### TRIAL OF STRENGTH.

he Troy Times of the 6th gives a sintrial of strength, which took place in city on Saturday evening, between es Madison, "the cast-iron man," and . Carl, the "strongest man in Ameri-.The challenge for a trial of strength by Carl, having been accepted, a large mbly witnessed the performance.

evious to the trial, Prof. Carl gave an bition of magic and ventriloquism, ormed his celebrated guitar and druin , balanced sixteen chairs upon his , and performed other feats, calling for xercise of strength which must have ried him somewhat. Mr. Madison appeared-held an anvil weighing oounds upon his breast while two men 1,20, k upon it with sledges; held an anvil each knee; broke a number of stones his fist; bent a bar of iron a quarter inch thick by striking it over his and held an anvil weighing about hundred pounds upon each arm, the large flint stones which had been ted by his rival and hammered them eces, signalizing his performance by ing in two a flag stone about large gh to serve as a stepping stone for a

After this he held one of the heavy over his head for forty-one seconds, a sixty pound weight upon his little and swung it around his head, and two men on a chair while he whirled about, top-fashion, until their feet out at an angle of 45 degrees.

. Madison was then called out by the nce, and requested to give an account mself. He excused himself in the eclined to do it, on the score of ina-

bility, and as Professor Carl had not held the anvils on his knee. In short, he virtually acknowledged himself a whipped man.

Geo. Reed, Esq., of Erie county, died on the 13th inst., aged 80. He was one of the earliest settlers of the county and was highly esteemed.

### DOUBT AT AN END.

The Decision of the People.—It is one of the noblest characteristics of an era that the people think and judge for themselves. The mental training received at our Common Schools and Free Academies, fit them for this Schools and Free Academies, it task. They are taught to investigate, to anawall on the afternoon of April 4th, landed lyze, to take nothing for granted until they have tested and proved its truth. Hence i the "voice of the people," is not "the voice of God," it approximates infallibility more nearly than any opinion limited to a single class possibly can.

Apply this rule to the remedies for external and internal maladies introduced in all parts of the Globe by Professor Holloway, and what is the result. For every one human being, who places confidence in any other medicine, at least one hundred rely implicit-ly upon his Pills and Ointment, and prove the faith that is in them by using these remedies to the exclusion of all others. Look at another significant fact. Among the class of medical dogmatists, fortunately for mankind diminishing every day, who deny the efficacy of Holloway's preparations, scarcely any two agree. The prescription of each practitioner differs as widely from that of his neighbor, as it does from Holloway's. Submit any case, ordinary or extraordinary, to a hundred socalled 'regular physicians,' and you will have as much confusion of opinion as there was of tongues in Babel. Dr. Depletus will recommend blistering, bleeding, sudorifics and blankets; Dr. Bracerup will prescribe quinine and jellies and throw the doors and windows open. The patients perplexed in the extreme or rather perplexed between two extremes -will perhaps try both, or possibly adopt the idea that a system involving such contradictions cannot be worthy, cry, with Mercu-tio, "a plague o' both your houses, I am sped."

Certainly when we find that one half of the adult population of the known world have used and approved Holloway's medicines, and that the remainder are subjected to hundreds of modes of treatment so opposite to each other that no two of them can by any possibility be right, we may fairly conclude that the verdict of the consistent half of mankind is correct and true.

The time has passed, never to return, when the dictum of theorists could outweigh incon-trovertible facts. If thousands of invalids who have exhausted the materia medica and consulted the lights of all the Medical Schools in vain, recovered by the aid of Holloway's remedies they must necessarily take prece-dence of all others. They have done so wherever they have been introduced. They are not the pet medicines of a clique, or a class, or a single community. Mankind is their patron, the whole habitable globe the theatre of their triumphs .- N. Y. Saturday Evening

From Liberia we learn that the disturbances at Cape Palmas were subdued, and the Legislature and people of the Maryland colony had unanimously applied to have their territory annexed to the Republic as a county. The new settlement in the highlands of the interior has proved quite successful and healthy. An election was going on through-out the Republic. President Bensen's administration being quite popular, he will no doubt be re-elected.

### FROM NIGARAGUA.

The steamship Tennessee, Capt. Patterson, arrived at New York on Thursday from Aspinwall and San Juan via Key West. The Tennessee arrived at Aspinher passengers, and left for San Juan the same evening.

Colonel Lockridge advanced to Castillo on the the 28th March with 300 men, on board the steamers Scott and Rescue. He found the enemy had fortified Nelson's Hill, 250 yards in the rear of the castle, with strong breastworks, ditches, several large guns and 500 men. He retreated without making an attack, and destroyed all the fortifications below Castillo; abandoning all hope of opening the river. He disbanded the two batalions of recruits and formed another from those who were willing to go to Walker via Panama.

On the 2d April the boiler of the Scott exploded near Sarapiqui, killing and wounding about fifty of the officers and men. The sick and wounded were immediately sent to Punta Arenas upon the Rescue.-The Tennessee brought away all who were able to be removed. Col. Lockridge was up the river with a portion of his force and a large supply of provisions .--The Tennessee left in the harbor of San Juan, April 6, H. B. THE undersigned, having perfected an arrangement for the attachment of a Gum Spring to the Tubes and Drag Bars of Grain Drills, is happy to inform Farmers Drag Bars of Grain Drills, is happy to inform Farmers and all others interested in the growing of Wheat and other grains, that he is prepared to furnish GRAIN DRILLS, with the above article attached, at the shortest notice, at his Foundry, in McVeytown, Pa. Seeders have become an almost indispensable article to the Farmer, and he will find that the attachment of the Gam Spring will enhance its value at least one-half. All the detention and trouble caused by the breaking of wooden pins is entirely done away with by this arrangement, and a man, or boy, can perform nearly double the labor that he could under the old plan, with much greater case, both to himself and horses. There need be no fear of the Spring breaking, for if there is an article that will neither break, rot, or wear out, the Gum Spring is that article, and I oreasing, for it there is an article that will neither break, rot, or wear out, the Gum Spring is that article, and I hazard nothing in saying that my Grain brill is the simplest in construction, most economical in performance, and therefore the most durable ever offered to the agricultural making. The field is a garanged that it will be a first or a grant of the sagnificant of the sagnific cultural public. The feed is so arranged that it will sow 1, 11, 11, 11, 11, 11, 12, and 2 bushels per acre. ### HATS, CAPS & STRAW GOODS

For the People, AND THE PEOPLE'S CHILDREN.

## Budizirr,

AST Market street, Lewistown, opposite the Post Office, has just returned from the city with a large and elegant stock of Fashionable HATS, CAPS, STRAW GOODS,

&c., suitable for spring and summer wear, which, notwithstanding the advance of almost everything else, he will dispose of at low prices. His store has been fitted up with large cases, with glass fronts, so that the stock can be examined at a glance.

\*\*He will manufacture to order any description of hats, (having the best of workmen in his employ and an abundant supply of material) employ and an abundant supply of material,) should his extensive stock fail to furnish a suitable article. Parents are especially invited to call and examine his variety of Children's Hats

and Caps, comprising a first rate stock, from which they can make choice to please themselves. . His Omish friends will find they are not forgotten, and they may rest assured of finding an article to their taste, or can have one made at

short notice.

Thankful for the patronage heretofore so liberally extended to him, he solicits his friends to eall—those indebted to square up and begin anew—and any number of visitors from this or the neighboring counties, to take a look at him
