How the Celebrated Dutch Cauliflowers are Grown.

A German newspaper, the Landwirthschaftliches Centralblatt, gives the following as the method by which the Dutch obtain their cauliflowerers, so famous for size and delicacy. In the autumn they dig deep some ground that has not been manured; at the beginning of May they sow the large English cauliflower upon a bed of manure, and cover it with straw mats at night. When the young plants are three or four inches high, they harrow the ground that had been prepared the autumn before, and with a wooden dibble 18 inches long, they make holes about 10 deep, at a proper distance apart, and enlarge them by working the dibble round until the hole at the top is about 3 inches in diameter. They immediately fill these holes with water and repeat this three times the same day. In the evening they fill them with sheep's dung, leaving only room enough for the young plant, which they very carefully remove from the bed of manure and place in the hole with a little earth. Directly afterwards they give them a good watering, and as soon as the sun begins to dry them, they water them again. When the head is forming, they pluck off some of the lower leaves of the plant, and use them to cover the head.

Border Flowers.

One of the most beautiful hardy border plants is the *Dielytra Spectabilis*. It has been several years in cultivation and has proved to be perfectly hardy. When well established, it throws up strong and graceful racemes of pinkish white flowers of a peculiar and elegant form. It is propagated by cuttings, but most readily by division of the roots. *Phloxes* are a class of plants of a high order of merit, the varieties are quite extensive and many of them are of a compact habit with massive heads of bloom, well adapted for small beds, or arranging in narrow borders. The tall varieties are well fitted to plant in shrubby borders; they flower at a season when few shrubs are in bloom, and hence are in this position doubly attractive. The following list includes the most choice of the dwarf varieties: Henri de Santa Cruz, Madame de Arguillero, Venus, Supercba, Spencerii, Teutonia, Vicomte Albert de Beaumont, Argus, Diecta, Alba perfecta, Elise, Fontaine, and Glorie de Puteaux. They are increased by division of the roots.

Campanulas, familiarly known as Canterbury Bells, are a fine class of plants. The *C. Nobilis* and *C. Nobilis alba* are Chinese plants of robust growth and large blossoms. *C. Pyramidalis* is a prominent plant in a collection, tall and erect as a hollyhock. The whole family are of easy culture and propagation. *Spiraea Filipendula* and various others of the tribe are worthy of notice. *Penstemons*; these are rather more tender than any of the above, but will stand the winter if afforded a slight protection by covering with litter; they are of various colors and forms.

Hollyhocks. There are few plants that contribute so much to the embellishment of pleasure grounds as these. They form a suitable back ground to a straight border, are very effective in masses of two or three dozen plants, but most attractive as single specimens in shrubberies, their tall points forming a good contrast with the rounding outline of shrubs. The varieties have increased rapidly of late, and the improvement of form and color is now of a very high standard. They are perfectly doubly and of many distinct colors. They are rapidly raised from seed; if sown as soon as ripe, they will form plants strong enough to withstand the winter, and will bloom the second year; of course many of the flowers of plants raised in this way will be quite indifferent, although the seeds may be saved from the best sorts. To propagate individual varieties, select a lateral stem when the plants are in flower, and cut it into eyes, prepared similar to an eye of a grape, insert these in sandy soil in a shaded spot, and they will speedily form roots. They can also be increased by dividing the plants in spring.

Delphiniums.—A strong growing handsome tribe of flowering plants; some of the varieties are of a most brilliant dark blue color. *Peonias*.—These have been variously improved of late and are of various colors, and the foliage of many is also beautiful; these are old and deservedly popular hardy plants. The *Double Lily of the Valley*, as also the common single, must not be forgotten; they spread rapidly and will succeed under the shade of trees. *Chrysanthemums*.—These are well known hardy plants, frequently alluded to as 'Fall Flowers.' The pompones or dwarf varieties are unique both in flower and habit of growth. They are easily propagated by cuttings of the young shoots. Useful plants for flowering in the parlor may be secured by laying the young shoots into pots about the end of July; in a few weeks roots will be produced, and the plants may be separated. A small bed of the pompones form a desirable feature when in bloom. In addition to the above, we will enumerate a few plants that occur to us at present: Dodecatheon Media, Lysimachia verticillata, Epilobium angustifolium, Acquiligen canadensis, Dictamnus fraxinella, Hemerocallis japonica, Hibiscus palustris, Monarda didyma, Potentilla of varieties, Veronica, Saxifrage, Alyssum saxatile, Aster cordata and Solidago glauca.

Much of the beauty of these plants will depend upon the soil. Although most of them will grow tolerably well even in poor soil, yet the increased vigor and richness of bloom produced by liberal manuring, will more than

compensate for the additional labor. Let the soil be deeply loosened and enriched previous to planting, and maintain its condition by a good covering of manure in the fall, forking it in the soil carefully in spring.

MOFFAT'S LIFE PILLS AND PHENIX BITTERS.

THE reputation of these very celebrated vegetable remedies is now unequalled by any others in this country or in Europe. They are fully established as the most universal family medicine now in use, and they will maintain their pre-eminence through the ages. The comprehensive virtues which are contained in the various modes of purgery would be unworthy of them and is unnecessary. Thousands and tens of thousands of persons now living in perfectly restored health can testify, as thousands have testified, to their prompt and decided efficacy not only in all ordinary derangements of health, from Impaired Digestive Functions, Costiveness, Bilious and Liver Complaints, Rheumatic and Inflammatory Colds, Coughs, Nervous Weakness, Loss of Appetite, Failure of Flesh, Headache and Impure State of the Blood and other fluids, but also in Rheumatism, Fever and Ague, other Intermittent Fevers, Asthma, Bronchitis, Cholera, Pleurisy, Palpitation of the Heart, Rush of Blood to the Head, Settled Pains in the Joints, Limbs and Organs, Affections of the Bladder and Kidneys, Jaundice, Dropsy, Piles (however inveterate), Habitual Costiveness, Serous and Bilious Looseness, Obstinate Headache and Giddiness, and an immense number of other maladies. They require no dieting nor confinement, are perfectly mild and pleasant in their operation, but will powerfully restore health—the greatest of earthly blessings—to the most exhausted and dilapidated constitutions.

THE ONLY PREPARATION WORTHY OF Universal Confidence & Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN. Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible to do but to make the fact.

47 Wall Street, New York, Dec. 20th, 1859. GENTLEMEN:—Your notice of 18th inst. has been received, saying that you had heard that I had been benefited by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it. I would like to you cheerfully, because I think it due. My age is about 30 years; the color of my hair, which began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. I tried many of the usual modes of purgery with time, and about four months since a fourth was added to them by hair falling off the top of my head and threatening to make me bald. In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, but I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles, that not only was the falling off arrested, but the color was restored to the gray hairs, and sensibility to the scalp and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it. For this amount the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. I am, very much, Very respectfully, BEN. A. LAVERDER. To O. J. Wood & Co., 44 Broadway, New York. My family are absent from the city, and I am no longer at No. 11, Carroll Place.

St. Louis, Ala., July 20th, 1859. To Prof. O. J. Wood: Dear Sir:—Your Hair Restorative has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which is now thick and glossy, and FINLEY J. HINSON. A man or woman may be severely deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly, WM. H. KENNEDY. P. S.—You can publish the above if you like. My publishing in our other paper you will get more patronage. I see several of your certificates in the *Mobile Mercury*, a strong Southern paper. Wm. H. Kennedy.

WOODS' HAIR RESTORATIVE.

PROFESSOR O. J. WOOD: Dear Sir:—Having had the misfortune to lose the front portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and FINLEY J. HINSON. The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the medium holds at least twenty per cent more in proportion than the large. Each bottle contains a full quantity of hair, and a quart, 40 per cent more in proportion, and retails for \$2. WOOD & CO., Proprietors, 44 Broadway, New York, and 114 Market Street, St. Louis, Mo. DAYLIGHT. A Splendid Large Extended Oven Gas Burning Cooking Stove.

FOR COAL OR WOOD. IT has long been a favored object with stove dealers to construct a flat top down draft Cooking Stove that would combine all the advantages of excellent draft, large oven and good baking properties, with the use of a moderate amount of fuel. These desirable qualities have all been combined in the flat top Gas Burning Cooking Stove, the DAYLIGHT. This beautiful stove, the result of many years' experience, and combining all the improvements of the age, is one of the most perfect made. It operates in the most perfect manner, and in situations where other flat top stoves would fail to operate. The Daylight, during the past year, has given the most entire satisfaction, and is surpassed by no stove of the same class. It is new in design, beautiful in appearance, unsurpassed in its operations, and a great saver of fuel. They are warranted to give entire satisfaction. DR. O. PHELPS BROWN'S (ACACIA BALSAM) FOR THE PERMANENT CURE OF CONSUMPTION, BRONCHITIS, ASTHMA, COUGHS, COLDS, GENERAL DEBILITY, &c.

This remedy is offered as affording a means of speedy cure for the large number that die annually in our land of that fatal scourge, Consumption, to which, unfortunately, so many predisposing causes exist. Youth and age are alike subject to its ravages.

EVERY PERSON can name one or more of his acquaintances who is subject to some form of lung or throat complaint, which, if not attended to in season, inevitably consumes the sufferer to a premature grave. To such, look to at hand if they will but avail themselves of it, and hope—the harbinger of brighter days,—may be awakened without fear of chilling disappointment. Dr. O. PHELPS BROWN'S ACACIA BALSAM does just what is claimed for it, and may be relied upon by the sick as being the most successful in curing lung and throat disorders, of any remedy known at the present day. The many phrases assumed by Consumption, justifies the apprehension of those who have reason to fear its approach, either from constitutional or hereditary tendency. While the discoverer of this remedy does not believe that people should be constantly dosing themselves with medicines

TO PREVENT SICKNESS,

there are many cases where disease is too long allowed to remain unchecked in the system, and a slight cough, regarded at first as simply an annoyance, ceases only with the life of the patient. An impure state of the blood, through debilitation of the lungs, fills the system with morbid humors, and pulsation becomes feeble or accelerated to a feverish intensity—the heart, liver, and kidneys, separately performing functions of vital necessity, to our well being, are impeded in their regular action—the digestive organs fail in their task, and refuse to perform the process of separating the nutritious elements from food, and the whole mental being is well nigh ready to sink under the burden of life. The patient so afflicted, accounts his case a complication of disorders, and often refuses to resort to medication, from his thorough disbelief in any prospect of cure. To such

ASK THE TRIAL

of the ACACIA BALSAM as thoroughly worthy the confidence of the sick and suffering, and its use is so rarely and permanently eradicated by its use. Its effects are none other but strengthening and renovating to the entire system. Bronchitis, Asthma, Coughs, Colds, and general Debility, are effectually cured by it. Night Sweats, Loss of Flesh, and Wasting away of the Muscles, Loss of Appetite, Soreness of the Throat, Croup, Hoarseness, Pleurisy, Palpitation of the Heart, Difficulty of Breathing—all these affections disappear in an incredibly short time after using Dr. O. PHELPS BROWN'S ACACIA BALSAM. It nourishes and strengthens the patient who is too much reduced to partake of ordinary food. It heals all internal sores, restores the system to its normal state, and revitalizes the brain, and is without a rival as a tonic, supplying electricity or magnetic force to every part of the exhausted and prostrated body. It is a long and tedious trial to convince any that the ACACIA BALSAM is truly the greatest remedy of the day, as its beneficial qualities are fully apparent in eight and forty hours after resort to medication.

Let the invalid, then, no longer delay, but make the trial, and the result will surely be of the most gratifying character. The ACACIA BALSAM is prepared with the greatest care and the best materials. No poisonous or dangerous ingredients are used. It is the best known remedy of the age. It may be taken by either sex, of all ages, and at all seasons, with perfect safety, and it is the only remedy in curing those diseases which sap the foundation and destroy the lives of so many in our midst. Every family should have it, and regard it as a household treasure. Descriptive pamphlets given to all who apply to my agents.

SOMETHING NEW!—B. T. BABBITT'S BEST MEDICAL SALERATE. It is manufactured from common salt, and is prepared entirely different from other Salerates. All the deleterious matter is extracted in such a manner as to produce Bread, Biscuit, and all kinds of Cakes, without containing a particle of Saleratus when the Bread or Cakes are baked; thereby producing wholesome results. Every particle of saleratus is turned to gas and passes through the bread or biscuit while baking, consequently no more saleratus is contained in our salt, water and flour. You will readily perceive by the taste of this saleratus that it is entirely different from other salerates. It is packed in one pound papers, each wrapped in a brand of B. T. Babbitt's Best Medical Saleratus. Also, in tin, twisted lead of bread with a glass of effervescing water on the top. When you purchase one paper you should preserve the wrapper, and be particular to get the salt exactly like the first brand above. Full directions for making Bread with this Saleratus and Sour Milk or Cream Tartar, will accompany each package; also, directions for making all kinds of Pastry; also, for making Soda Water and Seltzer Powders. **MAKE YOUR OWN SOAP** WITH B. T. Babbitt's Pure Concentrated Potash. Warranted double the strength of ordinary Potash; put up in cans—1 lb., 2 lbs., 3 lbs., 4 lbs., and 12 lbs.—with full directions for making Hard and Soft Soap. Consumers will find this the cheapest Potash in market. Manufactured and for sale by B. T. BABBITT, Nos. 68 & 70 Washington St., New York, and No. 25 India St., Boston.

Lyon's Pure Ohio CATAWBA BRANDY.

THE long want of really pure Brandy has been felt in this country, and the opportunity to procure an article of such quality as to supersede the sale and use of the many vile compounds so often sold under the name of Brandy, can be regarded only as a great public good. The Catawba Brandy possesses all the choice qualities of the best imported liquor, and is positively known to be of perfect purity and of superior flavor. As a beverage the pure article is a remedy for Dyspepsia, Flatulency, Cramp, Colic, Lagrange, Low Spirits, General Debility, &c. &c. Physicians who have used it in their practice, and who have been practicing twenty-six years speak of it as the most flattering terms, as will be seen by reference to numerous letters and certificates.
