

Agricultural, &c.

EARLY CUTTING OF HAY.

Some years ago I cut some very good timothy grass before harvest, and before the blossoms had entirely fallen off. It was cured in the very best manner, and placed in a mow to which I could at any time have access. After harvest, and when the seed had become so ripe as to shell out considerably, I cut the same kind of grass in the same field, and placed it in a separate mow. At a favorable time (the following winter) for making a fair experiment, I carried out to my cattle hay from the mow in which I had stored that which had been cut while green, (before harvest,) and fed to each a separate parcel. After they had fairly commenced feeding upon it, I carried to each a parcel of that which had been cut after harvest; and from which the seed shelled when it was handled. In every instance the cattle immediately quit the "beautiful green hay" and ate up clean that which was cut after harvest, before touching the former. Indeed in many instances, they threw from their mouths the green hay, the sooner to get at the other. I repeatedly tried the same experiment, and the result was the same in every instance. The reason of the preference shown by the cattle for the hay cut after harvest, I suppose to be this: it was much more easily masticated, and sweeter in flavor than the other; that it retained, in the stems, leaves and seeds, all the nutritive matter which it possessed when green, and probably with some additions, derived from the earth and atmosphere, over and above that of the green hay.

The green, early cut hay, although it retained its green and beautiful appearance, was tough and difficult to masticate; and very probably the crude and unelaborate sap acquired an acid and bitterish taste which was disagreeable to the palate, and deleterious to the health of the cattle.—Be this as it may, the experiments fully satisfied me that the cattle were more fond of the latter cut hay; that they would eat more of it, and keep in better condition upon it, than the earlier cut green hay. I have not so perfectly experimented in regard to horses and sheep; but I have observed that they always made the same choice with the cattle when opportunity offered—no doubt for the same reasons.—Cor. of the Country Gentleman.

FRUIT AND FLOWERS.

How to keep them Fresh.—A friend has informed us that fruit and flowers may be preserved from decay and fading by immersing them in solution of gum arabic and water two or three times, waiting a sufficient time between each immersion to allow the gum to dry. This process covers the surface of the fruit with a thin coating of gum, which is entirely impervious to the air, and thus prevents the decay of the fruit, or the withering of the flower. To insure success of experiments of this kind, it should be borne in mind that the whole surface must be completely covered, for if the air only gains entrance at a pin-hole, the labor will all be lost. In preserving specimens of fruit, particular care should be taken to cover the stem, end and all, with the gum. A good way is to wind a thread of silk about the stem, and then sink it slowly into the solution, which should not be so strong as to leave a particle of gum undissolved. The gum is so perfectly transparent that you can with difficulty detect its presence, except by the touch.—Here we have another simple method of fixing the fleeting beauties of nature, and surrounding ourselves ever with those objects which do most elevate the mind, refine the taste, and purify the heart.—Country Gentleman.

Neat, Cheap & Durable.

W. G. ZOLLINGER,

It is always prepared to supply the public with all the different styles of Hats of the best qualities and at such prices as to defy competition. He has now on hand a large assortment of Fall and winter Hats and Caps, of all the latest styles, which he will sell at the lowest cash prices. He invites everybody to call and examine for themselves, as he is satisfied that his stock cannot fail to please.

For the Omish he has constantly on hand, or will make to order, hats to their taste of any required size or brim, at prices that cannot fail to be satisfactory.

Country Merchants will find it to their advantage to give me a call, as a liberal deduction will be made on wholesale purchases, and especially so to punctual men.

Don't forget the place, next door to Kennedy's store and nearly opposite the Odd Fellows' Hall.

WM. LIND, MERCHANT TAILOR,

East Market street, Lewistown,

Has just received from the city a choice selection of

CLOTHS, Cassimers, and Vestings,

specially selected by himself, embracing some very superior goods, from among which his old customers, and as many new ones as may choose to call, can secure articles for dress that will vastly add to their personal appearance when made up. Call and examine the stock, which will be found to be all that is represented, if not a little more.

Snuff, Smoking Tobacco & Pipes!

JUST received, the largest assortment of the above articles ever brought to the Juniata country. The subscriber also keeps on hand

- Cut and Dry Broken Tobacco
German Pipes
Clay Pipes
Cigar Cases
Snuff Boxes
Maccoboy, Rappee, Congress and Scotch Snuff, Matches, &c. &c.

All of which he pledges himself to sell at prices so low as to satisfy all. Give me a call.

HOWARD ASSOCIATION, PHILADELPHIA.

A Benevolent Institution, established by special endorsement for the relief of the sick and distressed, afflicted with Venereal and Epidemic Diseases.

To all persons afflicted with sexual diseases, such as Syphilis, Gonorrhoea, Venereal Ulcers, Impotency, Gleet, Stricture, the Vice of Onanism or Self Abuse, &c. &c.

The Howard Association, in view of the awful destruction of human life caused by sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by quacks, several years ago directed their Consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty to furnish Medicines Free of Charge. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most approved modern treatment. The Directors, on a review of the past, feel assured that the labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves with renewed zeal to this very important but much despised cause.

Just published by the Association, a Report on Syphilis, or Venereal Diseases, the Vice of Onanism, Masturbation or Self Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail (in a sealed letter envelope) Free of Charge, on receipt of Two Stamps for postage. Address, for Report or treatment, Dr. GEORGE R. CALHOUN, Consulting Surgeon Howard Association, No. 2 South Ninth Street, Philadelphia, Pa. By order of the Directors.

EZRA D. HEARTWELL, President.

Geo. FAIRCHILD, Secretary.

The Greatest Improvement of the Age!

THE YOUNG AMERICA CORN SHELLER

The most Complete, Simplest, & Cheapest Cornsheller in the World!

ap29 KENNEDY, JUNKIN & CO'S.

KISHACOQUILLAS SEMINARY.

H. S. ALEXANDER, A. B., Principal.

THE Summer Session of this Institution opens on THURSDAY, 6th of May. The course of study is extensive, embracing all the branches usually taught in Seminaries and Academies. In Mathematics and the Classics, students are prepared to enter any class in College.

Parents who wish their children removed as far as possible from evil influences, could not secure a more desirable situation, as it is entirely in the country—there being no towns, or any public house where liquor is sold, within five miles of the Institution.

The community is hospitable, moral and intelligent, the situation beautiful and easy of access, while the health and scenery of the valley are proverbial.

Terms; for Boarders \$55 per session; \$27, 50 payable in advance.

For particulars and catalogues, address

H. S. ALEXANDER,

ap24 Kishacoquillas, Mifflin co., Pa.

MANNY'S MOWER & REAPER,

With Wood's Improvement, FOR 1858.

FARMERS who are desirous of getting the best Mowing and Reaping Machine in use will please send in their orders before the 10th of June.

Any comments upon the superiority of this machine over all others is unnecessary, as it is universally and justly pronounced to be the best ever taken into a harvest field.

Every Machine warranted.

Call soon upon F. G. FRANCISCUS, Agent.

LYONS' PURE CATAWBA BRANDY.

HAVING received the sole agency of A. F. Hazard & Co., Wholesale Druggists, Philadelphia, for the sale of this Brandy in Mifflin county, we confidently offer it to the public as a pure and unadulterated article, as the following certificates will prove:

CHEMICAL INSPECTOR'S OFFICE, 25 Sixth St., Cincinnati, March, 1857.

This will certify that I have this day inspected two separate lots of Catawba Brandy, one in barrels and one in bottles, manufactured by Lauritz Lyons, and sold by his sole agent, J. Jacob, at the Depot, No. 99, opposite the Barnet House, and 143 West Third street, Cincinnati. The want of pure Brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded as a great public good. The Catawba Brandy possesses all the good qualities claimed for the best imported liquor, and is of perfect purity and superior flavor. It is therefore fully entitled to the patronage of the public. We feel confident that its reception in this State will be as favorable as that which it has met with in the Great West, and that the time is not far distant when the inferiority of our own liquors will put an end to their importation from abroad.

For medicinal purposes this Brandy has no rival, and has long been needed. It is a sovereign and sure remedy for Dyspepsia, Flatulency, Low Spirits, Langor, General Debility, &c.

Also, for sale, ESHELBY'S CELEBRATED STILL AND SPARKLING CHAMPAGNE. These Wines are made in the neighborhood of Cincinnati, and are guaranteed to be the pure juice of the grape, and are eminently calculated for invalids and persons who require a gentle stimulant, and for Sacramental purposes, or a beverage will be found equal, if not superior, to the best imported.

Retail Price for Brandy and Wines, \$1.25 per Quart Bottle. A liberal discount made to the trade.

Address CHAS. RITZ, Lewistown, Pa.

February 18, 1858. edon

THE LIVER INVIGORATOR

PREPARED BY DR. SANFORD.

Compounded entirely from GUMS,

Is one of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken daily in moderate doses will strengthen and build it up with unusual rapidity.

SANFORD'S LIVER INVIGORATOR

The Liver is one of the principal regulators of the human body; and when well regulated its functions are fully developed. The stomach is almost entirely dependent on the Liver for the proper performance of its functions; and the whole system of one organ—the Liver—being affected, the functions of the other are correspondingly impaired. The Liver is the seat of the BILIOUS AFFECTIONS, and when diseased it causes a general debility of the system, and a disposition to all kinds of disease. The Liver is the source of the BILIOUS AFFECTIONS, and when diseased it causes a general debility of the system, and a disposition to all kinds of disease.
