[From Godey's Lady's Book for July.] Blackberries .- Preserve these as strawberries or currants, either liquid or jam, or jelly.

Blackberry jelly or jam is an excellent medicine in summer complaints or dysentery; to make it, crush a quart of fully ripe blackberries with a pound of the best loaf sugar. put it over a gentle fire and cook it until thick. then put to it a gill of the best fourth-proof brandy, stir it awhile over the fire, then put

Blackberry Syrup .- Make a simple syrup of a pound of sugar to each pint of water, boil it until it is rich and thick, then add to it as many pints of the expressed juice of ripe blackberries as there are pounds of sugar; put half a nutmeg grated to each quart of the syrup; let it boil fifteen or twenty minutes, then add to it half a gill of fourth-proof brandy for each quart of syrup; set it by to become cold, then bottle it for use. A tablespoonful for a child or a wineglass for an

adult is a dose.

Blackberry Wine .- The following is said to | Has just to be an excellent receipt for the manufacture of superior wine from blackberries :- Measure your berries and bruise them, to every gallon adding one quart of boiling water, Let the mixture stand twenty-four hours, stirring occasionally; then strain off the liquor into a cask, to every gallon adding two pounds of sugar: cork tight, and let stand till following October, and you will have wine ready for use, without any further straining or boiling, that will make lips smack as they never smacked, under similar influence, before.

Blackberry and Wine Cordial .- We avail ourselves of the kindness of a friend to publish the following excellent receipt for making cordial. It is recommended as a delightful beverage, and an infallible specific for diarrhæa or ordinary disease of the bowels :- To half a bushel of blackberries, well mashed. add a quarter of a pound of allspice, two ounces of cinnamon, two ounces of cloves. Pulverize well, mix, and boil slowly until properly done; then strain or squeeze the juice through homespun or flannel, and add to each pint of the juice one pound of loaf sugar. Boil again for some time, take it off, and, while cooling, add half a gallon of best Cognac brandy. Dose, for an adult, half a gill to a gill; for a child, a teaspoonful or more, according to age.

Currants Preserved .- Take ripe currants, free from stems; weigh them, and take the same weight of sugar: put a teacup of sugar to each pound of it; boil the syrup until it is hot and clear; then turn it over the fruit; let it remain one night; then set it over the fire and boil gently until they are cooked and clear; take them into the jars or pots with a skimmer; boil the syrup until rich and thick, then pour it over the fruit. Currants may be preserved with ten pounds of fruit to seven of sugar. Take the stems from seven pounds of the currants, and crush and press the juice from the remaining three pounds; put them into the hot syrup, and boil until thick and rich; put it in pots or jars, and the next day secure as directed.

Red or White Current Jam .- Let the fruit be very ripe; pick it clean from the stalks; bruise it, and to every pound put three-quarters of a pound of loaf sugar; stir it well and boil half an hour, then add the sugar; boil and skim.

Green Currant Jam .- Weigh equal portions of unripe red currants and sugar; set the fruit over the fire, at some distance, with a small part of the sugar, breaking the fruit a little that the juice may prevent it burning; stir it continually and let it remain for a quarter of an hour, then add the rest of the sugar, and boil up for a quarter of an hour

for the relief of the sick and distressed, afflicted with Virulent and Epidemic Diseases. TO all persons afflicted with sexual diseases, such as

Spermatorrhea, Seminal Wrakness, Impotence, Gon orrhea, Gleet, Syphilis, the vice of Onanism or Self Abuse, &c. &c.

The Howard Association, in view of the awful destruc tion of human life caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of tife, &c.) and in cases of extreme poverty to furnish Medicines Free of Charge. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most approved modern treat ment. The Directors, on a review of the past, feel as sured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially t the young, and they have resolved to devote themselves with renewed zeal to this very important but much de-

spised cause. Just published by the Association, a Report on Sper atorrhœa, or Seminal Weakness, the vice of Onanisu Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail (in a scaled letter envelope) Free of Charge, on receipt of Two Stamps for postage. PURE CATAWBA BRANDY. HAVING received the sole agency of A. F. Given under my hand at my office. [Signed.] HIRAM COX, M D., Inspector of Alcoholic Liquors, &c.

NEW YORK, 93 Prince st., July 28, 1857. Dear Sir:—I have received a bottle of Lyons' Pure Ohio Catawba Brandy, furnished by Mr. A. Ralston, Jr., of Lockport, N. Y., for analyzation, and I find it to contain only those ingredients which exist in PURE BRANDY.

The proportion of alcohol obtained from it is 47.00. I
believe this sample to be pure Brandy without adultera-

tion-the flavor of it is delicate and peculiar. JAS. R. CHILTON, M. D., Chemist. The OHIO CATAWBA BRANDY not only equals but even excels the best imported Brandies in purity and flavor. It is in fact the BEST Brandy known. This statement is fully corroborated by the certificates of many of our most distinguished analytical Chemists. The want of pure Brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be re garded as a great public good. The Catawba Brandy possesses all the good qualities claimed for the best imported liquor, and is of perfect purity and superior flavor. It is therefore fully entitled to the patronage of the public. We feel confident that its reception in this State will be as favorable as that which it has met with in the Great West, and that the time is not far distant when the superiority of our own liquors will put an end to

heir importation from abroad. For Medicinal purposes this Brandy has no rival, and has long been needed. It is a sovereign and sure reme dy for Dyspepsia, Flatulency, Low Spirits, Languot. General Debility, &c.

Patent Galvanic Cement Entrooff not

THE undersigned having purchased the right for this Cement in Mifflin and Centre counties, are now prepared to furnish and put it on roofing wherever desired—the roof being sheeted by the owner. Scientific men under the direction of government, and architects and builders in various parts of the country, for years have been studying and experimenting to discover some composition or article for roofing, which would resist the changes of our climate, and would unite the qualities of Imperviousness to Water, Incombustibility, Durability and Cheapness. article now in use possesses these qualities. Shingles are not fire proof, and cannot be used upon flat roofs. Slate can only be used upon steep roofs. The contraction, expansion and rusting of metallic roofs are so great in this changeable climate that they soon become worthless, or the repairs will cost more than The various cements and compositions which have been introduced, can be supplied only to very flat roofs, and they are all so affected by the action of the weather that they will melt and run in summer and crack in winter, and in a short time become crumbly and worthless. The inventor of the Galvanic Cement has labored twenty years to obviate these difficulties, and it is believed by those who have had opportunities to test the matter, that he has entirely succeeded. As now applied,

First-It is completely impervious to water. Water may continually stand upon the roof without affecting it in the least.

Second—It is fire-proof. It is so incombus-tible that it will afford ample and perfect protection against fire, sparks and burning shingles from another building immediately ad-

Third-It is durable. It is not injured by atmospheric changes, having been tested for several years by the Patentee, at Syracuse, New York.

Fourth-It is cheap. Roofs will be put on for about half the cost of tin, and will last much longer.

Fifth-Repairs are easily and cheaply made.

Sixth -It is sufficiently elastic to entirely resist the expansion and contraction by heat and cold, and will remain perfect and solid in the warmest and coldest weather.

Seventh-It is adapted to all kinds of roofs,

either flat or steep.

Eighth—It is valuable for repairing old roofs. Old shingle roofs may be covered without removing the shingles. Old metalic roofs can be made perfectly tight and secure. Ninth-It is especially adapted to all kinds

of seaming around battlements, sky-lights and chimneys, and for the lining of eave troughs and gutters. Roofs which have given trouble for years, and which have continued to leak in spite of all efforts, can be made perfectly secure by this cement. Tenth-It has been proved to be the best article ever used for covering car tops and

steamboat decks. Eleventh-This cement applied to new tin roofs preserves them from rusting, by furnishing a coat which is at once impervious to

water and an almost perfect non-conductor of Twelfth-It is the only roofing material patented which contains India rubber and

gutta percha. For a specimen of this cement we invite wners of property to call at our mills, where single coating, put on in December last, has kept the buildings perfectly dry through the E. E. LOCKE & CO., Locke's Mills, Mifflin co., Pa.

Dr. J. WILLIAMS, Chemist and Pharmaceutist, after studying closely the practices of Drs. Abernethy and J. Johnston, England, and observing the nature of the disease in all its stages, during a sojourn in the southern and western portions of the United States, where it pre valis to a greater extent than elsewhere, procured from South America certain roots and herbs from which he prepared an "Elixir," which, after eighteen years' use in private practice, has proved itself more efficacious in the cure of Dyspepsy than any medicine that has ever been prepared in any age or clime for the same purpose.

Having submitted it, with an explanation of its countries, to a number of physicians of Philadelphia, a whom were the late Drs. Joseph Hartshorne and J. C Morton, it has received their entire approval, and many their patients but are using it themselves, personally and in their families. As a tonic it is unequalled, and its properties are of so invigorating a nature that it is given with perfect safety and success to the most tender infants. The Elixir is very gradual, but certain in its action upor the organs of digestion, the increased secretions of the liver, pancreas and mucous membranes of the stomach, and requires that only one dose be taken in twenty-four hours: for confirmed Dyspensy can only be cured by grad nally restoring the organs of digestion to a healthy state
The great success met with in curing the most aggravate cases of Dyspepsy, accompanied sometimes with a high grade of hypochondriasis, has established the most un-bounded confidence in the curative properties of this Elixir, in corroboration of which read the following testi-

ATTESTATION -We, having used Williams' Anti-Dys ceptic Elixir with the most perfect satisfaction and success, take great pleasure in recommending it to all perons suffering with Dyspepsy, as we are fully convinced of its most estimable qualities in restoring the digestive lowers, removing all pains and uneasiness, and impart g a healthy tone to the stomach.

Dr. J. Williams—Dear Sir-For fifteen years previous o 1854, I suffered so much from dyspepsy that I became ompletely prostrated both in mind and body, and at ength became so weakened I could not attend to my busi ness, and was sinking into a decline, and it was believed I never could recover. The best medical aid was procured for me, and every means resorted to without any relief, ill I was advised to use your Etixir, and from the time egan taking it I gradually improved till I was completely estored to health. The dreadful sufferings I endured rom dyspepsy I cannot describe; but I am confident that without the use of your Elixir I should be in my grave, assert that I solemnly believe your Elixir-has saved me from an early death.
