#### BUCHANAN AND KANSAS.

Notwithstanding that every Governor of Kansas thus far appointed has not been able to reconcile the frauds practised there to his sense of duty, the administration at Washington it is alleged still continues to uphold the infamous perpetrators of these wrongs. First Reeder was removed to gratify some violent slavery propagandists, then Geary, and now Walker, who accepted the appointment by special request of the President, has fallen under the displeasure of that functionary because he had the manliness to expose the villains who had attempted to manufacture election returns where there were no voters, and because he contends that it is democratic to submit the constitution to a vote of the people. There is evidently trouble brewing among the democracy on this question, as many influential presses in the north and west are taking strong ground against the despotic power attempted to be exercised by a convention elected by fraud and thus far supported by the general government. Had that body agreed upon a proper constitution and submitted it to the people for adoption, there would have been an end of all contention on the subject; but if not rejected by Congress, the probability is that the people there will rise in their might and form a government in accordance with our institutions and the principles of liberty we profess. Between blundering into a winter campaign into Utah, and upholding those who seem determined to rekindle the flames of civil war in Kansas, the administration is likely to have its hands full.

Capt. R. V. Maclay, who was a passen ger on the steamer Galveston at the time of lowing statement of the condition of the jost ships. Many of the passengers rescued from | ing rowdies of any nation in this country. the Opelousas had their clothing and contents of pockets stolen.

Statement of Capt. R. V. Maclay, U. S. A. I was a passenger on board the Galveston. I was on deck about an hour and a half before the collision; saw no one there, though I went forward as far as the foremast. The wind soon freshened, and I went to the wheel-house to see by the compass what direction it came I went quietly to look at the compass, when I noticed the man at the wheel leaning forward over it, with his arm slung loosely over one of the handles and his other hand holding to the wheel. I thought at the moment he was leaning over to look at the compass, but on walking aft I began to fancy he might be asleep. This idea disturbed me, and on going below I did not retire till I saw an officer go up. I feel quite certain now that the man at the wheel was asleep. After the collision took place, I went on deck, where I heard the captain giving orders to launch the boats. The Opelousas was then about forty yards off, and we were drifting from her. nt to the forward life boat, which was swung up with block and tackle. There were but two or three others who went with me to the boat, and we few could do nothing with it There was only one oar in it; and the other oars being called for, were not to be found. The after life boat was subsequently launched.

The Edinburgh Review for October, completing that work for the year 1857, is open our table. The contents of the number are as follows:-Spedding's Complete Edition of the Works of Bacon; Napier; The Mediterranean Sea; Henry Martin's History of France; Landed Credit; Lives of the Chief Justices of England; The Highlands-Men. Sheep, and Deer; Harford's Life of Michael Angelo, and the Indian Mutiny.

The advices from Central America are important, under the present circumstances War had been officially declared between Nic aragua and Costa Rica, and President Martinez, of the former republic, was preparing to place himself at the head of the army. His proclamation announces the determination to maintain the right of the republic to the territory claimed by and now in possession of Cesta Rica. Col. Cauty had possession of the river and lake steamers. No important operations have yet been undertaken by either party. In the other Central American republies there was no news of importance.

A House Eighteen Feet Under Ground .-During the excavation of a street in Evansville, Indiana, last week, the workmen came across the remains of a cabin, eighteen feet below the surface of the earth. This wonderful subterranean house was about twelve feet in length, formed by upright posts set in the ground, and boarded up with split oak puncheons, secured by wooden pins. The posts, puncheons and pins were partially dees ed, but still stuck together. Within the walls were found portions of an old fashioned spinning wheel, a wooden maul, several pairs of boots and shoes, and the identical charred stick which the former occupants of the house had used to punch the fire with.

Some of the democratic papers are en gaged in manufacturing a cabinet for Governor Packer. Has Mifflin county no candidate for Secretary, Deputy, or something else?-Come out, gentlemen-don't be bashful.

The election for Mayor of New York came off on Tuesday last. Tieman, the candidate nominated in opposition to Wood, the present incumbent, was elected by from 1000 to 2000 majority.

John H. Houston, late a prominent knew nothing of Washington City, has been appointed to a \$1600 clerkship in the second Comptroller's office. It is said some of the old liners are beginning to kick at this kind of work by the President.

Some of the locofoco papers are crowing over the fact that Mississippi, Arkansas, and a few other southern States have no banks. They forget to add however when those states want to make a raise, they repudiate a few millions of public debt.

The Clearfield Republican issues a half sheet, and says if its bscribers don't pay up better, the editor will have to issue month ly, semi-monthly, or not at all. A number of other editors are also howling after money as if it was something more than trash.

The Harrisburg Telegraph and som other papers intend to test the Auditor General's conduct in cutting down the printer's bills for advertising. That officer we should judge is one of those who can strain at a gnat in a republican or American's bill and swallow a camel in a democrat's.

The Juniata Sentinel, in noticing the appointment of Robert E. Parker as Postmaster at Paterson, says if he attends to the "mails," as well as he does to the "fe-males," he will make a very attentive and efficient officer. The same thing may be said of some P. M.'s in this county.

George R. Glidden, Esq., formerly U. Consul at Cairo, in Egypt, and distinguish ed for his contributions to antiquarian science died at Panama on the 16th ult. Mr. Gliddon had been on a visit to Honduras, as agent of the Honduras Interoceanic Railway Company, and was on his way to the United States when overtaken by death.

SEND FOR IT .- The most superbly illustrated Magazine ever published in America is December number of the "Cosmopolitan Art Journal," containing over sixty splendid engravings, and giving full particulars of the benefits of the Cosmopolitan Art A-sociation, two dollars a year; single copies fifty cents. Specimen copies will be sent to all persons who wish to subscribe on receipt of five post age stamps, (15 cents.) See advertisement headed "Brilliant Prospectus" in this paper.

H. J. WALTERS, Honorary Secretary. Holloway's Ointment and Pills .- The chapter of accidents is one of the longest chapters in the volume of human suffering. In most hospitals, bruises, fractures, dislocations incised wounds, scalds, burns, &c., are looked upon as things to be experimented on for the benefit of broods of young students, previous to their debut as full fledged surgeons. The amount of unnecessary butchery in these institutions is enormous. At least 25 per cent. of the "operations" we read of are mistakes which might and ought to have been avoided. Dressings of Holloway's Ointment, and the lubrication of the injured flesh with that heal ing preparation, is positively all that is requithree-fourths of the cases where the amputating knife is now employed.

The last few months of his life were passed in great suffering; but his latter end, and the closing scene was in every sense peace. He was born in West Kishacoquillas Valley, in Mifflin county. About the year 1840, he moved with his father and family to the farm near Unionville. There has been the place of his residence, till his removal by death. He was a member of the Presbyteri an Church from early years of his life, and attended to its ordinances as often as distance and other circumstances would allow; he was a careful reader of the Bible ; he had his mind well stored with its precious doctrines and promises; he was a man of prayer, his manner of living was in accordance of the gospel, quite as much as pertains to Christians in this imperfect state.—Rellefonte

#### LOCAL AFFAIRS.

EMPLOYMENT FOR THE POOR .- We see it stated that in Montour county the Directors of the Poor have employed a number of persons who have been compelled, by the pressure of the times, to seek relief at their hands, in draining the sprouty meadows and other lands belonging to that establishment. The farm in this county has no such lands, but if there are other improvements that could be made, it would perhaps be advantageous to set men to work. There are however a number of farmers in all parts of the county, who might employ laborers in constructing drains and otherwise improving their farms, by which a large number could earn a few dollars a week, and at the same time render a return to the employer. Hundreds will have to be aided in some way before the winter is over, and to our mind such a mode would be far preferable to direct relief, both to the employer and employed, particularly as the most deserving poor are always the last to seek aid.

MIFFLIN COUNTY BANK .- A meeting has been called at Reedsville on the 15th December, for the purpose of considering the proposed application for a Bank charter, to be located at this place, under the above title. We have heretofore given our views at length on the present banking system, and recent events have but served to confirm them, namely, that no charter ought hereafter to be granted by the Legislature, unless state stocks or real estate situate in the county where business is proposed to be done, amply sufficient to redeem all the issues of such an institution, be mortgaged for the benefit of the noteholders. On any other ground we are teetotal-

NARROW ESCAPE .- A boy named David Jenkins, while skating on the river on Thursday last, broke in above the bridge, but fortunately caught hold of the ice, where he sustained himself until relieved. The water where he broke through was seven or eight feet deep, and had the ice given way where he held on, he must inevitably have been drowned. Another boy broke in near the bridge on Friday, though in shallow water. Parents ought not to suffer their children as yet to skate on the river, as although the ice in places is strong enough, there are many spots where it is thin and unsafe. The water also is so deep that rescue would be almost impossible, should any of them go down. P.S. Ice gone.

ESCAPE PROM JAIL .- Solomon Beck with, whose arrest for purloining money from a letter we noticed last week, escaped from the jail on Tuesday evening. He had been cutting wood in the afternoon in the jail yard, and was then either furnished with keys by an accomplice, or managed to the door of his cell and the yard gate. He is about 5 feet 7 or 8 inches high, rather round shouldered, spare face and sallow complexion. The sheriff we understand has offered a reward of \$20 for his appre-

FIRE.-An alarm of fire was raised on Thursday last by the roof over the boiler at Marks's steam mill catching fire, but it was got under before much damage was done by the Henderson Hose. The Juniata was also on the ground, but too late to be of much service. From the dense smoke which arose from the mill, a general impression prevailed that it was on fire, but this was soon relieved on approaching the

SOAP .- We accidentally omitted to mention last week the reception of a piece of fine soap from Bernard Reiley, who manufactures the article at his candle factory in Valley street. In appearance it somewhat resembles Castile, and is in every respect far superior to any of the same kind that can be procured in the stores.

REGISTER AND RECORDER.-Jos. S. Waream, Esq., took possession of these offices on Tuesday last, that being the day fixed by law. He succeeds Mr. M'Dowell who, during the six years he has held them. proved one of the most attentive and efficient officers ever elected-an enconium to which we hope the new incumbent will do

MORE THIEVING .- The slaughter house of Col. Wm. Butler was broken into on Friday night last, and about 75 lbs. sausage, 40 lbs. pudding and 50 lbs. pork taken therefrom. This was a daring theft, and must have been committed by some who do not steal from want. Some \$15 were also stolen at Mayes's on Saturday.

We notice that the wires have again been put in order through town, and a box fitted up in Cogley's for doing a telegraphic business, so that we shall soon be able to send and obtain "Hoopographs" without crossing the river. There is also a rumor that the line is to be extended to Bellefonte.

The business transacted at the Lewistown Station of the Pennsylvania Railroad in November was as follows:

### TEMPERANCE MEETING.

In accordance with previous adjournment, meeting of the friends of temperance was held in the Town Hall, on Monday evening, November 30th. Col. John Hamilton was appointed President pro tem., and F. J. Hoffman Secretary pro tem. The meeting was opened with prayer by Rev. William V Bowers

The Committee appointed at a previous meeting to draft a Constitution, submitted the following articles of association, which were adopted :

From a persuasion that the use of intoxicating liquor as a beverage is a very dangerous indulgence, which leads to great injury of personal character and usefulness, also to much crime and wretchedness in the community; and believing it to be a bumane duty, prompted by sentiments of benevo-lence and truth, that we should abstain from such indulgence ourselves, and also endeavor persuade others to abstain, we, who are thus persuaded, unite together for such a laudable purpose under the following name and articles of association, viz :

1. The name shall be The Lewistown Tem perance Association.

2. The object of this Association shall be to exert a healthful influence, so far as practicable, by every legitimate and proper means, against the use of intoxicating liquor

as a beverage.

3. In carrying out this object, we will indir dually and collectively abstain from all indulgence in the use of intoxicating li-quor, and we will moreover endeavor to difpriety of such indulgence, and will advise and eaution others against it as opportunity may allow, and as ability and time may justify and render feasible,

4. The officers of this Association shall be a President, Vice President, Secretary, and Treasurer, who shall be elected annually, and who shall discharge the duties which may be, and usually are, incident to such officers respectively.

5. Any person who shall sign these articles of agreement, (or the article herewith presented, entitled "Mutual Agreement,") shall be a member of this Association.

6. Any member who fails to conform t the regulations of this Association, (especially that embodied in the 3d article, in reference to personal abstinence from intoxicating li quer,) shall be first admonished by a com-mittee of two persons; but, if he shall continue to transgress, he will thereby render himself liable to a forfeiture of membership.

7. Meetings of this Association may called by the President at the request of three members, and the Association may adjourn to meet at any time it may resolve up-on; stated meetings shall be held quarterly, on the Thursday evenings of the regular Court Weeks, held in January, April, August and November-the annual meeting be ng that which occurs in November.

8. The funds of this Association shall be raised by collections at stated and other meetings, and by special effort, through a committee appointed, as necessity may require, and they shall be held by the Treasu-rer, and be disbursed by him as a rote of this Association may determine.

MUTUAL AGREEMENT. We, the subscribers, believing that the drinking of ardent spirits is, for persons in health, not only unnecessary, but injurious, and that its use is the cause of forming intemperate appetites and habits; and while continued the evils of intemperance can never be prevented-do therefore agree, that we will not, except as a medicine, in case of bodily infirmity, use distilled spirits ourselves, or procure them for our families, or provide them for the entertainment of our friends or for persons in our employment: and that in all suitable ways we will discountenance the use of them in our community. An election for officers was then had,

and resulted as follows:

President-Rev. William V. Bowers. Vice President-Samuel Comfort. Secretary-Capt. T. F. M'Coy. Treasurer-William Russell.

On motion, Messrs. Warner, Hoffman and Alter were appointed a committee to procure lecturers, and solicit signers to the

On motion, it was ordered that the members of the Association be furnished with copies of the "Mutual Agreement," in order to solicit signers to it.

Brigham Toung's Declaration of Indepen-nce.—Mr. Power, recently arrived at San ancisco, from Utab, says he had a conversation with one of the Mormon soldiers, an Englishman. He referred in bitter terms to the treatment the Mormons had received in Illinois and Missouri, reflected on the injus-tice and tyranny of the people of the United States, and said that the time was come to get even. He said they were on their way to neet Gen. Harney, to see what he was com "If he was coming peaceably we let him come, but if not we will drive him back," were the words used. Another Mormon, named Killion, an old man who lives about seven miles from Salt Lake City spoke bitterly against the United States, d nounced Judge Drummond and all the Federal officers, and rejoiced that the time had come when the Saints would be avenged on their enemies-that men were found who could face the enemy, and that Harney, with his 2500 men, never would enter Salt Lake City. He also stated that Gov. Brigham Young dered the people to prepare for war; that they should not sell emigrants anything; that they must lay up provisions; that the men and wo men must not dress up in store clothes any more, but that all must be saved to forward the cause of the Church against the common enemy—that the men must be content with buckskin instead of broadcloth, and have plenty of guns and ammunition. DECLARATION OF INDEPENDENCE.

On the 17th of August, passed through the city of Salt Lake. Remained only three or four hours. Had a conversation with a merchant -a Gentile-who stated that on the pre-vious Sunday, Brigham Young had declared, in the temple, that henceforth Utah was a separate and independent Territory, and owed no obedience or allegiance to any form of laws but those of their own enactment, and called upon the people to stand together and sup-port him in maintaining the cause of God and the Church. Was told that the house of Gilbert and Garrison had orders from Brig-ham to pack up and leave before the 1st of

#### A CARD TO THE LADIES.

Dr. DUPONCO'S GOLDEN FEMALE PILLS are infallible in removing stoppages or irregularities of the menses. These pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalleled success in every case, and he is orged by many ladies who have used them to make these pills public for the alleviation of those suffering from any irregularities whatever, as well as a preventive to those ladies whose health will not permit an increase of family. radies whose hearin will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these pills, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any injury to health; otherwise these pills are recommended. #### "MIFFLIN COUNTY BANK." TAVING seen a notice for an application

to be made at the next Legis a Bank to be called the "Mifflin County Bank," and if the bill would be honestly drawn up as stated in the notice, we might be in favor of it; but the people in this country having suffered so much by banks, ought to try to prevent any bill from passing without having it well secured as to the note holders. We would therefore recommend to the people to meet at the house of William Brothers, in Reedsville, on TUESDAY, the 15th of December, at 12 o'cleck, M., to adopt such measures as will secure the passage of a bill, on such principles as will be satisfactory to the public.
