Much Truth in a Small Compass. We are a free people, a great people, an enterprising people; but it must be admitted, also, that we are a dyspeptic people. Our stomachs are by no means as sound as our political constitution, and many of us, if addressed in the language of Macbeth-

" Let good digestion wait on appetite, And health on both"-

would anxiously inquire by what means the wish could be realized. That question, thanks to Thomas Holloway, can be triumphantly answered. The unequalled stomachic, known throughout the world as Holloway's Pills, is literally a specific for the complaint. Imperfect digestion results from a dilute condition of the gastric juice-the fluid which dissolves the food in the stomach, and fits it for application to the purposes of life in the form of blood. If the organ which secretes this sol-vent is in a state of morbid irritation, the fluid will be deficient in quality and quantity, and its appointed office in the internal ec. of the e system will be inefficiently performed. The stomach being disordered, the whole vital machinery to which it furnishes sustenance and strength will be weakened, and the animal spirits, sympathising with the bodily de-bility, will become greatly depressed. This is dyspepsia ; and its victims, when it has as-

sumed the chronic form, are the most miserable of mankind. It is generally accompanied by loss of appetite, attenuation, oppression after eating, irregularity of the bowels, low nervous fever, great debility, palpitation of the heart, broken sleep, pain in the right side and between the shoulders, and profound melancholy. All these symptoms, and every other variety in the manifestations of this distressing malady, are rapidly removed by a course of Holloway's Pills. Putting the testimony of others out of the question, we have full warrant from personal observation for

this broad and positive statement. It is not to be marvelled at, then, that Dr. Holloway has acquired such universal fame. Very seldom do the crowned heads of Europe condescend to invite private citizens to their palaces, but there is scarcely a regal palace in Europe where the Doctor is not a welcome visitor, and whose sovereign has not honored

him with some rich present as a testimonial of his esteem. Nor does his renown rest here. He is as well known in China and Hindostan, in Cairo and Sydney, as he is in London, Paris, St. Petersburg, Rome, Madrid, Berlin, Vienna, or New York; and in each of these cities he is honored and in some instances revered as a benefactor. If he had ap-peared in a former age of the world his success would have been attributed to magic. We have even heard that the ignorant peasantry of England and Germany, at the pres-ent day, endow him, in their imaginations, with supernatural gifts.

In these remarks upon a man who is distinguished from all physicians whatsoever by the speed, simplicity, and certainty of his cures, we wish to discharge a duty which we owed, or thought we owed, to the public. It is for them to act upon our suggestion as they

It is constructed in such a manner that the whole reel or dasher, can be removed (whole) from the inside of the Churn by simply unscrewing the handle end of the dash-er to the square of the hole. The peculiar construction of the dasher agitates the cream in the centre as well as of the dasher agitales the cream in the centre as well as the sides, giving it a rotary motion, and preventing the cream from revolving with the dasher after it becomes thick. They also gather the butter quicker and better. They have Tubes in the lid for the purpose of letting the gas escape as fast as it rises, and admitting the fresh air to pass through the churn while in operation. After churning, the dashers can be removed for a perfect clean-ing. The Churn is then clear of all immediment in the

# HOLLOWAY'S OINTMENT.

Circular to the Sick.

THE first hospital surgeons and medical publicists of Europe admit the unparalleled anti inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country and throughout the world repose the atmost confidence in its curative properties. It pen-etrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutral-ize the fiery elements which feed and exasperate the malads. malady.

#### Rheumatism, Scrofula, Erysipelas,

In cases of Salt Rheum, where medical waters, lotions and every recipe of the pharmacopea have proved use-less, the Ointment will accomplish a thorough cure. Fe-ver Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

#### Discharging Ulcers.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applica tions of this Ointment. The surrounding redness var shes, and granutes of healthy flesh begin to take th place of the discharged matter. This process goes on more or less rapidly until the orifice is filled up with sound material, and the ulcer radically cured.

#### A Word to Mothers.

The young are most frequent sufferers from external njuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrus-ted sores which sometimes disfigure the heads and faces of children.

#### Significant Facts.

This Ointment is universally used on board the Atlan tic and Pacific whating fleet as a cure for scorbutic affections, and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

#### HIGHLY IMPORTANT TO FARMERS. M. M. FAXON'S

Attachment of Vulcanized India Rubber Spring to the Tubes of Grain Drills.

THE undersigned, having perfected an arrangement for the attachment of a Gum Spring to the Tubes and Drag Bars of Grain Drills, is happy to inform Farmers and all others interested in the growing of Wheatand other grains, that he is prepared to furnish GRAIN DRILLS, with the above article attached, at the shortest notice, at his Foundry, in McVeytown, Pa. Secders have become an almost indispensable article to the Farmer, and he will find that the attachment of the Gum Spring will enhance its value at least one-half. All the deten-tion and trouble caused by the breaking of wooden pin-is entirely done away with by this arrangement, and a man, or boy, can perform nearly double the labor that he could under the old plan, with much greater ease, both to himself and horses. There need be no fear of the Spring breaking, for if there is an article that will neither break. rot, or wear out, the Gum Spring is that article, and i-hazard nothing in saying that my Grain Drill is the simplest in construction, most economical in performance, and therefore the most durable ever offered to the agriand therefore the most durable ever offered to the agri-cultural public. TALK of beauty; it cannot exist without a fine head of hair. Then read the following, and if you ask more, see circular around each bottle, and no one can doubt. PROFESSOR WOOD'S HAIR RESTORATIVE.

We would call the attention of all, old and young, to this would can the antice much of an, ou and young, to this would reful preparation which turns back to its origi-nal color gray hair, covers the head with a luxuriant growth, removes the dandruff, itching, and all cutaneous eruptions, causes a continual flow of the natural fluids, and hence, if used as a regular dressing for the hair will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the age, in all its natural beauty. We call then upon the bald, the gray, or discassed in scalp, to use it; and surely the young will not, as they value the flowing locks or the witching curl, ever be without it. Its praise is upon the tongue of thousands. The agent for Prof. Wood's Hair Restorative in New Haven, received the following letter

in regard to the Restorative a few weeks since : DEEP RIVER, CONN., July 23, 1856. Mr. Leavenworth-Sir:-I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about 'Wood's Hair Restorative' as a cure. I called at your store on the lst of April last, and purchased one bottle to try it, and I found to my sat-isfaction it was the thing; it removed the scurf and new hair began to grow; it is now two or three inches in length where it was ALL off. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place; you may have a market for many bottles after it is known here. Yours with respect, RUFUS PRATT.

PHILADELPHIA, September 9, 1856. Prof. Wood-Dear Sir :-- Your Hair Restorative is pro ving itself beneficial to me. The front, and also the back part of my head almost lost its covering—in fact BALD. I have used but two half pint bottles of your Restorative and now the top of my head is well studded with a prom ising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recom mendation I can induce many others to try it. Yours respectfully, D. R. THOMAS, M. D.,

No. 464 Vine street.

VINCENNES, IA., June 22, 1853. VINCENNES, I.A., June 22, 1853. Prof. O. J. Wood-As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it--that I have for several years been in the habit of using other Hair Restora tives, and that I find yours vasily superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to ever one desirous of having a fine color and texture to hair.
