From present indications the platform splintered up into lucifer matches before it siding in the immediate vicinity. will be tounged and grooved into either of the others. We have first, the principle upon which Mr. Avery stood, which repudiates the "Squatter Sovereignty" doctrine in toto. The particular plank upon which the seceding members stumbled out of the Convention, and without which the Cincinnati platform. This denies "that Congress has any power to abolish "slavery in the Territories-or that Terri-"in slaves by any legislation whatever."-This much negatively, to which is added the third resolution, which asserts "that it "is the duty of the Federal Government "to protect when necessary the rights of "persons and property on the high seas, "in the Territories, or wherever else its " constitutional authority extends." Upon this issue the withdrawing delegates have planted themselves, proclaiming that they alone represent the National Democracy.

In mortal opposition to this theory is the doctrine of the Douglasites, around which so many fierce battles have been fought. This affirms the right of the Territorial Legislature to settle the question of slavery within the bounds of the Territory, and virtually denies that Congress has the power to interfere either for or against the institution. When parties are separated by lines so distinctly drawn, and by theories, however abstract, so essentially variant, there is no conceivable compromise upon which they can unite.

P. T. Barnum offers \$100 for a live, speckled brook trout, uninjured, weighing four pounds, at the rate of \$25 per pound for all that it weighs over four pounds-the trout to be warranted to live one week in a running stream of water. A large price will also be paid for trout weighing three pounds each.

Those patriots who were too good to support Fremont in 1856, because the Democracy alone could save the union, now find themselves "out in the cold," and it be hard for them to find an orifice to creep into. They joined the old enemy and traducer of the Whig party, to help it to save the Union, and it now appears that it cannot save itself.

COUNTY SUPERINTENDENT .- The Directors of this county, pursuant to law, met at the Court House on Monday last, and organized by the appointment of WM. BROTHERS, Esq., as President, and GEO. W. Elder, Esq., Secretary. After a brief but spicy debate, in which Dr. Belford and Geo. W. Elder took part on the side of Progress, and Dr. Mitchell on the opposite, the vote was taken and a large majority decided that AZARIAH SMITH, the present efficient and gentlemanly incumbent, should be County Superintendent for three years, at a salary of \$600 per annum. As is often the case, the opposition of a few discontented persons, who endeavored to bring party feeling, religion, and almost everything else into play against Mr. Smith, resulted in making him additional friends.

MARK THESE FACTS! Testimony of the whole World,

HOLLOWAY'S OINTMENT. Bad Legs, Bad Breasts, Sores and Ucers.

A LL description of sores are remediable A by the proper and diligent use of this inesting ble preparation. To attempt to cure bad legs by tering the edges of the wound together is a folly; should the skin unite, a boggy diseased condition mains underneath to break out with tenfold furyifew days. The only rational and successful treating as indicated by nature, is to reduce the inflammation and about the wound and to soothe the neighbor narts by rabbing in menty of the Ositiment as so

mouth must operate upon the whole system ere its in fluence can be felt in any local part, whereas the Oin-ment will do its work at once. Wheever tries the un-guent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm. Piles, Fistulas, Strictures.

Piles, Fistulas, Strictures.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water ponitices, after the rubbing in of the ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

Indiscretions of Youth; Sores and Ulcers.

Blotches, as also swellings, can, with certainty, adically cured if the ointment be used freely, and radically cured if the ointment be used freely, and the pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the pills to insure a lasting cure.

Dropsical Swellings, Paralysis and Stiff Joints. Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this oinment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following
