trimmed according to taste, being careful to remove the old wood and that which may have been killed by the winter. The proper time for trimming roses and shrub-bery is in the latter end of March, after the frosts are over and the buds begin to swell, as you can then see what has been killed by the winter. And here I would remark, that the best method of preserving tender roses, is-where it can be done and the wood is not too strong-to lay down the bushes and cover them over with earth to the depth of two or three inches, having first secured the bushes to the ground with pegs. It is not so much the frost that kills rose bushes, as the effects of the sun upon them after they are frozen, and before the warmth of the atmosphere has drawn the frost out. Where they cannot be laid down, a good plan is to surround them with cedar brush, carefully tied up. This admits the air and at the same time keeps off the sun. Some persons tie up the bushes in straw. This is a bad plan, for very frequently upon opening them in the spring we find the wood all mildewed, and before the season is over it dies out. Raspberry bushes may be protected in the same manner as roses.

With your permission, I will in a future number give some directions with regard to the pruning and culture of grapes. Respectfully yours,

JAMES GLEASON, Landscape Gardener.

LYONS PURE CATAWBA BRANDY.

H AVING received the sole agency of A. F. Hazard & Co., Wholesale Druggists, Philadelphia, for the sale of this Brandy in Mifflin county, we confidently offer it to the public as a pure and unadulterated article, as the following certificates will prove: CHEMICAL INSPECTOR'S OFFICE,

28 Sixth st., Cincinnati, March, 1857. S This will certify that I have this day inspected two separate lots of Catawba Brandy, one in barrels and one in bottles, manufactured by Lauritze Lyons, and sold by his sole agent, J. Jacob, at the Depot, No. 99, opposite the Burnet House, and 143 West Third street, Cincinnati, and fine-them both Fube and Fibe from all poisonous or deleterious drugs, and as such have marked the same as the law directs. Given under my hand at my office HIRAM Cox, M D., Inspector of Alcoholic Liquors, &c.

New York, 93 Prince st., July 28, 1857.

Dear Sir:—I have received a bottle of Lyons' Pure
Ohio Catawba Brandy, furnished by Mr. A. Ralston, Jr., Onto Catawoa Bransy, turnished by Mr. A. Raiston, Jr., of Lockport, N. Y., for analyzation, and I find it to contain only those ingredients which exist in PURE BRANDY.

The proportion of alcohol obtained from it is 47.00. I believe this sample to be pure Brandy without adulteration—the flavor of it is delicate and peculiar.

[Signed.] JAS. R. CHILTON, M. D., Chemist.

The OHIO CATAWBA BRANDY not only equals but even excels the best imported Brandies in purity and flavor. It is in fact the BEST Brandy known. This statement is fully corroborated by the certificates of many of our most distinguished analytical Chemists. The want of pure Brandy has long been felt in this country, and the introduction of accountry, and the introduction of accountry. try, and the introduction of an article of such quality are to supersede the sale and use of those vile compounds to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded as a great public good. The Catawba Brandy possesses all the good qualities claimed for the best imported liquor, and is of perfect purity and superior flavor. It is therefore fully entitled to the patronage of the pub-lic. We feel confident that its reception in this State will be as favorable as that which it has met with in the will be as favorable as that which it has met with in the Great West, and that the time is not far distant when the superiority of our own liquors will put an end to their importation from abroad.

For Medicinal purposes this Brandy has no rival, and has long been needed. It is a sovereign and sure remedy for Dyspepsia, Flatulency, Low Spirits, Languor, Genaral Debility, &c.

Five to eight bottles will cure the worst case of Scrof A benefit is always experienced from the first bettle,

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold an other; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some pla ces quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise and great

popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it. Some of the wholesale Druggists who have been i business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters

In my own practice I always kept it strictly for humors but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I

great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are few who have seen more of it than I have.

I know of several cases of Dropsy, all of themaged people, cured by it. For the various diseases of the Liv-Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known. No change of diet ever necessary—eat the best you
