There is but little of interest doing by our legislators at Harrisburg, most of the bills thus far reported being of a local character. Mr. Buckalew, who had heretofore enjoyed a high character, lately introduced a bill re-annexing the School to the State Department-a political trick entirely unworthy of him-as the sole object must have been to legislate Mr. Hickok, the present able Superintendent, out of office.

Mr. Straub read a resolution requesting the committee on Vice and Immorality to inquire into the expediency of amending the Liquor laws, which was briefly debated and negatived-yeas 12, nays 15, on the ground mainly that there was no necessity for the resolution, as the subject was before the committee by petitions referred to it.

The Kansas Election .- The official returns of the Kansas election, held on the 4th of January, confirm the triumph of the Free State party, they having elected all their candidates by an average majority of 415. The Senate stands 13 Free State men to 6 Democrats, and the House 29 Free State men to 15 Democrats. The majority against the Constitution on the 4th of January was 10,226—the alleged frauds committed in Oxford, Shawnee, Kickapoo and other places, being counted. Notwithstanding this general expression against the Lecompton Constitution, it is alleged that Mr. Buchanan's administration will use all its influence to admit Kansas

It is confidently stated in the diplomatic circles that a war between Mexico and Spain is inevitable. The latest advices from Mr. Dodge, our Minister to Spain, state that it is the generally received opinion at Madrid that Spain will shortly make a demonstration on Mexico, England and France to the contrary notwithstanding, and that active preparations to that end are now in progress. Intimations of Santa Anna's complicity in the contemplated invasion are also mooted. The government has sent stringent orders to the Captain General of Cuba to have the Spanish naval forces in America put at once in the highest state of efficiency.

LOCAL AFFAIRS.

THE CANAL - A number of hands had been set to work cleaning out the canal, but from some cause unknown to us nearly all have been discharged and the work discontinued. There are several applications for the collectorship at this place.

We learn that Mr. Hawn, County Superintendent, will open a Normal Class at McVeytown in the Spring, when those wishing to prepare for teaching will have a fine opportunity for acquiring that preliminary knowledge so essential to that pro-

Some sinner having anonymously requested Rev. Mr. Ross to preach a sermon "without a hell or devil in it," that gentleman, ever ready to gratify those who perhaps hope there is no such place as the foregoing or such a being as Old Nick, has signified his intention to deliver a sermon, as requested, in the Methodist church on Sabbath morning next.

MIFFLIN COUNTY BANK .- A bill has been reported in the Senate, and ordered to be printed, incorporating this institution, which is to be based upon real estate to be mortgaged for the benefit of noteholders. It is entirely different from ordinary bank charters, but whether it will meet with favor at the hands of our legislators and executive remains to be seen. In this county the expression in its favor is strong.

THE WEATHER continues to puzzle all classes, the oldest inhabitant included, the temperature of some days being nearly the same we had in June last. Farmers have been plowing in all directions, and more ground has probably been turned up in this quarter than ever before in the same month. Thus far this state of things has been extremely favorable to the poor, both on account of out-door labor and consumption of fuel, though it can hardly be considered as Arithmetic. favorable to the grain crop.

A correspondent calls our attention to the fact that on several occasions personalities have been indulged in at the Washingtonian meetings in the Town Hall, which to say the least were entirely out of place, and certainly not necessary to the cause advocated. All speakers can illustrate the subject of temperance without traveling beyond the record and introducing the names of persons who are neither in antagonism to the cause, nor at variance with the society. All men have their faults, and it will be time enough to throw stones when one can be found who is without them. So saith one present.

Religious .- Fifty six persons, a portion of those who professed the faith during the present revival in the Lutheran Church, became members on Sunday last, and with a large number of others partook of the holy sacrament. The meetings still continue to be held every evening, the people being evidently unwilling to bring them to a close. In the meantime we would call teen Philadelphia Banks, for the week end- the attention of the Trustees to the gangs of boys and young men who nightly congregate on the pavement in front of the church, behaving as only blackguards will behave, and at the close of the meetings obstructing people coming out of church and passing sneering remarks to females without protection. Fair words having failed in abating this scandalous conduct, it is time other measures should be taken.

> For the Gazeite MIFFLIN COUNTY TEACHERS ASSO-

CIATION. Mr. Editor-Permit me through your columns to make some mention of this organization, which held its second meeting at Milroy last week. We have attended several, Teachers' meetings in this county before, but none which equalled this either in the number of teachers, the attendance of the citizens, or general interest. Besides, the most un-bounded hospitality was manifested by the people of the town and vicinity towards the Teachers. They not only delighted them by their music and cheered them by their attendance at the meetings, but welcomed them to Amusing—The proceedings of meetings their homes and presented them with the best of fare. For these favors they shall ever be gratefully remembered by us. On the other hand we hope that our meeting may be the means of increasing the zeal of that generous people in the cause of popular education; and that ere long we may see a good Union school building in that town, well furnished and filled with competent Teachers, who shall impart to rich and poor alike a sound practi-cal education. By this means they would not only decrease the expense of instruction but increase the efficiency of their teachers. We would earnestly recommend to them a fair and honest investigation of the merits of Union Graded Schools. We also hope that the Teachers by this meeting may be filled with a stronger love of order, a more intense desire of improvement, and a greater interest in and a higher appreciation of their work. with pleasure the fruits of our mutual labors.

We cannot close this article without saying word in regard to the article of "Sigma in last week's paper. We agree with him that we want "Professional Teachers;" we burg; John A. Innes, of Northampton, and need men trained both in the theory and practice of teaching; we need men from our midst, acquainted with our wants, yet skilled in the remedy. Until the State Normal Schools are opened this want of trained teachers must be supplied by Associations, Institutes and Normal Classes. Let us have these in our midst, and do our best with them till our State midst, and do our best find.
System gives us semething better.

SATURDAY -- MORNING SESSION President in the chair; meeting called to Minutes read and approved

Mr. R. Thompson exhibited specimens of maps drawn by his pupils, which were exceedingly well executed, and reflected credit both to teacher and pupil.

The committee appointed to prepare a list of officers, reported the following: G. B. Penepacker, Pres.; A. M. Ingram and Miss Mary Stewart, Vice Prests.; G. W. Soult, Secy.; M. R. Thompson, Treas.; S. Z. Sharp, G. H. Swigart and W. J. Fleming, Executive Committee. On motion report adopted and the officers elected. The Committee on resolutions reported the following which were adopted.

Resolved, That the tone of feeling manifest ed during the present meeting of this Association, affords hopeful encouragement to the friends of Education.

2d. That the elevation of teaching, to the rank of a profession, depends entirely upon the teachers; and that they alone, who make themselves worthy, should be entitled to the claims of such a position.

3d. That the office of County Superintendency, has fully sustained the most sanguine expectations of the teachers, and friends of Common Schools in this county; and that much credit is due to the present incumbent for his energetic labors in elevating the standard of popular education in our midst.

4th. That we cordially invite, and earnestly request the hearty co-operation of all the teachers, directors and friends of education throughout the county, in advancing the object of this Association.

5th. That we recommend the formation of Teachers' Associations throughout the different townships, for the improvement of teachers, and the discussion of the various modes of teaching.

6th. That we heartily approve of the practice of singing in our schools, and recommend all teachers to devote some time to acquisition of the principles of vocal music. 7th. That this Association hereby tender its thanks to, and will ever remember with feelings of gratitude, the citizens of Milroy and vicinity, for their kindness and hospi tality shown in the entertainment of its

8th. That our thanks be extended to the officers of the past year, for the faithful performance of their duties.
