THE GAZETTE.

STICK TO YOUR HOME .- A corresponant of the Potter Journal, writing from sconsin, gives the following good advice farmers and mechanics. We commend their earnest consideration, as being as applicable to this as any other

"If you have a comfortable home-a place ou can call your own-where you can nest industry and economy earn enough ort your family and keep them from don't get the 'western fever' and 'sell but stick to that home as you would to g tried friend. It is true that hundreds ling out and coming west ; but do they neace and plenty-a paradise where they t from all their labors, and live on the f the land ?' No, sir. But with disap-ment do they see that they have been prmed; that instead of peace and plenty have not even the necessaries of life.

ot pretend to say that this is the case with one, but it is a general thing. People ne west with their families are dissated with the country. Then stay on your ms, (which you have labored long and hard re,) and let not the fictitious tales of west so excite your imagination as to ren you unfit to enjoy the blessings that might se be derived from your pleasant little You must remember that it requires hor, perseverance, and more capital to com business with here than it does in the stern States,"

There is no room for quarteling just among the opposition of this State, and move that all dissensions in the different gressional districts be kicked out.

Allison White recently stated that he and take the same course he pursued on Kansas question, had he to go through ordeal again. We doubt whether his tituents will pursue the same course this all they did two years ago in voting for him. The opposition convention in York unty has nominated Captain A. W. Eichelrger as their candidate for State Senator. he captain is one of nature's noblemen and erves to be elected. Hanover, his native

wrthy of its ancient political fame. Bullse the Osygenated Bitters, and you sill have no cause to complain of lassitude. bility, or any of those complaints inseparale from our spring weather. They are regdarly prescribed by some of our most emicent physicians, in cases of indigestion and neral debility. Sold by C. Ritz, Lewistown. ble properties than this in the county. Also, about 25 Acres of TIMBER LAND, Va., is at present in the hands of a Vigie committee. A few nights since they d down two houses occupied by persons ill fame, and notified occupants of other uses to quit the place, or the same law add be administered to them.

he Woman Who Lives Without Eating. A medical correspondent of the Newark dvertiser, having recently visited Mrs. neon Hays, "the woman who lives withut eating," at Chester, Warren county, ew York, savs:

The clear, discriminating statements of rof. Van Buren, of the medical departent of the New York University, who w her recently, and of my investigating riend, Dr. Hinman, of Brooklyn, who saw er to-day, and with whom I intended to o, leave me in little doubt with regard to

It is unquestionably one of hysteria in s most aggravated form. Little food is required in such cases, and this little is questionably administered. It appears at two sisters have had somewhat similar

The Masonic Publishing Association LOUISVILLE, KY.

DUBLISH the Monthly Masonic Magazine of the Age, entitled

It is devoted exclusively to the instruction and entertainment of Freemasons, their Wives, Families, and Friends. Each number contains Portraits of Distinguished Freemasons and other Engravings, by the best ar-tists; and the Articles by

Dr. A. G. Mackey, Rev. Geo. Oliver, Giles F. Yates, Albert Pike, Reb. Morris,

John Dove, J. Theo. Holly, and others, comprise Masonic Law, History, Jurisprudence and Belle Lettres, from the pens of the Leading Masonic Authors of the present century.

As a Masonic Monthly Magazine it has no equal, either in beauty of mechanical execu-tion or value of its articles, in the world.

Each monthly part contains as much reading matter, not to speak of the costly engravings illustrating the same, as all the other monthly issues of the Masonic Press of America rolled into one.

It is acknowledged to be the Monthly Magazine of the Age.

A FINE HEAD OF

BIED BLOSSY DADB. TALK of beauty; it cannot exist without a fine head of hair Then read the following, and if you ask more, see circular around each bottle, and no one can doubt. PROFESSOR WOOD'S HAIR RESTORATIVE. We would call the attention of all, old and young, to h's wonderful preparation which turns back to its origi nal color gray hair, covers the head with a luxuriant growth, removes the dandruff, itching, and all cutaneous eruptions, causes a continual flow of the natural fluids, and hence, if used as a regular dressing for the hair will preserve its color, and keep it from falling to extreme o age, in all its natural beauty. We call then upon it bald, the gray, or diseased in scalp, to use it ; and surely the young will not, as they value the flowing locks or th the young win not, as they varies the using to know the set of the witching curl, ever be without it. Its praise is upon the tongue of thousands. The agent for Prof. Wood's Hair

Restorative in New Haven, received the following letter in regard to the Restorative a few weeks since : DEEP RIVER, CONN., July 23, 1856.

DEEP RIVER, CON., July 23, 18:6. Mr. Leavenworth—Sir:—I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about 'Wood's Hair Restorative' as a cure. I called at your store on the lst of April last and purchased one bottle to try it, and I found to my sat isfaction it was the thing; it removed the sourf and new hair began to grow; it is now two or three inches in length where it was ALL off. I have great faith in it. wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place; you may have a market for many bottles after it is known here. Yours with respect. RUFUS PRATT.

PHILADELPHIA, September 9, 1856. Prof. Wood-Dear Six:-Your Hair Restorative is pro-ving itself beneficial to me. The front, and also the back part of my head almost lost its covering-in fact BALD I have used but two haif pint bottles of your Restorativ, and now the top of my head is well studded with a prom

bing crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recom-mendation I can induce many others to try it. Yours respectfully, D. R. THOMAS, M. P., No. 60: Univ. exception. No. 461 Vine street.

VINCENNES, IA., June 22, 1853. Prof. O. J. Wood-As you are about to manufacture and vend your recently discovered Hair Restorative,

Real Estate in Derry Township For Sale.

THE undersigned having removed to the west, offers for sale his VALUABLE FARM AND WOODLAND situate in Derry township, Mifflin county, about 5 miles north-east of Lewistown, containing

200 ACRES

of cleared land, well fenced and divided into convenient fields, with ready access to water, and so situated as to be easily divided into two farms. The improvements consist of two dwelling houses, bank barn, wagon shed, wood house and other outbuildings. There are on the premises one of the best orchards in the county, both as regards quantity and quality of fruit, and from ten to fifteen acres of choice meadow. The above is well known as one of the most desirable farms in the county, being in a healthy and agreeable neighborhood, convenient to churches, schools, mills, &c.

Also, 35 acres of Woodland, situate on Jack's Mountain, and an undivided half of a large tract of Timber land, situate on Shade Mountain with chestnut on it sufficient to keep the farm under good fencing for many years, and some locust. FRANCIS MARTIN.

B. As Mr. Martin is desirous of disposing of the above property without delay, purchasers are invited to call on the subscriber, who will give all necessary information respecting If not sold at private sale by the 1st of Oc

tober it will be disposed of at public sale, of which due notice will be given. jy8

GREAT IMPROVEMENT IN

COOKING STOVES! Consumption of Smoke & Gas & Saving of Fuel!

THE subscriber takes pleasure in offering to his customers a new Patented Gas-burning Cooking Stove, undoubtedly the best stove made. It is well known that all inflammable matter requires a certain amount of air to support com-bustion, and if the supply is insufficient it is impossible to produce a flame. The heat of the fire, in ordinary cooking stoves, decomposes the fuel, and as all the fresh air is admitted un der the grate, its oxygen is exhausted before it has passed through the fire chamber. The close flues at the top of the stove then act as an ex-tinguisher, tending to put out the fire instead of assisting the combustion. A large portion of the fuel, therefore, passes off in the shape of smoke, clogging up the flues of the stove so as to impede the draft and interfere with the ba--or of invisible gas which combines with king, lime and so destroys the mortar of the the chimneys, loosening the bricks, and exposing the dwellings to the danger of fire.

The introduction of an additional supply of cold air would cool the gas below the igniting temperature, but by the proper application above the fire of air previously heated to a tem perature of several hundred degrees (which i one of the prominent features of the patent) the gases are inflamed in numerous jets, and their combustion is sufficient to heat the oven, even if the draft through the fire chamber is

entirely closed. In addition to the ordinary di-rect draft under the grate and through the fire chamber, the gas-burner has an additional draft through the top plates, which is of itself sufficient to maintain combustion. The upper draft not only consumes the gases, but it helps to strengthen and preserve the centre pieces which are most exposed to the direct action of the fire, and which are made double instead of the usual single plates. By means of this draft alone, all the operations of cooking can be car-ried on when the fuel is but partially ignited, and the fuel consequently burns more slowly and more economically. A sufficient evidence of the effect of the gases in heating the oven is found in the fact that the oven will be ready for baking even before the fire is thoroughly

kindled, and much sooter than in any other. There is scarcely a doubt that before long the Gas-burning Cooking Stoves will supercede all others. The operation is so perfect and its consumption of fuel so small in comparison with other cooking stoves, and its heat so easily regulated, (burning more or less as desired,) that every one who uses one of these stoves will

have nothing else. For sale by F. G. FRANCISCUS.

THE GREAT ENGLISH REMEDY. SIR JAMES CLARKE'S Celebrated Female Pills.

PROTECTED BY ROYAL Prepared from a prescription of Sir J. Clarke, M.

D., Physician Extraordinary to the Queen. This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity. Each bottle, price One Dollar, bears the Government

Stamp of Great Britain, to prevent cournerfeits These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

TEACHERS WANTED. ROPOSALS will be received until the

ttacks of hysteria, which indicates the constitutional tendencies of the family. That implicit credence is not placed in the statement of Mr Hays, after all, may be inferred from the fact that within the last few days the citizens have met to appoint a vigilance committee to watch and determine conclusively whether food is taken or not. There is not here a want of motive. Although the husband has properly refused to consent to let his wife go to Albany or New York for exhibition; she has been removed to a sort of exhibition-looking building in a village accessible to Caldwell by a plank road. Here Mr. Hays, the hotel keepers and gate tenders find their incomes and business increased. Doubtless they feel sensibly that "it is an ill-wind that lows nobody any good."

.....

Can a Schoolmaster Kiss a Scho Imistress.-The question has been up for decison in the town of Palmer, Mass. It seems e principal of a leading school undertook kiss a female assistant. She like all adies that want to show a proper shyness upon such occasions and make folks think hat they don't like to be kissed, resisted he gallant attack just long enough to make the victory more sweet, and to give foundation to the story that the whole thing was against her will. The story of the transction got out, and the strait-faced schoolcommittee took it in hand. They declared that they couldn't stand it, and they forthwith expelled the teacher. The people of the town, however, with enlarged views of the fallibility of human nature, intend keep the teacher at their own expense, and have petitioned for a general town meeting to see whether the voters are unwilling that a school teacher shall continue to be a man.

A Problem .- Whoever originated the following deserves to have his name handed down to posterity: If a despatch from England to America gains on the sun so as to reach here. 41 hours by the clock before it left England, at what time would it arrive at the point of departure, were a less only the time exhausted in making the circuit? If so, then, with a continuous telegraph line around the world, why not send ⁴ despatch around and around until it ductors. reached back to Adam, and let him know what his children are about these "latter

SCIENTIFIC AMERICAN.

PROSPECTUS.

VOLUME FOURTEEN BEGINS SEPT. 11, 1858. M ECHANICS, Inventors, Manufacturers and Farmers.-The Scientific American has now reached its Fourteenth Year, and will enter upon a new volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry abstruse work on technical sci-ence; on the contrary, it so deals with the great events going on in the scientific, mechanical and industrial worlds, as to please and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance employed in his business-if the Housewife wishes to get a recipe for making a good color, &c.--if the Inventor wishes to know with the times, and to employ the best fa cilities in his business-if the man of leisure and study roads, reapers, mowers, and a thousand other machines and appliances, both of peace and war—all these *desiderata* can be found in the Scientific American, and not elsewhere. They are here presented in a reliable and interestin form, adapted to the comprehension of minds unlearned in the higher branches of science and art. TERMS-One copy one year, \$2; one copy

experimenting to discover some composition or article for roofing, which would resist the well the powers of thesys-The stomach is almost en-healthy action of the liver ance of its functions; fault the bowels are at fault the bowels are at fault, and the whole sys-then swelfers in consec-tivers—having ceased to ea-es of that organ, one made it his study, in a years, to find some reme-act the many derange-To prove that this rem person troubled with LIV-its forms, has but to try certain. These Guns re-menters to which it is liable edy is at last found, any en conviction is move all morbid or bad supplying in their place a vigorating the stomach, well, parifying the blood, the whole machinery, re-ase effecting a radical are cured, and what is occasional use of the Liv-are cured, and what is occasional use of the Liv-are cured, and what is changes of our climate, and would white the qualities of Imperviousness to Water, Incom bustibility, Durability and Cheapness. No article now in use possesses these qualities. Shingles are not fire proof, and cannot be used upon flat roofs. Shate can only be used upon steep roofs. The contraction, expansion and rusting of metallic roofs are so great in this changeable climate that they soon become worthless, or the repairs will cost more than a new roof. The various cements and compositions which have been introduced, can be supplied only to very flat roofs, and they are all so affected by the action of the weather that they will melt and run in summer and crack in winter, and in a short time become crumbly and worthless. The inventor of the Galvanic Cement has labored twenty years to better, prevented, by the crassional use of the Liv-er Invigorator. One dose obviate these difficulties, and it is believed by elieve the stomach and prevent the food from rithose who have had opportunities to test the sing and souring. Only tiring prevents NIGHT ken at night loosens the CostIVENESS. One dose taken after each neal will dose of two tensponful the matter, that he has entirely succeeded. As now applied, First—It is completely impervious to water.

Water may continually stand upon the roof One bottle 1-ken for fa-Cone bottle 1-ken for fa-the cause of the disease Only one dose inmediate one dose often repeated is without affecting it in the least. Second-It is fire-proof. It is so incombus-

tible that it will afford ample and perfect protection against fire, sparks and burning shingles from another building immediately adbottle is needed to throw out of the system the effects of medicine after a long sickness. One bottle taken for

ining. Third-It is durable. It is not injured by atmospheric changes, having been tested for several years by the Patentee, at Syracuse, New York.

Fourth-It is cheap. Roofs will be put on for about half the cost of tin, and will last much longer.

Fifth-Repairs are easily and cheaply made Sixth -It is sufficiently elastic to entirely resist the expansion and contraction by heat and cold, and will remain perfect and solid in Bilious Type. It operates with certainty, and thousands are willing to testify to its wonderful virtues. All who ase it are giving their unanimous testimony in the warmest and coldest weather.

Seventh-It is adapted to all kinds of roofs, its favor. S-Mix water in the mouth with the lovigorator, and

cither flat or steep. Eighth—It is valuable for repairing old roofs. Old shingle roofs may be covered without removing the shingles. Old metalic. roofs can be made perfectly tight and secure

Ninth-It is especially adapted to all kinds of seaming around battlements, sky-lights and chimneys, and for the lining of eave troughs and gutters. Roofs which have given trouble for years, and which have continued to leak in spite of all efforts, can be made perfectly secure by this cement.

Tenth-It has been proved to be the best article ever used for covering car tops and steamboat decks.

Eleventh-This cement applied to new tin roofs preserves them from rusting, by furnishing a coat which is at once impervious to water and an almost perfect non-conductor of heat.

Twelfth-It is the only roofing material patented which contains India rubber and gutta percha.
