The Greatest Improvement of the Age! THE YOUNGAMERICA

#### THE GREATEST MEDICAL DISCOVERY OF THE AGE.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

### Every Kind of Humor

from the worst Scrofula down to a common Pimple. H E has tried it in over 1100 cases, and never failed ex-cept in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston. Two bottles are warranted to cure a nursing Sore

the eyes. Two bottles are warranted to cure Running of the

Ears and Blotches among the Hair. Four to six bottles are warranted to cure corrupt and

unning Ulcers. One bottle will cure Scaly Eruption of the Skin.

Two to three bottles are warranted to cure the worst case of Ringworm. Two to three bottles are warranted to cure the most

esperate case of Rheumatism. Three to four bottles are warranted to cure the Sal

Rheum. Five to eight bottles will cure the worst case of Scrof

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quanti-

ty is taken. Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold an other; after a trial it always speaks for itself. There are two things about this herb that appears to me surorising; first that it grows in our pastures, in some pla ees quite plentiful, and yet its value has never been known until! discovered it in 1846—second, that it should

known untri viscovered in the sudden rise and great order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it. Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters

In my own practice I alwayskept it strictly for humors -but since its introduction as a general family medicine,

great and wonderful virtues have been found in it that I never suspected. Several cases of epileptic fits-a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady-there are few who have

cases of that award manage there are ter with have seen more of it than 1 have. I know of several cases of Dropsy, all of them aged people, cured by it. For the various discases of the Liv-er, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Discases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more growthan any medicine ever known.

reached the extreme limit of our territorial extension, striking westward from the Missouri valley." The eastern slope of the Rocky Mountains is bounded by a "vast extent of rainless plains." Between these plains and the head waters of the Missouri lie the very remarkable deserts above named-a formation found in Central and Northern Nebraska, in Western Kansas and Arkansas. This formation, belonging to the age known by geologists as the Early Tertiary, is described as "a basin of fossil cemeteries, sinking nearly two hundred feet below the adjacent surface," and covered with "an infinite series of minaret-looking peaks, some jutting up two hundred feet.' The fossil remains here found indicate that this region was inhabited by gigantic animals, vastly superior in size to those of the age of the mastodon and the mammoth; and differing in their specific character, not only from these and all living animals, "but also from all fossils obtained from contemporaneous geological formations." At the time these monsters lived in what were the tropical forests of this region, there were but a few islands where are now the continents of what we call "the Old World ;" while our Atlantic coast, up to the base of the Alleghenies, was submerged beneath the ocean.

Professor W. maintains that the fossils of this region demonstrate the fact of a specific creation and extraction of races; and "that the members of this creation are | make a deduction of united by no lineage with periods that proceed and follow them."

#### HIGHLY IMPORTANT TO FARMERS. M. M. FAXON'S

Attachment of Vulcanized India Rubber Spring to the Tubes of Grain Drills. THE undersigned, having perfected an arrangement for the attachment of a Gum Spring to the Tubes and Drag Bars of Grain Drills, is happy to inform Farmers and all others interested in the growing of Wheat and other grains, that he is prepared to furnish GRAIN DRILLS, with the above article attached, at the shortest baches, whit has foundry, in McVeytown, Pa. Seeders have become an almost indispensable article to the Farmer, and he will find that the attachment of the Gum Spring will enhance its value at least one-half. All the deten tion and trouble caused by the breaking of wooden pins is entirely done away with by this arrangement, and a man, or boy, can perform nearly double the labor that he could under the old plan, with much greater ease, both to himself and horses. There need be no fear of the Spring breaking, for if there is an article that will neither break, rot, or wear out, the Gum Spring is that article, and I hazard nothing in saying that my Grain Drill is the simplest in construction, most economical in performance, and therefore the most durable ever offered to the agri-cultural public. The feed is so arranged that it will sow I,  $1\frac{1}{2}$ ,  $1\frac{1}{2}$ ,  $1\frac{3}{2}$ , and 2 bushels per acre. Persons desiring one for the coming seeding are requested to send in their orders as early as possible. Direct to McNeytown, Mif-flin county, Pa., or F. G. FRANCISCUS, Lewistown; E. L.
