Some democratic papers denounce this measure in strong language as a scheme of the old "State robbers" to fill their dilapidated purses. In connection with this subject it may not be out of place to remind our democratic friends that previous to the last election some excitement was created by our charge that Dr. Bower, if elected, would vote for the Sunbury and Erie Railroad loan, to which the Democrat of September 10, 1857, gave the following explicit denial, and subsequently professed to have the authority of Dr. Bower for a general de-

American Meeting in Blair County. ZETTE. The Americans of Blair county recently held a meeting at which the following sensible resolutions were adopted. Union among the opposition, not merely one of expediency but of general sentiment, such as characterised the whig party in its palmy days, is most desirable ; and to effect this, all ought to be willing to yield something, though care must be taken to keep out of the lead the swindlers and political scoun-

drels who first destroyed the whig and then the American party. Purge the opposition of these, and CRITTENDEN or any other good man who may be named will be the next President.

Resolved, That the pandering of any Politcal party of our Country to Foreigners or to Hierarchies, is fraught with manifold evils, is subversive of the best interests of the country, and ought to receive the uncompromising condemnation of every American freeman.

Resolved. That there is no antagonism between labor and capital, but that they are mutually dependent upon each other; and that the present prostration of American La-bor and American Manufacturers, admonishes us of the necessity of protecting the same by a judicious Tariff of specific duties from that ruinous competition with the combined capital and pauper labor of Europe; and that Congress should enact such laws as will protect American Labor and American capital from such ruinous competition.

Resolved, That we are opposed to the extension of Slavery over Territory now free; and that the use of the power of the General Government to that end, as in Kansas, under the Administration of Presidents Pierce and Buchanan, is an outrage upon the Government, disgraceful to the country and to humanity, and should ever be firmly resisted.

Resolved, That the attempt of the present Democratic Administration to force upon the people of Kansas a Constitution which a great majority of them have rejected with indignation and abhorrence, and in utter contempt of the popular will, should excite against the Administration party the determined opposition of the friends of true Democracy and a Republican government, in all parts of the country; that this is the 82d year of American Independence, and not the 1st year of American Monarchy, and that we are for cherishing and maintaining the Rights of the people against the assaults of truckling politicians, ambitious knaves, and fanatical sectional bravadoes.

Proceedings of Congress.

In the House of Representatives on Friday Mr. English reported, from the Conference Committee on the Kansas bill, a sub stitute recommended by Messrs. English and Stephens of the House, and Messrs. Green and Hunter of the Senate, and objected to by Messrs. Seward of the Senate and Howard of the House. The report recites that whereas the people of Kansas did adopt and send for the acceptance of Congress a State constitution that is republican, together with an ordinance that is not acceptable to Congress, the said Territory shall be admitted into the Union if the people thereof, at an election to be held under prescribed regulations, shall accept in lieu of said ordinance the schedule of terms offered by Congress to Minnesota. If not accepting the said schedule of terms, then the Territory shall not be admitted into the Union until it may have the requisite population according to the census when it may enter the Union, after having formed a re publican constitution. The bill, it will be perceived, does not submit the Lecompton onstitution to the vote of the people Kansas, but makes their acceptance or rejection of the amended ordinance relative to lands equivalent to the acceptance or rejection of that instrument. Immediately on the reception of the bill Mr. Howard, Republican, moved to post-pone its consideration to Thursday week. Mr. Stephens, Lecompton Democrat, moved to make it the order for Monday next. Mr. Hill, of Georgia, American, named the second Monday in May, (next Monday two weeks) and the motion prevailed, ayes 108, nays 105. At the moment of taking the vote a personal collision between Mr. Hill and Mr. Gartrell, of Ga., was imminent, growing out of the objection of the latter to Mr. Hill's desire to explain his vote, but the promptness of the Speaker averted the danger. The question was again brought up on Monday, and postponed to yesterday .-This attempt to bribe the people of Kansas to accept a villainous constitution by voting on the acceptance of public lands, is another scheme worthy of a Buchanan administration.

LOCAL AFFAIRS.

PRINTING IN DRY COLORS. Having purchased from M. M. Rohrer. the inventor, the exclusive right for this county of using his invention, we are now prepared to execute Bills, &c., in dry colors, at low prices.

COLD WEATHER .--- Quite a change occurred in the weather on Saturday last, an occasional snow squall giving a rather unpleasant variety. On Sunday and Monday mornings a scum of ice was observable, and on Tuesday morning it was formed in tubs, &c. a quarter of an inch thick. Cherries and other fruits that were in blossom, as well as tender vegetables growing in gardens, have of course been severely nipped if not altogether destroyed.

IMPROVEMENTS .- The Town Council have commenced stoning Market street, between Dorcas and Brown, with a heavy coating, which it is to be hoped will last for many years. The Water Company has determined to extend the pipes about 300 feet on Mill street beyond their present termination, and have ordered pipe for the same. This extension will add another fire plug to that section of the town, in itself a matter of some consequence to property holders.

The usually quiet team of Reuben Myers, of Granville township, was startled into a run off on Friday last, while standing at Couch's plaster mill, by a boy coming down the bank of the race with a small tree. The team ran as far as Jacob's mill. breaking off a wheel and the tongue of the most daily passed the poor house, whenever needed? It is known that he exercised the

THE STREET LAMPS .-- One of those low-lifed acts which none but a scoundrel who ought to end his days in the penitentiary would be guilty, was perpetrated on Friday night last, between nine and ten o'clock, by some one wantonly breaking the frame and glass of the street lamp on the corner of Grand and West Market. The whole neighborhood owe it as a duty to the Borough to ferret out the villain and have him punished in a manner he will not soon forget. A reward of \$20 is offered for his discovery.

PETTY THIEVES .- Our up-river communities, like this region, have been troubled considerably this winter and spring by depredators who would steal whatever could be laid hands on. Last week constable Kiefhaber nabbed several whom he committed to Jail, and got hold of another who however escaped from his house, for whom he offers a liberal reward. This prompt action will probably break up the gang, and leave more security for meat houses, &c. hereafter.

DEATHS .- Our obituary head this week chronicles the death of two citizens who ble in a box of that size; he turns his fee have been suffering for some time-Mrs. Ann Milliken, relict of James Milliken, deceased, who has been in feeble health for a year or more, and Jas. A. Cunningham, who has been afflicted for some time with a disease of the throat. Francis McCoy, one of our oldest and most esteemed citizens, has also been quite low for some weeks from jaundice. Dr. Ard, on a visit from the city, was prostrated a few weeks ago at the National Hotel, but is now improving. With the exception of a few scattered cases of scarlet fever, the health of our town continues excellent.

vices of two physicians to be selected by themselves, at the old established rate of one dollar for every necessary visit. This is the same rate a private family is charged for this distance. The number of necessary visits the past year did not exceed one hundred and twenty-five, making Five obstetrical cases at \$5 each \$125 25 The out door practice may be set down at 40

Making for the whole year, \$190 It was a year of general health, nevertheless it is not conceived that the whole expense under any circumstances could have exceeded the sum of \$300.

Had any compromise been offered, they would have been willing to give a guarantee that the whole expense for the year, embracing every branch of service, should not go beyond the sum of \$250; and had the year proved one of health, the sum would not have amounted to \$200-thus the county would have been the gainer. In their opinion, this is not too much, when the nature and extent of the services are considered, embracing the Poor House, the Borough and the district of seven miles around it. But the premature and precipitate appointment in February instead of March, the usual time of appointment, prevented any accommodation. It will be thus seen that the allegation made that their proposition would cost the county from \$500 to \$1000, is entirely gratuitous and without foundation. Respect for themselves. no less than the public, renders the foregoing statement proper and becoming on their part. With this exposition, impeaching the motives of no one, they dismiss the further considera-tion of the subject, leaving the public to form their own opinion.

For the Gazette Broth for the Poor or Broth for Dr. Justice. THAT'S THE QUESTION.

My article was only intended to draw public attention to the misrepresentations in the Press, not to enter into a discussion with "Justice" or any other demagogue. He repeats his chicken story however with so much gusto, and calls on the late steward so authoritatively, that I desire to ask whether said steward could not have purchased some of the chickens from Derry and Decatur that alauthority to purchase other matters he thought necessary, in amount sufficient to have bought two or three hundred chickens, without particularly consulting the board and it therefore sounds passing strange, i Justice's statement be true in the sense he desires to convey it, that he could not supply a sick pauper with broth without applying t the board. The late steward may have said that he had no chickens for broth, but I do not believe either he or the directors were bound down not to purchase chickens, or that he ever said so. More likely it is a cock and bull story of Justice's, on a par with the statement in a late number of the Press that there was swill enough at the poor house to keep twenty-five hogs, when the whole num-ber of inmates, including the steward and his help, did not exceed twenty persons! It is by such silly statements that Justice expects to raise a candidate for the next election who will furnish him with "broth," (not the poor) a project quite worthy of a baby editor, but of which an M. D. ought to be ashamed, or if he is not, the profession ought to be ashamed of him. Should he continue to administer his quack nostrums to the public, on this subject, when the election comes around he may again hear from AN OLD STUDENT. P. S. Did Justice ever read the story of the

ram who butted himself away all but the tail? If he has not, it is time to hunt it up, as it suits his present Sancho Panza pursuit to a

"We have FULL AUTHORITY for saying that Dr. Bower will not vote for any appro priation to the Sunbury and Erie Railroad Company. No such project is or has been contemplated, and no such appropriation ask ed for by that Company. This the Gazette knows as well as we do-and yet it has the unfairness to allege that Dr. Bower is committed to such action. But further, our candidate, Dr. Bower, is opposed in toto to GRANT-ING THE CREDIT OF THE STATE, as a loan or IN ANY OTHER SHAPE, either to the Sunbury and Erie Railroad Company, or to any other corporation for any amount whatever. Will the Gazette de the democratic party and its candidates the common justice to say so, now that it has repeatedly alleged and insinuated the contrary."

As Dr. Bower voted for the bill as given above, we leave our readers to determine how much of a gift it is to the Sunbury and Erie Railroad Company, and how far it tallies with the pledges given by himself and friends last fall as to his course as a legislator!

A Cure for Asthma .- There are many well attested cases of cures of this distressing complaint by the use of the Wild Cherry, as combined by Dr. Wistar in his famous Cough Balsam, which medicine has achieved a worldwide reputation. For sale by Charles Ritz, Lewistown.

The National Intelligencer, which seldem mentions a rumor till it has become almost or entirely a fact, contains the following: "It is currently reported that the Executive has determined to ask Congress to authorize a new loan to the amount of thirty millions of dollars and to fund the twenty millions of treasury notes recently authorized to be issued,"

Holloway's Ointment and Pills .- No disease which afflicts the human family more frequently baffles the skill of the regular practitioner than hemorrhoids or piles. The nostrum-mongers are equally at fault with their electuaries and astringent topical applications. Holloway's Ointment alone seems capable of thoroughly obliterating the disorder. It acts as a styptic upon the orifices of the vessels which discharge the sanguineous fluids, subdues the inflammation and invigorates the parts. As the presence of irritating matter in the bowels is often a feature of the complaint, a few doses of the Pills may be given with advantage while the cure is progressing.

Wistar's Balsam in Vermout.

IRASBURG, VT., May 5. Mr. S. W. Fowle-Dear Sir-I am nearly out of the Balsam of Wild Cherry. You may forward, if you please, two or three dozen more. The medicine gives better satisfaction here in pulmonary complaints than any oth-ers that I have kept. I have tried it with perfect satisfaction upon myself, having been troubled with a severe cough for more than a year, and having profuse night sweats for the last month. I had tried various popular remedies without material benefit; at length I tried Wistar's Balsam of Wild Cherry, and before I had finished the first bottle I found great relief. Two bottles have wrought a cure. Yours, respectfully,

At a meeting of the subscribers, physicians of Lewistown, held on the 24th of December, 1857, the subject of remuneration to the phy sicians appointed by the Directors of the Poor of Mifflin county being brought up and carefully considered, the following resolutions were unanimously adopted :

Resolved, That the remuneration to the physicians attending the county poor, owing to the nature and extent of their services, has been entirely inadequate. Resolved, That the physicians attending the

Poor House should receive the annual compensation of two hundred dollars.

Resolved, That the "out door poor," persons receiving professional relief, should be attended by such physicians as they may themselves select, and the physicians so attending be compensated by the county at a fair and just rate. Or. Resolved, If the Directors prefer it, the

physicians appointed to attend the "County Poor House" will attend that house for one dollar a visit, two visits to be made a week, and as many more as the cases may require. Should the Directors accept this alternative, in preference to the first proposition of two hundred a year, then in addition to one dollar per visit, five dollars will be charged for every "obstetrical case" in the house, and surgical cases shall be paid for at the usual rate of the "fee bill."

Dien,-In Lewistown, on Sabbath morning last, JAMES A. CUNNINGHAM, Esq., aged about 40 years.

The death of Mr. Cunningham is a loss to our community of a valued citizen. With the exception of a few years, his manhood was spent in Lewistown, and through his connection with the press, and as a public officer, he was well known throughout the country, and highly esteemed. He came to this place from Huntingdon county shortly after attaining his majority, and soon won the confidence and regard which integrity and genuine manliness of character al ways inspires, and sustained it to the last .-He was loved most by those who knew him best. He was modest and unassuming, as he was frank, open and generous. He had a large heart which met the demands of misfortune more than half way, and alw ays with a free and open hand. If he was generous, he was also a just man in all his intercourse with the world, discharging every duty and meeting every responsibility Our friend has gone, and while this commu nity laments its loss, it sympathizes with the relatives in their painful bereavement. To the God of the fatherless and the afflicted we commend them for comfort in this hoar of misfortune. He was a good man, and his reward is on high; his work is done and his labors, in answer to his dying prayer ap. proved. He rests in peace.

We are hurrying towards it last-We shall meet upon the level there, When the gates of death are passed ;
