For the Gazette.

Mr. Editor:—At the solicitation of the School Directors of Union township, A. D. Hawn, County Superintendent, delivered a lecture on the subject of Education in the Methodist Church at Belleville, on Thursday evening, September 24th. A large number of the citizens of the village and vicinity turned out, and, by their attention throughout the lecture, showed that a lively interest is manifestly taken in the cause in this neighborhood. The speaker made an earnest appeal to parents, directors and teachers to awake to the importance of giving to the youth of our land a sound, moral and practical education. It will prevent crime, elevate public morals, correct public opinion, and enhance the wealth and prosperity of our nation, by saving many from our jails and poor-houses and preparing them for useful and honorable positions in society. I think our Superintendent's address here will result in much good to the schools and the community. It is just what the people want. Call meetings all over the county and invite your Superintendent to address you, and if the officers, teachers and parents connected with our Common Schools co-operate heartily, little Millin will show glorious results, and will yet make her mark high in the educational annals of our State.

Belleville, Sept. 25, 1857.

Mr. Editor:—Doubtless you would like to know yourself and to have your readers informed of the local news from different parts of the county, and as there is so little ordinary of an exciting kind in our quiet valley neighborhood, I feel like telling you of what little does occur worthy of notice. The sum of the Kishacoquillas Academy has just closed. The examinations were very creditable both to the principals and teachers, and to the pupils; and the parents of the pupils and others in attendance seemed both interested and pleased. So far as your correspondent is able to judge, this institute of learning is favored with a learned and skillful corps of teachers, and is a credit to the neighborhood in which it is located and a benefit to our valley and county. One of the interesting features in the closing exercises of the session, was the meeting of last night, at which the Rev. Dr. Junkin of Hollidaysburg delivered an address upon Education. It was listened to by a crowded auditory with fixed and interested attention, being in the Doctor's usual happy vein, in which logic and pleasantry were effectively combined, and it is believed will do much good in the community, and may stir up the people to renewed interest in the important subject of education. Our people are talking about the suspension of the banks, and other matters of public interest, but in the main we are pursuing the even tenor of our way. SPECTATOR. Kishacoquillas, Sept. 29, 1857.

THE ELECTION. Mr. Editor:—As the campaign has now fairly opened for this fall's election, we naturally enquire who are the men and what the measures that we, as a community, feel most deeply interested in supporting. The Democratic and American Republican parties have each their ticket before the people. In casting an eye over the two parties as they now stand arrayed against each other, it is difficult to decide who are the Democrats, or who the opposition, inasmuch as the Democrats have recently become much enamored with the principles and candidates of the Straight party, as is evinced by the completion of the political meetings throughout our State, addressed by Isaac Hazlehurst, the American nominee for Governor. Witness Gov. Porter and all the leading Democrats of Dauphin county crowding in and forming the major part of the American meeting held in Harrisburg a short time ago; also, the circumstance of most of the leading Democrats from every quarter of Millin county congregating at Lewistown a few days ago, forming by odds the majority of the American meeting held there. In fact, the Democrats who attended the meeting addressed by Mr. Hazlehurst lately at Lewistown, express such high encomiums on the American candidate and his principles as they expressed, that one is almost led to believe they have forgotten that Gov. Lacker is a Democratic candidate for governor, and that they in their love and zeal for the success of the American party may yet perchance vote for Isaac Hazlehurst. And how is it with the Republican party? Why, they occupy precisely the same ground now they ever did, and the same position the Democratic party of all Pennsylvania did five years ago, when Dr. G. V. Mitchell and H. J. Walters, Esq., represented Millin county as delegates at a State convention held in Pittsburgh, when the following resolution was adopted by said convention: Resolved, That the Democratic Party adhere now as it ever has done, to the constitution of the country. Its letter and spirit it will neither weaken or destroy; and they re-declare that slavery is a domestic local institution of the South, subject to State law and with which the general government has no jurisdiction. Estimating it a violation of State rights to carry it beyond State limits, we deem it our duty to resist its extension to every citizen beyond its own borders, and we do not consider it a part of the compromise of the constitution, that slavery should be forever treated with the advancing column of territorial progress. And the same doctrine that was maintained by every true Pennsylvanian since the formation of our government. Further, in looking over our county we see many intelligent, conservative men—especially heavy taxpayers—who formerly acted zealously with the Democrats, now ranking among the American Republicans. Now what does all this prove? Why, we think it proves conclusively that old party lines are completely broken up, and that new interests and new issues have arisen. What are the cardinal principles contended for in the coming election? We conceive the contest will be mainly between the heavy taxpayers and those who expect to make large sums of money by the proceeds of such taxes, not only in Millin county, but throughout the length and breadth of Pennsylvania. It is well known the Democratic party is divided in sentiment. One wing of this party are striving to elect representatives that will be ready to support a bill, in our next Legislature, authorizing the authorities of Pennsylvania to loan the Sunbury & Erie Railroad Company the funds of the State to the amount of three millions five hundred thousand dollars; while the other wing say, as do the American Republicans, the State has no funds to loan. We want our public treasure so disposed of as will most speedily liquidate our enormous State debt, that we may for once get rid of our heavy State tax.

With regard to the sentiments of Mr. Purcell, the nominee of the American Republican party, they are known to every one as recorded by his votes in Harrisburg, where he opposed every measure that in the least favored the wasteful expenditure of our State funds, whether to the advantage of private individuals or mammoth corporate companies, while it is well known that that wing of the Democratic party who are in favor of this enormous State loan to the Sunbury & Erie R. R. Co. succeeded in nominating for Assembly the man of their choice, and that during the ratification meeting a few weeks ago, when the wing of this party who are opposed to this extravagant and wanton giving away of our State treasure, offered a resolution that a committee be appointed by that meeting to interrogate Dr. Bower, their candidate, and ask him to express his views unequivocally whether he was in favor of granting this State loan to the aforesaid company, and whether he was in favor of the sale of the Main Line, the State loan Democrats voted down this resolution and virtually said, "the Doctor must play the man game this fall; we have selected him specially to obtain this loan, and if he people know our design we cannot elp him."

We hold that it is the duty of every freeman to vote intelligently when subjects of grave importance are to be decided, and as the Democratic candidate has been known for many years to co-operate with this dominant wing of the Democratic party, and as he is known to have been designated as their man by this loan party for months before the nomination, we charge that Dr. Bower is in favor of this darling measure of these men, and that he was nominated and is to be elected (if possible) expressly for the purpose of consummating this grand project—if not by openly voting for it should be elected, because that perhaps he could not now do, but by absenting himself, or favoring it in other ways. This is a fair inference—fair because he will not give the taxpayers the pledge over his signature, and fair from the company he is in.

VIINDEX. Derry township, August 26, 1857.

Suspension of Specie Payments by Banks.

The periodical convulsion to which the money market and the business of this country seems to be subject, has been again illustrated by the suspension of the banks of this State and Maryland, which will probably be followed by others. The suspensions have come at regular intervals of twenty years, namely 1817, 1837, 1857. The work in this instance was commenced by the Bank of Pennsylvania, an institution heretofore enjoying public confidence in a high degree, and generally regarded as a democratic pet—its difficulties having been caused it is said by two of its officers, the President and Vice President, having \$800,000 of its funds in their hands to speculate in sugar! If this is true, the Governor and Attorney General ought, if law can be found; to spare no efforts to root out the concern; and to do the same with all others that may be found to have been engaged in such nefarious transactions, for in our opinion no baser use can be made of the funds of a public institution than speculating in the necessities of life. The country banks, finding that the brokers and shavers were making arrangements to draw out their specie, wisely concluded to follow the city banks on Saturday last, so that they will be in far better condition for a resumption at an early day than if they had continued to pay out gold and silver until their vaults were exhausted, and then stopped.

Governor Pollock, after a consultation with the leading business and banking men of Philadelphia, has called an extra session of the Legislature on Tuesday next, to take into consideration the extraordinary state of things now existing. It is understood that the bank men are in favor of the following measures:

- 1. A suspension of specie payments on all notes, large and small.
2. The prompt issue of their own notes of the smaller denominations, for checks, and all other obligations against them.
3. An increase of discounts to their customers, with the object of affording immediate relief.

An attempt will no doubt be made to legalize the first measure, but we much doubt its policy, as public opinion, so long as just ground exists for a suspension, will sustain the really deserving, while all others ought to break.

In the mean time the panic is spreading north, south, east and west, and we are about reaping the first fruits of being made a colony of England, (as a British statesman designated us) by the "blessed" tariff of 1846, which gives us plenty of British goods, takes some grain and flour in return when they can get them no where else, but takes care to get all our gold and silver.

Married.

On the 24th ult., in the Presbyterian Church of this place, by the Rev. James S. Woods, D. D., Rev. E. UNENSTG, of Easton, Pa., to Miss PHIGBE ANN MILLIKEN, of this place.

At the parsonage, in Reedsville, on the 24th ult., by Rev. R. E. Wilson, DANIEL GOSS, of Snyder county, to Miss FRANCES E. MORGAN, of Allentown, this county.

At the Franklin house, in Huntingdon, on the 23d inst., by Rev. R. Fletcher, THOMAS BEARD and Mrs. ANN BRATTON, both of Millin county.

Died.

On Thursday night last, in Granville township, JOHN BROUGHT, aged 66 years and 4 months. Mr. B. resided upon the place on which he died since the year 1811, and was never known to be from his home longer than to execute a brief errand, up to the day of his death. He sustained the reputation of an honest, industrious, upright man.

In McAlisterville, Juniata county, on the night of the 22d September, WILLIE McCURE, infant son of Henry and Mary D. Frysinger, aged 9 months and 3 days.

Dr. Du Vall's Galvanic Oil acts on the system by imparting to the diseased part a natural current of electricity, by which the restoration of all the natural functions are produced immediately, and a cure is at once obtained. This is the great secret which no other medicine in the world has got, and hence the great success this medicine has in curing diseases.

For sale by Hoar & McNabb, Belleville; Parker & Sons and Brisben & Sterett, Reedsville; B. Alexander, Locke's Mills; G. W. Brehman, McVeytown; A. J. North, Atkinson's Mills; J. R. Hoops, Rothrock's Mills; and at the Bee Hive Drug Store, Lewistown.

A CARD TO THE LADIES.

DR. DUPONCO'S GOLDEN FEMALE PILLS are infallible in removing stoppages or irregularities of the menses. These pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalleled success in every case, and he is urged by many ladies who have used them to make these pills public for the alleviation of those suffering from any irregularities whatever, as well as a preventive to those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these pills, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any injury to health; otherwise these pills are recommended. Directions accompany each box. Price \$1. Sold wholesale and retail by F. A. HART & CO., General Agents for Lewistown, Millin county, Pa., and also agents for Belleville, Millroy, Reedsville, Allentown, &c. They will supply dealers at the proprietor's prices, and send the pills to ladies (confidentially) by return mail to any part of city or country, on receipt of \$1 through the Lewistown post-office. For particulars get circular of agents. Beware that each box has my signature. J. DUPONCO, Broadway post office, New York.

THE MARKETS.

LEWISTOWN, Oct. 1, 1857. Butter, good, @ lb. 15 Eggs, @ dozen, 12 The Lewistown Mills are paying for white Wheat 80@125c; red Wheat 75@120; Corn 60; Rye 60; Oats 28. Flour is selling at from \$3 to 4 @ 100 lbs, as in quality.

John Kennedy has on hand a large lot of excellent Pittsburgh flour, which he is selling by the barrel at \$7 50, and retailing in any quantity desired at about the same rate.

Philadelphia Cattle Market.

The receipts of beef cattle this week were moderate, amounting to about 1230 head.—The demand was less active than last week, and a much larger number were left over than for many weeks past, consequent upon the unsettled state of the monetary affairs, and the general distrust in regard to the future. Prices fell off about 25c @ 100, and the market closed rather spiritless at \$8 75 for ordinary quality, up to \$11 25 for the best.

Cows were very dull, and prices hardly up to those realized last week. About 200 head were offered and partly disposed of at the following rates: Fresh cows, \$35 @ 40; dry cows, 18 @ 35; Springers, 25 @ 35.

The arrivals and sales at Singer's Union Drive Yard for the week were, 2,600 hogs, and about 50 horses. Hogs were not quite as brisk as last week, and sold from \$9 to 9 50 @ 100 lbs net; about 500 were left unsold. At the close the tendency of prices was evidently in favor of buyers.

Flour, Grain, &c.

Breadstuffs continue to attract but little attention. The receipts of Flour are moderate, but there is little or no inquiry for export, and mixed brands of superfine are freely offered at \$5 50 @ 60, without finding buyers. There is a steady inquiry for home use from \$5 50 to 5 75 for common brands; \$6 @ 65 for extra, and \$6 50 @ 70 for extra family and fancy lots. Nothing doing in Rye Flour or Corn Meal—the stocks are very much reduced, but there is no demand for either.

Grain—There is but little Wheat coming forward, either by railroad or water, but the supply is fully adequate for the demand, and prices are somewhat unsettled and in favor of buyers. Sales of 1300 bu prime red at 130c @ bu, and white at 140; 700 bu good Delaware red sold at 132c, and 1200 bu Southern mixed at 125. Rye is steady at 75c. Corn has declined 4 @ 5c @ bu, and 2000 bu Southern yellow sold at 75 @ 76c, afloat. Oats command 33 @ 36c @ bu, as in quality.

Clovesared is very slowly, and is from \$6 25 to 7 25 @ 74 lbs. Timothy command \$2 75 @ 3 @ bu. Nothing doing in Flaxseed.

Choice Farm Lands for Sale.

The Illinois Central R. R. Co. IS NOW PREPARED TO SELL ABOUT 1,500,000 ACRES OF CHOICE FARMING LANDS

In Tracts of 40 acres and Upwards, on Long Credits and at Low Rates of Interest.

THESE lands were granted by the Government to aid in the construction of this road, and are among the richest and most fertile in the world. They extend from North East and North West, through the middle of the State, to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and Southern sections timber predominates, alternating with beautiful prairies and openings.

The climate is more healthy, mild and equable, than any other part of the country—the air is pure and bracing, while living streams and springs of excellent water abound.

Bituminous Coal is extensively mined, and supplies a cheap and reliable fuel, being furnished at many points at \$2 to \$4 per ton—and wood can be had at the same rate per cord.

Building Stone of an excellent quality also abounds, which can be procured for little more than the expense of transportation.

The great fertility of these lands, which are a black rich mould from two to five feet deep, and gently rolling—their contiguity to this road, by which every facility is furnished for travel and transportation, to the principal markets North, South, East, West, and the economy with which they can be cultivated, render them the most valuable investment that can be found, and present the most favorable opportunity for persons of industrious habits and small means to acquire a comfortable independence in a few years.

Chicago is now the greatest grain market in the world, and the facility and economy with which the products of these lands can be transported to that market make them much more profitable, at the prices asked, than those more remote at government rates, as the cost of transportation is a perpetual tax on the latter, which must be borne by the producer in the reduced price he receives for his grain, &c.

The title is Perfect, and when the final payments are made, Deeds are executed by the Trustees appointed by the State, and in whom the title is vested, to the purchasers, which convey to them absolute titles in Fee Simple, free and clear of every incumbrance, lien or mortgage.

The Prices are from \$6 to \$20; Interest only 3 per cent. Twenty per cent. will be deducted from the credit price for Cash.

Those who purchase on long credit give notes payable in 2, 3, 4, 5 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation at the end of that time. Competent Surveyors will accompany those who wish to examine these lands, free of charge, and aid them in making selections. The lands remaining unsold are as rich and valuable as those which have been disposed of.

SELECTION MAPS will be sent to any one who will enclose fifty cents in Postage Stamps, and Books or Pamphlets containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad Lands throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c.—or any other information, will be cheerfully given on application, either personally or by letter, in English, French, or German, addressed to JOHN WILSON, Land Commissioner Illinois Central R. R. Co. Office in Illinois Central Railroad Depot, Chicago, Illinois. ap2-6m

"NO SUCH WORD AS FAIL." A RESISTLESS REMEDY.

THE first hospital surgeons and medical publicists of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; government sanction its use in their naval and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which meddle the external evidence of disease, and neutralizes the fiery elements which feed and exasperate the malady.

Rheumatism, Scrofula, Erysipelas. These are among the most terrible and agonizing diseases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, heating antidote to pain and inflammation.

Salt Rheum, Fever Sores, Stiff Joints. In cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopoeia have proved useless, this Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

Discharging Ulcers. A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly until the orifice is filled up with sound material, and the ulcer radically cured.

A Word to Mothers. The young are most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

Significant Facts. This Ointment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scrofulic affections, and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

Both the Ointment and Pills should be used in the following Cases: Bruises, Lumbago, Sore Legs, Scalds, Burns, Mercurial Eruptions, Sore Breasts, Sweetened Glands, Chapped hands, Ulcers, Sore Heads, Stiff Joints, Chilblains, Piles, Sore Throats, Ulcers, Fistulas, Rheumatism, Sores of all Venereal sores, Gout, Salt Rheum, kinds, Wounds of all kinds, Skin Diseases, Sprains, kinds.

CAUTION.—None are genuine unless the words "Holloway, New York and London" are discernible as a water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

*Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cents, 62 1/2 cents, and \$1 each.

There is a considerable saving by taking the larger sizes. N. B. Directions for the guidance of patients in every disorder are affixed to each Pot. aug6
