State Convention.

The United American, Republican, and People's Committee of Superintendence for the City of Philadelphia, earnestly desirous to extend and perpetuate that union of the elements of opposition to the present National Administration, which in this City has lately resulted in such brilliant success, do hereby respectfully suggest, and recommend to the State Committees representing those several elements of opposition, that they call upon the Citizens of Pennsylvania, who are opposed to the present National Administration; especially to its despotic and fraudulent LeCompton policy, and its wilful neglect of the just claims of domestic industry; and who are in favor of the Sovereignty of the People over their own local concerns; of American institutions as against the policy and intrigues of foreign Governments; and of adequate protection to our home labor, to assemble in their respective Senatorial and Representative Districts to choose Delegates to a State Convention, to meet at Harrisburg, in the Hall of the House of Representatives, at 2 o'clock, P. M., of Wednesday the 14th day of July, 1858, to nominate candidates for Judge of the Supreme Court and Canal Commissioner.

LEONARD R. FLETCHER, Pres't J. R. FLANNAGAN, Vice Presidents. GEO. A. COPPEY, W. J. P. WHITE, M. V. B. SUMMER, J. R. LYNDALE, Secretaries. Philadelphia, May 20, 1858.

In view of the above recommendation, and its general acceptance, I hereby withdraw the call for a State Convention, issued by me, for the 8th of July next, and earnestly request the American Republicans of the State to accept it, and participate in the Election of Delegates to said Convention.

By order of the State Committee. LEM'L TODD, Chairman A. R. S. Com. Attest—EDWARD McPHERSON, Sec. Carlisle, May 31, 1858.

To the Americans of Pennsylvania: The above recommendation having been submitted to me for my approval, after consultation with the majority of the members of the American State Committee, and a large number of the prominent Americans of the State, I cheerfully adopt it as our call for a State Convention, and urge the members of the American party throughout the State to participate in the election of delegates.

H. BUCHER SWOOPÉ, Chairman of American State Com. Clearfield, May 29, 1858.

Inasmuch as the above recommendation and calls point out the plain road to practical, decisive, and enduring victory over the present National Administration and its tyrannical and sectional policy, I therefore request the Republicans of Pennsylvania to unite in the election of delegates to the above Convention.

WM. B. THOMAS, Chairman of the Republican State Com. Philadelphia, June 1, 1858.

The proceedings above indicate at least a desire for a union of the opposition, and if the convention will meet in a harmonious spirit, eschew all extreme views, and make suitable nominations, the chances for success are great. We believe there are thousands upon thousands of old line whigs and democrats in the State who voted for Mr. Buchanan under an impression that he would be the President of the people instead of a fraction of a party, who but desire an opportunity to let him know that they have been grossly deceived.

of the Administration party will be regarded as an endorsement—the triumph of the Opposition as a repudiation. They have made the issue, and we hold them to it.

The Mifflintown "Model Artist" Sheets.

Except perhaps by a few lines we should not have further noticed this subject, as the Sentinel in another part disclaimed an intention of reflecting on our citizens in its first article, but for the following paragraph in his second article—a paragraph for which there is and can be no excuse:

"If any of us should happen to stray into the 'one-horse' town we must look out for breakers, for hear what the man in his fury says: 'When either of these gentlemen, (meaning the Mifflintown editors,) sets foot in a decent house in Lewistown, the owner would be doing no more than justice by kicking him out of doors.' Mr. Frynsinger had better have left that part of his article alone. Comment here is unnecessary. If rumor be correct our bodies would be perfectly safe were we to roam the town with impunity and enter almost every dwelling in the 'one-horse' city; for, we understand, houses of the kind he has mentioned are rather scarce."

So decent houses, according to the Sentinel, are rather scarce in Lewistown! As there are probably not less than fifty families in Lewistown closely connected with the most respectable ones in Juniata county, the writer we presume is fully aware of the compliment he pays the community in which he is located. Such words any man may live to regret having ever used.

Had we room we could not give our readers a richer treat than by republishing the columns of vulgarity and abuse lavished on the editor of this paper by the renegade of the Register and the valorous Sentinel, both of whom evidently write under the rebuke administered to them like two well-whipped spaniels. It would have been far more honorable to them as men had they apologized to our citizens for their vile calumnies. On us they are welcome to pile on all they can find in the vocabulary; such matters we regard with no other feeling than contempt for their authors, who are more apt to injure themselves than us.

TROUBLE AT NEW ORLEANS.

The Mississippi having recently got on a rise, some wiseacres at New Orleans followed suit and called up a Vigilance Committee who set themselves up in opposition to the laws, under the pretext that the municipal officers were inefficient, but as the election was within a few weeks, when these officers could be ousted at the ballot-box, there is a strong probability that the movement was a political one got up to beat the know-nothings, who have been in the ascendancy there.

Out of the entrenchments neither party appear to be able to operate. The Mayor whose vacillation of purpose is said to have disgusted all parties, after a weak resistance succumbed to the Vigilance Committee, and took refuge in their camp. Whilst there he endeavored to depose the Recorders, as the judges of the city are termed, who had assumed control and appointed a special police. Subsequently the Mayor, his safety being guaranteed, left the quarters of the Vigilance Committee and proceeded to the St. Charles Hotel. The City Council was then convened, Mayor Waterman impeached, removed from office, and Mr. Sommers, President of the Board of Aldermen, appointed in his place.

The Chief of Police was also removed, a successor appointed, and the regular police reorganized. These energetic movements seem to indicate that the Vigilance Committee was not so powerful as the previous accounts represented, and that out of their head-quarters the control of the city was in the hands of their opponents. Arrests had been made by both parties, but neither had ventured to the extreme of executing Lynch law upon their captives. The only actual collision reported occurred on Saturday night, when the camp of the Vigilants was attacked and several of their adherents killed and wounded by the accidental discharge of one of their own guns. The latest report is that the ballot-boxes had been taken possession by the Sheriff, and the probability was that no election would take place.

A later dispatch states that the election was held, and that Mr. Stith, the American candidate, had been elected by a small majority. The Vigilance Committee were kept within their barricades. The city was in a state of great excitement, but no serious collision seems to have occurred.

Beautiful Hair.—This is one of the greatest ornaments which man or woman could boast of. A splendid head of hair, a luxuriance of hair, if it be in a high state of health, glossy and thick, no matter what its color be so that it is natural, is an attraction that will not escape the envy of those who are bald, and gray hair is unnatural till one is in the neighborhood of four score and ten; short of that it is a disease. We would remedy this disease, and in what way? How could we restore gray hair to its original health? Use Professor Wood's Hair Restorative, for sale at all the drug stores; it restores the hair, it restores its health, it restores the color, it restores its beauty, its original color, its luxuriance and gloss is sure to follow. Wood's Restorative is the only valuable hair preparation. See advertisement.

Book Notices.

New Sabbath School Music.—Mr. Horace Waters, the well known Music Publisher and Piano dealer, of 333 Broadway, New York, has recently issued a very pleasing and useful little collection of 32 pages of hymns and tunes for Sabbath Schools, of more animated character and impressive style than usual. The words are all excellent, and the music, though spirited, varied and fitted to the tastes and life of the young, is very simple, easily mastered, and full of feeling and pathos.—There are "Happy greeting to all," "Kind words can never die;" "Do good;" "The teacher's prayer;" "Let us be happy, and let us be gay;" "O, that beautiful world;" "I have a Father in the promised land, &c. &c.—and many others equally attractive, useful and pleasant. Postage, one cent. We think it will be a favorite in the school, and at the fireside of all who love cheerful music, or the animated faces of happy children.

The Way of Life, published by Edgar & Herries, 174 Pearl street, New York, a paper advocating the interests of Young Men's Christian Associations and the promotion of Evangelical Christianity world-wide, will recommend itself to every person who feels an interest in the welfare of the young men of our country and the spread of Christianity. If the enterprise receives the support it should from the Christian public, the proprietors intend educating young men to be sent as missionaries to the West. Terms \$1.50 a year.

The outside of the last Johnstown Tribune is printed in blue ink.

Some fellow, who probably wants to start a newspaper, has been stealing type in several offices in Philadelphia.

There is a trader or storekeeper to every twenty-five families in the United States—one half of whom it is estimated fail or lose money.

It is proposed to establish a new order of knights, to be called "Knights of LeCompton." Each member is to wear a collar labelled "I am Buchanan's dog."

Col. A. K. McClure is a candidate for Congress in the Franklin district. Our late respected Senator, James M. Sellers, Esq., will however probably be the nominee.

In Montgomery county 48 new tavern licenses have been added to 108 previously existing, the Judges having decided that they have no discretion under the new law.

The young men of Harrisburg have got out an elegant mezzotint portrait of Rev. Charles A. Hay—a deserved compliment to an able divine and noble man.

It is said 200 barrels of eggs are shipped daily from Pittsburgh to the east. The hens in this county have held a meeting and determined to quit laying until prices get up again.

The Mount Union stage got into Shade Gap creek during a recent freshet, ruining the coach and drowning two horses. The driver and a passenger both ran away for assistance instead of aiding the horses.

The Richmond Enquirer, the organ of democracy in Virginia, in an article on the dissolution of the Union, calls Virginia a slave producing State—that is, raising slaves to sell. Wonder how the crop is this year?

Col. Eli Slifer is spoken of as a proper candidate for Congress from the Dauphin district. With such men in Congress as Slifer from Union, Sellers from Juniata, Hale from Centre, or other equally sterling men, Central Pennsylvania might well feel proud.

According to the report of an investigating committee only \$23,000 was used to induce the government to purchase the Pennsylvania bank building. This is considered so small a sum by the government robbers as to be hardly worth noticing.

We have no hesitation in saying that consumption can always be alleviated, and in a great many cases completely cured, simply by the use of Dr. Wistar's Balsam of Wild Cherry. Its soothing and healing influence over the diseased organs is truly wonderful. For sale by Charles Ritz, Lewistown.

Attention!—A Camp of Instruction is ordered by the Commander in Chief of the forces of Pennsylvania, to be held at Williamsport. The camp is to be called "Camp Susquehanna," and it is to continue from Tuesday, September 7th, to Saturday, September 12th. All the uniformed companies in the State are invited.

Holloway's Pills and Ointment.—Guard against imposture. To do this, look well for the water-mark, "Holloway, New York and London," which exists in every leaf of the book of directions enveloping the medicines. This trade mark is manufactured in the paper itself, and is discernible on being held up to the light. Mortification cannot ensue where Holloway's Ointment is applied in time to a wound, sore or ulcer. By preventing inflammation it prevents pain. For indigestion, liver complaint, and disorders of the bowels, the Pills are a sure remedy.

Died.

On the 3d June, in Granville township, DETRICH HOBAUGH, aged 61 years, 5 months and 13 days.

At Hopewell, Bedford county, on the 25th May, H. A. DORSEY, M. D., son of J. H. Dorsey, M. D., of Huntingdon, aged 27 years and 7 months.

On Sunday morning, 6th Inst., GEORGE WILEY, only son of Col. William and Mary B. Wiley, aged 3 years and 9 days. George is gone! A father's pride, the darling of a fond mother—one in whom was centered much of future anticipation, has, in obedience to the Saviour's call, paid the debt of nature, and taken up his abode in the mansions where a blissful immortality awaits all such. Weep not for him—He is an angel now, and with the angels stands, A hero within his hands; And there before the Saviour So glorious an heir bright; He'll join the heavenly multitude, And praise Him day and night."

LOCAL AFFAIRS.

THE NEW FIRM.—We had occasion the other day to examine the extensive stock of goods of JOHN KENNEDY, SEN. & CO., successors to John Kennedy, and feel warranted in saying that no person in want of their leading articles can fail in procuring whatever they may want. OF HAM, SHOULDER, SIDES, and other Bacon, they have by far the largest lot in the county, and as can be attested by all who have tried the different kinds, of a very superior quality, all or nearly all cured under the immediate superintendence of John Kennedy, who is well known as an experienced hand. Their Groceries also embrace a heavy stock of Fish, Sugars, Molasses, Coffee, Tea, and other articles pertaining to the business, while of whiskey and other liquors they could pretty nearly fill a small level in the canal. In addition to these, they have a large stock of Flour in barrels and sacks, Dry Goods, Boots and Shoes, Queensware and lots of Knick Knacks. The old system so long pursued by the senior member of guaranteeing what they sell as good to be good, will be continued by the new firm, so that persons purchasing fish and other articles enclosed in barrels and boxes will get precisely what they pay for—or if not so, the cash will be refunded at a moment's notice. Our readers will of course call, examine and buy.

The Revised List of Lands, advertised to be sold by the treasurer on Monday next, appears on the 4th page of our paper to day. It is possible a few may still be in it who have paid their taxes, inadvertently left there by the Treasurer. All such will please give notice to said officer on or before the day of sale.

The water was drawn off the level above town on Tuesday for the purpose of stopping a leak in the bank of the canal, which was speedily effected under the management of Supervisor Burns.

The religious meetings in the Town Hall continue every evening, commencing at half past six o'clock and ending at half past seven—hours affording country people an opportunity to attend. The meetings have not been so full of late as is desirable, caused partly by an objection to the mode of procedure adopted, but in greater part by devotion to worldly affairs. We can see nothing objectionable in a religious meeting, whether composed of one or many denominations, forming proper rules for their government, as those who feel themselves excluded have the privilege of also holding meetings and making rules for their government. The leading motive being to do good, the less jarring the better. "What shall it profit a man if he gain the whole world, and lose his own soul?"

VOLUNTEERS.—A meeting of the proposed Infantry Company, was held on Monday evening in Lewistown, when they organized by temporarily electing the following: Captain—John B. Selheimer, 1st Lieutenant—Henry Zerbe, 2d do—Alfred Marks, 1st Sergeant—Henry E. Eisenbise, 2d do—Robert W. Patton, 3d do—Jacob Hamaker, 4th do—John Zeigler, 1st Corporal—E. W. Eisenbise, 2d do—C. M. Shull, 3d do—Jacob Hamaker, 4th do—B. F. Heisler, Quarter Master Sergeant—David Wasson. A Company of Infantry is also being organized and equipped in Decatur township. The Troop of Horse proposed to be formed will hold a meeting at Reedsville on Saturday afternoon next at 2 o'clock, when those desirous of becoming members will please attend.

The weather continues fine, giving strong hopes of an abundant crop.

It seems to be a difficult matter to get reliable news from Utah. One day the Mormons are reported as being all submission, and the next that they have driven Gov. Cumming out of the city and are determined to fight. Another statement says that Captain Marcy's troop, which had been sent to New Mexico for horses and mules, had been cut off. Many of these stories are no doubt got up by government robbers who are interested in fat contracts to influence the action of Congress in granting supplies.

The prohibitory liquor law was ratified by the people of Maine on Monday by an almost unanimous vote.

THE MODEL CHURN.

SPAIN'S PATENT Atmospheric Barrel Churn

WILL make more Butter, of a better quality, from a given quantity of Cream, than any other in use. It is constructed in such a manner that the whole reel or dasher, can be removed (whole) from the inside of the Churn by simply unscrewing the handle end of the dasher to the square of the hole. The peculiar construction of the dasher agitates the cream in the centre as well as the sides, giving it a rotary motion, and preventing the cream from revolving with the dasher after it becomes thick. They save tubes in the lid for the purpose of letting the gas escape as fast as it rises, and admitting the fresh air to pass through the churn while in operation. After churning, the dasher can be removed for a perfect cleaning. The Churn is then clear of all impediments in the way of removing the butter. For sale by F. G. FRANCISCUS. THE LIVER INVIGORATOR

PREPARED BY DR. SANFORD. Compounded entirely from GENUINE. One of the best Purgatives and Liver Medicines before the public, that acts as a Cathartic, cleanses the system, and is more effective than any other medicine known to man. It is not only a Cathartic, but a Liver remedy, and on the Liver to effect its work, it is more powerful than any other medicine known to man. It is not only a Cathartic, but a Liver remedy, and on the Liver to effect its work, it is more powerful than any other medicine known to man.

The Liver is one of the most important organs of the human body, and when well regulated, it performs its duty. It is the source of the bile, which is necessary for the digestion of food. If the Liver is diseased, the bile is not secreted, and the food is not digested. This causes a general debility of the system, and the patient becomes emaciated and weak. The Liver Invigorator is a powerful medicine, which acts directly on the Liver, and restores it to its natural state. It is a safe and reliable medicine, and is recommended by all the leading physicians of the day.

Joy to the Admirers of RICH GLOSSY HAIR

TALK of beauty is common, but it is not until you see circular around each bottle, and no one can deny the truth of the following: "I have used two half pint bottles of your Restorative, and purchased one bottle to try it, and I found it to be the best hair restorative I ever used. It has given me a fine, glossy, and abundant crop of hair, and I feel that I have gained a great deal of health and vigor from its use.
