We learn from the Philadelphia Bulletin that Joseph S. Lovering, of Oakhill, Philadelphia county, having grown the Sorghum and brought the full force of has established that not only will the new HE has tried it in over 1100 cases, and never failed excane yield crystalized sugar, but that the process is so inexpensive as to make it very profitable, while the trouble and skill involved are, after certain simple preparations have been observed, actually no greater than what may be required in making any ordinary dish. IMPROVING OLD ORCHARDS. · Desirable as pears, cherries and plums are, we can hardly count on very large and constant supplies of such fruit. Our climate or soil is so unfavorable to their growth, or they are infested with so many insects and diseases, and require so much care, that few farmers can devote sufficient attention to their culture. The apple must be our main dependence; and it is no mean dependence either. Yet, strange to say, many orehards are treated with neglect. The trunks and limbs of trees are suffered to become mossy, the tops are allowed to grow up a dense mass of brush, and the fruit to remain of an inferior quality.

Now, there are few men who can really afford to keep such orchards. Why not break up the ground, and if it is not thought best to let it lie fallow, then give it a coat of manure and raise some kind of hoed crop upon it. If possible, mulch the roots of the trees with old straw or chips. Once a year, at least, scrub the trunks with wet lye or potash water to remove the moss and rout the insects which harbor there. Then as to pruning, there is enough to do, but it must be done in the right way. It will not answer to mount the trees with rough nailed boots and, axe in hand, hack away like a woodman felling a forest. Tread on the limbs carefully, so as not to start the bark. Use a fine-toothed pruning saw; thin out the branches so as to leave an open symmetrical head, and where large branches must be taken off, cover the wounds with grafting wax or a solution of gumshellac. If the fruit is of inferior quality graft in choicer sorts, beginning at the top and grafting only one-third of the tree each year. It costs no more to raise good kinds of fruit than poor; the satisfaction and the income are ten-fold greater .-American Agriculturist.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

Every Kind of Humor

In cept in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing Sore One to three bottles will care the worst kind of Pimple

on the Face
Two to three bottles will clean the system of Biles.
Two bottles are warranted to cure the worst Canker

Three to five bottles are warranted to cure the wors case of Erysipelas.

One to two bottles are warranted to cure all Humor in

Three to four bottles are warranted to cure the Salt

Five to eight bottles will cure the worst case of Scrof-

A benefit is always experienced from the first bottle
and a perfect cure is warranted when the above quanti ty is taken.

Reader, I peddled over a thousand bottles of this in the icenity of Boston. I know the effect of it in every case, so sure as water will extinguish fire, so sure will this are humor. I never sold a bottle of it but that sold an ther; after a trial it always speaks for itself. There orner; are two things about this herb that appears to me sur-prising; first that it grows in our pastures, in some pla-ces quite plentiful, and yet its value has never been own until I discovered it in 1816-second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great

popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six hottles per day—in April, 1854, 1850 over one thousand bottles per day of it. Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annuls of patent medicines was ever like it. There is a proposely trained in the proposely in the patents. uversal praise of it from all quarters

In my own practice I always kept it strictly for humors
-but since its introduction as a general family medicine,
treat and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was

lways considered incurable, have been cured by a few

atways considered incurance, have each cure by a tew bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liv-er, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side. Diseases of the Suine, and particularly Pain in the Side. Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has don more good than any medicine ever known. A several years ago, rendering it the more valuable, (as all well-informed druggists know that age improves it,) have been deposited at the drug store of Charles Ritz, in Lewistown, where they are offered for sale at three-fourths the regular price, namely 75 cents per bottle. It has been a well established fact for years past that Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of mercury, intoxicating drinks, evil habits in youth, barrenness, &c. We bold ly assert that JOHN BULL'S FLUID EX-TRACT OF SARSAPARILLA is the only preparation before the public that is prepared on strictly scientific principles and of uniform The sarsaparilla is purchased without regard to price, and every pound, before being used, is subject to the strictest chemical tests, and its genuineness ascertained before being used. HIGHLY IMPORTANT TO FARMERS. M. M. FAXON'S

Attachment of Vulcanized India Rubber Spring to the Tubes of Grain Drills. Till Eundersigned, having perfected an arrangement for the attachment of a Gum Spring to the Tubes and Drag Bars of Grain Drills, is happy to inform Farmers and all others interested in the growing of Wheat and other grains, that he is prepared to furnish GRAIN DRILLS, with the above article attached, at the shortest notice, at his Foundry, in McVeytown, Pa. Seeders have become an almost indispensable article to the Farmer, and he will find that the attachment of the Gum Spring will enhance its value at least one-half. All the deten tion and trouble caused by the breaking of wooden pine is entirely done away with by this arrangement, and a man, or boy, can perform nearly double the labor that he could under the old plan, with much greater ease, both to himself and horses. There need be no fear of the Spring breaking, for if there is an article that will neither break rot, or wear out, the Gum Spring is that article, and I hazard nothing in saying that my Grain Drill is the simplest in construction, most economical in performance, and therefore the most durable ever offered to the agricultural public. The feed is so arranged that it will sow 1, 1\frac{1}{4}, 1\frac{1}{2}, 1\frac{1}{4}, and 2 bushels per acre. Persons desiring one for the coming seeding are requested to send in their orders as early as possible. Direct to McVeytown, Mif-flin county, Pa., or F. G. FRANCISCUS, Lewistown; E. L.
