PRESIDENT'S MESSAGE.

We had made arrangements for the publication of a part of the message this week, but one of our hands having pied a portion of it, we give a synopsis of its contents, for which we are indebted to the Harrisburg Telegraph, and shall publish the whole next week:

The President says that, owing to the monetary derangements of the country, a government loan may be required before the close of the present session! The fione of extravagant expansion in business followed by ruinous contractions. The Federal Government cannot do much to provide against the recurrence of existing evils; he must rely mainly on the patriotism and wisdom of the States, which should afford a real specie basis for our eirculation. He recommends the passage of a bankrupt law applicable to all the banking institutions of the country.

As Great Britain and the United States understand the Clayton and Bulwer treaty in a sense directly opposite, he says the wisest course is to abrogate it by mutual consent and commence anew. The overtures for the adjustment of the difficulty recently made by the British Government were in a friendly spirit, which the President cordially reciprocated.

With all other Governments, except Spain, our relations are as peaceful as we

It is the President's purpose to send out a new Minister to Spain, with special instructions on all the questions pending between tho two Governments, and with the determination to have them speedily and amicably adjusted if possible.

While our Minister to China has been instructed to occupy a neutral position in regard to existing hostilities at Canton, he will cordially co-operate with the British and French Ministers in all peaceful measures, to secure by treaty stipulations those just concessions to commerce which the nations of the world have a right to expect, and which China cannot be permitted to

Our difficulties with New Granada are, it is hoped, in a fair train of settlement, in a manner just and honorable to both par-

The United States are more deeply interested than any other nation in the preservation of the freedom and security of all the communications across the Isthmus of Central America, including Panama. He recommends the passage of an act authorizing the President, in case of necessity, to employ the land and naval forces of the country to carry into effect this guarantee of acquire an interest by treaty.

The President condemns the lawless expeditions fitted out against independent Republics on this continent, and commends the whole subject to the serious attention of Congress, believing our duty and interest, as well as our national character, requires that we adopt such measures as will be effectual in restraining our citizens from committing such outrages.

The President says, that the Kansas Constitutional Convention was not bound by the Kansas and Nebraska act to submit any other portion of the Constitution to the | ified to appreciate it. election of the people, except that which relates to the domestic institution of slavery. The election will be held under the legitimate authority, and if any portion of the charm which attaches to living things, yet the inhabitants refuse to vote, a fair opportunity to do so having been presented, this will be their own voluntary act, and they alone will be responsible for the consequen-

The President says that the rebellion in Utah is the first that has ever existed in our territories, and humanity requires that it should be put down in a such a manner the only symptom of illness, however, is as that it shall be the last! In order to an incessant lowing from the commencedo this it will, he says, be necessary to ment of the attack until the animal lies raise four additional regiments of troops.

He recommends the establishment of a territorial Government for Oregon, and commends to the friendly consideration of Congress the subject of the Pacific Railroad, without finally committing himself to any particular route.

He next calls special attention to the recommendation of the Secretary of the Navy in favor of the construction of ten small steamers of light draught.

The Palo Alto Rolling Mill at Pottsville, Pa., resumed operations last week. The Paterson, N. J., Iron works are again in operation.

On Thursday last, an Irish girl, named Kennedy, while walking on the track of the Mount Carbon Railroad, was run over by a coal train near Pottsville, Pa., and literally torn to pieces.

from erysipelas for some time.

Proceedings of Congress.

In the Senate yesterday the discussion of the Kansas question was opened by Mr. Douglas, the Senate chamber being crowd-

He denounced the message as containing a radical and fundamental error, but excuses the President on the ground of his absence from the country when the Kansas-Nebraska bill was passed, and had not comprehended the question nor the circumstances under which the bill passed.

He maintained that he could not endorse the Lecompton Convention without violanancial history of the last forty years is ting the principles of the bill and stultifying himself.

He turns the argument of the message against the President, and says that nothing will satisfy him but allowing the people to decide on all questions pertaining to their

He insists that the questions pertaining to the institutions of white men, the judiciary, school, taxation, franchise, &c., are as important as those pertaining to the negro, and there is no reason for making an exception in favor of the negro.

He denounces, in unmeasured terms, the Lecompton proceedings.

His speech has created great excitement.

Dr. Jacob Forney, Superintendent of Indian Affairs for the Territory of Utah, has written a letter to the Indian bureau, dated Fort Laramie, October 26, 1857, in which he states that the troops would leave there on the evening of that day, and that he and his party would follow on the morrow. He says that they met no hostile Indians between Fort Laramie and Fort Kearney. A report had reached him that a portion of the Utah Indians are Mormons. and that Brigham Young boasts that he has several Indian tribes in his service and ready to take up arms against the United States. The doctor says that, in the course of a few weeks, he will know the truth of

A correspondent favors us with the following notice of the excellent periodicals

The British Reviews and Blackwood's

Republished by Leonard Scott & Co., 79 Fulton St., N. Y.
To those who read any or all of the above mentioned foreign periodicals, so argument is necessary to show their great value, not alone to the statesman and philosopher, but also to the man of culture and the rhilanthro pist. The subjects discussed in the course of a year, embrace almost every topic of interest thoughtful minds. But this alone would be small recommendation, for not what is written upon, but what is written, is the matter of moment. Anybody can write on a great variety of themes, but only wisdom writes words to be remembered. This is the crowning excellency of the Reviews and Blackwood,—every article shows the skillful hand, and if the sentiments are not always correct, they are stated with liquid clearness neutrality; and also recommends similar so that their errors can be detected. We know legislation for the security of any other of no other cotemporary literature so uniformly excellent as this which makes up these peroute across the Isthmus, in which we may riodicals. Without pedantry, it is full of learning; without turgidity, it is eloquent and charming: without bluntness, it is clear and Those who write for these periodicals seem to be men of marked ability and ripe culture, upon whose minds knowledge has produced its most appropriate effects,—im-parting vigor, guided by taste; giving enlargement of views, with the genius of hu-

> Of course, we speak generally. There are articles which possess slight interest for the majority of American readers, being discussions of local matters, or customs and principles not familiar, or relating in any way, to us. Doubtless, some of the articles contain sentiments which will not obtain universal assent, but, as a whole, any one or all of them offer an intellectual feast to him who is qual-

> One thing should be kept in mind. He who procures these may be sure of their permanent value. The large majority of the publications of to-day are only of passing in terest and worth. These, while possessing centain wealth that one will not be willing to ose-a value that belongs to the future as well as to the present.

> The Santa Fe Gazette says that New Mexico is now without a Governmentthe Governor, Secretary, and Chief Justice, having all gone to the States.

> The Wilmington, (Del.) Journal states down to die.

degree: viz Simon Green and William Williams. The former has been respited by the Governor without date, and the latter awaits his sentence. Both of the prisoners are in the enjoyment of excellent health.

Dr. Charles T. Jackson, of Boston, has had conferred upon him by the King of Prussia the cross of Chevalier of the Red Eagle, in token of appreciation of the services which he has conferred upon huof anæsthesia by ether. This is the fourth order of merit which he received for the cause, besides one gold medal.

Balling CARP, aged 20 years.

In Harrisburg, on the 6th inst., LAURA FRANCES, only child of F. W. and Ruth Boley, aged 13 years. cause, besides one gold medal.

Grashoppers are again making appearance in Western Texas. date of the latest advices from San Antonio, they were devouring all the vegetables before them. Having reached San Wm. H. Wetmore cut his throat at the resiednce of his parents in Broadway, N. Y., early on Saturday morning, and died the second them. Having reached San Marcos, they devoured a Rye field in two hours. The Austin Intelligencer says that these "locusts," as it styles them, in a few hours. He had been suffering made their appearance in that region two years ago.

Life in Texas-Bloody Family Fend. We take the following from the Galveston (Texas) Civilian of the 10th inst. It discloes a terrible state of society in some of the

Western counties of Texas: Ownsyllle, Robertson county, Texas, October 27, 1857.—To the Editors of the News:

—For some time past the quiet of this community has been disturbed by two acts in a tragedy, which seems still incomplete. A dispute had arisen between two brothers by the name of Langford, residing near each oiher, in the upper end of this county, rela tive to some property, valued at not more than thirty or forty dollars, in the possession of Champ Langford, which was claimed by his brother Henry as belonging to his (Hen-ry's) wife. On Monday, September 31, a party, consisting of four persons, viz: Henry Langford, his son William, David Melton, and George Bates, left the house of Henry Langford for the purpose, according to their statement, of going into the woods to hunt for a yoke of oxen. They were all armed, and probably expected a difficulty. When they reached the the house of Champ Langford, battle ensued between the above mentioned party on the one side, and William, a son of Champ Langford, and Nick Tubbs, nephew of the two elder Langfords, on the other .-

carrying with them their wounded comrades, and leaving their dead on the ground.

The wife of Champ Langford, her daugh ter-a young lady about fifteen years of age -and a Doctor Purse, were arrested as access sories. The evidence being conclusive of their innocence, they were all acquitted.— Tubbs and young Langford surrendered them-selves to the authorities and were held to bail for their appearance at the next term of the District Court. Bail was readily given and the two boys set at liberty.

Saveral shots were fired; Melton was killed on the spot, and Henry Langford dangerously

of age-were victorious; the others retreating.

wounded.

The two lads-each about 18 years

On Monday the 5th inst., just two weeks after the first affair, Champ Langford and Tubbs had been at Owensville and were returning home, when they were both shot from their horses, near the head of a dug out, evi dently by a person who was lying in ambush for that purpose. Langford was killed, and Tubbs shot with one buckshot in the right temple and another above the ear, both trating the brain, and the first completely

destroying vision. The bodies were found about an hour and a half afterward by the writer, on his return from visiting a patient, lying on the roadside, nearly two miles from any house, and both apparently dead. The sun had been down some time, and it was beginning to grow dark, so it is not difficult to imagine what were his feelings. Tubbs was breathing, but seemed entirely insensible to what had occurred; his answers to questions were inco herent and unsatisfactory. He will probably recover, with the loss of both eyes.

Wm. Langford, a nephew of one and cousin to the other, is the supposed perpetrator. He is still at large, and has thus far baffled the vigilance of those engaged in attempting his arrest. Henry Langford is slowly recov-Yours, &c., II. C. G.

Among the game brought in at a hunting match out west, were 63 wild gecese, 6 wild turkeys, 66 ducks, 95 squirrels, and 12

Catholic Priest Burned to Death .- Father McCabe, a well known Catholic priest, was burned to death at Malone, N. Y., while lying in his bed, on the 24th inst., owing to the clothes which covered him taking fire. The fire was confined to the bed room, and nothing was known of the lamentable affair until next morning, when his body was discovered by another priest, who had slept in an adjoining

Influenza, and Common Cold, like thieves in the silence of the night, have carried many to the silent grave. They are caused by a sudden check of perspiration, by which the stomach is rendered inactive, and the lungs become loaded with corrupted matter which enters the blood, and disease is the result -For all colds, coughs and chills, succeeded by heat, and for all fevers of every form, hoarseness and rawness of the throat, lungs and stomach, and for all weakness and sickness of every kind, from three to five of these pills going to bed, for a few days, will b that you require to restore you to perfect health. It has been admitted and claimed all over Europe, that there never "was a medicine that will extirpate all manner of disease from the system, equal to Dr. Morse's Indian Root Pills;" that the more you take them the stronger you grow. They are founded upon the principle that the human body is subject to but one disease, namely : corrupt humors. These pills not only cleanse the bowels, but also follow the blood through every vein and artery, and so purify it from all morbid and corrupt humors, that disease of every name is driven from the body.

Great Female Medicine .- Females who value health should never be without these pills. It has been admitted by a number of physicians that females cannot too highly value They have given health and spirits to hundreds of females who without them would have been in their graves. They purify the blood, remove obstructions, and give the skin a beautiful, clear, healthy and interesting appearance. A box of these pills is a great medical companion at certain periods. From one to three should be taken every day until that a disease affects cows in that State; relief is obtained. A few doses occasionally, when well, will keep the system in a healthy condition. Dr. Morse's Indian Root Pills are sold by all dealers in medicines.

SEND FOR IT .- The most superbly illustra-The Harrisburg prison now contains two ted Magazine ever published in America, is persons convicted of murder in the first the December number of the "Cosmopolitan Art Journal," containing over sixty splendid engravings, and giving full particulars of the benefits of the Cosmopolitan Art Association, two dollars a year; single copies fifty cents. The late Stephen Girard, of Philadelphia, when surrounded with immens wealth, and supposed to be taking supreme delight in its accumulation, wrote thus to a friend: " As to myself, I live like a galley-slave, constantly occupied, often passing the night without sleeping. I am wrapped up in a labyrinth of affairs, and worn out with care. I do not value for-tune. The love of labor is my highest emotion. When I rise in the morning my only effort is to labor so hard during the day, that when night comes I may be enabled to sleep soundly."

DR. MORSE'S

nadiya boda bitts" DR MORSE, the inventor of Morse's Indian Root Pills.

D has spent the greater part of his life in traveling, hav-ing visited Europe. Asia and Africa, as well as North America—has spent three years assong the ludians of our Western country-and it was in this way the India Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all discuses arise from im-purity of the blood—that our strongth, health and life de pended upon this vital fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood cases its action, becomes thick, corrupted and diseased, thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant be more, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that plants and rosts which grow around the mountainous chiffs in Nature's garden, for the b-alth and recovery of diseased man. One of the roots from which these pills are made is a sudorific, which opens the pores of the skin corruption within. The second is a plant which is an expectorant, that opens and unclogs the passage to th lungs, and thus, in a soothing manner, performs its duty by threwing off phiegm and other honors from the lungs by copious spitting. The third is a diaretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountfully by the urina-ry or water passage, and which could not have been dis charged in any other way. The four h is a cathartic, and accompanies the other properties of the pills white en-gaged in purifying the blood; the coarset particles of im-purity which cannot pass by the other outlets are thus taken up and conveyed off in great quantities by the bowels. From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the hody becomes so pure and clear. The reason why people are so distressed when sick, and why so many die, is because they do not get a meticine which will pass to the afflicted parts and which will open the natural passages for the disease to be cast out; hence a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass, thus undergoing disagreeable fermenta tion, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's Pills will add to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness— Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been acorched by the burning elements of raging fever, and who have been brought as it were within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not would have been numbered with the been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken they were a tonished, and absolutely surprised in witnessing their charming effects. Not only do they give immedist case and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.
