CAPTURE OF A SLAVER .- The United States brig Dolphin on the 21st ult. captured the brig Putman, on the coast of Cuba, having on board over 300 negroes from the coast of Africa, 141 others having died during the voyage. They were taken to Charles ton, from whence they will be carried back to Africa by the steam frigate Niagara. The erew of the slaver will, under the laws of 1819 and 1820, be tried for their lives as pirates sailing on an American bottom, under the American flag.

The steamer Fulton brings the following items of foreign news. The Agamemnon had very narrowly escaped destruction by fire. On the Oxford and Wolverhampton Railroad a serious collision had occurred, resulting in the death of several persons and the serious mutilation of others. The Queen was still in Germany. Although the treaty with China does not permit the allies to have permanent diplomatic agents at Pekin, their Council Generals at Tein-Sein are to be admitted to direct intercourse with the Cabinet. The empire is to be open to foreigners, and the left bank of the Amoor is to form the boundary between Russia and China. The harvests in Great Britain promised well.

Ber It may be of some interest to the voters of this district, says the Lock Haven Watchman, to know what are Hon. Allison White's views on the tariff. They can be found embodied in the following resolutions, reported to the National House of Representatives, by Mr. Boyce of South Carolina, and adopted by the last locofoco House of Representatives:

"Resolved, That the EXISTING TARIFF IS DEFECTIVE as being founded on the PROTECTIVE POLICY.

Resolved, That the highest development of the industrial resources of the country is to be attained by the GREATEST FREEDOM OF EXCHANGES, which can only be thoroughly accomplished by the ENTIRE ABO.

FACTS TO BE REMEMBERED.

Parents, when you see a son making a beast of himself by staggering about the streets, with ghastly face and bloodshot eyes, uttering in his imbecility blasphemous, profane and vulgar language, ask yourselves whether Dr. Bower's vote on the FREE WHISKEY BILL-decided by our Court of Quarter Sessions to be free sale by all who may apply-has not had something to do with this degradation?

look with commisseration and sympathy on or to any other corporation for any amount these edicted to the interporate use of lie whatever. Will the Gazette do the Democratthose adicted to the intemperate use of liquors, ask yourselves whether such a law quors, ask yourselves whether such a law to say so, now that it has repeatedly alleged is just or conducive to the welfare and hap- and insinuated the contrary?" piness of any community?

Tavernkeepers, who desire to keep RE-SPECTABLE HOTELS, ask yourselves whether the universal establishment of grog shops will either add to your business or respectability?

The intemperate man has said "Take li quor away, and I can keep sober," but Dr. Bower says by his votes "Let it be paraded in every window-you can drink or let it alone: are you not a freeman?"

The Railroad Company says to its employees, "We desire to remove all temptation, because our business requires sober, steady and reliable men;" but Dr. Bower and our Court say "Here's whisky, brandy, rum, gin, and other decoctions," good for one man on that road get drunk at one of these new whisky shops, neglect his business, and cause an accident by which lives may be destroyed, bodies maimed, and property injured, are those guiltless who place temptation in his path?

Administration of the Poor Laws.

According to a writer in the Press, Mr. Nagany, the Lecompton candidate for Commissioner, will, if elected, consider every "poor man" a pauper, and notwithstanding, if so elected, he will take an oath not to grant relief, except as provided by law, he will be willing to rob the county treasury to pay poor men's debts of all kinds, poor physicians included! We must confess we had a better opinion of Mr. Nagany as a man, but if one of his professed friends puts out such statements without contradiction from him, it becomes "poor men" who do not consider themselves paupers, and taxpayers, who will have to foot these bills, to ponder on the propriety of voting

The petty falsehood invented for and published by the Press that Mr. Peachy had refused relief to F. Heigus, can at once be refuted by the fact that the friends of Heigus refused to let him go on the county, and as the Directors are positively prohibited from granting relief unless applied for, (for proof of which see Poor Laws.) the propriety of Mr. Peachy's course must be apparent, and also affords indubitable evidence to the taxpayers that Mr. P. is governed conscientiously in the discharge of prior to their arrival at Walla-walla. It is public duties, as every one well knows he rumored that the two companies Sixth Inis in private. With him as commissioner, the poor will have justice done-justice to them and justice to the taxpayers.

THE MIFFLIN COUNTY BANK.

It is reported that Dr. Bower has pledged himself, and leading democrats also, to advocate the passage of an act incorporating a bank at this place. This matter ought to be understood fairly. If the Lecompton democratic party desire to assume the responsibility of being the "Bank Party," let them say so, and anti-bank democrats will know where their leaders are taking them. For our part, we have always been willing to give such an institution, with the restrictions proposed, a fair trial, but if a anxiety is felt for his safety. It is believ-"Lecompton business" is to be made out of ed the Indians are incited by the Mormons it, we may have something more to say on the subject.

'We have FULL AUTHORITY for saying that Dr. Bower will not vote for any appro-priation to the Sunbury and Eric Railroad Company. No such project is er has been contemplated, and no such appropriation asked for by that Company. This the Gazette knows as well as we do—and yet it has the unfairness to allege that Dr. Bower is committed to such action. But further consend ted to such action. But further, our candidate, Dr. Bower, is opposed in toto to GRANT-ING THE CREDIT OF THE STATE as a loan OR IN ANY OTHER SHAPE, either Brother, sister, friends, aye, all who can to the Sunbury and Eric Railroad Company, ic party and its candidates the common justice

[Part of another article in the same paper.] "There is not a district in the State in which the Sunbury and Erie bill is now made the issue, and not a single newspaper, of any polities, (as far as we can find,) advocates the passage of any bill for the relief of, or to aid the construction of that road. A Democratic legislature last winter voted down the Sunbury and Eric bill, by a very emphatic majority; and should the next legislature be Democratic (of which there is no reasonable doubt,) we are satisfied no attempt to pass such a bill will be made, not only because it is well known it could not pass, but because the contingency which induced the friends of that road to so licit a pledge of State bonds to aid the Company in obtaining loans, (an appropriation of money was never asked,) will no longer exist. The Gazette's incessant harping upon the 'appropriation of \$3,000,000 to the Sunbury and Erie Railroad,' &c., is, consequently, all 'Buncombe'-merely to deceive the people, by making them believe a question is at issue which really is not. A man must be blind indeed who cannot see into that game -that 'great cry over little wool.'

FROM UTAH.

[Correspondence of the St. Louis Republican.] FORT BRIDGER, U. T., Aug. 9. For the last few days our camp has been quite lively in consequence of the arrival of the Sixth Infantry, Lieut. Bryan, and party, and the company of Sappers and Miners, Lieut. Duane commanding, on the 4th ult. They came up by the new route of the South Platte, Pole Creek, and Bridger's Pass, intersecting the old road via South Pass, at Ham's Fork. They report a much better and nearer road than

that by Fort Laramie and the South Pass. Orders have been received for the Sixth Infantry to march at once for Fort Wallawalla, Oregon Ter. Their departure, however, is delayed in consequence of there not being sufficient supplies of clothing and provisions in store to supply their necessary wants on their long march—the distance being seven hundred and fifty miles. When we remember Winter commences much sooner in these high altitudes than in localities of the same latitude in the East, we may almost surely expect to hear much suffering and exposure ensue fantry, Col. Hoffman commanding, who have composed a portion of the garrison here, are to be relieved by a detachment of the Tenth Infantry, and that they are en route from Cedar Valley.

The Utah Indians have been quite troublesome of late, in stealing animals and committing depredations. A few nights ago, they stole several horses and mules, which were picketed adjacent to the Fort. Lieut. Bell, 1st Cavalry, with three men, pursued and overtook them the next day. They were about twenty in number, and quite saucy, parading the stolen animals before them, and giving every indication that they would fight. Lieut. Bell returned here, and taking forty men, started in pursuit. He has been gone several days, and we have no intelligence from him. Much

The annual election in this Territory for territorial and county officers, took place on the 2d. In this Green River county, the democracy met and nominated a full ticket. I send you enclosed a copy of their proceedings and resolutions. We elected all our candidates in this county. Wm. J. Osborn is elected Representative in the Legislative Assembly by 135 majority; all other county officers by about 80 majority each. This being the only county in the limits of the Territory in which there was a gentile population in the ascendant, it is believed Mr. Osborn is the only anti-Mormon elected to the Legislature; in fact, the first one elected since the organization of the Territory, as this is the first untrammelled election ever held. By our last advices from Salt Lake we learn that serious difficulties were apprehended, as the Mormons intended to prevent all Gentiles from voting. We have no news from there since the election. It is looked for by the mail which is due this morning.

The mail under the new contract with Hockaday & Co., comes through with much regularity-going through from St. Joe to Salt Lake in twenty-two days.

Supply trains are arriving almost daily from Fort Leavenworth. To-day a detachment of recruits, under Major Eastman, came up to join the Fifth Infantry at headquarters. California papers received by last mail report the Indian difficulties in Oregon and Washington as much worse than heretofore believed.

Railroad Accident .- On Wednesday night, a passenger car on the Allegheny Valley Railroad, containing a large party returning from a camp meeting at Tarentum, was thrown off the track, near Hulton's station, twelve miles from Pittsburg, by a broken crossbar connected with the brakes. The car rolled down a steep embankment, and turned over twice. At the first revolution, the roof was torn off, and the passengers were scattered over the ground, mangling the bodies of some terribly. One lady was killed instantly, and a large number of persons more or less wounded. One man had his skull fractured, and another had both arms broken. A corroner's inquest exculpated the company and its employees from all blame.

Lecompton Rascality.-The Missouri Democrat gives a new item regarding the sale of Fort Snelling. It will be remembered that the sale was a clandestine transaction, and stands revealed to the country as a monster job. The Democrat says Without advertisement or notice of any kind, \$300,000 worth of property was alienated from the government, and the equivalent exacted for it was \$90,000! The sale was not only clandestine, but the price was nominal. The parties to the contract were National Democrats exclusively, and after the reservation including the Fort was sold, some troops were detained there and \$10,000 a month, barrack rent, was charged to the government by the new proprietors. The \$90,000 purchase money, or the greater part of it, has thus been charg-

Natural Curiosities .- In the Baltimore coal mines, near Wilkesbarre, Luzerne county, Pennsylvania, the superintendent has recently discovered the remains of a forest of trees, which had been imbedded in the slate rock above the large vein, fragments of which by a fall, had been detached, and now lie in confusion-stumps, roots, limbs, and impressions of bark-in the mine. Among the curiosities are two huge stumps as perfect as if just drawn from the earth by a stump machine, the roots cut off where they had entered the ground, and the surface looking as if the bark had been taken off while the sap was running. In the rock above can be traced the ends of the logs from which the stumps have fallen, and in one place the body of the tree protrudes, the surface presenting the impression of the bark.

A Perfect Cure by Wild Cherry.

The following is from the editor of the N. Y. Mirror, August 9: About four weeks since, one of the compos-

itors of this office was suffering so badly from a cough that he was unable to sleep nights, and too weak to stand at his case. He became very pale and thin, and gave symptoms of falling a victim to quick consumption. We recommended to him various medicines, which had no effect. Finally, we gave him one bot-tle of Wistar's Balsam of Wild Cherry. It afforded him immediate relief, and he is now a well man, and not the slightest symptom of a cough. These are facts, and further par-ticulars may be learned at this office. We should add that the cough in the above case was accompanied by profuse spitting of blood.

FINANCIAL MATTERS.

Peterson's Bank Note List for September 1st says:

The usual jobbing trade of the fall season in Philadelphia has given a little animation to the money market, and the rates for second class paper have advanced. names, however, still sell at and below six per cent. The usury laws of Pennsylvania are found to work admirably. The doing away with much of the cumbrous machinery of middle men, necessary under the old law in order to avoid the penalty of taking more than six per cent. interest, is of itself more important. The old law never operated to prevent excessive rates of interest, but rather to increase them. It deterred timid men from acting as bankers, and by causing them to lock up their capital in other investments, kept it away from the use and assistance of business men, and by the very act of reducing the supply of money, increased the rates de-manded for its use. On the other hand, the bold and unscrupulous were secured almost a monopoly of the money market, in which they graduated their demands only by the necessities of the borrower, who was, at the same time, subjected to additional taxation in the shape of brokers' fees, and denied the privilege of making his own bargain for the money he needed, or explaining the transac-tion out of which arose the paper he wished to sell, and stating the means and prospects of its makers. All this is now at an end. Lender and borrower can meet face to face, and arrange their own terms, which are thus more confidential than heretofore, and under which no stigma of acting in defiance of law can attach to the lender.
