Johnston, England, and observing the nature of the disease in all its stages, during a sejourn in the southern and western portions of the United States, where it prevails to a greater extent than elsewhere, procured from South America certain roots and herbs from which he prepared an "Elixir," which, after eighteen years' use in

prepared an "ELIXI", which, after register years use in the cure of Dyspepsy than any medicine that has ever been prepared in any age or clime for the same purpose.

Having submitted it, with an explanation of its components, to a number of physicians of Philadelphia, among whom were the late Drs Joseph Hartshorne and J. C. Morton, it has received their entire approval, and many of the medical faculty are now not only prescribing it for their patients but are using it themselves, personally and in their families. As a tonic it is unequalled, and its properties are of so invigorating a nature that it is given with perfect safety and success to the most tender infants. The Elixir is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucous membranes of the stomach, and requires that only one dose be taken in twenty four nours; for confirmed Dyspepsy can only be cured by grad-ually restoring the organs of digestion to a healthy state. The great successmet with in curing the most aggravated cases of Dyspepsy, accompanied sometimes with a high grade of hypochondriasis, has established the most un-bounded confidence in the curative properties of this

Dr. J. Williams—Dear Sir—For fifteen years previous 400 to 1854, I suffered so much from dyspepsy that I became completely prostrated both in mind and body, and at 400 length became so weakened I could not attend to my business, and was sloking into a decline, and it was believed I never could recover. The best medical aid was procured for me, and every means resorted to without any relief, till I was advised to use your Elixir, and from the time I began taking it I gradually improved till I was completely restored to health. The dreadful sufferings I endured restored to heath. The dreadul siderings I endured from dyspepsy I cannot describe; but I am confident that without the use of your Elixir I should be in my grave. I assert that I solemnly believe your Elixir has saved me from an early death. I continue now in the enjoyment of most excellent health.
