ring the debate the Southern wing of emocracy, led by Brown and Davis of sippi, Toombs of Georgia, Mallory of and others, came down on Buchanhile Crittenden, Seward and others ded him. We give an abstract of brown's speech, from which the demhere can see what they are expected vocate by their southern fire-eating

Brown (Miss) regarded it as a little lar that while the President disapproved arrest of General Walker, he at the time excused that act. The arrest of was in violation of the law, for if Paulding had a right to make the arrest. oduct is not only excused, but applaud-fibe had no legal right to do that act, the President owes it to the people and ntry to condemn it. If Walker was of any violation of the law, and had ested and brought back to our shores gitive from justice, why is he not put clutches of the law? Why was he to New York, placed in the hands of Marshal, and then brought here and ed to the Executive, and then set at

was he not carried back to Louisiana ame authority that arrested him, and out upon his trial on the charge of viothe law? This was a farce, being played the American people, which was dis-ble to all engaged in it. There had aped up this charge against Walker, they knew there had been no violation law. If they believe ke has violated they have been guilty of a dereliction in not punishing him for it. The fitof an expedition in violation of the ty laws was one thing, and the volunatriation of a citizen was an altogethent thing. If Walker went there git was his purpose to endeavor to re-erights of which he had been dispeshe did no more than he had a right te

Mr. Brown) had a right to take his upon his shoulder, and go and tell the Attorney, and Marshals everywhere, meant to wage war against Nicaragua, ther nation, and they would have no molest him. The was that the Administration were into punish what the law never meant punished, namely-the intent made ted States to fit out an expedition the limits of the United States, with from the slaveholding! purpose, towards the nation with we are at peace. He had as high rethe officers of the Navy as for any tizens. But if anything could bring ch and eternal disgrace upon the Navy, this precise course of action. First. der Chatard let Walker pass him, n, seeming to have a glimmering idea he had mistaken his duty, he undertook r neglect by resorting to mean and attempts to insult Walker in his camp, my with the intention of provoking him act, so that he might have an excuse upon him. Then Com. Paulding ap-, a man ripe of years, doing what every ows he has done, and which it was unary to recapitulate, and writing just letter as ought to affix eternal disgrace him. It was a disgrace to the very ttes on his shoulders. It was high time or naval officers should be confined to charge of their duties according to the there was too much disposition shown ed the law, by one and all of them .ald not help saying that the President have discharged his duty to the laws the best interests of the country, by y rebuking the lawless act of Pauldin by excusing it.

sould not do for the President to say ulding's act was a violation of the law, wink at it. No matter if Nicaragua complain. It was not for us to violate ws, when Nicaragua does not complain, ecute them when she does complain. uty is to go according to the law. If Paulding has conformed to the law. let on applauded. If not, let him be con ed. He admired the spunk of the Senaom Illinois, (Mr. Douglas,) in boldly ng his view heretofore, althoughe from every view uttered by that Senthe Kansas question.

SEWARD (New York), referred to the at the President announced in his meshat the arrest of Gen. Walker was withthority of law, but the question then p whether the officer who committed set should be censured or punished in way. First, on that point the President an excuse for Com. Paulding, which that the party who had been arrested, een indicted in the United States for an e against our laws, and failing to arrest on the high seas, the naval officer had sted them in the performance of the very they had meditated. Here were two parwho were delinquent. In the first place was a band of lawless men, whoshad ed the vigilance of the police and gone d to levy war, in violation of the laws United States, with a nation with whem

the other hand, there was an officer who, gh the excess of vigilance, had surpasinstructions, and had himself commitviolation of the law. He thought the ent had balanced this case with exact The President had censured the fuand while admitting the good intenof that officer, had also censured him lating the law. matter who may interfere, at home or abroad, he is determined to proceed in the prosecution of his design. If the honorable Senators insisted upon it, he was quite willing that censure should be passed upon Com. Paulding, but he must ask them in justice to mete out some punishment for this greater crime.

Suppose the President should punish Paul-

ding, and leave the others go unpunished, what is the lesson which will be learned from what is the lesson which will be learned from this affair? It is, that you may go out of the jurisdiction of the United States, and levy war against any nation with whom we are at peace, provided you can only escape the vigilance of the police on land—and if you shall be arrested after you commence your acts, although the State shall be grateful for the protection they receive, still the officer who makes the arrest shall be punished, and you shall not be oppressed. To be consistent they shall not be oppressed. To be consistent they should go further, and propose to restore Gen. Walker to the place from which he was taken, and if it was right to invade Nicaragua, it was equally right to invade New Grenada or Brazil, or any other South American State. Why should we punish the Pawnees or Apaches for committing depredations upon our citizens, and claim that our citizens shall go abroad with impunity and commit depredations upon the people of other States? If gentlemen think the principle is right, let them introduce a bill to repeal the neutrality

Douglas also coincided in condemning the President. It is but justice to Senator Bigler to say that he did not read all these Senators out of the party for differing with the President, having wisely said nothing.

Plain Talk .- Mr. Broderick, Democrat-U. S. Senator from California, in a speech in the Senate on the Lecompton Constitution, used the following plain language:

"When Gov. Walker and Secretary Stanton went to Kansas they found a state of insurrection existing there, and succeeded, with great labor, in restoring peace .-Now, he thought the President and his Cabinet were alone responsible for the recent out-breaks. This was the first time he had known the President to descend from his high position and attempt to coerce peaceable citizens to the will of illegal party men; he was sorry to disagree with his party, for he believed he had rendered as much service in the election of Mr Buchanan as any gentleman on this floor. He was also somewhat astonished at the forbearance of the people of Kansas toward the delegates to the Convention. If the people had flogged them, cut their ears off, and sent them out of the Territory, he for one would have applauded them for it. He would not make any extended remarks now, but if the Lecompton Constitution should ever be presented to the Senate, he might have something to say about it then.'

Sectional Cast of the Congressional Committees .- According to the last census, the white population of the Frce States is 13,404,734; while that of the Slave States is only 6,408,464. This disparity is much greater now; but in connection with the above figures even, let us see how the Congressional Committees are officered. In the House nine chairmanships are assigned to the free States and fifteen to the slave States. In the Senate there are but six chairmanships for the free States, to sixteen

On what preponderance and a corresponding superi- | claims against the same will present them le ority in wealth and national interests, we gally authenticated for settlement. are at a loss to understand.

The Wife of Seven Husbands .- A mysterious murder has recently occurred at Memphis. An Irish woman, known as Big Mary, the keeper of a boarding house is living with her seventh husband. Three of her former husbands and a son have met their death in her gloomy abode, and her other three husbands died by violence .-The other night the nephew of this singular woman was mysteriously murdered in the same house, where his remains were found by the police surrounded by some twenty of the inmates on their knees praying for the repose of his soul. The case is still involved in mystery.

# FARM FOR \$220. Great Western Land Agency.

A T the request of a number of my friends (since I have returned from Kansas A Territory and Missouri) who wish to secure a choice slice of the beautiful and fertile lands of the Great West, I have agreed to go out to the State of Missouri next month (February) to select and purchase lands for them, they paying me \$1,38 per acre or \$220 for 160 acres, good fands in advance. Applications have been made to me already for about 2000 acres, and in order to make it a paying business to me as well as for those I will purchase lands for, I wish to have about 5,600 acres engaged at the same rates. I will use my best judgment in making designable and valuable selections of land by personal observation—for any and all who will apply to me in time. I have spent the most of last Summer and Fall travelling in the West purchasing lands, &c., and very recently ascertained that there is yet considerable of the rich and valuable lands in several counties in Central Missouri, some of which join the Missouri. But it is being rapidly taken up and after the Spring migration sets in will doubtless soon become scarce, hence the necessity of securing it without design. Any and all persons who may wish to avail themselves of this rare opportunity to secure enough lay. Any and all persons who may wish to avail themselves of this rare opportunity to secure enough of the Broad Acres (the only sure and profitable investment) for a farm or two at the above cheap rates, and which will no doubt rapidly raise in value without further trouble and little expense, will please make the necessary arrangements as soon as possible. I will give security for your money until I produce the title papers or government certificates for the land if desired. All letters of inquiry, with post stamp enclosed, will be promptly answered by J. W. SMITH, N. Hamilton, Mifflin co. Newton Hamilton, Jan. 14, 1858.—3t.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case so sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold an other; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should

cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it. Some of the wholesale Druggists who have been in Some of the wholesale Digists with his business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a

iniversal praise of it from all quarters. In my own practice I always kept it strictly for humors but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I

never suspected. Several cases of epileptic fits-a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are few who have

cases of that awid manay—there are lew who have seen more of it than I have.

DR. HARDMAN treats Consumption. Bronchitis, Laryngtis, Asthma, and all diseases of the Throat by MEDICATED INHALATION.

The great point in the treatment of all human maladies is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased, we take medicine directly into the stomach. If the lungs are diseased, is based. If the stomach is diseased, we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into them.—The reason why Consumption and diseases of the Lungs have heretofore resisted all treatment, has been because they were not approached in a direct manner by medicine. They were intended to be local, and yet they were so additionally extended that they could only act constitutionally. They were intended to be local, and yet they were so au ministered that they could only act constitutionally, expending their immediate action upon the stomach, whilst the foul ulcers within the Lungs were unmolested. Inhalation brings the medicine into direct contact with the disease, without the disadvantage of any violent action. Its application is so simple that it may be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least with the strength comfort or husiness of the nation.

"NO SUCH WORD AS FAIL."

A RESISTLESS REMEDY.

# HOLLOWAY'S OINTMENT.

Circular to the Sick.

THE first hospital surgeons and medical publicists of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It pen-etrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutral-ize the fiery elements which feed and exasperate the

Rheumatism, Scrofula, Erysipelas. These are among the most terrible and agonizing di-eases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when seemingl; incurable, they invariably disappear under a persevering application of this soothing, healing antidote to pain and inflammation

Salt Rheum, Fever Sores, Stiff Joints. In cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopea, have proved usi-less, the Ointment will accomplish a thorough cure. Fe-ver Sores heal quickly under its isfluence, and its relax-

ing effect upon contracted sinews is truly wonderful.

Discharging Ulcers. A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applica-tions of this Ointment. The surrounding redness van-ishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly until the orifice is filled up with sound

material, and the ulcer radically cured.

A Word to Mothers. The young are most frequent sufferers from external injuries, and therefore every nother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces

of children. Significant Facts. This Ointment is universally used on board the Atlan tie and Pacific whaling fleet as a cure for scorbutic affect

tions, and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes. Both the Ointment and Pills should be used in

the following Cases: Bunions Lumbago Sore Legs Scalds
Burns Mercurial Er-Sore Breasts Swel'd Glands
Chapp'd hands uptions Sore Heads Stiff Joints
Chibblains Piles Sore Throats Ulcers
