Moderaebau.

Recipes.

Cod Liver Oil .- Cod liver oil is neither more nor less than cod-oil clarified; and consequently two-thirds of its medicinal qualities are abstracted thereby. Cod-oil can be purchased pure at any wholesale oil warehouse, at about one-thirtieth part of the price charged for the so called codliver oil. Many persons who have used cod oil pure as imported, have found it to answer much better than the cod liver oil purchased of a druggist. The best vehicle for taking cod-liver oil in is new milk, and the disagreeable flavor of the drug can easily be covered by the addition of one drachm of orange peel to every eight ounces of the oil.

A nourishing Jelly for a sick Person. Put into a stone jar or jug, a set of calf'sfeet, cut in pieces, a quart of milk, five pints of water, a little mace, half an ounce of isinglass, and a handful of hartshorn shavings. Tie some brown paper over the jug, and put it into the oven with household bread. When done, strain it through a seive; and when cold, take off the fat. Some of it may occasionally be warmed up with wine and sugar. It is good taken as broth, with herbs.

Drinks for the Sick .- Water is the beverage prepared by the bountiful Creator to allay the thirst of all living creatures on the earth; and when the bare quenching of thirst is the object, clear, pure cold water is the best drink that can be given; but, when other objects are to be attained, a combination becomes necessary, into which, generally, enters an acid, an alkali, a stimulus, a tonic, or some article of nourish-In bilious diseases, acidulated drinks are often found beneficial-and one of the best of these is in the form of lem-

Lemonade .- Take fresh lemon-juice, four ounces, fresh and very thin-peeled lemon, half an ounce; white sugar, four ounces; boiling water three pints. Let this mixture stand till cold, then strain for use. As this drink sometimes causes pain in the bowels, it should not be drank too

Apple Water .- Take one tart apple of ordinary size, well-baked; let it be well mashed; pour on it one pint of boiling water; beat them well together; let it stand to cool, and strain it off for use. Add loaf sugar, if the patient desire it.

Vinegar Mixture.-Take of good vinegar three ounces; water one pint: loaf sugar two and a half ounces.

Alkalescent Drinks .- These are used for what is commonly termed a sour stomach -heart burn-arising from indigestion. The following is the combination employed by an eminent physician, in his own case:

Dyspeptic Ley .- Take of hickory ashes, one quart, soot, two ounces, boiling water, one gallon; mix and let them stand twenty-four hours, frequently stirring the ingredients; then pour off the ley, and bottle it up. A tea-cup of this liquor may be given three times a day.

Harmless and Sure Cure for Warts .-Take two or three cents' worth of sal ammoniac, dissolve it in a gill of soft water. and wet the warts frequently with this solution, when they will disappear in the course of a week or two. I have frequently tried this cure for warts, and it has nev-

AGRICULTURAL,

Mental Culture .- It is an interesting fact that cannot be gainsayed or controverted, (says the Country Gentleman,) that the aversion to manual labor has been greatly increased by the improvement of schools and the enlarged advantages for mental culture which are now enjoyed as compared with those of fifty years ago. There is no denying the fact, that high mental culture serves or tends to unfit young men to engage in hard work on the farm or in the shop. Every one who observes at all, can call to mind cases enough to confirm this statement. And, moreover, it will also be admitted that this is true of thousands who have no claim to high culture, but have been to school enough to imbibe a dislike for manual labor, without having made sufficient attainments to fit them for anything else. Said a New England grandmother, the frugal wife of an industrious farmer, to the writer a few years ago, 'Children now-a-days go to school just long enough to spoil them, for they get learning enough to make them too proud to work, and not enough to fit them for anything else.' remark worthy of a sage or a philosopher!

Winter Work .- The Winter is the proper time to prepare labels, sticks, trellises, &c., for Spring and Summer use. Good pine or cedar shingles are excellent for labels, splitting them into pieces of convenient width, and painting them with white paint. If the name be written with a lead pencil before the paint dries, it will never be effaced by the action of the weather. For rods for supporting the stems of plants, split the shingles-round the pieces and paint them green. We have already recommended iron wire, cut into proper lengths and painted green, or galvanized wire without paint, as excellent for the purpose.

Spaying Cows .- The New England Farmer states that a gentleman at Newburyport had two cows spayed last spring, and is well satisfied with the beneficial effects produced by the operation. The cows give as much milk in October as they did just after calving in May.

Wheat .- Rev. Mr. Smith, of Lois Weedon, Northamptonshire, England, has for twelve consecutive seasons cultivated wheat on the same ground without manure, the average produce being thirty-five bushels to the acre. The yield has not diminished, but has latterly been as good as when the experiment was commenced. The method is to till the land by the spade, to the depth of the subsoil; plant three rows of wheat, with a space of one foot between each, and then leave a breadth of three feet, which is used as a fallow, and kept open by the spade. When the crop is taken off the fallow spaces are seeded, and the ground previously occupied left vacant; thus, in reality, producing wheat on half the ground every other year.

Bees .- In many instances chloroform has been successfully used to stupefy bees in examining hives for moths or other purposes, in removing honey, and in transfering bees from one hive to another. It is only necessary to close the hive sufficiently to prevent egress, and then place in it at some point, a sponge or cloth saturated with a little chloroform, so as to fill the hive with the vapor. As soon as the bees are sufficiently stupefied, open the hive, perform whatever operations are desired; then ventilate with fresh air sufficiently to remove any remaining vapor, and the next morning the bees will be as active and lively as if nothing had happened to them No harm will ensue, if the chloroforming be not carried on at first to a needless de gree and length of time.

6th Annual Announcement! CONTINUED SUCCESS OF THE

COSMOPOLITAN

ART ASSOCIATION. L'ROM all sections of the country subscribers I to this popular Art Institution (now in its sixth year,) are being received in a ratio unparalleled with that of any previous year. Any person can become a member by subscribing \$3, which will entitle him to— 1st. The beautiful Steel Engraving, "Shaks-

peare and His Friends."

2d. A copy of the elegantly Illustrated Art

Journal, one year.

3d. A Free Season Admission to the Galler-

es, 548 Broadway, New York. In addition to which, over 400 valuable Works of Art are given to subscribers as Premiums, comprising choice Paintings, Sculptures, Outlines, &c., by the first American and Foreign Artists. The superb engraving, which every subscriber will receive immediately on receipt of subscription, entitled

"Shakspeare and His Friends,"

s of a character to give unqualified pleasure and satisfaction. No work of equal value was ever before placed within reach of the people at such a price. The engraving is of very large size, being printed on heavy plate paper, 30 by 35 inches, making a most superbornament suit able for the walls of either library, parlor, or office. It can be sent to any part of the country, by mail, with safety, being packed in a cylinder, postage pre-paid. Think of it! Such a work, delivered free of charge, and the Art

Journal one year, for Three Dollars! Subscriptions will be received until the Evening of Tuesday the 31st of January, 1860, at which time the books will close and the Premiums be given to subscribers. No person is re-stricted to a single subscription. Those remit-ting \$15 are entitled to six memberships. Subscriptions from California, the Canadas, and all Foreign Provinces, must be \$3.50 instead of \$3. in order to defray extra postages, &c. Persons wishing to form clubs will apply for a circular of terms, &c. The beautifully Illustrated Art Journal, giving full particulars, will be sent on receipt of 18 cents, in stamps or coin. Address C. L. DERBY, Actuary C. A. A., 546 and 548 Broadway, New York.

Subscriptions also received by H. J. WALTERS, Honorary Secretary, for Lewis town and vicinity.

GREAT IMPROVEMENT!

emphie coffee pot. Simple and Economical!

ANY attempts have been made to produce MANY attempts have been made and a Coffee Pot capable of condensing and retaining the aroma and strength of the Coffee simple enough to come within the limits of or-dinary comprehension. Hitherto this desirable end has been very imperfectly attained, and by means difficult to explain and understand.

THE OLD EMPIRE COFFEE POT

has none of those faults; on the contrary so arranged as to condense perfectly, and there-by retain all the rich fragrance and strength of the Coffee, giving a most delicious beverage at a quarter less expense, and yet is so perfectly simple that it is actually impossible to make any mistake. A child can comprehend the whole thing perfectly. All who have used this Coffee Pot are delighted with its great simplicity and excellence. For sale at the Tin and Stove J. B. SELHEIMER. MOFFAT'S LIFE PILLS

PHŒNIX BITTERS.

THE reputation of these very celebrated veg-etable remedies is now unequalled by any others in this country or in Europe. They are fully established as the most universal family medicine now in use, and they will maintain their pre-eminent renown by the intrinsic and comprehensive virtues which acquired it. The usual modes of puffery would be unworthy of them and is unnecessary. Thousands and tens of thousands of persons now living in perfectly restored health can testify, as thousands have testified, to their prompt and decided efficacy not only in all ordinary derangements of health, from Impaired Digestive Functions, Costiveness, Bilious and Liver Complaints, Rheumatic and Inflammatory Colds, Coughs, Nervous Weak-ness, Loss of Appetite, Failure of Flesh, Head-ache and Impure State of the Blood and other fluids, but also in Rheumatism, Fever and Ague, other Intermittent Fevers, Asthma, Bronchitis, Cholic, Pleurisy, Palpitation of the Heart, Rush of Blood to the Head, Settled Pains in the Joints, Limbs and Organs, Affections of the Bladder and Kidneys, Jaundice, Dropsy, Piles (however inveterate), Habitual Costiveness, Serous and Bilious Looseness, Obstinate Headache and Giddiness, and an immense number of other maladies, They require no dieting nor confine-ment, are perfectly mild and pleasant in their operation, but will powerfully restore health—
the greatest of earthly blessings—to the most
exhausted and dilapidated constitutions.

DR. WM. B. MOFFAT,

335 Broadway, N. Y.

West's Patent Taemed billavlad For Roofing.

THE undersigned having purchased the right for this Cement in Mifflin and Centre counties, is now prepared to furnish and put it on roofing wherever desired—the roof being sheeted by the owner. Scientific men under the direction of government, and architects and builders in various parts of the country, for years have been studying and experimenting to discover some composition or article for roofing, which would resist the changes of

our climate, and would unite the qualities of impervious-ness to water, incombustibility, durability and cheapness. No article now in use possesses these qualities. Shingles are not fire proof, and cannot be used on flat roofs. Slate can only be used upon steep roofs. The contraction, expansion and rusting of metallic roofs are so great in this changeable climate that they soon become worthless, or the repairs will cost more than a new roof. The various affected by the action of the weather that they will meh and run in summer and crack in winter, and in a short time become crumbly and worthless. The inventor of the Galvanic Cement has labored twenty years to obviate these difficulties, and it is believed by those who have

had opportunities to test the matter, that he has entirely ucceeded. As now applied,

First—It is completely impervious to water. Water may continually stand upon the roof without affecting it

in the least.

nd-It is fire proof. It is so incombustible that it will afford ample and perfect protection against fire, sparks and burning shingles from another building time diately adjoining.

Third-lt is durable. It is not injured by atmospheric changes, having been tested for several years by the

Fourth—It is cheap. Roofs will be put on for about half the cost of tin, and will last much longer. Fifth-Repairs are easily and cheaply made Six'h—It is sufficiently elastic to entirely resist the ex-pansion and contraction by heat and cold, and will re-main perfect and solid in the warmest or coldest weather.

Seventh-It is adapted to all kinds of roofs, either fia

patentee, at Syracuse, New York.

er steep.

Eighth—It is valuable for repairing old roofs Old shin-Eignin—It is valuable for repairing old roofs. Old shingles roofs may be covered without removing the shingles. Old metallic roofs can be made perfectly tight and secure. Ninth—It is especially adapted to all kinds of seaming around battlements, sky lights and chimneys, and for the lining of eave troughs and gutters. Roofs which have given trouble for years, and which have continued to leak in spite of all efforts, can be made perfectly secure by

this cement.

Tenth—It has been proved to be the best article ever used for covering car tops and steamboat decks.

Eleventh—This cement applied to new tin roofs preserves them from rusting, by furnishing a coat which is at once impervious to water and an almost perfect non-

Twelfth-It is the only roofing material patented which contains India rubber and gotta percha.

For particulars of this cement, owners of property will please address

E. LOCKE,

Lewistown, Pa. Lyon's Pure Ohio

CATAWBA BRANDY.

THE want of really pure Brandy has long been felt in this country, and the opportunity to procure an article of such quality as to supersede the sale and use of the many vile compounds so often sold under the name of Brandy, can be regarded only as a great public good.
The Catawba Brandy possesses all the choice qualities of the best imported liquor, and is positively known to be of perfect purity and of superior flavor. positively known to be of perfect purity and of superior flavor. As a beverage the pure article is a remedy for Dyspepsia, Flatulency, Cramp, Colic, Languor, Low Spirits, General Debility, &c., &c. Physicians who have used it in their practice and who have been practicing twenty-six years speak of it in the most flattering terms, as will be seen by reference to numerous letters and certificates.

DESTRISTES.

THE undersigned, graduate of the Baltimore College of Dental Surgery, respectfully offers his professional services to the citizens of Mifflin, Juniata and Huntingdon counties. He has spared no means thoroughly to acquaint himself with every improvement in his art. To many years of personal experience he has sought to add the imparted experience of the highest authorities in Dental Science. He simply asks that an opportunity may be given for his work to speak its own praise.
