

THE GAZETTE.

LEWISTOWN, PA.

Thursday, March 26, 1857.

TO OUR PATRONS. We have this year, in addition to our regular expenses, to meet nearly \$300 on the 1st of April, and we trust there-fore that our patrons who have heretofore so liberally responded to this annual call, will do so again.

Notices of New Advertisements. Dealers in Silk and Millinery Goods are referred to the advertisement of John Stone & Sons, Philadelphia.

Dealers in Silk and Millinery Goods are referred to the advertisement of John Stone & Sons, Philadelphia. S. Maupay & Co. will furnish fruit and ornamental trees, shrubs, &c. to order.

Richardson's Rat, Roach, Bed Bug, &c. Exterminator. We invite special attention to "Costar's" advertisement in another column. These Remedies for all domestic pests, such as Rats, Cock Roaches, Bed Bugs, Ants, Fleas, &c., are said to be invaluable; indeed, we can speak from actual knowledge of their rare merits.

These Remedies, we learn, are being extensively introduced throughout the Canada, West Indies and South America, as well as the United States. Orders (large or small) accompanied by the cash, will receive prompt attention if addressed to "Costar's" Principal Depot, No. 388 Broadway, New York.

The New York Herald says that Dr. ROBERT HENNER of that City has been accomplishing the most extraordinary results in the treatment of Consumption, by Inhalation, decreasing the mortality more than One Thousand in the past two years.

Showing an actual saving of life truly marvellous, when we consider that this disease has heretofore been regarded as hopelessly fatal.

Facts for our Legislators at Harrisburg. A Western bank has exploded, leaving just four dollars in coin to redeem one hundred thousand of its own bills in circulation.

Were the notes of the bank referred to secured by U. S. stocks, Pennsylvania State stocks, or by mortgages or real estate, the holders would have no need to care how many cashiers run away, or what the assets are.

The appointments made for Philadelphia by President Buchanan are announced to be as follows: Collector—Joseph P. Baker, of Lancaster.

The weather, this morning, is cold and blustering. The Union State Convention assembled yesterday, and will probably make a nomination for Governor to day.

Does the State pay canal hands for electioneering at the spring election? Answer, oh ye check rolls for March!

The Austin (Texas) Intelligence notices the death of a little girl, about six years old, from the effects of eating snuff.

Pennsylvania Legislature.

In the House the following bills were passed finally on Tuesday:

An Act to prevent the killing of wild game in Oliver township, Mifflin county.

An Act to authorize the sale of certain property of the Union Bridge Company, in Mifflin and Huntingdon counties.

An Act to attach the premises owned by the Pennsylvania Railroad company, and now occupied by William Hamilton, to the borough of Newton Hamilton school district, in Mifflin county.

An Act re-nacting the thirteenth section of an act relative to public roads in Mifflin county, and for other purposes.

In the Senate we regret to see that a number of bank bills have passed, in most cases by a small vote.

A resolution censuring the decision of the Supreme Court in the Dred Scott case has given rise to some warm debates—the democratic senators generally endeavoring to evade a direct vote.

Mr. Sellers presented some petitions from citizens of this county against hawking and peddling.

The majority and minority of the Committee appointed by the Senate to district the State into Senatorial and Representative districts, have reported the result of their labors to the Senate. The ratio of taxables to a Senator in the majority bill is 17,011, exclusive of Philadelphia, which is assigned but four under the construction of a constitutional provision.

Table showing the ratio of taxables to a Senator in the majority bill across various counties and districts.

Representative Districts—Ratio 5,976.

Table showing the ratio of taxables to a Representative in various districts across the state.

The political result of this apportionment would be to give the Republicans 16 Senators, the Democrats 15, and leave two districts close and doubtful, taking the last election as a test of the strength of parties.

Gov. Geary's farewell address to the people of Kansas has been published. It gives a sketch of the Governor's administration, setting forth the previous and present condition of the Territory, recounting the difficulties and embarrassments thrown in his way.

Remarkable Coincidences.—It is remarkable how much alike editors think and write, as an instance of which we may state that last week we noticed in three different papers editorials word for word the same as previously expressed in the Gazette!

LOCAL AFFAIRS.

CHINESE SUGAR CANE.—The high prices of sugar and molasses—unnecessarily continued so by the duty on sugar to protect a few planters in Louisiana—has called attention to the cultivation of cane in the Northern and Middle States, and several instances are recorded where it has met with complete success by using the Chinese seed.

The contract for building the Newton Hamilton Dam has been awarded to Col. Wiley of Lancaster at \$13,475—a sum below the engineer's estimate.

Messrs. Couch and Clum have been trussing this end of the river bridge preparatory to building a new pier, proposals for which will be received until April 1st.

SERIOUS ACCIDENT.—On Tuesday of last week, as Messrs. J. Yeager and W. Paul were attaching a grindstone to some of the machinery in Yeager's saw mill, in Derry township, GEORGE W. ULSH, a young lad about 10 years of age, had his arm broken in the following manner.

Mr. E. S. Baker, of Rochester Mills, Wash county, Ill., writes to the Belleville Advocate that he shall plant twenty-five acres with the Chinese sugar cane the present season. "I am convinced," he says, "that the State of Illinois will in five years make her own sugar, and if I have luck I shall make this season enough sugar, and certainly with molasses, to supply my little town.

SUDDEN DEATH.—David, son of George W. Stewart, Esq., aged about sixteen years, was taken ill on Saturday evening with inflammation of the bowels, induced by a severe cold and died on Monday night.

Holloway's Ointment and Pills, a certain remedy for ulcerous sores.—Jeremiah Henderson, of Wilmington, North Carolina, suffered for seven years and five months with six ulcerous sores on his leg, and three on his arm, which defied every kind of treatment, although he used some of the most noted remedies for the cure of the same, both internal and external, it was without avail.

LEWISTOWN ACADEMY.—At exhibition was held at this institution on Tuesday evening, at which some of the leading pupils contended for prizes in declamation. There was a large audience in attendance, who were much gratified with the proficiency exhibited.

BOROUGH ELECTION.—The election on Friday last resulted as follows: CHIEF BURGESS. E. W. W. W. Total.

Table of Burgess and School Directors election results.

INSPECTORS. Robert Middagh, 108; Anthony Peltz, 107; Lawrence J. Elberty, 105; William Lytle, 88.

Democrats in Roman—Opposition small caps and Italic.

Two party tickets were nominated, but the voting was by no means confined to them, as there was considerable scratching on both sides.

The practice of boys hanging on to the omnibus or baggage cart resulted on Tuesday last in the latter passing over the arm of a little boy, a son of Samuel Miller, bruising his arm considerably.

YEAGERTOWN INN.—This establishment, hitherto kept by Mr. Schell, will pass into the hands of Joseph Gruver on the 1st April, who will spare no pains to keep up the reputation as a first class hotel established for it by Mr. S.

THE CANAL.—The water we believe is in the canal above and below us, but like some tight-laced lady, empty in the middle. It may or may not be here some time this week, and perhaps will not stay when it is here.

The contract for building the Newton Hamilton Dam has been awarded to Col. Wiley of Lancaster at \$13,475—a sum below the engineer's estimate.

Messrs. Couch and Clum have been trussing this end of the river bridge preparatory to building a new pier, proposals for which will be received until April 1st.

Don't Agree.—The Blair County Whig says the Superintendent of the Portage Railroad is paying particular attention to the opening of the road, while the Standard asserts that he has been squandering money in the machine shops, and will open the road later in the season than it has been for years.

Holloway's Ointment and Pills, a certain remedy for ulcerous sores.—Jeremiah Henderson, of Wilmington, North Carolina, suffered for seven years and five months with six ulcerous sores on his leg, and three on his arm, which defied every kind of treatment, although he used some of the most noted remedies for the cure of the same, both internal and external, it was without avail.

Important caution to Druggists and Merchants in General.

Whereas, one William Leith, late of the city of New York, drug broker, has recently been engaged in the nefarious and unlawful business of counterfeiting the medicines known throughout the world as Holloway's Pills and Holloway's Ointment, and ordered to be printed, under false pretences and for fraudulent purposes, 500,000 copies of the book or pamphlet of directions around each box and pot.

And whereas, the counterfeit book or pamphlet is well calculated to deceive, being a fac simile of the original, except so far as regards the water-mark in the paper, viz: "Holloway, New York and London," which appears on every leaf of the genuine document, but can only be seen by holding the paper between the eye and the light.

And whereas, the aforesaid William Leith, having been arrested, and fully charged, on examination before Justice Conolly, with procuring the printing and uttering of the above counterfeit, escaped from the custody of the officers on the 20th day of December, 1856, and is now a fugitive from justice, and is supposed to be pursuing his dishonorable and felonious designs elsewhere.

The Druggists of the various cities, towns and villages of the United States are therefore hereby cautioned against dealing with the aforesaid William Leith for any articles purporting to be Holloway's Pills and Holloway's Ointment, or purchasing any preparations bearing that name from any quarter, unless the leaves of the pamphlets wrapped around the boxes and pots containing the same shall bear the words "Holloway, New York and London," in the form of a water-mark which can be distinguished by holding up the printed sheet singly to the light.

And whereas, the aforesaid William Leith, having been arrested, and fully charged, on examination before Justice Conolly, with procuring the printing and uttering of the above counterfeit, escaped from the custody of the officers on the 20th day of December, 1856, and is now a fugitive from justice, and is supposed to be pursuing his dishonorable and felonious designs elsewhere.
