IS NOW PREPARED TO SELL ABOUT 1,500,000 ACRES OF CHOICE FARMING LANDS

In Tracts of 40 acres and Upwards, on Long Credits and at Low Rates of Interest.

THESE lands were granted by the Govern ment to aid in the construction of this road, and are among the richest and most fertile in the world. the world. They extend from North East and North West, through the middle of the State, to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and Southern sections timber predominates, alternating with beautiful prairies and openings. The climate is more healthy, mild and equa-

ble, than any other part of the country-the air is pure and bracing, while living streams and springs of excellent water abour d. Bituminous Coal is extensively mined, and supplies a cheap and desirable fuel, being fur-

nished at many points at \$2 to \$4 per ton—and wood can be had at the same rate per cord. Building Stone of an excellent quality also abounds, which can be procured for little more

than the expense of transportation. The great fertility of these lands, which are a black rich mould from two to five feet deep, and gently rolling—their contiguity to this road, by which every facility is furnished for travel and transportation, to the principal markets North, South, East, West, and the economy with which they can be cultivated, render them the most valuable investment that can be found, and present the most favorable opportunity for persons of industrious habits and small means to acquire a comfortable independence in a few

Chicago is now the greatest grain market in the world, and the facility and economy with which the products of these lands can be transorted to that market make them much more profitable, at the prices asked, than those more remote at government rates, as the cost of transportation is a perpetual tax on the latter, which must be borne by the producer in the re-duced price he receives for his grain, &c. The Title is Perfect, and when the final pay ments are made, Deeds are executed by the

Trustees appointed by the State, and in whom the title is vested, to the purchasers, which convey to them absolute titles in Fee Simple, free and clear of every incumbrance, lien or mortgage.

### The Prices are from \$6 to \$30; Interest only 3 per cent.

Twenty per cent. will be deducted from the credit price for Cash.

Those who purchase on long credit give notes payable in 2, 3, 4, 5 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation at the end of that time. Competent Surveyors will accompany those who wish to examine these lands, free of charge, and aid them in making selections. The lands remain-ing unsold are as rich and valuable as those which have been disposed of. SECTIONAL MAPS will be sent to any one

The said sinking fund may be in-creased, from time to time, by assigning to it any part of the taxes, or other revenues of the state, not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in extinguishment of the public debt, until the amount of such debt is reduced below the sum of five millions of dollars.

SECTION 5. De Highman treats Consumption Bronchitie		

DR. HARDMAN treats Consumption, Bronchitis, Laryng-tis, Asthma, and all diseases of the Throat by MEDICA-TED INHALATION. The great point in the treatment of all human maladies is to get at the disease in a direct manner. All medicines

are estimated by their action upon the organ requiring reisef. This is the important fact upon which Inhalation is based. If the stomach is discussed, we take medicine directly into the stomach. If the lungs are discussed, breathe or inhale medicated vapors directly into them.-The reason why Consumption and diseases of the Lungs have heretofore resisted all treatment, has been because they were not approached in a direct manner by medicine. They were intended to be local, and yet they were as adinistered that they could only act constitutionally, expending their immediate action upon the stomach, whilst the fool ulcers within the Lungs were unmolested. In-halation brings the medicine into direct contact with the disease, without the disadvantage of any violent action. Its application is so simple that it may be employed by the youngest infant or feeblest invalid. It does not dethe youngest infant or feeblest invalid. A Dog and Snake Story .- Near Manhester, N. H., George F. Berry, a boy hirteen years old, while out berrying on Monday, was attacked by a "six foot snake, f a dark hue and red stripe around his neck," which wound twice around the boy's body, fastening both his arms in his coils.— The lad's dog, seeing his master's life in langer, rushed to his aid, biting and tearng a strip off the snake's back. The boy got relieved from the deadly grasp and took to his heels, but the snake coiled around the dog, and would have crushed him if he had not fought like a tiger.

Mrs. Sourbeek, of Bellefonte, formerly of this place, was severely burnt a few weeks ago by the explosion of a fluid lamp.

Nicholas Decker, residing on the Seven Mountains, about four miles from Potter's Mills, was bitten on the hand by a Rattlesnake on the 21 inst.

I do certify that the above and foregoing is a true and correct copy of the "Yeas" and "Nays" taken on the resolution proposing amendments to the Constitution of the Commonwealth, as the same appears on the Journals of the two

# HOLLOWAY'S OINTMENT.

## Circular to the Sick.

THE first hospital surgeons and medical publicists of Europe admit the unparalleled anti inflammatory and healing properties of this Ointment; governments sametion its use in their naval and military services ; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutral-ize the fiery elements which feed and exasperate the malady.

## Rheumatism, Scrofula, Erysipelas.

These are among the most terrible and agonizing dlseases of the muscles, the floshy fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing antidote to pain and inflammation,

### Salt Rheum, Fever Sores, Stiff Joints,

In cases of Salt Rheum, where medical waters, lotions and every recipe of the pharmacorea have proved use-less, the Ointment will accomplish a thorough cure. ver Sores heal quickly under its influence, and its relaz-ing effect upon contracted sinews is truly wonderful.

## Discharging Ulcers,

A most remarkable and happy change is produced in the appearance of malignant olders after a few applications of this Ointment. The surrounding reduess van ishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly until the orifice is filled up with sound material, and the ulcer radically cored.

### A Word to Mothers.

The young are most frequent sufferers from external injuries, and therefore every mother should have this beaiing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the enerusted sores which sometimes disfigure the heads and faces of children.

### Significant Facts.

This Ointmont is universally used on board the Atlantic and Pacific whaling fleet as a cure for scorbulk affec-tions, and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

Both the Ointment and Pills should be used in

the following Cases : Lumbago Sore Legs Scalds Mercurial Er-Sore Breasts Swel'd Glands Bunions Burns Mercurial Er-Sore Breasts Configuration Chapp'd hands uptions Sore Heads Stiff Jointe Burns Burns Sore Throats Ulcers Chilblains Piles Sore Threats Ulcers Fistulas Rheumatism Sores of all Venereal sores Gout
