

LATEST NEWS.

The steamship Atlantic arrived at New York bringing Liverpool dates to the 11th inst. The financial news is important and exceedingly unfavorable. The monetary reversion here seems to have crossed the ocean with enough of force to cause great disaster there. The Bank of England had advanced its rate of discount to ten per cent., the money market having grown decidedly more stringent. The house of Dennistoun & Co., well known dealers in American produce, had failed—liabilities £2,000,000. The Western Bank of Scotland had also failed with a reported deficit amounting to £6,000,000. A rumor prevailed at Liverpool that the Bank of France had stopped, but it was afterwards ascertained that this was not true, and that the Bank had only advanced its rates of discount. The cotton and breadstuffs markets were dull and declining. Two weeks later news from India had been received, the purport of which is explained by the following dispatch:

Delhi, which fell into our hands on the 20th of September, was entirely occupied on the 21st, and the whole of the enemy expelled. In the assault of the 14th, sixty-one officers and eleven hundred and seventy-eight men, being one third of the storming party, were killed and wounded. General Nicholson died of his wounds on the 21st.

The old king said he was ninety years of age when he surrendered to Capt. Hodgson, about fifteen miles south of Delhi. He was accompanied by his chief wife. Their lives were spared. Two of his sons and a grandson were also captured by Capt. Hodgson, about five miles from Delhi, and were shot on the spot. Two movable columns were detached from Delhi, on the 23d, in pursuit of the enemy. By accounts from Agra one column appears to have reached the neighborhood of Aylgar and the other that of Mitr, on the 28th of September.

General Havelock, with twenty-five hundred men, crossed the Ganges, from Cawnpore, on the 19th of September, and relieved Lucknow on the 25th, just as it was ready to be blown up by its besiegers.

On the 20th the enemy's entrenchments were stormed, and on the 29th a large part of the city was taken. Four hundred and fifty British were killed and wounded. Gen. Neill was killed.

A slight rising of the rebels took place near Nasick, in the Bombay Presidency, in the suppression of which Lt. Gen. Henry was killed. The Madras troops defeated the mutineers of the fifty-second regiment, near Kempter, and killed one hundred and fifty of them.

HAVE DE GRACE, Nov. 23.—The steamer Junius left here on Saturday evening with a tow of 22 boats, and when off Spessart Island encountered a heavy gale of wind which broke the tow loose from the steamer and scattered the boats over the bay in different directions. The boat Hiawatha, loaded with iron, and the boat West Branch, loaded with coal, were sunk. The steamer Lancaster went from here yesterday and assisted to litch up the remaining boats, and got all but five, four being blown ashore, and one anchored out of reach of the steamer. No lives lost.

Burning of the Steamboat Rainbow. CINCINNATI, Nov. 23.—The steamboat Rainbow was burnt on Saturday morning, about ten miles above Napoleon, Arkansas. From fifty to seventy lives are reported to be lost, including all the officers of the boat. The boat, cargo, and all her books and papers are a total loss. The Rainbow was a fine boat, of 45 tons, and was built at New Albany, Ohio, in 1851.

Storm on the Ohio. PINEBLUFF, Nov. 23.—The steamer Republic arrived at Louisville on Saturday, reports that sixteen coal boats were sunk during the storm on Wednesday last, in the Ohio and Mississippi rivers near Cairo, by which it is estimated that one hundred lives were lost. The boats contained 360,000 bushels of coal valued at \$36,000, which is a total loss.

Dr. Hayne, the famous bigamist, who has a wife in nearly every State in the Union, has just emerged from a five years' residence in the Kentucky State Prison. He says he can marry any woman he may choose on first acquaintance, and in the brief time of five years.

A temporary puts forth the following query.—Tell me, ye winged winds that round my pathway roar, do ye not know some quiet spot where hoops are worn no more? Some place and silent dell, some island or some cave, where women can walk three abreast along the village path? The loud winds hissed around my face, and snickering answered, "No place."

INHALATION CONSUMPTION. BRONCHITIS, Laryngitis, and other diseases of the Chest and Throat successfully treated by the Inhalation of Medicated Vapors and Powders, by Absorption and Constitutional Treatment, as practiced at the Stuyvesant Medical Institute, New York City, N. Y.

The unprecedented success which has attended this method of treating diseases of the lungs and throat, has induced the physicians to depart from their usual course, and avail themselves of the columns of the press to make it known to such as may be laboring under, or predisposed to such affections. The dawn of a brighter day has at length arrived for the consumptive; the doctrine of the incurability of consumption has now passed away. We have indubitable proofs in our possession, that consumption in all its stages can be cured; in the first place, by tubercular absorption; in the second, by the transformation of tubercule into chalky and calcareous concretions; in the third, by cicatrizes or scars. Those wedded to the opinion of the past may assert that it is even now incurable; such are behind the age. To all this great truth must be apparent, viz: that medicines inhaled directly into the lungs, whether in the form of vapor or powder, must be more effectual than that taken into the stomach. In short, the only ark of refuge for the consumptive is Inhalation, and such additional means as the judicious physician will avail himself of.

Such of the profession that have adapted inhalation have found it soothing and efficacious in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases, in "verily, a triumph of our art over this fell destroyer of our species." Note.—Physicians wishing to make themselves acquainted with this practice, are informed that our time being valuable we can only reply, as to ingredients used, to such letters that contain a fee. The fee in all cases of consumption will be \$10, on receipt of which the necessary medicines and instrument will be forwarded. Applicants will please state age, sex, occupation, whether married or single, how long affected, if any hereditary disease exists in the family, and symptoms generally. Let the name, town and state be plainly written. Postage for return answers must be enclosed. Letters if registered by the Postmaster are at our risk. Address, WALLACE MERTOUN, M. D., nov5 S. M. Institute, N. Y. City.

TO INVALIDS! DR. HARDMAN,

PHYSICIAN for diseases of the Lungs, Throat and Heart—formerly Physician to Chichester Hospital and Invalids' Retreat—Corresponding Member of the London Medical Society of Observation—Author of "Letters to Invalids," &c.

IS COMING. NOVEMBER APPOINTMENTS. Dr. Hardman, Physician for Diseases of the Lungs, Formerly Physician to the Cincinnati Marine Hospital, MAY BE CONSULTED AT Lewistown, National Hotel, Wednesday, Dec. 16 Millin, Patterson House, " 17 Huntington, Jackson's Hotel " 17

Dr. HARDMAN treats Consumption, Bronchitis, Laryngitis, Asthma, and all diseases of the Throat by MEDICAL INHALATION. The great point in the treatment of all human maladies is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased, we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into them. The reason why Consumption and diseases of the Lungs have heretofore resisted all treatment, has been because they were not approached in a direct manner by medicine. They were intended to be local, and yet they were so administered that they could only act constitutionally, expending their immediate action upon the stomach, whilst the fatal ailment within the Lungs were unattended. Inhalation brings the medicine into direct contact with the disease, without the disadvantage of any violent action. Its application is so simple that it may be employed by the youngest infant or feeblest invalid. It does not deplete the stomach, or interfere in the least with the strength, comfort or business of the patient. No charge for consultation.

OTHER DISEASES TREATED. In relation to the following diseases, either when complicated with Lung Affections, or existing alone, I also invite consultation—usually finding them PROMPTLY CURED: PROLAPSUS and all forms of FEMALE COMPLAINTS, Irregularities and Weakness. PALPITATION and other forms of HEART DISEASE, Liver Complaint, Dyspepsia, and all other Diseases of Stomach and Bowels, Piles, &c. &c. All diseases of the Eye and Ear; Neuralgia, Epilepsy, and all forms of Nervous Disease. No charge for consultation. J. S. 1-y S. D. HARDMAN, M. D.

"NO SUCH WORD AS FAIL." A RESISTLESS REMEDY.

HOLLOWAY'S OINTMENT. Circular to the Sick.

THE first hospital surgeons and medical publicists of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption, and underlies the external evidences of disease, and neutralizes the fiery elements which feed and exasperate the malady.

Rheumatism, Serofula, Erysipelas. These are among the most terrible and agonizing diseases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing antidote to pain and inflammation.

Salt Rheum, Fever Sores, Stiff Joints. In cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopoeia have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

Discharging Ulcers. A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly until the ulcer is filled up with sound material, and the ulcer radically cured.

A Word to Mothers. The young are most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is a household specific for sore breasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

Significant Facts. This Ointment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scrofulic affections, and as the best possible remedy for all eruptions and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

Both the Ointment and Pills should be used in the following Cases: Bunions Lumbago Sore Legs Scalds Burns Mercutrial Eruptions Sore Breasts Swealed Glands Chapped hands Urticaria Sore Heads Stiff Joints Itchy eruptions Fleas Sore Throats Ulcers Fustular Rheumatism Sore of the Tail Hemorrhoids Gout Salt Rheum Glands Wounds of all Skin Diseases Sprains kinds
