Pickling Sweet Apples.—Here is something we know to be good: To one half peck sweet apples make a syrup of 2 lbs. sugar and 1 pint of vinegar. Boil the apples in this syrup until tender; then remove them, and make a new syrup of 21 lbs. of sugar and 1 pint of vinegar. Add one teaspoonful of cloves and one of cinnamon tied in a bag. Let the syrup boil 15 or 20 minutes; then pour it while hot over the fruit. The first syrup is good for other sauces.

Pumpkin Preserves .- The following is home-tried and proved: An excellent and economical sweetmeat is thus prepared :-To 7 lbs. of pumpkins take 5 lbs. of sugar, 4 lemons, and 2 oz. of green ginger root, to be obtained at most grocer's stores. Cut the pumpkin in slices half an inch in thickness, and in size and form to suit the fancy. Boil the pumpkin in the syrup until ten-der. Then remove it and add the lemons and ginger root. These should be sliced thinly and scalded before being put into the syrup. Boil it down until it is rich enough to keep without fermenting, and then pour it over the pumpkin. If the ginger root cannot be obtained, lemons alone impart to it an agreeable flavor.

Cakes .- Mrs. L. A. Mitts, of Black Hawk county, Iowa, contributes the following two recipes:

Soda Cake, one loaf .- Beat together slightly one egg and one teaspoonful of dry sugar. Mix well with one teaspoonful of soda dissolved in a teacupful of sweet milk, 2½ tablespoonsful of melted butter, 1 pint of flour measured and then sifted, 2 teaspoonsful of cream of tartar, and extract of lemon to suit the taste. Bake quickly in a basin in a hot oven. [A recipe very nearly like the above has been used in our family for a long time, and is much liked. A smaller quantity of butter will suffice, unless a rich cake is desired.]

Cream Cake .- Three teacupfuls of sugar, 3 of thick sour cream, 5 eggs beaten, even teaspoonsful of soda and 2 of salt. Mix well with flour enough to make a batter, flavoring to the taste. Bake quickly in two three-pint basins, or in patty pans. -American Agriculturist.

ERROR IN THE TREATMENT OF HORSES.

When a horse shies or sheers at some unaccustomed object, which all young horses will do, never speak sharply, or worse than that strike him, if you would avoid his starting the next time he sees the same or a similar object. Almost any horse may be brought to a confirmed habit of shying by such treatment. What should be done then? Check him to a walk; give him time to see the object, and he will soon take little or no notice of it. If a horse stumbles or trips, it is a common practice to strike him for that. This will not mend the habits of tripping and stumbling, but will add to them, if he has spirit, that of springing forward with dangerous quickness whenever it occurs, as he will expect the lash to follow as a matter of course. The remedy, if it can be called one, is to keep an eye upon the road, and where the falling is apprehended, from stones or unevenness, tighten the reins and enliven the horse never strike him after the accident. As you would save the wind and strength of your horse drive him slow up hill, and as you would save his limbs at drive him slowly down hill. Never wash off your horse with cold water when he is hot, or let him drink freely in that state. If the water is quite warm it will not hurt him. Do not permit the smith when he shoes your horse to cut out any of the soft part, or what is called the frog of the foot. This is apt to gradually draw in the hoof and cripple the animal, and is recommended only by the smoother appearance which it gives to the bottom of the foot, which is more apt to catch a round stone in the foot than otherwise. Do not feed with grain, especially corn, when a horse is warm or very much fatigued; if you do you may founder and ruin him. Do not keep a horse too fat or too lean, as either disqualifies him for hard labor. The more kindness and good temper extended to a horse, the better he will behave in retarn. temper and bad habits come gradually from

A Cellar 'Up Stairs.'-H. A. Sheldon, of Middlebury, Vt., recommends to those without the conveniences of an underground cellar, the following substitute:-Take a box of any convenient size and set it within another of similar form but large enough to admit a layer of dry sawdust four or five inches in thickness to be closely packed between the two, both at the bottom and sides. There may be a cover on both boxes, or only one on the outside box. In a room having fire by day, such a box will keep vegetables enough for a small family during a month or so, which will be a great convenience to those living at a distance from market. In very cold weather the box may be left open during the day. It will also do for a summer ice chest, by putting the ice in some water-tight vessel .-American Agriculturist.

THE GREATEST MEDICAL DISCOVERY

OF THE AGE. DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

Every Kind of Humor

from the worst Scrofula down to a common Pimple.

HE has tried it in over 1100 cases, and never failed ex cept in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing Sore

One to three bottles will cure the worst kind of Pimple on the Face
Two to three bottles will clean the system of Biles.

Two bottles are warranted to cure the worst Canker in the Mouth and Stomach.

Three to five bottles are warranted to cure the worst

case of Erysipelas.

One to two bottles are warranted to cure all Humor in the eyes.

Two bottles are warranted to cure Running of the Ears and Blotches among the Hair.
Four to six bottles are warranted to cure corrupt and

unning Ulcers.

One bottle will cure Scaly Eruption of the Skin. Two to three bottles are warranted to cure the worst Two to three bottles are warranted to cure the most

desperate case of Rheumatism.

Three to four bottles are warranted to cure the Salt

Five to eight bottles will cure the worst case of Scrof-A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quanti-

ty is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold an other; after a trial it always speaks for itself. There

18 90 are two things about this herb that appears to me sur94 75 prising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should known until't discavered it in 1840—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six hottles per day—in April, 1854, I sold over one thousand bottles per day of it. Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the

annals of patent medicines was ever like it. There is a universal praise of it from all quarters In my own practice I always kept it strictly for humors -but since its introduction as a general family medic great and wonderful virtues have been found in it that I

neversuspected.
Several cases of epileptic fits—a disease which was always considered incurable, have been cared by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are few who have seen more of it than I have.

seen more of it han I have. I know of geveral cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done 10 44 more good than any medicine ever known. No change of diet ever necessary-eat the best you

get and pignty of it.
DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over 16 years, dessert spoonful—Children from 5 to 8 years, tea-spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

We have drawn and sent to pur chasers 183 gold watches of various prices, 74 purses of gold dollars, 238 gold lockets, 850 gold chains, and a eor responding number of other prizes, within two months.

There are no Blanks,

but every purchaser draws a prize worth \$2 certain, and but every purchaser draws a prize worth \$2 certain, and it stands thousands of chances to be a higher figure.

We want a good agent in every neighborhood throughout the country to solicit purchasers, and any agent to be successful must have a pencil and prize to exhibit. We pay agents \$1 cash for each purchaser they obtain, and the first person in any neighborhood who applies for a pencil and gift will receive the agency for that locality. Should an agent obtain a valuable prize to exhibit with his pencil, he would have but little difficulty in obtaining scores of purchasers and making it a paying business. A NEW IDEA! READ! BEAD!

We ask nobody to send their money till they know what prize they draw. Any person wishing to try thei luck, can first send us their name and address, and we will make their drawing and inform them by return ma the pencil and prize, or not, whichever they choose. give this privilege only once to a purchaser. After the first drawing every purchaser will be required to send in advance, through the authorized agent. the drug store of Charles Ritz, in Lewistown, where they are offered for sale at three-fourths the regular price, namely 75 cents per bottle. It has been a well established fact for years past that Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of mercury, intoxicating drinks, blood, the use of inchargements, &c. We bold evil habits in youth, barrenness, &c. We bold ly assert that JOHN BULL'S FLUID EXTRACT OF SARSAPARILLA is the only preparation before the public that is prepared on strictly scientific principles and of uniform strictly. The sarsaparilla is purchased without regard to price, and every pound, before being used, is subject to the strictest chemical tests, and its genuineness ascertained before being used. Bull's Sarsaparilla also contains the virtues of several other valuable medical roots, together forming the best compound, and producing the greatest curative agent in the known world! This medicine, when used ac cording to directions, has cured
