# COUNTY MEETING.

The Citizens of Mifflin County are invited to attend a public meeting, to be held at Lewistown on FRIDAY AFTER-NOON, September 25, 1857, when the Hon. DAVID WILMOT will address them on the various subjects pertaining to National and State affairs.

## ELECTION OF COUNTY OFFICERS.

Among the important duties devolving on the electors, the choice of county officers is of far greater interest to the taxpayers and property holders than is generally conceded. From the nature of our institutions, party politics are always introduced into the nominations for such offices, and too frequently, under their potent influence, men are placed in situations of responsibility for which they are neither fitted by education, habits, or character. In all such cases they are voted for simply because they are the party's nominees, even when the voter knows that the man he is aiding to elevate to office is untrustworthy, one whom in any private transaction with himself he would not deal without adequate security for its faithful performance. It is hardly necessary to say that this is all wrong, whether practiced by a Republican, American, or Democrat. It is true where a man, no matter how well qualified for office, will carry bitter partisan feeling into the office to which he aspires, and make distinctions between political friends and foes, there is some justification for voting for a man of inferior qualifications, because the former will never make a good or faith-ified for the office, and if elected would no ful officer ; but as a general thing the voter ought to select the candidates whom he deems best suited for the station named. and vote for them. There is also another matter that occasionally arises in politics, worthy of consideration. Men are frequently nominated to whom success would be a positive injury. None of our county offices are so lucrative as to repay any one for a change or loss of business, especially if he is in a situation where he is making a fair living and something to lay by for a "rainy day." This can be best illustrated by stating a case : Let us suppose then that a farmer, a mechanic, a merchant, or other business man, is elected to a county office requiring his general attendance here. He removes to town, or takes boarding, soon discovers that his office does not require half his time, and unless of energetic will. falls into "loafing" habits, and next very naturally into company of that kin. If he drinks at all, and such hardly ever resist the temptation, he goes on from one to two glasses a day, then to three, four, five and six, and in a few weeks the profits of his office are daily spent in treating and being treated, and by the time his term is out--if he should even be so fortunate as to escape some faux pas in his official business-he leaves the office about as he came into it so far as regards pecuniary matters, but with habits for evil that will eling to him for life. We repeat, a man of energetic will may escape this, but unless he has such a will, it would be far better to cut his right hand off than to leave any business for an office such as we have spoken of. This is no fancy picture, written for effect, but sober truth that will commend itself to the consideration of all who desire to see their public business in competent and faithful hands.

THE CANDIDATES FOR OFFICE. The nomination of Mr. PURCELL by the American Republicans for the Assembly is not very satisfactory to our democratic friends, especially that portion which is understood to be in favor of a State loan of three millions to the Sunbury and Erie

Railroad. His course in the Legislature for two terms has proved so satisfactory to the taxpayers, having withstood all the temptations of corrupt and intriguing politicians, that not a word can justly be said against it, while his high standing in all the relations of life, as an honest, upright and moral man, now well acquainted with legislative business, point him out as a fit representative next winter when, there is no doubt, strong efforts will again be made

to entangle the State with northern improvements, and thus saddle a new debt on the taxpayers equal at least in amount to that from which they have just been relieved by the sale of the main line. Against his opponent, Dr. Bower, we have nothing to allege further than that his nomination was looked upon as a triumph of those who favor such an appropriation. This was further demonstrated by the refusal of the county meeting to endorse resolutions propounding certain queries in relation to that subject, and also by his refusal or neglect thus far to answer those queries, submitted in a letter, signed as we are informed by about forty democrats of this place and vi-

cinity. Mr. Purcell, we take it upon ourselves to say, will not vote to appropriate one dollar of the people's money to the Sunbury Railroad or any other improvement corporation.

For Register and Recorder, the contest lies between GEO. GUNHRIE of Armagh, and JOSEPH S. WAREAM of this place .-Mr. GUTHRIE is pretty well known throughout the county as a judicious business man, having managed the Poor House for three years from its organization in a manner highly satisfactory to the poor and the public. Mr. WAREAM is a young man just entering into life, whose greatest fault we take it is making politics more of a trade than his occupation.

The contest for Treasurer will probably be a warm one. SAMUEL BARR, Esq., the Union nominee, has an extensive acquaintance among our citizens in all parts of the county, and enjoys a reputation for honesty and business tact that will make him votes wherever he is known. J. B. SEL-HEIMER, his opponent, is also somewhat of an office hunter, having been before demoeratic conventions on two or three occasions heretofore. His present nomination, it is whispered, was owing to some bargaining in the convention by which Mr. Williams was nominated for Sheriff over Messrs. Mitchell and Kyle, and Mayes floored for Treasurer.

For Sheriff we may also look for some tugging and pulling. WM. MORRISON, the Union candidate, is a farmer well qualdoubt make as faithful, attentive and obliging officer as the present incumbent. Mr. WILLIAMS formerly followed farming, but lately has taken to tavernkeeping, a business which in many counties is made by law incompatible with the office.

#### LOCAL AFFAIRS.

COUNTY CONVENTION .- The delegates elected in pursuance of a notice published in the Gazette, assembled in the Town Hall, Lewistown, on Monday, 17th August, and were organized by the appointment of WM. BROTHERS, Esq., as President, and Dr. M. T. MITCHELL and GEORGE CALBRAITH as Secretaries.

After some appropriate remarks from the chair, the convention proceeded to ballot for candidates, when the following were nominated .

Assembly, JOHN PURCELL, Esq., of N. Hamilton.

Sheriff, WM. MORRISON, of Union township.

Register and Recorder, GEORGE GUTHRIE, of Armagh.

Treasurer, SAMUEL BARR, of Lewistown.

Commissioner, WM. CREIGHTON, of Derry.

Auditor,

JOHN Q. ADAMS, of Decatur. Director of Poor, (Borough District.

JOHN CUBBISON, of Lewistown.

[Wm. P. Elliott, Esq., was nominated for Coroner, but having declined, the vacancy will be filled by the County Committee at its first meeting.]

David Witherow was nominated as Representative Delegate and Wm. Brothers Senatorial.

The Convention then re-affirmed the resolutions adopted at the county meeting, to wit:

Resolved, That we endorse the sale of the Main Line of Public Works, and that in our opinion the whole amount of the purchase money ought to be faithfully appropriated towards the extinguishment of the Public Debt, and thus render certain a reduction of State taxes.

Resolved, That we are opposed to any measure of legislation making a direct appropriation, lending the credit of the State, or in any wise assuming or guaranteeing the payment of principal or interest, to the Sunbury and Erie Railroad Company, or any other company engaged in the construction of works of internal improvement—believing that there is ample capital among private individuals to construct all such works as are likely to become profitable.

Resolved, That we endorse the whole action of our Representative in the last Legislature, John Parcell, Esq., and especially his vote against appropriating three millions of the people's money to the Sunbury and Erie Railroad.

The following were named as the Standing Committee for the ensuing year, or until another is appointed :

LANDS FOR SALE .- We would direct the attention of our readers to the advertisement of the Illinois Central Railroad lands. These lands are being sold on low terms, with low rates of interest. It is the intention of the company to sell to none but actual settlers; and every man who has a disposition to work can with health secure a home near this great thoroughfare without any capital. There are thousands of poor men in the East who could soon make themselves independent by purchasing these lands. We are satisfied that there is not an acre of tillable land within ten miles of this road that will not be worth from \$25 to \$50 per acre in less than five years.

WILLIAM CREIGHTON of Derry is the nominee of the Union convention for Commissioner, and JOHN CUPPLES of Granville the democratic. The latter is no doubt honest and well-meaning enough, but so far is business is concerned we presume he would hardly set himself up as the equal of Mr. Creighton. The office is an important one to the taxpayers, and while we shall be satisfied with whatever decision the voters make, yet it is their duty to see that the ablest men are elected.

JOHN QUINCY ADAMS of Decatur, an industrious and talented young man, has been named for Auditor, a post with poor pay but withal important.

The borough elects a Director of the Poor this year. JOHN CUBBISON is the Union candidate and John Stoneroad the democratic. The former, during the mismanagement which prevailed in the Poor House a few years ago, offered adequate security to keep the poor at about one-half the then cost, and will thus, if elected, carry into that establishment views to second the efforts that are now being made by the present board to introduce retrenchment and reform into its management .--His opponent's ideas we suspect are of too rigid a character to become a good director, as he would be quite as likely as not to carry out extreme parsimonious views-a fault as much to be condemned as loose management.

-The Democrat still insists that Wm. F. Johnston was ndidate who introduced the practice of making seches by Gubernatorial candidates. We KNOW BETTER, for we heard Francis R. Shunk deliver a political harangue at Lebanon years before Mr. Johnston was spo-ken of as a candidate, and also know that he delivered the "same speech" at ball a descent of the delivered the 'same speech" at half a dozen other places.

It was cer-tainly the largest fish of the kind we ever saw, and if there is anybody from Holidaysburg down to Millerstown that can beat it with hook and line, let us hear of him or her, and we'll try again.

APPOINTMENT OF SUPERVISOR .- W. T. Burns, Esq., of this place, assumed control of this division of the Pennsylvania Canal on the 1st inst., having been appointed to that office in place of Major Eisenbise .---Turner is capable of managing the concern to some advantage if he will only keep his fingers out of politics, and employ men of sober and industrious habits without reference to political creed. The canal has always been too much of a grog shop, either for the good of the public or the works, and the sooner this feature is dispensed with the better; in fact, we should like to see the salutary regulations in force on the railroad, by which intemperance meets with a prompt dismissal, also put into practice on the canal.

Dr. Snowden, of Peekskill, who was passing on the road near the depot, was called in, but life was extinct. Mr. Sewall was travelling for his health, having recently had an attack of palsy, and was just recovering from its effects. His daughter and sister-in-law were in the cars at the time, and upon learning who the unfortunate wrung their hands and rent the air with their lamentations.
