Don't talk to me about your political isms'," said a facetious old valetudinarian, "I tell you there's no ism on earth so bad as rheumatism." The venerable sufferer was right. St. Lawrence's gridiron or Quatimozin's pallet of fire was not more emphatically a bed of torment than the couch of the martyr to rheumatism. It is generally considered by the faculty one of the most obstinate as well as one of the most painful of maladies, and it certainly does resist all ordinary remedies with extraordinary pertinacity. Skill and science, however, in this age of progress, seem to master all opposition, and even this painful disease, entrenched among the muscles and interknit as it were with the sinews and tendons of our frames, is compelled to yield to the curatives they have provided.

We have it on unquestionable authoritythe testimony of parents themselves—that rheumatism, however deeply seated, may be cured by the regular and persistent application of Holloway's Ointment. This, we feel assured, will be welcome intelligence to thousands of sufferers, bed-ridden by the disease or limping with stiffened joints along the pathway to the tomb. In a climate where the quicksilver sometimes makes a leap of thirty degrees up or down, the complaint is of course a prevalent one, and in our new settlements at the West, along the alluvial borders of our great rivers, in the hemlock swamps of the South, and in all lew and damp locations few persons reach the age of forty years without a rheumatic visitation. It is clear therefore that a preparation which will afford immediate relief and effect eventually a thorough cure of the complaint, must be of especial value to the people of this country. We cannot reasonably doubt, in country. We cannot reasonably doubt, in view of the well attested statements which have been laid before us, sustained as they are by circumstances within our own knowledge. that the Ointment referred to will effect that object, and among all the benefits which the discoveries of that celebrated physician and philanthropist have conferred upon mankind this is certainly not the least important .-Many an industrious tiller of the soil whose services are needed in the field is at this mo ment languishing on a bed of sickness, the hand that should guide the plow or grasp the spade rendered powerless by rheumatism. Many a toiler in every branch of productive labor is similarly situated, and we can imagine with what joy these sufferers would hail the means of immediate cure. IS COMING.

MAY APPOINTMENTS. Dr. Hardman,

Physician for Diseases of the Lungs, Formerly Physician to the Cincinnati Marine Hospital,

MAY BE CONSULTED AT Lewistown, National Hotel, Thursday, May 27. Huntingdon, May 26.

DR HARDMAN treats Consumption, Bronchitis, Laryng-is, Asthma, and all diseases of the Throat by MEDICA-TED INHALATION.

The great point in the treatment of all human maladies stoget at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased, we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into them.—The reason why Consumption and diseases of the Lungs have herefore resisted all testiment. have heretofore resisted all treatment, has been beca they were not approached in a direct manner by medicine. They were intended to be local, and yet they were so administered that they could only act constitutionally, expending their immediate action upon the stomach, whilst the foul ulcers within the Lungs were unmotested. Inhalation brings the medicine into direct contact with the disease, without the disadvantage of any violent action Its application is so simple that it may be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least with the th, comfort or business of the nationt

In relation to the following diseases, either when com-dicated with Lung Affections, or existing alone, I also nwite consultation—usually finding them PROMPTLY

CHEMICAL INSPECTOR'S OFFICE, 28 Sixth st., Cincinnati, March, 1857. This will certify that I have this day inspected tw eparate lots of Catawba Brandy, one in barrels and one a bottles, manufactured by Lauritze Lyons, and sold by his sole agent, J. Jacob, at the Depot, No. 99, opposit the Burnet House, and 143 West Third street, Cincinnati, and find them both PURE and FREE from all poisonous or deleterious drugs, and as such have marked the same as the law directs. Given under my hand at my office. HIRAM Cox, M D.,

Inspector of Alcoholic Liquors, &c. New York, 93 Prince st., July 28, 1857.

Dear Sir:—I have received a bottle of Lyons' Pure
Ohio Catawba Brandy, furnished by Mr. A. Ralston, Jr., of Lockport, N. Y., for analyzation, and I find it to contain only those ingredients which exist in Pure Brandy.

The proportion of alcohol obtained from it is 47.00. 1 believe this sample to be pure Brandy without adultera

tion—the flavor of it is delicate and peculiar.

[Signed] Jas. R. Chillton, M. D., Chemist. The OHIO CATAWBA BRANDY not only equals but even excels the best imported Brandies in purity and flavor. It is in fact the BEST Brandy known. This statement is fully corroborated by the certificates o many of our most distinguished analytical Chemists. The want of pure Brandy has long been felt in this cou try, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds

hitherto sold under the name of Brandy, can only be re garded as a great public good. The Catawba Brandy possesses all the good qualities claimed for the best im-ported liquor, and is of perfect purity and superior flavor. It is therefore fully entitled to the patronage of the pub-We feel confident that its reception in this State will be as favorable as that which it has met with in the Great West, and that the time is not far distant when the superiority of our own liquors will put an end to their importation from abroad.

For Medicinal purposes this Brandy has no rival, and has long been needed. It is a sovereign and sure reme-

HOLLOWAY'S OINTMENT.

Circular to the Sick.

THE first hospital surgeons and medical publicists of Europe admit the unparalleled anti inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutral ize the fiery elements which feed and exasperate the

ing effect upon contracted sinews is truly wonderful. Discharging Ulcers.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applica-tions of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly until the orifice is filled up with sound material, and the ulcer radically cured.

A Word to Mothers.

The young are most frequent sufferers from external injuries, and therefore every mother should have this nealing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrus ed sores which sometimes disfigure the heads and faces
