JULES HAUEL, Esq., the well known perfumer, of Chestnut Street, Philadelphia, whose choice products are found at almost every toilet, says:

"I am happy to say of your Cathaskire Pills, that I have found them a better family medicine, for common use, than any other within my knowledge. Many of my friends have realized marked benefits from them, and co-incide with me in believing that they posees extraordinary virtues for driving out diseases and curing the sick. They are not only effectual, but safe and pleasant to be taken—qualities which must make them valued by the public.

The venerable Chancellor WARDLAW writes from Bal-timore, 15th April, 1854:

AYER — SIT: I have taken your family appetite, and Billous headsche, which has of late years overtaken me in the spring. A few doses of your Pilis cured me. I have used your Cherry Pectoral many years in my family for conglis and colds with unfailing success. "Having used your Catharite Pills in my practice, I certify from experience that they are an invaluable purgative. In cases of disordered functions of the liver, causing headache, indigestion, costiveness, and the great variety of diseases that follow, they are a surer remedy than any other. In all cases where a purgative remedy is required, I confidently recommend these Pills to the public, as superior to any other I have ever found. They are sure in their operation, and perfectly safe—qualities which make them an invaluable article for public use. I have for many years known your Cherry Pectoral as the best Cough medicine in the world; and these Pills are in owise inferior to that admirable preparation for the treatment of diseases."

My wife was cured, two years since, of a severe and dangerous cough, by your Cherker Precrosal, and since then has enjoyed perfect health. My children have several times been cured from nttacks of the Influenza and Croup by it. It is an invaluable remedy for these complaints. Your Cathartic Pills have entirely cured me from a dyspepsia and costiveness, which has grown upon me for some years,—indeed, this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

WITH WOOD'S IMPROVEMENT,

For the Harvest of 1857. LL persons desirous of getting this celebrated machine will please send in their or-searly, to prevent delay and disappointment as was the case in so many instances last seas-on. This machine took the premium at York, Silas Roberts, Huntingdon, Carlisle Chambersburg, Harrisburg, Bellefonte, and other places too numerous to mention. Last summer we had hundreds of testimonials and official reports, vouching the superiority of this machine over all others now use. This machine excels all others in the following points, viz: Its easy convertibility from a Mower to a Reaper and vice versa; its construction for adaptation to uneven surface; the ease with which it can be raised or lowered, for cutting from two inches to eighteen inches from the ground, which is done by means of a lever controlled by the driver while in his seat; its ease of draft, portability, and cleanness and ease of cut. Many of these features are patented and cannot be embodied in any other machine, and all will admit how essential and indispensable they are to a complete combined machine. With each machine will be furnished two scythes, two extra guards, two extra Lewistown, who will supply retail merchants, &c., sections, one extra pinion and wrench.
