EXCELLENT FARINA DISHES.

Farina is one of the most economical, nutritious, and wholesome preparations ever brought to the table, eminently combining the gratification of the palate, with ample and healthful sustenance of the body, and destined to be a popular, if not an indispensable item of daily nourishment. Unlike most other articles, but little labor is required in cooking it. The following are some of the more prominent modes, but a good cook will vary them oftentimes with

Ice Pudding .- Boil one quart of milk, or water; while boiling, sprinkle in slowly one-quarter of a pound, or four large tablespoonfuls of Farina, and continue the boiling from half an hour to an hour .-When done, turn it into a jelly-mould and place it in ice or in cold water to stiffen. It thus becomes a beautiful ornament for the table, and may be eaten with wine or other sauce, pulverized sugar, or any condiment more pleasing to the taste.

This pudding, even when a day or so old, may be sliced, and fried brown, and forms a most excellent dish for breakfast.

Plum Pudding .- Boil three pints of milk, or water; sprinkling in slowly a quarter of a pound of Farina; continue boiling half an hour or more; stir in the fruit; put the whole in a bag; and boil till done.

Baked Puddiny .- Boil one quart of milk, or water; and add the Farina as above. While the mass is cooling, take four eggs and half a pound of sugar beat up well, with a quart of milk, and stir it into the mass of the Farina, which should be lukewarm at the time. Add spices if desirable. Put into pans and bake.

Omelet.-Cook the Farina as directed for Ice Pudding; when blood-warm, beat up eight eggs with it, adding salt, parsley, leeks, &c. Fry brown.

Hecker's Farina is generally accounted the best.

Cure for Bronchitis .- One of our cleverest and most reliable friends, says the Holly Springs Herald, informs us that common mullen leaves, smoked in a new pipe -one in which tobacco had never been used -- is a cure and a certain cure for bronchitis. The remedy is simple and innocent, and within the reach of all. Recollect that this is not the remedy of a retired physician whose sands of life have nearly run out, but it is given to us by one who has tried it himself and seen it tried with others, and has never known it to fail in effecting a permanent cure. The remedy is simple, and we can certainly discover no harm likely to arise from a trial.

Tuttion alone, per quarter of 11 wks. \$4 to \$6 Music, Drawing, Painting and French at usual charges.

Students can enter at any time.
For catalogues, &c., address
jly15 GEO. F. McFARLAND, Principal.

LEWISTOWN ACADEMY A. J. Warner, Principal.

THE next session of this Institution will commence on MONDAY, August 30th, under the supervision of the former Principal. A new system of Classification will be adopted in the school, and a full and thorough course of study adapted to each department It is designed to put the Academy, in every respect, on equal ground with first-class insti tutions of its kind, and thereby offer favorable inducements to students generally.

ROOMS AND BOARDING can hereafter be had in the Academy Building to accommodate students-ladies or gentlemen-from abroad, or they can be obtained elsewhere at moderate rates.

Those desiring further information can obtain circulars by addressing the Principal. Lewistown, August 19, 1858.

Philadelphia College of Medicine. 214 South Fifth Street, below Walnut.

THE Twenty-third Session of this Institution will open on MONDAY, October 11th, 1858. The following are some of its advantages: It is the only Institution in the city which furnishes its Students with Hospital Tickets and material for dissection with-OUT CHARGE. The classes are examined daily by the Professors, who take a personal interest in the advancement and welfare of every Student.

A limited number of young men of restric paying but \$20 for a full course of Tickets. ted means will be received as beneficiaries all cases, the sons of physicians and of clergymen have preference. An announcement containing every information will be sent free, on application to

GREAT IMPROVEMENT IN

COOKING STOVES! Consumption of Smoke & Gas & Saving of Fuel! THE subscriber takes pleasure in offering to his customers a new Patented Gas-burning

Cooking Stove, undoubtedly the best stove made.
It is well known that all inflammable matter requires a certain amount of air to support com-bustion, and if the supply is insufficient it is impossible to produce a flame. The heat of the fire, in ordinary cooking stoves, decomposes G. EVANS would inform his friends and the public der the grate, its oxygen is exhausted before it has permanently established in Brown's splendid Iron flues at the top of the stove then act as an extinguisher, tending to put out the fire instead of assisting the combustion. A large portion of the fuel, therefore, passes off in the shape of smoke, clogging up the flues of the stove so as to impede the draft and interfere with the baking,—or of invisible gas which combines with the lime and so destroys the morton of the the lime and so destroys the mortar of the chimneys, loosening the bricks, and exposing

the dwellings to the danger of fire.

The introduction of an additional supply of cold air would cool the gas below the temperature, but by the proper application above the fire of air previously heated to a tem-perature of several hundred degrees (which is one of the prominent features of the patent) one of the prominent leatures of the patent) the gases are inflamed in numerous jets, and their combustion is sufficient to heat the oven, even if the draft through the fire chamber is entirely closed. In addition to the ordinary direet draft under the grate and through the fire chamber, the gas-burner has an additional draft 1 50 through the top plates, which is of itself suffi-cient to maintain combustion. The upper draft not only consumes the gases, but it helps to strengthen and preserve the centre pieces which are most exposed to the direct action of the fire, and which are made double instead of the fire, and which are made double instead of the usual single plates. By means of this draft alone, all the operations of cooking can be carried on when the fuel is but partially ignited, and the fuel consequently burns more slowly and more economically. A sufficient evidence of the effect of the gases in heating the oven is found in the fact that the oven will be ready for baking even before the fire is thoroughly kindled, and much sooner than in any other. siring so to act, can obtain full particulars by addressing kindled, and much sooner than in any other

kindled, and much sooner than in any other.

There is scarcely a doubt that before long the Gas-burning Cooking Stoves will supercede all others. The operation is so perfect and its consumption of fuel so small in comparison with other cooking stoves, and its heat so easily regulated, (burning more or less as desired.) that every one who uses one of these stoves will have nothing else. For sale by that every one wno uses one have nothing else. For sale by F. G. FRANCISCUS.

STOVES! STOVES!—A large assortment at low prices for sale by F. J. HOFFMAN.

HOVER'S LIQUID HAIR DYE

THE testimony of Prof. Booth and Dr. Brinckle having previously been published, the following is now added: From Prof. McCLOSKEY, formerly Professor of Theory and Practice of Medicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American College of Medicine, &c. PHILADELPHIA, Nov. 27th, 1856.

Mr. Joseph E. Hoover :- A trial of your Liquid Hair

Dye will convince the most skeptical that it is a safe, elegant and efficacious preparation. Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the head, and I have no hesitation in commending it to those requiring such an application. Very respectfully,

J. F. X. McCloskey, M. D., 475 Race st. above 13th.
HOVER'S WRITING INKS, including Hover's Wri

ting Fluid and Hover's Indelible Inks, still maintain their high character which has always distinguished them, and the extensive demand first created has continued uninter rupted until the present.
Orders addressed to the Manufactory, No. 416 Race street above Fourth, (old No. 144,) Philadelphia, will beive prompt attention by JOSEPH E. HOVER,

HOWARD ASSOCIATION. PHILADELPHIA.

Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic Diseases.

To all persons afflicted with sexual diseases, such as Spermatorrhoa, Seminal Weakness, Impotence, Gonorrhoa, Gleet, Syphilis, the vice of Onanism or Self

The Howard Association, in view of the awful destruction of human life caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Con-sulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty to furnish Medicines Free of Charge. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most approved modern treat-ment. The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves with renewed zeal to this very important but much despised cause.

spised cause.

HIGHLY IMPORTANT TO FARMERS. M. M. FAXON'S

Attachment of Vulcanized India Rubber Spring to the Tubes of Grain Drills. THE undersigned, having perfected an arrangement for the attachment of a Gum Spring to the Tubes and Drag Bars of Grain Drills, is happy to inform Farmers and all others interested in the growing of Wheat an other grains, that he is prepared to furnish GRAIN DRILLS, with the above article attached, at the shortest notice, at his Foundry, in McVeytown, Pa. Seedershave become an almost indispensable article to the Farmer, and he will find that the attachment of the Gum Spring will enhance its value at least one-half. All the deten tion and trouble caused by the breaking of wooden pins is entirely done away with by this arrangement, and a man, or boy, can perform nearly double the labor that he could under the old plan, with much greater ease, both to himself and horses. There need be no fear of the Spring breaking, for if there is an article that will neither break, rot, or wear out. the Gum Spring is that article and I rot, or wear out, the Gum Spring is that article, and I hazard nothing in saying that my Grain Drill is the simplest in construction, most economical in performance, and therefore the most durable ever offered to the agricultural public. The feed is so arranged that it will sow 1, 1½, 1½, 1½, and 2 bushels per acre. Persons desiring one for the coming seeding are requested to send in their orders as early as possible. Direct to McVeytown, Mifflin county, Pa., or F. G. FRANCISCUS, Lewistown; E. L. FAXON, Hollidaysburg, Blair co., Pa.; BOYER & BRO., Hagrisburg, Pa., who are authorized to see a second to the second control of the seco BRO., Harrisburg, Pa., who are authorized to act as agents, and from whom any further information may be ob

WEST'S Patent Galvanic Cement enitioos vote

THE undersigned having purchased a right for this Cement in Mifflin and tre counties, are now prepared to furnish put it on roofing wherever desired to be single sheeted by the owner. Scientis. being sheeted by the owner. Scientifica under the direction of government, and chitects and builders in various parts of country, for years have been studying, experimenting to discover some composite or article for roofing, which would resist changes of our climate, and would unite qualities of Imperviousness to Water, has bustibility, Durability and Cheapness, article now in use possesses these quality Shingles are not fire proof, and cannot be assuped upon flat roofs. Slate can only be used upon flat roofs. steep roofs. The contraction, expansion are rusting of metallic roofs are so great in a changeable climate that they soon been worthless, or the repairs will cost more than a new roof. The various cements and on positions which have been introduced, can supplied only to very flat roofs, and they at all so affected by the action of the weath that they will melt and run in summers crack in winter, and in a short time been crumbly and worthless. The inventor of Galvanic Cement has labored twenty year obviate these difficulties, and it is believed those who have had opportunities to test

matter, that he has entirely succeeded. now applied, First—It is completely impervious to water Water may continually stand upon the my without affecting it in the least. Second-It is fire-proof. It is so incomis

tible that it will afford ample and perfect pr tection against fire, sparks and burningsh gles from another building immediately joining.
Third—It is durable. It is not injured by atmospheric changes, having been tested several years by the Patentee, at Syraca

New York.

Fourth—It is cheap. Roofs will be pute for about half the cost of tin, and will be much longer. Fifth-Repairs are easily and cheaply made Sixth-It is sufficiently elastic to entire resist the expansion and contraction by he and cold, and will remain perfect and solid

the warmest and coldest weather. Seventh-It is adapted to all kinds of roof either flat or steep.

Eighth—It is valuable for repairing a roofs. Old shingle roofs may be cover without removing the shingles. Old washroofs can be made perfectly tight and seem Ninth—It is especially adapted to all kin

of seaming around battlements, skylight and chimneys, and for the lining of an troughs and gutters. Roofs which have got trouble for years, and which have conti

to leak in spite of all efforts, can be made perfectly secure by this cement.

Tenth—It has been proved to be the be article ever used for covering car tops u steamboat decks.

Eleventh-This cement applied to new

roofs preserves them from rusting, by an nishing a coat which is at once imperious water and an almost perfect non-conductor Twelfth-It is the only roofing mater patented which contains India rubber a

gutta percha. For particulars of this cement, owners property will please address

Locke's Mills, Mifflin co., Pa

DYSPEPSIA.

A 8 shown by the statements of the Board of Health New York, caused the death of 76 persons out of 8 deaths in one week, and 131 deaths by consumptions duced by dyspepsia. As it is a well attested fattlit dyspepsia is the origin of the sufferings of a large portion of those who die of consumption, it becomes the duyd every one to use such precautions against and remels for dyspepsia as science and experience have placed fore them, and which have proved to be efficacious. this character is DR. WILLIAMS' ANTI-DYSPEPT ELIXIR, in corroboration of which read the following

From Mr. R. D'Arni, New York. From Mr. R. D'Arni, New York.

Dear Sir—My wife had been suffering with Dyspen
very severely for a long time, and has been attended?
two physicians for about six weeks, from which attended ance she received no relief. I recently procured yn
Elixir for her, and after taking one bottle she is complete. ly cured. I can safely say I never knew of a medi Yery respectfully yours, RUDOLPH D'ARNI, Teacher of Drawing and Music, 267 Broadway, N. Y.

Extract of a letter from Mr. H. N. Winans, New You to his friend in Philadelphia. Do you recollect that bottle of Williams' Elizirth was leaking in your trunk, and you gave to me to get n of ? Well, for curiosity, I thought I would try if it well

relieve me of the Dyspepsia, which I have had for see time, and for which it is recommended, and I am has? to say it has quite cured me, and would recommendate any one similarly affected. Signed, H. N. WINANS, 91 Water st., N.Y. Dr. J. Williams—After suffering from Dyspepsis for considerable time and failing to obtain any permanel relief, I was induced to try your Elizir. I must notified I had not much confidence at first, but in about two weeks was most agreeably surprised to find I was rapidly first. proving in health; I am now much fatter than ever before

and I am in as good if not better health than I ever su in my life. Very truly yours, &c., WILLIAM YARD, 6 City Row, in my life. An Invaluable Remedy for Dyspepsia.

An Invaluable Remedy for Dyspepsia.

Frankford Road, Oct. 25, 1849.

Dr. James Williams—Having recently understood that it is your intention to resume the preparing of your Anti-Dyspeptic Elizir, and being anxious that others may be benefitted by its use as I have been. I herewith send you for publication, if you think proper, a statement of the effectual cure produced on me by it. For a number of years I have been suffering to such an extent that became so much debilitated, and the digestive powers to the suffering to such an extent that became so much debilitated, and the digestive powers to the suffering to such an extent that the suffering that the suffering to such an extent that the suffering that t of years I have been suffering to such an extent that became so much debilitated, and the digestive powers of much destroyed, that it was with difficulty I could take and retain sufficient nourishment to support life. Neither myself nor my friends were aware that my sufering proceeded from indigestion; in the year 1839 my attention was directed by my husband to your advertisement, it that time published in some of the city papers, explaining the causes and symptoms of dyspepsia, and confidently offering a remedy. I immediately procured and used some of your medicine with the most signal success; from a state of debility, languor, and nervousses, cess; from a state of debility, languor, and nervousness, and complete loss of the power of digestion, so greathin! I could take at first only five drops of the Elixir at a dost. I was in a few days much relieved, and by continuing a short time I have been restored to health, strength, and vigor, which I still retain. I take great pleasure, shi in making known the efficacy of your Anti Dyspesit Elixir, and sincerely hope it may be the means of inducing others to go and be benefitted like myself.

Very respectfully, &c.,

The Elixir is sold in battles at \$1 each, or six bottles. cess; from a state of debility, languor, and nervous
