WEST'S Patent Galvanic Cement

For Roofing. THE undersigned having purchased the right for this Cement in Mifflin and Centre counties, are now prepared to furnish and put it on roofing wherever desired-the roof being sheeted by the owner. Scientific men under the direction of government, and architects and builders in various parts of the country, for years have been studying and experimenting to discover some composition or article for roofing, which would resist the changes of our climate, and would unite the qualities of Imperviousness to Water, Incombustibility, Durability and Cheapness. No article now in use possesses these qualities. Shingles are not fire proof, and cannot be used upon flat roofs. Slate can only be used upon steep roofs. The contraction, expansion and rusting of metallic roofs are so great in this changeable climate that they soon become worthless, or the repairs will cost more than a new roof. The various cements and compositions which have been introduced, can be supplied only to very flat roofs, and they are so affected by the action of the weather that they will melt and run in summer and crack in winter, and in a short time become crumbly and worthless. The inventor of the Galvanic Cement has labored twenty years to obviate these difficulties, and it is believed by those who have had opportunities to test the matter, that he has entirely succeeded. As

now applied, First-It is completely impervious to water Water may continually stand upon the roof without affecting it in the least.

Second—It is fire-proof. It is so incombus-tible that it will afford ample and perfect pro tection against fire, sparks and burning shin gles from another building immediately ad-

Third-It is durable. It is not injured by atmospheric changes, having been tested for several years by the Patentee, at Syracuse,

Fourth-It is cheap. Roofs will be put on for about half the cost of tin, and will last much longer. Fifth- Repairs are easily and cheaply made. Sixth -It is sufficiently elastic to entirely

resist the expansion and contraction by heat and cold, and will remain perfect and solid in the warmest and coldest weather. Seventh-It is adapted to all kinds of roofs

either flat or steep. Eighth—It is valuable for repairing old roofs. Old shingle roofs may be covered without removing the shingles. Old metalic

roofs can be made perfectly tight and secure Ninth—It is especially adapted to all kinds of seaming around battlements, sky-lights and chimneys, and for the lining of eave troughs and gutters. Roofs which have given trouble for years, and which have continued 40 00 to leak in spite of all efforts, can be made perfectly secure by this cement.

Tenth-It has been proved to be the best article ever used for covering car tops and steamboat decks.

Eleventh-This cement applied to new tin roofs preserves them from rusting, by furnishing a coat which is at once impervious to water and an almost perfect non-conductor of

Twelfth-It is the only roofing material patented which contains India rubber and gutta percha. For a specimen of this cement we invite

owners of property to call at our mills, where a single coating, put on in December last, has kept the buildings perfectly dry through the winter.

TO INVALIDS! DR. HARDMAN,

DHYSICIAN for diseases of the Lungs, Throat and Heart-formerly Physician to Cincinnati Marine Hos-pital and Invalids' Retreat-Corresponding Member of the London Medical Society of Observation-Author of "Letters to Invalids," &c ..

IS COMING.

MAY APPOINTMENTS. Dr. Hardman, Physician for Diseases of the Lungs,

Formerly Physician to the Cincinnati Marine Hospital, MAY BE CONSULTED AT

Lewistown, National Hotel, Thursday, May 27 Huntingdon, May 26.

Dr. Hardman treats Consumption, Bronchitis, Laryng

tis, Asthma, and all diseases of the Throat by MEDICA TED INHALATION. The great point in the treatment of all human maladies

is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased, we take medicine directly into the stomach. If the longs are diseased breathe or inhale medicated vapors directly into them.— The reason why Consumption and diseases of the Lung have heretofore resisted all treatment, has been be they were not approached in a direct manner by medicine They were intended to be local, and yet they were so ad ministered that they could only act constitutionally, ex-pending their immediate action upon the stomach, whilst the foul ulcers within the Lungs were unmolested. In halation brings the medicine into direct contact with the disease, without the disadvantage of any violent action its application is so simple that it may be employed by the youngest infant or feeblest invalid. It does not de range the stomach, or interfere in the least with the strength, comfort or business of the patient. \$5.No charge for consultation. OTHER DISEASES TREATED.

In relation to the following diseases, either when com-plicated with Lung Affections, or existing alone, I also invite consultation—usually finding them PROMPTLY CURABLE: PROLAPSUS and all forms of FEMALE COMPLAINTS.

The Medicine of the Million. PHILOSOPHY AND FACT.

HOLLOWAY'S PILLS.

THE EXCITING CAUSE OF SICKNESS.

 $\Gamma^{\rm HE}$ blood is the life-sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and integriment. The stomach is its manufactory, the veins is dis-ributors, and the intestines the channel through which the waste matter rejected in its productions is expelled Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

THE NATIONAL COMPLAINT.

Dyspepsia is the most common disease among all clases in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resist are to ordinary preparations, it yields readily and rapidly to this searching and unerring remedy.

BILIOUS AFFECTIONS. The quantity and quality of the bile are of most vital mportance to health. Upon the liver, the gland which recretes this fluid, these Pills operate specifically, infulli ly rectifying its irregularities and effectually curing Jaundice, Bilious Remittants, and all the varieti s of dis ease generated by an unnatural condition of the organ.

BOWEL COMPLAINTS.

Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Diarrhoa, Caronic Constipation, and other iseases of these waste pipes of the system. The effect of the Pills upon all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel

complaint are promptly controlled. A WORD TO FEMALES.

The local debility and irregularities which are the es ecial annoyances of the weaker sex, and which, when eglected, always shorten life, are relieved for the time ing, and prevented for the time to come, by a course of this mild but thorough alterative.

Holloway's Pills are the best remedy known in the world for the following Diseases: Diarrhæa Indigestion Secondary

CONSUMPTION, SCROFULA, Coughs, Chronic Rheumatism, Debility, and all Diseases arising from a Scrofulous or

impoverished state of the blood. HEGEMAN, CLARK & CO'S.

Genuine Cod-Liver Oil,

HAS stood the test of over ten years experience, and is recommended by all the most eminent physicians as the most valuable remedy in use. Dr. Williams, the celebrated Physician of the London Cunsumption Hospital, took notes of its effects in about 500 cases, and found it more efficacious than all remedies yet discovered. This remedy, so valuable when pure, becomes worthless or injurious when adulterated. See that the label has the eagle and mortar, and the signature over the cork of each bottle, as thousands have been cured by the use of the genuine article who had used others without success. Sold by all Druggists. HEGEMAN & CO.
