

STRAIGHT-OUT CONVENTION.

The "straight-out" Extra-American Convention met at Lancaster on the 3d. The counties of Allegheny, Berks, Bradford, Dauphin, Lancaster, Montgomery, Clearfield, York, Northampton and Philadelphia, and twenty delegates from a few others, were represented, and they sending some fifty delegates. The following permanent officers were selected: President—Col. DANIEL M'CURDY, Allegheny.

Vice Presidents—E. C. Williams, Dauphin, and Dr. Samuel Kenagy, Lancaster. Secretaries—Wm. Nichols, of Philadelphia, and H. F. Thomas, York.

The report also recommended the appointment of J. R. Smith of Philadelphia, as Treasurer.

After the officers had been elected an effort was made to go into nomination for State officers, but as it was opposed—it was withdrawn, and the Convention adjourned until 10 o'clock.

The Lancaster Express remarks:—"It was understood this morning that John P. Sanderson, of the Daily News, and other leading members of the Convention, came here for the purpose of nominating Gov. Geary as the material candidate, which would no doubt have been done, had his name been presented to the Convention; but one of his friends, a delegate to the Convention, received a despatch from Col. Geary to day, authorizing him to withdraw his name, if presented."

AFTERNOON SESSION. The Convention met at two o'clock and proceeded at once to nominate a candidate for Governor. ISAAC HAZLEHURST, Esq., of Philadelphia, was declared to be the nominee.

Mr. Morgan, of Allegheny, read a letter from Mr. H. declining the nomination, dated May 30; but Mr. Andrews stated that he had received a telegraphic despatch from Mr. Hazlehurst in the morning, stating that he would not decline.

Before the nominations were made, Mr. Darrt, delegate from Bradford county, presented the following card of withdrawal to the President, and withdrew from the Convention.

MR. PRESIDENT:—In view of the fact that the entire mass of Americans in Bradford county, (which I had the honor to represent in this Convention) have full confidence in the Americanism and integrity of DAVID WEAVER, and cannot by any other means be drawn from him to support any other man for Governor, and the fact that but a small part of the Commonwealth is represented here, I therefore withdraw from any further operation in the action of this Convention.

B. S. DARTT. Nominations for Supreme Judges being in order, Jacob Broom of Philadelphia, James Veach of Fayette, and Joseph J. Lewis of Chester, were nominated.

These nominations led to a general debate, which is given in the Express in the following style: A resolution was offered deprecating party interference in the election of the judiciary—declaring they would not make any nominations for Supreme Judges; but recommending the support of Judge Sharswood of Philadelphia, and James Veach of Fayette, as the People's Candidates.

This resolution gave rise to an irregular and animated discussion, in which the Republican priorities of Mr. Veach and the Democratic priorities of Judge Sharswood were very freely canvassed, and warmly applauded.

Mr. Broom then offered a resolution declaring it inexpedient to make any nominations for Supreme Judges, which pending, the original resolution was withdrawn.

A resolution was then offered and carried with tremendous applause that no Republican should receive a nomination from this Convention.

Mr. Thomas, of York, enquired concerning Mr. J. J. Lewis' Republicanism, and Mr. Casper, of Philadelphia, endorsed him as a good American.

Several other names were presented and among them Judge Conrad of Philadelphia; Judge Armstrong of Lycoming, and Judge Baird, all of whom were denounced by some delegates as "Black Republicans" and ordered by others as good Americans.

The name of Judge Baird was withdrawn by the person nominating him, who said he had under the impression that he was an American, having been their candidate some years ago.

Mr. Broom finally declared amid much enthusiasm that Mr. Broom was the only "American" in nomination, and a motion made, that he should be declared the nominee for the Eastern District by acclamation.

dorsed his Americanism, but was sorry to say Mr. Brady had no friends west of Altoona, and his nomination would be inexpedient.

Mr. Church was in favor of nominating Mr. Brady, as he was as good an American as could be found, and in every way competent.

The Allegheny delegate said this was a delicate question, and he did not wish to go into particulars; but it was sufficient to know that in Allegheny county he could not get twenty-five votes; and the Allegheny delegation would feel bound "to put their foot" upon his nomination, although they had no doubts of the soundness of his American principles.

The policy of the nomination of Mr. Brady called forth considerable discussion, in which a number of "sharp shots" were exchanged between the Allegheny delegation, and Mr. Thomas of York, Mr. Carter, Mr. Swope, and others, in which a great variety of opinions and insinuations were thrown out in regard to the availability of Mr. Brady and the motives of the Allegheny delegation.

The yeas and nays on the nomination of Mr. Brady were finally called for, and resulted as follows—Yeas 48, nays 8.

A motion was made to declare the nomination unanimous, which was opposed by Mr. Stumm, of Northampton, who said that the rights and feelings of the minority ought to be respected by the majority. He had his own convictions in regard to this question, he would speak them through the columns he controlled without regard to this vote, and if ten thousand voted against him on the question just decided he would still let his vote stand among the "nays" and shape his acts accordingly. Let the Convention go on in this way and it would be severed to fragments. He was opposed to making the election of judges a party test, and he would exercise his constitutional convictions by voting in accordance with his sense of right.

The motion to make the nomination unanimous was withdrawn, and the Convention proceeded to make general nominations for Canal Commissioner, when Gen. E. C. Williams of Dauphin, Kimber Cleaver of Northumberland, Daniel M'Curdy of Allegheny, and John F. Linderman of Berks, were named, but all subsequently withdrawn except that of Mr. Linderman.

Pending a motion to nominate Mr. Linderman by acclamation, a delegate wished to know who Mr. Linderman was, as a man might be "a good American" and yet not qualified to fill the office. He had lived in Berks, but never heard of Mr. L.

A delegate from Berks answered that Mr. Linderman had been a member of the Legislature from Berks.

It was then nominated *vice vacante* as the candidate for Canal Commissioner.

Mr. Swope renewed the motion to reconsider the nominations for Supreme Judges, for the purpose of, as he stated, again offering the resolution declaring such nominations inexpedient. On this motion, the yeas and nays were called, which resulted as follows: Yeas 23, Nays 27—so the motion to reconsider was lost.

Mr. Killian thought that as the dog's tail had been cut off the Convention might as well cut off the head also!

Another delegate concurred, and expressed his opinion, that his only remaining course was to secede.

Mr. Swope again renewed his motion to make the nominations unanimous—as it was an insult to the candidates to send them forth without a unanimous endorsement.

A delegate remarked that it was impolitic to offer such a resolution, when the Convention was on the point of breaking up in disorder.

Mr. Swope remarked that "no harm had been done," and offered his resolution, making the nominations unanimous, naming each candidate, which was carried by acclamation.

Mr. Swope, Chairman of the committee on resolutions, made a lengthy report, which was adopted, and the Convention adjourned *vice die*, with three cheers for the nominees of the Convention.

Forty houses, the foundry, machine shops, saw mills, &c. in the town of Brasher Iron Works, New York, were lately consumed by a fire which was driven on the houses by wind from the burning woods.

Mrs. Ann Trauger, of Pleasant Unity, Westmoreland county, Pa., was burned to death on the 2d inst., her clothes having caught at the fire place. She leaves a husband and seven or eight children.

The coal shipped over the Huntingdon and Broad Top Railroad, for the week ending June 4th, was 2,412 tons. Previously, 24,893 "

Total since March 1st, 27,305 "

A correspondent of the Greenbrier Era, Va., writes that on Sunday, May 10th, a young lady, aged about 17 years, named Margaret Wyatt, committed suicide by drowning herself in Elk river, about seven miles below Braxton Court House, Va. No cause is assigned for the act.

Banking Capital.—The Philadelphia North American says: The banking capital of this State, which before the late Legislature was \$23,575,000, will by the various additions authorized in the bank bills, be increased to \$6,510,000, thus reaching an aggregate of \$30,085,000. The banking capital of Massachusetts is \$60,000,000, and of New York State is over \$100,000,000.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures Every Kind of Humor from the worst Scrofula down to a common Pimple.

HE has tried it in over 1100 cases, and never failed except in two cases, (both thimer humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing Sore Mouth. One to three bottles will cure the worst kind of Pimples on the Face. Two to three bottles will clean the system of Bile.

Two bottles are warranted to cure the worst Canker in the Mouth and Stomach. Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all Humors in the Eyes. Two bottles are warranted to cure Running of the Ears and Itches among the Hair.

Four to six bottles are warranted to cure corrupt and running Ulcers. One bottle will cure Scaly Eruption of the Skin.

Two to three bottles are warranted to cure the worst case of Ringworm. Two to three bottles are warranted to cure the most desperate case of Rheumatism.

Three to four bottles are warranted to cure the Salt Rheum. Five to eight bottles will cure the worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddle over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it that did not do another; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1852, I peddled it and sold about six bottles per day—in April, 1853, I sold over one thousand bottles per day. In some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that kind of mania—there are few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Dropsy of the Spine, and particularly in diseases of the Kidneys, &c. the discovery has done more good than any medicine ever known.

JOHN M. KENNEDY & Co. FISH, CHEESE AND PROVISION MERCHANTS,

HOVER'S LIQUID HAIR DYE.

THIS HAIR DYE needs only a trial to satisfy all of its perfection as a Dye, and the following testimonial from that eminent Analytical Chemist, Professor Booth, of the U. S. Mint, will only confirm what thousands have previously borne testimony to.

LABORATORY FOR PRACTICAL CHEMISTRY, St. Stephen's Place, Philadelphia, February 17th, 1857. "Being well acquainted with the substance composing Hover's Liquid Hair Dye, I am satisfied that by following the simple directions given for its use, it will not injure Hair or Skin, but will give a natural and durable color to the Hair."

JAS. C. BOOTH, Analytical Chemist. HOVER'S WHITING LIKES, including Hoover's Fluid and Hoover's Judible Inks, are too well known and introduced to require any additional testimony of their character. The sales have been increasing since their first introduction, giving evidence that the articles truly possess that intrinsic merit claimed at first for them by the manufacturer.

Orders, addressed to the manufacturer, No. 414 Race street, above Fourth, (old No. 144,) Philadelphia, will receive prompt attention by JOSEPH E. HOVER, Manufacturer, Philadelphia, April 16, 1857—y

NEW GOODS! JOHN HAMILTON & Co. HAVE JUST returned from the city with a large and seasonable assortment of SPRING & SUMMER GOODS

which they will sell at very small profits. Their stock of CALICOES is the most splendid in town. Also, Lawns, Delaines, Brilliants, CHALLIES, SILKS, and WHITE GOODS.

Any quantity of Bonnets, Ladies' Hoses, Collars, Gloves, & Dress Trimmings. Straw Hats, BOOTS AND SHOES, and a good assortment of Queensware and Groceries.

Lap and Joint Shingles and Shingle Lath always on hand.

Doors, Shutters, Blinds, and Sash made to order. All orders thankfully received and promptly attended to. To Builders and Contractors. LUMBER! LUMBER! HERE IS THE PLACE FOR CHEAP LUMBER! JUST RECEIVED, 10,000 ft Yellow Pine Worked Flooring. 5,000 feet 1 Yellow Pine Worked Flooring. 10,000 " 1 White " Boards, 47,000 " 1 " " " 70,000 " 3, 3 1/2, 4, 4 1/2 best Susquehanna Plastering Lath, 20,000 feet Roofing Lath, 12,000 " Common Plank, 10,000 " 2 in. Panel, 1,000 Light Sash. Any quantity of Doors, Shutters, Blinds, &c., which we will sell from 10 to 20 per cent. cheaper than any other dealers in the country. Hemlock, White Pine Joist, Studding, &c., always on hand. I respectfully invite all persons wanting any kind of Lumber to call and examine our stock and prices. All orders for Frame Stuff for Houses, Bridges, Barns, &c., will be filled with promptness. ap28 F. G. FRANCISCUS.

MANNY'S COMBINED Mowing and Reaping Machine.

THE BEST REAPER & MOWER IN USE. WARRANTED IN EVERY RESPECT. DELIVERED ON TRIAL. TAKE ONE AND TRY IT. Ask those who have used them: R. A. Means, Esq., Jas. Parker, Esq., O. P. Smith, Esq., J. D. Nageny, Esq., And a host of others.

Received the diploma for best combined machine, at the Big Spring Literary Institute, Newville, Pa., August 15, 1856. Received premium at York, York co., October 3, 6, 7, for best combined machine. Received premium at Huntingdon, for best combined machine, October 8, 9 and 10, 1856. Received premium at Carlisle for best Mower, October 7, 8 and 9, 1856. Received premium at Bellefonte for best Mower, October 7, 8 and 9, 1856. Received silver medal at Pittsburgh, Sept. 20, Oct. 1, 2, 3, for best combined machine. And also received diplomas and premiums for best combined machine at many other places to name none in mention.

It will be observed the foregoing testimonials and reports have been made during or since the harvest of 1856, and are in addition to those heretofore published; also to a great mass of voluntary testimonials on hand, which have accumulated within the last two months. These testimonials point out plainly the points in which this machine excels all others, viz: Its easy convertibility from a Mower to a Reaper, and vice versa; its construction for adaptation to uneven surfaces; the ease with which it can be raised or lowered, for cutting from two inches to eighteen inches from the ground, which is done by means of a lever controlled by the driver while in his seat; its ease of draft, portability and cleanness, and ease of cut. Many of these features are patented and cannot be embodied in any other machine, and all will admit how essential and indispensable they are to a complete combined machine.

With each machine will be furnished two scythes, two extra guards, 2 extra sections, 1 extra plow & wrench. I have made an extensive sale of machines for the present harvest, and given my personal attention to their operation in all parts of the State during the whole harvest time, and their success has been unbounded and complete. In order that there will be no disappointment about extra, I will ship by railroad this winter full supplies to each Agent, and on receiving or ordered expressage, as is desired, in waiting until harvest time before sending them. The machine is warranted capable of cutting from ten to fifteen acres of grass or grain per day.

REPORT. To the Farmers of Centre county the undersigned Judges, appointed as above, respectfully report: That the McCormick machine of 1852 performed in grass only of 1853 in grain only. All the other machines performed both in grass and grain. One end of the field was a heavy crop of timothy and clover; the other end was a heavy crop of clover, most of which had fallen to the ground. The McCormick machine cut through the timothy and clover, attended by the driver and a boy to clear the machine, performed well and made good work on the north-west and east, but made long stubble and clogged occasionally on that part of the south side covered with clover only, cutting in the same direction as the clover had fallen.

The Manny machine with Wood's Improvement, attended by the driver alone, made good work on the three sides and better work on the south side than any machine on the ground, and did not clog. The Hussey machine, attended by a driver and a raker, did nothing well.

The Manny machine, in a great measure, filled the committee with surprise from want of a sufficient motion in the sickle. The Manny machine, in a great measure, filled the committee with surprise from want of a sufficient motion in the sickle. The Manny machine, in a great measure, filled the committee with surprise from want of a sufficient motion in the sickle.

To prevent delay the McCormick machine of 1853 had been used for reaping in the field to which it was to be reaped, on being changed to Reapers, were immediately transferred. The McCormick Reaper here again led off. The committee were much pleased with the operation of the machine, as a Reaper.

The Manny machine, with Wood's Improvement, performed every duty both as a reaper and mowing the stubble sufficiently to the right to allow the horses to pass without its being removed.

The Hussey did good work, but left the stub on the track, requiring its removal prior to the entry of the next machine. The Manny machine again failed, probably owing to the great haste in which it was put together, it having been the last machine brought upon the ground.

The committee take pleasure in announcing the McCormick Improvement as the best Reaper; the Manny machine, with Wood's Improvement the best Mower; the Manny machine, with Wood's Improvement, the best Combined Machine for mowing and reaping, and heretofore best adapted for the use of the farming community generally; and the Hussey machine a useful implement, both as a reaper and mowing machine. In their judgment, we recite both by the Manny and McCormick machines.

The committee take this opportunity to express their gratification at the very large attendance of the farming community, and at the deep interest manifested by them in the exhibition which is most respectfully submitted.

James Gordon, John T. Thompson, W. A. Davidson, James Glenn, Wm. Baird, Judges.

The undersigned, Agent for this county, is now receiving orders. Farmers wanting the best Mower and Reaper in use will please send in their orders early, so that there may be no disappointment as was the case last season. Price \$140. ap21 F. G. FRANCISCUS.

TERRIBLE DISCLOSURES! Secrets for the Million! A Most Wonderful and Valuable Publication.

A WORK OF 400 PAGES, AND 20 COLORED ENGRAVINGS. Dr. Hunter's Vade Mecum; An original and popular treatise on Man and Woman—both Physically, Mentally, and Sexually Discussed—of every kind, with NEVER FAILING REMEDIES for their speedy cure. Price 50 cents.

Dr. Hunter is a graduate of one of the first medical schools in the U. S., and has devoted a quarter of a century to the study and treatment of Syphilis and kindred diseases. The practice of Dr. Hunter has long been, and still is, unobscured, but at the earnest solicitation of numerous persons, he has been induced to extend his professional knowledge, by the publication of his "VADE MECUM." It is a volume that should be in the hands of every family in the land, as a preventive of secret vices, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind.

The author argues most strongly against every species of self-deceit, and warns the priests and guardians in searching terms to guard the young of both sexes from the terrible consequences of their ignorance of physiological laws and sexual impurities and irregularities. To those who have been already ensnared to the "paths that take hold of death," a clear and explicit way is shown by which they may secure a return of sound health and a regeneration of the soul from its terrible pollution. It is well known that thousands of victims are annually sacrificed at the shrine of Quackery—especially those suffering from Venereal or Syphilitic diseases—Stricture, Seminal Weakness, Nervous Debility and the numerous maladies which spring directly from the indulgence of carnal passions and secret violations of Nature. When it is also considered that about 100,000 persons die annually in this United States of Consumption—a large majority being the victims of the venereal and syphilitic infection of their progenitors—the author, imbued with sentiments of enlarged philanthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Vade Mecum. This valuable work will be forwarded free of postage to any part of the United States for 50c. in P. O. Stamps, or 3 copies for \$1. Address, postpaid, Dr. HUNTER, No. 3 Division Street, New York. Beware of bogus Dr. Hunters—no connection with any other Dr. Hunter. m28

New York Advertisements.

FROM ALBERT G. RICHARDSON'S Advertising and Correspondence Office, 300 Broadway, NEW YORK.

"Costar's" Rat Exterminator.

An infallible destroyer of RATS, MICE, ANTS, & GROUND MOLE, MOLES, &c. &c. (Not dangerous to the Human Family.) Rats do not die in their holes, but come out and die.
