Louisville, April 4.—Intelligence has been received here of a startling tragedy which occurred at Washington, in this state, yesterday. A Mr. Baker, a resident Allies' loss, by their own account, of that town, armed himself, and deliberately took the life of his own daughter, after which he placed the death weapon to his own breast and shot himself. No cause has been assigned as yet for the dreadful tragedy.

FEMALE RIOTERS TRIED AND ACQUITTED.

At the late term of the Court of Common Pleas of Richland county, Ohio, the case that created most interest, as we learn from the Mansfield Herald, was one in which several ladies were indicted and tried for riot. It appears that some time in November last the ladies of the village of Belleville, in that county, to the number of eleven, some of whom having fathers and some brothers, who frequented a liquor shop kept by a man named Morris, resolved to put an end to the cause of their troubles, and did so by smashing his casks and decanters, and destroying the liquors. They were complained of by Morris, and were indicted as before stated. This case came on for hearing, and being arraigned at the bar plead "not guilty." Numerous witnesses were examined, and the case occupied some three days. The jury was duly charged by the court and retired. In about an hour the bell rung announcing that they had agreed upon their verdict; and the people, who had manifested the most interest, crowding the court room during the whole trial rushed from all parts of the town, so that the court room would scarcely hold. When the foreman of the jury rose to hand in the verdict, the most breathless silence prevailed; and when he responded to the clerk, "not guilty," the words were caught up, and such shouting, clapping, laughing and shaking of hands was never before witnessed in that dignified hall of justice. Although late at night the young men of Belleville could not wait for the morning or the cars, but footed it home to tell the news. When the ladies arrived the next day, they were received with every demonstration of approval by all the inhabitants of the village. - Sandusky Register.

Destructive Fires .- The residence of es a more imposing aspect. Gene- Henry Warsing, in Brush Creek Valley, ezeula is spoken of as Chief Comman- this county, was, we learn, entirely destroyed by fire one night last week. The despatch from Copenhagen states inhabitants were asleep at the time and escaped being burnt to death by a singular circumstance. It appears that there were day next. Mr. Warsing, we understand, after getting out of the house, procured a ladder and on his way to Macao, on suspicion entered again by an upper window in time to secure some valuable papers and some money belonging to persons for whom he is guardian. Everything else, we believe, was consumed.

Another destructive fire occurred on Thursday morning, 26th ult., by which the dwelling of Mr. John Swope, about half a mile West of Col. Reamer's, in this county, was consumed with all its contents. The fire originated from the tion, which application was refused. flue at the roof, and the wind being high, spread with such rapidity, that the family, consisting of the parents and several small children, barely escaped with their lives. > Horrible Murder in Washington county.- Chartiers township, Washington county, Pa., was the scene of a most cruel murder last week, which has created an excitement almost equal to the sudden taking off of young Norcross at Altoona .-A highly esteemed citizen, named Samuel White, had purchased a tract of land, and on Monday was to make a payment of \$4000 on the same, and the expectation of getting this booty, it is supposed, incited the villain or villains to commit the dreadful deed. Early in the morning, Mrs. White had arisen, and hearing somebody in the house, ran to a neighbor for assistance. her husband weltering in his blood-his skull crushed, his neck almost severed, and otherwise disfigured. The bloody axe with which the outrage had been committed lay upon the floor. The money they expected to get was not in the house; consequently they reaped no reward for their dreadful crime. Letter from Philadelphia.

PHILADELPHIA, April 6. Here is a curiosity, illustrating the sad truth that great gifts are sometimes coupled with great vices: In the interior of our penitentiary there are two cells, the interior walls of which are painted in water colors, in a manner so elaborately beautiful as to cause an involuntary wish on the part of the visitor that the chamber of his or her residence could be similarly adorned. The work was performed by a convict at odd intervals of leisure. The only tools at his command were a ruler, lead pencil, and a small brush, which, it is said, he made from his own hair. The pattern is kaliedoscopic, interspersed with rich medalions; the effect of the whole being, with the exception of transparency, very similar to that of stained glass. The four sides of the cell, and the arched roof, are alike covered. Over the brass water fawcet, which, by the way is burnished like a mirrer, there is painted a water cooler, and at the place where his cot touches the wall is represthe head of a fashionable bedstead; all this is executed in a highly artistic manner, and will bear close examination. The convict who performed this beautiful work has already served four years in this same prison; and, strange to say, is now in Moyamensing awaiting trial upon a fifth serious charge. Rev. Dr. Stephens, the Rector of St. An-

drew's church, of this city, is about to pay a visit to Palestine, and for the expenses of travel was presented with a purse of \$1,800 by several wealthy and liberal members of his parish.

On Wednesday evening a young man seemingly about 25 years of age, arrived at the Girard House from New York, and registered his name as "H. J. Johnson, Va." During the evening he was in company with a gentleman of this city, and at about 11 o'clock retired. A short time after he went to his room, a gentleman occupying the adjoining chamber heard a noise as if some one was in great pain or distress. He went to the door and found it was locked. He knocked, but the person in the room did not unlock it, when it was forced open by three persons who had been attracted to the door. On entering the room, Johnson was found undres sed, lying across the bed, and apparently in the greatest agony. On a table was a vial, labelled in large letters, "strychnine." occupant of the room when asked if he had taken the poison, said yes, but that he had done so thinking it was morphine, he having slept badly for several nights, and had taken it merely to make him sleep well. A physician was in attendance, but nothing could be done to save the patient, and he died almost immediately. The shirt worn by the deceas ed was marked J. Alfred Halsey, and the gentleman who was with him previous to his retiring to bed, testified before the jury of inquest, that Halsey was his proper name, and that he was engaged in the carpet store of Messrs. Brown & Co., Courtland street, New York. The father of the deceased resides in Petersburg, Va., where he is engaged in the wholesale clothing business.

The entrance of Christ into Jerusalem was celebrated by the Catholic population of this city on the 5th with the usual ceremonies.— The emblematic "palm" was to be seen in the hands of the congregations of those churches at almost every step, and this will constitute but the preliminary observances of "Holy Week," now current. The observance in some of the churches of other denominations were also unusually interesting. The Episcopal churches generally exhibited some tokens of the season of fasting and of the "passion," if in no other manner at least in the greater apparent devotion of their members. The German Lutheran Church at Fifth and Cherry streets, was also the scene of an impressive ceremony on this occasion 150 boys and girls, none under fourteen years of age, were confirmed there yesterday morning. The girls were dressed in white, and when around the altar responding to the questions of the minister, presented a very pretty sight. An appropriate sermon was delivered. The children confirmed will have the sacrament administered to them on Fri church.

Making a total of 405,945 bushels. During the same period in 1856, the amount measured was 505,177 bushels, being an excess of 95,232 bushels over the first three months of 1857.

.... Joseph Horner of York county, emigrating to the West, had his pocket picked last week of \$800 whilst he was asleep in the cars, somewhere between Altoona and Greensburg. The money was in an outside pocket. His loss left him entirely destitute, and the company returned him free to his home.

Holloway's Ointment and Pills-Extraor-dinary Cure of a Bad Breast.-The wife of Mr. Arthur Burn, of New Orleans, was, after the birth of their last child, a constant sufferer with bad breast; there were several holes in it, and despite of the various remedies tried, her husband could not get anything to cause it to heal. After every other remedy had failed to benefit the sufferer, she had recourse to Holloway's Ointment and Pills, which, as a matter of course, quickly caused an improvement in the appearance of the affected parts, and by perseverance with these fine remedies for a few weeks, she was completely cured. This wonderful Ointment will also readily cure all diseases of the skin.

Important Caution to Druggists and Merchants in General.

Whereas, one William Leith, late of the city of New York, drug broker, has recently been engaged in the nefarious and unlawful business of counterfeiting the medicines known throughout the world as Holloway's Pills and Holloway's Ointment, and ordered to be printed, under false pretences and for fraudulent purposes, 500,000 copies of the book or pamphlet of directions around each box and pot.

And whereas, the counterfeit book or pam phlet is well calculated to deceive, being a fac the water-mark in the paper, viz: "Holloway, New York and London," which appears on every leaf of the genuine document, but can only be seen by holding the paper between the eye and the light.

having been arrested, and fully charged, on ex-amination before Justice Connolly, with procu-ring the printing and uttering of the above counterfeits, escaped from the custody of the officers on the 20th day of December, 1856, and is now a fugitive from justice, and is supposed to be pursuing his dishonorable and felonious designs elsewhere.

The Druggists of the various cities, towns and villages of the United States are therefore hereby cautioned against dealing with the aforesaid William Leith for any articles purporting to be Holloway's Pills and Holloway's Omtment, or purchasing any preparations bearing that name from any quarter, unless the leaves of the pamphlets wrapped around the boxes and pots containing the same shall bear the words "Holloway, New York and London," in the form of a water-mark which can be distinguished by holding up the printed sheet singly to the light. All others are counterfeit, and all persons vending them are liable to heavy pen-alties, and will be prosecuted to conviction by the proprietor of the genuine preparations, as the only means of guarding his own interests and protecting the public against damage to health and life from the use of deleterious articles sold under the guaranty of his name and reputation.
