

THE GAZETTE.

LEWISTOWN, PA.

Thursday, November 19, 1857.

Notices of New Advertisements.

Those indebted on the books of A. Marks, assigned to Humphreys, Hoffman & Wright, will see by a notice in another column that suits will be brought without regard to person, unless settlement is made.

Anthony Felix has taken the stock and fixtures of the establishment of Mrs. Wertz, and will carry on the business at the old stand. He will also continue the cabinet making and undertaking business.

See Dr. Hardman's December appointments. Two auditor's notices are also published.

THE GAZETTE AND ITS FUTURE.

The last No. completed the eleventh year since we became editor and proprietor of the Gazette, during which time, with the exception of 4th of July and Christmas weeks, (when we do not profess to publish a paper) it has appeared regularly every week. This, as our readers know, is a long time for any one to be connected with a paper here, but unless some unforeseen circumstance occurs, and life and health remain, we may continue its publication until another decade rolls round. Although of a partisan character, our paper has steadily increased in circulation both among political friends and opponents, and secured a list of steadfast patrons, who, although not always agreeing with its editor, yield him the right of expressing his opinions on all subjects without flying into a passion at his course. They do this, we think, because they know that we are in reality "independent" of party trammels, of factions, and of cliques—that we can and dare exercise the right of thinking, acting, and speaking for ourselves—and that gross wrong will be as readily opposed in friend as in foe. This course we have found to be the true one in publishing a paper, and until we see good reason for changing it, we shall continue in it.

In a pecuniary point, during the past few years, we have not much to boast of. With articles of general household use at almost double price, and no increase in our rates, any one can cipher out that the difference was taken altogether from the profits of the establishment. At this we do not complain, being content to take the world as it is; and so long as our patrons will continue to furnish us with enough to pay all expenses, economically incurred, and thus keep us out of debt, we shall not.

CEREDO CRESCENT.—We have received two numbers of a new paper published at Ceredo, Wayne co., Virginia, by W. Boyd Wilson, formerly of this place. It is of large size, well printed, and ably edited. Ceredo is located on the Ohio river, below Parkersburg, and is the point selected by Thayer's Land Company for inducing northern emigration to Virginia instead of the west. Our opinion always has been that Virginia presents extraordinary inducements for those desiring new homes, the land being equally productive with the west, and the climate far more salubrious. The only drawback thus far has been the absurd sensitiveness of the native population in setting down the "freedom of speech" of northern men as abolitionism, when not one in a hundred would disturb the peculiar institution beyond "opinion," even if they had the opportunity. In the region alluded to, lands can be bought at from a nominal price to \$8 per acre. Should we ever pull up stakes at all, our course would probably be towards Ceredo, or some other inviting point in the Old Dominion.

KANSAS.—Advices from Kansas, received by telegraph from St. Louis, state that the Constitutional Convention adjourned on the 7th inst., having provided that the "slavery section" only of the Constitution shall be submitted to the people. A provisional State government, with Gen. Calhoun as Governor, was formed to go into operation immediately, an enterprise that copies too closely after the Topeka scheme of the Free State men to receive the approval of those who denounced that effort as reasonable. Gov. Walker has been invoked to call an extra session of the recently elected Legislature to meet the emergency.

The Fall of Delhi.—After a siege unsurpassed in recent times by any except that of Sebastopol, Delhi has fallen, and British arms may be considered as once more in the ascendant in India. The siege was begun early in May and lasted till the 20th of September, when, after a fight of six days, the British gained complete possession of the whole city. The loss of the British in the final attack, does not appear to have been very heavy, and as it is stated that the King of Delhi and great numbers of the rebels escaped, it is presumed that their garrison also did not suffer to any very great extent. But "no quarter" to the men was the order given by the British commander, and, we may fairly conclude that when the captors entered the city there was fearful slaughter.

Dreary—The weather.
Empty—Our pocket and flour barrel.
Busy—Religion at one end of town and the devil at the other.
Coming—The season of messages and sausages.

A brother editor says the only way to restore confidence is for all to pay the printer. Makes good music—The string band of this place.

Two houses and three stables in York, Pa., were destroyed by fire on Thursday.

F. & Co., Boston.—A contract was made, but no copy ever forwarded to this office.

"Humanity" called a benevolent meeting on Tuesday evening, but couldn't raise a snort.

Again in Luck—Having drawn an elegant gold pencil case with pen and pencil in Evans's Gift Book Sale, advertised in another column.

The Broad Top miners lately got on a strike, but wisely went to work again. Strikes at this time, when the country is full of idle persons, are simply nonsense.

The Sheriff of Huntingdon county advertises several tracts of land at public sale on the 3d December, as the property of Elisha Shaeemaker.

Some of the Millin county boys who enlisted under Uncle Sam some years ago, are likely to have a nice time of it in the Mormon crusade.

Walker is out on another filibustering expedition against Nicaragua with about 400 recruits. We should not much regret to hear that he has run his neck into a noose this time.

Child Killed by a Bear.—The National Democrat, of Johnstown, says that a small child was attacked and destroyed by a bear, in the woods about two miles from Summitville, Cambria county, last week.

Half a Loaf is Better than no Bread.—The Irish laborers on the railroad, in Hartford, Ct., lately struck on account of decreased pay, and their places were supplied with Americans, who had nothing else to do.

Governor Pollock we see is still occasionally appointing aids with the rank of Colonel, &c. We don't care much about the military titles, but if he should happen to want a "civil" aid with \$600 or \$800 a year, we hope he'll remember us.

On Thursday of last week, one million of dollars in specie, belonging to the United States, passed through Pittsburgh, in charge of Capt. S. S. Williams, of the Adams' Express Company; and on Saturday night another million was forwarded in charge of R. H. Nicholson, Esq.

An association, headed by Mrs. Sarah J. Hale, has been formed in Philadelphia for the purpose of procuring places for females throughout the country. Good house servants can find ready employment, but sewing girls and women are here in abundance already.

The democratic papers have much fault to find with the votes of some colored men in Ohio who voted for Chase, but not a word of condemnation against some hundreds of savage, half naked and ignorant Indians, who aided the democracy in Minnesota in electing a number of their candidates.

We learn from the Harrisburg Telegraph that Gov. Pollock has appointed Hon. James T. Hale, of Centre county, Hon. Eli Slifer, of Union county, and Jacob C. Bomberger, of Dauphin county, to be Commissioners to investigate the condition of the Bank of Pennsylvania.

Danages for Slander.—In the District Court at Pittsburgh, Pa., a day or two since, a young lady of that city obtained a verdict of \$1300 against a well known dry goods merchant, for having falsely accused her of defrauding him of a pair of corsets, and publicly insulting her in consequence.

A great hunt came off near Brownsville, last week. The huntsmen divided into two parties, one under command of Captain Snowden, and the other under A. H. Shaw. The game bagged reached within a fraction of five hundred, including rabbits, wood-cock, pheasants, &c.

DEATH BY LIGHTNING.—Singular Coincidence.—On Friday last, a woman in Corydon, (Ind.) whose name we did not learn, was struck by lightning and instantly killed. At the same instant, just as the lightning flashed, her sister, who was lying on a sick bed, expired. This is certainly one of the most singular fatalities of which we have ever heard.

Shower of Lizards.—The *Le Roy* (N. Y.) Gazette says that during the heavy rain on Sunday night last, live lizards, some of them measuring four inches in length, came from the clouds like manna, though neither as plenty nor half as welcome. They were found crawling on the sidewalks and in the streets like fugitive infantile alligators, in places far removed from localities where they inhabit.

Laughable.—The Philadelphia Ledger's every other day comments on the solvency of the city and the insolvency of the country banks. Its editor no doubt has worked himself up to the firm belief that the country banks first suspended, and that, instead of the Bank of Pennsylvania and some of its kindred in the city, they are all broke. So far as we have advice to give to our readers, we would say keep clear of city bank notes when the day of redemption comes.

Township sued for Damages.—Some time since Mr. John Aitkin and Mr. Quakenbush, while crossing a bridge over a small stream in the township of Providence, Luzerne county, Pa., in a wagon, were precipitated into the bed of the stream, from the neglect of the supervisors to keep the bridge in proper repair. Mr. Aitkin and the horses were killed, and Mr. Quakenbush was very seriously injured. The widow of Mr. A. and Mr. Q. have both instituted suits for damages, the former laying her damages at \$25,000.

LOCAL AFFAIRS.

TEMPERANCE MOVEMENT.—A meeting was held in the Town Hall on Monday evening, called at the instance of the clergy, for the purpose of devising ways and means to stay the progress of intemperance. James McCord, Esq., was appointed President, and Captain T. F. McCoy Secretary. Some remarks, explanatory of the objects of the meeting, were made by Rev. Dr. Woods, Rev. Mr. Bowers, David Candor, Esq., Mr. Warner and Mr. Clark, when a committee of eleven was appointed to report a plan of organization at a meeting to be held on Monday evening, 30th instant.

So many organizations having in view the benefit of the liquor drinker, after a short period of usefulness, have degenerated into empty declamation and show, that it is a very difficult matter at this day to induce many a heart to be pursued. All know and acknowledge that the intemperate use of liquors of all kinds is a great evil, and many firmly believe that its use at all is not only no benefit but a positive injury. The world however cannot be reformed in a day, or a custom of years eradicated in an hour or by the mere declaration that it ought to be done away with; hence the question naturally arises **WHAT CAN BE DONE?** In our opinion, the best measure that can be adopted will be to induce drinking men themselves to take hold of the matter, and like the glorious old Washingtonians, who thirty years ago thrilled many a heart with their eloquent descriptions of the scenes of misery and degradation in which they had been chief actors, form an association to be composed exclusively of drinking men, who will pledge themselves to each other that henceforward they will abstain from the use of all intoxicating drinks, and use their best efforts to induce all who frequent the haunts of liquor dealers to do the same. Such an association would do more towards reforming the intemperate in a single year than ten years labor of temperate men. We have a number of young, middle aged, and even aged men in our midst, who almost daily meet together and indulge in drinking to the detriment of both health and pocket. They know and feel it, yet habit and want of resolution keep them in the downhill track. Now, why not turn from this and become a band of brethren in a more noble work—one that will give them a sweeter sleep and far more pleasant dreams than the best wine or brandy they ever drank? Let no false pride deter them, for the community, both male and female, will give the leaders in such a work a countenance and support beyond their anticipations.

As for the temperate men, they too can form an association, but to be of utility, it must be one with moral courage enough to uphold the laws and to bring to summary punishment all who violate them. Let them see that the drunkard, be he high or low, who staggers through the streets outraging all propriety by his profane and indecent language, is arrested and properly dealt with—let them see that those who sell liquors to notoriously intemperate men are prosecuted and punished—let them see that "inns and taverns" are kept for the purpose intended, and the drinking man will then see that those who profess to be his friends are in earnest. We want no new laws on this subject at this time, but a rigid enforcement of those in existence, which are at present unfortunately almost a dead letter.

PUBLIC OFFICERS.—During the November court, William Creighton, Esq., was sworn in as Commissioner, and took his seat at the Board, which now consists of the following: Jacob Linthorst, President, Wm. Wilson, and Wm. Creighton, Esqs. Jacob Hoover, Esq., is the retiring member. Elected at a time when partisan feeling ran high, and subsequently connected with the letting and building of the new jail, he had of course many difficulties to contend with, which however he met with promptness and fidelity. The new sheriff, T. E. Williams, Esq., took possession of the jail and office last week. He has appointed Wm. Shimp, Esq., formerly Sheriff of this county, his Deputy. The new Register and Recorder will enter upon his duties on the 1st December, and the Treasurer on the 1st January.

There are two dogtype establishments in full blast at present, one of Johnson's wagons at the hay scales, and Smith's old established gallery across from the Gazette office. Just now pictures are taken as low as 25 cents, but next week they will probably come down to nothing and a plate of oysters or some other gift furnished the sitter. A young lady who has had herself taken at both places says she would like to see the stores following suit, as she is in want of two or three dresses; and thinks it would be delightful to buy levy calico for three or four cents.

MOLASSES FROM CHINESE SUGAR CANE.

We have had samples of molasses from John R. Weekes, Esq., from the Farmer's High School, and one or two others, but by far the best article we have yet seen was manufactured by Richard Morrison, near Newton Hamilton. The syrup is almost transparent, and in taste approaches the best southern syrups. These are all first experiments, but are ample evidence that every farmer in our county can, with a little effort at learning the mode of boiling, manufacture an abundant supply of molasses for his own use, if not for sale. An article on this subject will be found under our agricultural head in to-day's paper.

GAME AS IS GAME.—The following account of a hunter's doings in Armagh township, we copy from the Democrat, as furnished by a correspondent at Milroy: About the first of September last, John Treaster, of Armagh township, commenced to trap at a deer lick, not far from his residence, and had caught some in this way, but he soon discovered that he had a partner in the business of taking them from the trap, which, on strict observation he discovered to be a panther, which relieved him of two or three of his deer, without his consent. He, however, continued his trapping operation, the result of which was, the capture of six deer, two bear, and finally, on the 10th inst., the capture of his panther-ship. Mr. Treaster fired three shots into the panther before he became docile, although fast in the trap. The length of the panther was nine feet, and the weight of the entire carcass, 155 pounds.

P. S. Since the above was in type a correspondent has also given us the above particulars, with the additional intelligence that by the signs three more panthers are about! The one caught can be seen at the slaughter house of A. Swartzell in Milroy. The trap used by Treaster is a common wolf, weighing 14 pounds, and was set about 4 miles northeast of Locke's Mills.

SAD ACCIDENT.—John H., a son of John Ruble, of Granville township, some ten or eleven years of age, fell from the loft of his father's barn to the floor on Tuesday of last week, receiving some severe internal and external injuries. He lingered until Friday morning, when death put an end to his sufferings.

PUBLIC MEETING.—At a meeting held in the Town Hall, on Tuesday evening, for the purpose of devising means to relieve the poor and destitute of the Borough of Lewistown and vicinity, Abner Thompson was elected President, Charles Stratford Vice President, and A. A. Banks Secretary.

On motion—it was resolved that a society be formed to be called "The Lewistown Benevolent Society," and that the above named officers be permanent officers of this society.

On motion of Gen. W. H. Irwin a committee of seven was appointed to nominate an executive committee to an adjourned meeting, at six o'clock, on Thursday evening. Committee—Gen. W. H. Irwin, David Bloom, F. R. Sterrett, John Kennedy, N. J. Rudisill, Samuel Comfort and Dr. J. I. Marks. A. A. BANKS, Sec'y.

PROCEEDINGS OF COURT.—The business transacted in the Orphans' Court was as follows:

Joseph Hartzler, Admr. of David Hartzler, deceased, was authorized to sell some real estate of said deceased.

The court, on petition of the heirs and legal representatives, appointed Hugh McKee, Andrew McKee, Michael Ruble, John Ruble, Henry Aurand, Samuel Yoder, and Daniel Yoder, to make partition of or value and appraise the real estate of Joseph Kinsel, late of Oliver township, deceased.

Some exceptions to the auditor's report distributing balance in hands of administrators of Daniel Brought were overruled, and one sustained. Geo. W. Stewart, administrator of Melissa Stone, deceased, was authorized to sell certain real estate.

E. L. Benedict, Esq., was appointed Guardian of Homer Benedict. Bail \$600. Ephraim Hazlett was appointed Guardian of William W. and John C. Hazlett, minor children of Wilson Hazlett, deceased. Bail in each, \$8000.

Wm. Creighton, Guardian of John B. Alexander, was authorized to sell his ward's interest in certain real estate, unsold for want of bidders, at public or private sale.

The account of James G. McCoy, surviving executor of Hugh Johnston, was referred to Wm. P. Elliott, Esq., to make distribution. Thomas Reed, Guardian of the minor children of John Sigler, deceased, reported that he had sold certain real estate to George Ault for \$30 per acre. Sale confirmed.

Jefferson Swanger, admr. of Ephraim Swanger, deceased, reported that certain real estate remained unsold for want of bidders. The accounts of Christian Hoover, admr. of Dr. Lewis Hoover, and of Wm. A. McManigle, Guardian of Charles Marks, were confirmed absolutely. The account of Thomas Stroup, admr. of Andrew Sommers, was referred to T. F. McCoy, Esq., for distribution.

The accounts presented at this court were confirmed nisi.

During the removal of the new Sheriff into the Jail last week, some of the prisoners who were permitted to be in or had gained access to the corridor, broke the lock of the door and part of the stair banister, and got into the rooms where some women were confined. The deputy sheriff, Mr. Shimp, finally succeeded in restoring order, though not without some difficulty. This matter shows the importance of keeping up a wholesome discipline in that building.

A party of young men visited Licking creek last week, for the purpose of enjoying life in the woods. They remained several days, met with some rough weather, saw some game, and altogether were pretty well pleased.

THE RECENT STORM AND FLOOD.

(From the Albany Journal, Nov. 11.) During the past week there have been heavy rains throughout the counties on the line of the Erie Canal and Central Railroad west of Syracuse. On Monday came the most terrific storm of all. It began early in the morning. The rain fell in torrents, accompanied by a violent gale, rousting up trees, blowing down chimneys, destroying fences and sheds, and in some instances unroofing houses.

The storm was immediately followed by the heavy freshets and floods. Rivers and creeks burst their usual boundaries, submerged the adjoining fields, and swept away bridges, mills, and whatever opposed their resistless course. Canal embankments and railroad culverts shared in the common ruin, leading again to new disasters. Mail communication was completely cut off yesterday in that section, and is even yet so much interrupted that the full extent of damage done cannot be ascertained.

East of Palmyra and east of Newark several breaks in the Canal occurred. The damage can hardly be repaired in less than ten days.

The present flood is the greatest known in forty years, the high water reaching houses and barns never before touched by it. Nearly the whole track of the railroad from Weedsport (Cayuga county) to a mile this side of Newark, (Wayne county,) a distance of 25 miles, was at one time under water. In some places the water stood at the depth of four feet. This was caused by the giving way of the banks of the Canal, submerging everything in the neighborhood.

Holloway's Ointment and Pills.—Cough, sore throat, bronchitis, asthma, tightness of the chest and pain in the left side, the precursors and accompaniments of consumption, are rapidly subdued by the regular application of the Ointment after warm fomentation of the throat, chest and side. There is no preparation in existence which passes so quickly from the surface to the diseased and irritated membranes employed in the office of respiration. One or two applications will sometimes restore the voice which has been reduced to a husky whisper by cold, and enable the gasping victim of asthma to respire freely, regularly, and without pain. A few doses of the Pills, by promoting the general health of the system, minister to the perfection and permanency of the cure. Beware of counterfeits; see Caution at foot of Holloway's advertisements.

A CARD TO THE LADIES.

DR. DUPONCO'S GOLDEN FEMALE PILLS are infallible in removing all irregularities of the menses. These pills are not new, but have been used by the Doctor for many years, both in France and America, with unparalleled success in every case, and is urged by many ladies who have used them to make these pills public for the alleviation of those suffering from any irregularities whatever, as well as a preventive to those ladies whose health will not permit an increase of family. Pregnant females, or those suffering themselves, are cautioned against using these pills, as the proprietor assumes no responsibility after the above admission, although their mildness would prevent any injury to health; and where the pills are recommended. Directions accompany each box. Price \$1. Sold wholesale and retail by F. A. HARTD & CO., General Agents for Lewistown, Mifflin county, Pa., and also agents for Bellefonte, Mifflin, Redeavor, Altoona, &c. They will supply dealers at the proprietor's prices, and send the pills to dealers (consignees) by return mail to any part of city or country, on receipt of \$1 through the Lewistown post office. For particulars get circular of agents. See that each box has my signature. J. DUPONCO, Broadway post office, New York.

THE MARKETS.

LEWISTOWN, Nov. 19, 1857.

Butter, good, 15 lb. 15
Eggs, 1/2 dozen, 12

Our Millers yesterday were paying for white Wheat 70@115c; red Wheat 60@100; Corn 50; Rye 60; Oats 25. Flour is selling at from \$2 50 to 3 50 @ 100 lbs, as in quality.

Philadelphia Cattle Market.

The supply of cattle this week was not so great as the previous week, the offerings at both yards amounting to about 900 head. Prices remained about the same except for the better quality of beefs, which brought as high as \$9 per 100 lbs., about 1 cent more per pound than last week. The offerings of sheep amounted to about 5000 head, most of which were sold at from \$3 to 4 1/2 each, according to quality. The demand for cows and calves continues very good. 200 head were sold at from \$35 to 65 for milk cows and from 23 to 35 for dry cows. The demand for hogs was good, and sales were made at from \$7 1/2 to \$8 per 100 lbs.

Flour, Grain, &c.

Cloverseed is wanted at \$5 per 64 lbs., but the receipts are only in small lots by wagons. No sales of timothy or flaxseed. The flour market is quiet, but prices remain without notable change. There is very little export demand, and the only transactions reported are extra at \$5 25 per barrel, and in small lots for home consumption at 2 25 up to 6 for common and extra brands, and 6 25 to 7 50 for extra family and fancy lots. Rye flour is held at 4 50, but there is no demand for it. 250 barrels Pennsylvania corn meal sold yesterday at 3 1 1/2 per barrel. Grain—There is a fair amount of wheat offering, but the most of it is of undesirable quality, and this description can only be disposed of at a concession upon our last quotations. Sales of choice Southern red at \$1 27 per bushel, soft; fair and good do. 1 20a1 24 and small lots of white at 1 35. Rye comes forward slowly and commands 75 cents. The receipts of corn continue light and it is in good demand—sales of old yellow at 80 cents, soft, and new at 60 cents. Oats are in fair request, and prime Delaware sold at 34a34 1/2 cents per bushel.

FACTS THAT SHOULD BE KNOWN.

An Opinion and its Basis.—Dr. J. C. French physician, is said to have been a patient who had swallowed a dose of the prescriptions without winning, he said, "My dear sir, I would be pleased to attend you, if you would be ill." The remedial system of Dr. French, with whose fame all the world is ringing, is in beautiful contrast with the wholesale indiscriminate use of the medical. It comprehends only two or three remedies, but they would seem to include tidotes for nearly all maladies. As a point, (for we cannot discuss the merits in a couple of paragraphs,) we may say the extraordinary success of Holloway's Pills in Fever and Ague. This complaint, as informed by medical men, has greatly increased its ravages of late years, and some more malignant form. Be that as it may, there can be no doubt that it prevails in every section of the country at this season, the fall, and that it baffles the skill of the most eminent medical men. One of the features is, that it paralyzes industry in the busiest seasons of the year, and it is in itself, lays the foundation of many of our disorders. A remedy, therefore, that at once breaks the chill and restores strength and energy of the patient, and of inappreciable value in our agricultural districts. Friends upon whom we are and who have had full opportunities of a correct judgment, inform us that Holloway's Pills are a positive specific for the complaint. They have been tried in the West, in the cotton plantations of the South, in the healthy banks of Red River, on the prairies, and among the cane-brake swamps of Louisiana and the States, with same happy results; and multitudes who heretofore trosted to quinine and other generous curatives, and found them of no use, now rely entirely upon this yet harmless vegetable remedy.

We state these facts, derived from the most reliable sources, as matters of general interest. It has become of late years so much a matter of course to extol every new remedy, that the respectable journals, which require proofs as the basis of their commendation. We have taken the precaution of examining the credentials of Prof. Holloway, and the contentions of his half brother, to sustain the result of our own investigation, we feel no hesitation in sending this article to our readers.—Galeston (Texas) Herald.

Important Decision.—It was lately decided by the Supreme Court at Philadelphia, that "When an administrator or trustee deposits trust funds in his own name, Bank or Savings Institution which the loss shall fall upon him and not the cestui que trust." The court held that "The liability of an administrator or trustee for funds lost by the failure of a bank or institution in which they have been deposited, does not depend upon good faith, prudence or judgment, which he may have acted—nor upon the fact that he has deposited his own money in the same place. He is personally responsible for the loss of the money deposited in his name, because he did not make deposit as administrator or trustee." This is an important decision, and those who have interests, should make a note of it.

NOTICE.

I SHALL close up the Books, Notes, and A. Marks, assigned to Humphreys, Hoffman & Wright, in a few days by sales cases. GEO. W. ELLIOTT, Attorney.

Grocery, Provision, Confectionery, and VARIETY STORE,

At intersection of Valley, Mill, Dorcas Market streets, lately occupied by Mrs. Wertz.

The undersigned having purchased the entire stock of Mrs. Wertz, respectfully announces that he intends to make new conditions of articles in general use as to be supplied almost anything that may be desired by the old customers of the establishment and any number of new ones. Intending keep on hand all the leading articles of the trade, he solicits farmers and others to give him a call, as the highest cash price will be paid the market can afford, for Fancy Articles, Hosiery for ladies and gentlemen, Ladies' Collars, Combs, Brushes, Buckles, Belts, Gloves, Mitts, &c., furnished therefor at lowest cash prices.

Cabinet & Undertaking Business.—The manufacture of Furniture and Cabinet Ware generally, as well as the Undertaking Business, will not be relinquished on any of my engaging in the above business, orders in either, promptly attended to. My friends and the public generally, invited to call, examine my stock and prices in both establishments, and as heretofore shall endeavor to please them. ANTHONY FELLNER, Lewistown, Nov. 19, 1857.

AUDITOR'S NOTICE.—The undersigned Auditor, appointed by the Orphans' Court of Mifflin county to distribute the estate of JAMES W. WAREHAM, Administrator of JAMES WAREHAM, late of Lewistown, deceased, and who was entitled to the appointment at the Register's Office, Lewistown, on FRIDAY, the 18th day of November next, at 10 o'clock a. m., where interested are requested to attend. W. P. ELLIOTT, Auditor.

AUDITOR'S NOTICE.—The undersigned Auditor, appointed by the Orphans' Court of Mifflin county to make distribution of the fund in the hands of JAMES G. MCCOY, surviving Executor of HUGH JOHNSTON, late of Lewistown, deceased, will attend to the duties of the appointment at the Register's Office in Lewistown, on SATURDAY, the 19th day of December next, at 10 o'clock a. m., when and where those interested are requested to attend. W. P. ELLIOTT, Auditor.

STOVES

A LARGE assortment at low prices for sale by F. J. HOFFMAN.
