BOY LOVE.

One of the queerest and funniest things to think of in after life is boy love. No sooner does a boy acquire a tolerable stature than he begins to imagine himself a man, and to ape mannish ways. He casts side glances at the tall girls he may meet, becomes a regular attendant at church, or meeting; carries a cane, holds his head erect, and struts a little in his walk. Presently, and how very soon, he falls in love: yes, falls is the proper word, because it best indicates his happy delirious self abasement. He lives now in a fairy region, somewhat collateral to the world, and yet, blended somehow inextricably with it. He perfumes his hair with fragrant oils, scatters essences over his handkerchief, and desperately shaves and anoints for a beard. He quotes poetry, in which 'love' and 'dove' and 'heart' and 'dart' peculiarly predominate; and he plunges deeper in the delicious labyrinth, fancies himself filled with the divine affluents, and suddenly breaks into a scarlet rash—of rhyme. He feeds upon the looks of his beloved; is raised to the seventh heaven if she speaks a pleasant word; is betrayed into the most astonishing ecstacies by a smile; and is plunged into the gloomiest regions of misanthropy by a frown.

He believes himself the most devoted lover in the world. There was never such another. There never will be. He is the one great idolater! He is the very type of magnanimity and self abnegation. Wealth! he despises the grovelling thought. Poverty, with the adorable beloved, he rapturously apostrophises as the first of all earthly blessings, and 'love in a cottage, with water and crust,' is his beau ideal paradise of dainty delights.

He declares to himself, with the most solemn emphasis, that he would go through fire and water; undertake a pilgrimage to China or Kamschatka; swim storm-tossed oceans; scale impassible mountains, and face legions of bayonets, for but one sweet smile from her dear lips. He dotes upon a flower she has cast away. He cherishes her glove—a little worn in the finger—next his heart. He sighs like a locomotive letting off steam. He scrawls her dear name over many quires of foolscap—a fitting medium for his insanity. He scornfully deprecates the attention of other boys of his own age; cuts Peter Tibbets dead because he said that the adorable Angelina had carroty hair; and passes Harry Bell contemptuously for daring to compare 'that gawky Mary Jane' with his incomparable Angeline.

Happy! happy! foolish boy love! with its joys, and its hopes and its fears; its raptures and its tortures; its ecstatic fervors and terrible heart burnings; its solemn ludicrousness and its intensely prosaic termination.

SELLING A HORSE.

A good clergyman wishing to be rid of his horse and try for a better one, directed his old negro man to sell his beast for what he would fetch, or to exchange him for another, adding at the same time an anxious caution not to deceive the purchaser, and even enumerating the faults of the animal, lest one should be overlooked.

'Remember, Pompey, he has four faults.'

'O, yes, massa, I take 'are.'

Pompey, jogging along the road and conning over the list to himself, as the old lady did her luggage, 'Big box, little box, band box, bundle,' was overtaken by a man on horseback, who entered into conversation, and among some other topics, made some enquiries about the horse.

Pompey told his story, said that his master had charged him to tell the horse's faults to the purchaser without reservation.

'Well, what are they?' said the stranger, who had a mind for a swap.

'Dere is four, massa,' said Pompey, 'and I don't remember 'em all very well just now, but——'

'Well tell me those you do remember,' said the other.

'Well, sah, one is dat de horse is white, and the white hairs get on massa's coat and dat don't look well for a clergyman.'

'And the next?'

'Why' when he comes to a brook, he put his nose down and blows in the water, and massa don't like dat.'

'What next?'

'I can't any how remember de udders,' said Pompey, peering up into the clouds with one eye reflectingly.

The stranger concluded to strike a bargain and exchange his own horse which had not quite so genteel an air as the parson's, for this nearly unexceptionable animal. It was not long before the clerical steed stumbled, and threw his rider into a ditch. Picking himself up as well as he could he examined his new purchase a little more closely, and discovered that his horse was entirely blind.

Finding Pompey again without much difficulty, his wrath burst forth in a torrent of reproaches.

'You black rascal! what does this mean? This horse is broken-kneed and blind as a mole!'

'O, yes, massa,' said Pompey blandly, 'dems de oder two faults dat I couldn't remember!'

Fashionable Call, and what they said.—'How do you do my dear?' 'Putty well, thank you.' (They kiss.) 'How have you been this age?' 'Putty well.—How have you been?' 'Very well, thank you.' 'Pleasant to-day?' 'Yes, very bright; but we had a shower yesterday.' 'Are all your people well?' 'Quite well, thank you. How are yours?' 'Very well—I'm obliged to you.' 'Have you seen Mary B——, lately?' 'No, but I've seen Susan C——.' 'You don't say so! Is she well?' 'Very well, I believe.' (Rising.) '*Must* you go?' 'Yes indeed; I have seven calls to make.' 'Do call again, soon.' 'Thank you; but you don't call to see me once in an age.' 'Oh, you should not say so: I'm sure I'm here often.' 'Good bye.'

20 per cent. Saving to Farmers!

Hare's Patent Concentrated

BLOOD MANURE,

WHICH is beyond doubt the most powerful and valuable fertilizer ever offered to the public. How long will Agriculturists submit to the Guano Monopoly, whilst they have the above more potent and more valuable fertilizer, at thirty per cent. less cost? Read the annexed Certificates and then try it along side of the best Peruvian Guano, and let the result speak for itself.

Certificate of Dr. Hayes.

The specifications of *Dr.* Hare and *J.* Ofterdinger, having been submitted to me, I have found the composition of matter on which they are founded to be highly nitrogenous and fermentable compound, containing the essentials of a fertilizer of the highest character, and also the food for sustaining crops to the time of their maturing.—I regard this enterprise of manufacturing a guano instead of importing it, a practical and important undertaking, favorably affecting the interests of our common country. Respectfully, A. A. HAYNES, M. D.,

Assayer to State of Massachusetts.

Certificate of Professor Booth.

Upon examining the composition of the best Peruvian Guanos, I can perceive no ground for assuming it to be the best that can be made. On the contrary, there is always present more or less of superfluous matter, sometimes in large quantity. The composition proposed by Oehm & Hare's Patent, is, in my estimation, superior to that of the best Guanos, or to any other artificial manure of which I have heard, and I think myself the more entitled to give this positive opinion, from the unlooked for results of the action of sulphuric acid on animal matter, which I obtained in experiment, but which were anticipated by the Patent in question. Respectfully Yours,

JAMES C. BOOTH.

Certificate of Professor Frazer.

At the request of parties interested, I have no hesitation in stating my opinion, that the mode of preparing an artificial manure, by acting upon animal matters by sulphuric acid, as detailed in Dr. Hare's Patent, and mixing the resulting substance with animal, charcoal and phosphate of Lime, is correct in theory, and although I have had no opportunity of testing the manure thus formed practically, I have no doubt that a manure formed by the mixture of these ingredients in proper proportions, would be found at least to equal in its effects the best Guano.

BULL'S SARSAPARILLA,

PUT UP IN

FULL QUART BOTTLES,

And containing the strength of six times as much pure Honduras Sarsaparilla as any other similar preparation in America.

A FEW bottles of this Sarsaparilla, put up several years ago, rendering it the more valuable, (as all well-informed druggists know that age improves it,) have been deposited at the drug store of CHARLES RITZ, in Lewistown, where they are offered for sale at three-fourths the regular price, namely 75 cents per bottle.

It has been a well established fact for years past that Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of mercury, intoxicating drinks, evil habits in youth, barrenness, &c. We boldly assert that *JOHN BULL'S FLUID EXTRACT OF SARSAPARILLA* is the only preparation before the public that is prepared on strictly scientific principles and of uniform strength. The sarsaparilla is purchased without regard to price, and every pound, before being used, is subject to the strictest chemical tests, and its genuineness ascertained before being used. Bull's Sarsaparilla also contains the virtues of several other valuable medical roots, together forming the best compound, and producing the greatest curative agent in the known world! This medicine, when used according to directions, has cured

THE GREATEST

MEDICAL DISCOVERY

OF THE AGE.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

Every Kind of Humor

from the worst Scrofula down to a common Pimple.

HE has tried it in over 1000 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a running Sore Mouth.

One to three bottles will cure the worst kind of Pimples on the Face

Two to three bottles will clean the system of Piles.

Two bottles are warranted to cure the worst Canker in the Mouth and Stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all Humor in the eyes.

Two bottles are warranted to cure Running of the Ears and Blotches among the Hair.

Four to six bottles are warranted to cure corrupt and running Ulcers.

One bottle will cure Scaly Eruption of the Skin.

Two to three bottles are warranted to cure the worst case of Ringworm.

Two to three bottles are warranted to cure the most desperate case of Rheumatism.

Three to four bottles are warranted to cure the Salt Rheum.

Five to eight bottles will cure the worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and plenty of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over 10 years, dessert spoonful—Children from 5 to 8 years, tea-spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

TERRIBLE DISCLOSURES!

Secrets for the Million!

A Most Wonderful and Valuable Publication.

A WORK OF 400 PAGES, AND 30 COLORED ENGRAVINGS.

Dr. Hunter's Vade Mecum;

AN original and popular treatise on Man and Woman—their Physiology, Functions, and Sexual Disorders of every kind, with NEVER FAILING REMEDIES for their speedy cure. Price 50 cents.

Dr. Hunter is a graduate of one of the first medical schools in the U. S., and has devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders.

The practice of Dr. Hunter has long been, and still is, unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend his professional usefulness through the medium of his 'VADE MECUM.'

It is a volume that should be in the hands of every family in the land, as a preventive of secret vices, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind.

The author argues most strongly against every species of self-defilement, and warns parents and guardians in searching terms to guard the young of both sexes from the terrible consequences of their ignorance of physiological laws and sexual impurities and irregularities. To those who have been already ensnared to the 'paths that take hold on death,' a clear and explicit way is shown by which they may secure a return of sound health and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of Quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility and the numerous maladies which spring directly from the indulgence of carnal passions and secret violations of Nature.

When it is also considered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victims of the voluptuous indiscretion of their progenitors—the author, imbued with sentiments of enlarged philanthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Vade Mecum.

One copy, securely enveloped, will be forwarded free of postage to any part of the United States for 50c. in P. O. Stamps, or 3 copies for $1. Address, postpaid, Dr. HUNTER, No. 3 Division Street, New York.

☞Beware of bogus Dr. Hunters,—no connection with any other Dr. Hunter. ma28

GLAD NEWS,

Full of Hope to the Afflicted and Suffering!

Many of the Thousand Portals of Death closed, and life made happier and more comfortable to thousands who are sore in danger. Doubtless this world contains many a balm to sooth its physical woes and cure its Diseases. Among those in prominent rank stands

BOWMAN'S

VEGETABLE COMPOUND.

A SAFE and speedy cure for Consumption, and those milder forms of Throat and Lung Disease such as Colds, Coughs, Quinsey, Difficulty of Breathing, Whitlows' Sore Throat, Weakness of the Chest, Asthma, Inward Ulcer, Spitting of Blood, Influenza, Croup, Whooping Cough, Pain in the Breast, Hoarseness, Catarrh and Catarrhal Affections, Inflammation of the Lungs, Bleeding of the Lungs, &c. &c. Its superior excellence is seen and tested in the most advanced affections of the Lungs. For the truth of the above statement and the efficiency of the preparation as an antidote, we refer the public to the following testimonials. Language is scarcely strong enough to speak the great power of this wonderful discovery! The disease may try and he conquered. The proprietors point to the following bona fide certificates with confidence in their influence on the community; they are but mere specimens of many hundreds of testimonials in our possession.

Allegheny, July 18, 1856.

Mr. H. K. BOWMAN—Dear Sir,—I feel it my duty to let you know what your compound has done for my daughter, and wish you to publish it if you can in hopes some suffering one may be induced by it to try your valuable medicine and be cured. My daughter was taken in 1853, and went to Charleston to live, where her husband (James Hoyt,) was engaged in business. A few months after her husband died, and I sent for her to come home, where in four months she was confined and took a cold which settled on her lungs. It seemed as though she could get nothing to help her. We tried all the best physicians for over one year and then sent to New York to see a well-trusted physician there, and she took medicine from him for eight months; but he could not cure her. Her cough was fixed and stubborn and seemed as though it would tear her breast during the paroxysms of it, and her breathing was at times very difficult. Failing to get relief from physicians, we thought we would try Cherry Pectoral, and she took it regular for two weeks, but it did her no permanent good. We then tried Sellers' Imperial Cough Syrup, but with all she continued to grow worse, and it seemed as though she was past cure, when one day my wife was in at one of our neighbor's houses (Mr. Maynerts') and she saw them giving Vegetable Compound to one of their children for a cold, and she got three or four doses to bring home and try. After my daughter had taken it she breathed a little easier, and we sent and got a bottle of it, and when it was taken there was a marked change for the better. In all she got six bottles, the most of which she took at home, and was finally cured—it is three months since, and she has not had a symptom of the old complaint, and is perfectly as well as she ever was. We will unite in our prayers to God that you may be prospered and that your Vegetable Compound may be the means of restoring health to many as it has to one who is dear to us; we cheerfully recommend it to the public as the best medicine for Lung diseases that we ever got hold of. Try it suffering ones, and see. Believe me, my dear sir, to ever remain

Your earnest friend,

THOS. H. RAND.

Philadelphia, Aug 12, 1856.

Last spring, while in Pittsburgh, I had a bad cold, a cough which troubled me much, and a friend of mine gave me a bottle of Bowman's Vegetable Compound for diseases of the throat and lungs, which I commenced using and found relief almost immediately. I had taken many things for cough and hoarseness but never got anything to help me as it has done. I believe it to be the best medicine out for those diseases, and the only one I ever got any permanent relief. *It will cure.* I recommend it to the public as an honest and efficient medicine that will perform what it is published to do.

WM. VANHORN, Jr.

TO THE PUBLIC.

I have used Bowman's Vegetable Compound in my family for coughs, colds, and ministers' sore throat, believe it to be the best thing that I ever got for the complaints, and cheerfully recommend it to the public.

Here is one from the old pioneer Methodist preacher Ohio, Rev. J. B. Finley:

I believe Bowman's Vegetable Compound to be the best remedy for diseased throat and lungs, of the sort. I have tested it, and found it to be the best of all the patent remedies I ever tried, and I have tried very many. I recommend it to the public—try it and you will be convinced of its superiority. Rev. J. B. FINLEY.

Hear what the celebrated Dr. Peck says:

I have used Bowman's Vegetable Compound for sore throat and hoarseness to speaking; and believe it to be the best preparation for throat and lung complaints I ever got. I recommend it to the public speaker and singer as well as those afflicted with lung diseases. J. T. PECK.

Hear what Dr. Benson, of Cincinnati, says—(extract from a letter):

Bowman's Vegetable Compound contains a virtue that is not possessed by any other popular medicine in my knowledge. It does not only smooth the disease over, giving it only temporary relief (like most of patent medicines), but it commences at the root of the disease and *performs a perfect cure.* G. W. BENSON, M. D.
