, from 9 to 10 1/2 cents per lb. net; 40 head of middling quality, from \$9 to 10 per 100 lbs. net; 25 head from Virginia, prices from \$10 to 10 1/2 per 100 lbs. 100 head of Horses arrived, at high prices. 150 Hogs, prices from \$8 to 9 1/2 per 100 lbs. 100 head Cows and Calves, ranging from \$30 to 60 per head.

Flour, Grain, &c.

Flour and Meal.—There is some little export demand for Flour, but the scarcity of vessels and want of freight room operates unfavorably on the market, which has ruled very inactive during the entire week. The demand for home consumption has also been limited within the range of \$6 3/4 to 6 1/2 for common and good retailing brands, \$7 1/2 to 7 25 for extra, and 7 50 to 8 per 100 lbs for fancy lots, as in quality. Corn Meal and Rye Flour remain very quiet, and prices nearly nominal at \$2 for the former and 3 75 per bushel for the latter. The inspections for the week ending the 5th inst. are 8007 bbls Flour, 181 half do, 67 do Corn Meal and 28 do Rye do.

Grain.—The receipts of all kinds continue light, and Wheat has met with a steady demand on arrival, at about previous quotations, sales reaching some 15,000 bu. in small lots, at 14 1/2 to 15c for fair to prime reds, mostly at 15c, in store, and 16 1/2 to 16c for white, including a few very handsome lots at 2 1/2c more. Rye continues in request, and all offered, some 3 1/2 to 4 1/2 have been disposed of at 82c. Corn has ruled rather quiet, and only about 20,000 bu yellow found buyers, mostly at 68c for old Pennsylvania in store, including poor lots at less rates; new Southern at 65c in the ears, and white at 63. Oats are dull, and only some 10 1/2 to 12,000 bu good Pa. and Western have been disposed of at 47c in store.

Seals.—There has been an improved demand for all kinds this week, with reduced stocks to operate in, and prices generally have further advanced. Some 1500 bu Cloverseed have changed hands at \$7 25 to 7 50, mostly at our highest figures. About 1000 bu Western Timothy have also been disposed of at \$3 60, including a resale of 200 bu at 3 75 per bu. Flaxseed is scarce and wanted at \$1 85 to 1 90 per bu for domestic.
