Democracy and Federalism.

The onward march of the patent democracy to old federalism can be exemplified in no better manner than by quoting the opinion of Thomas Jefferson on the powers of the Supreme Court. In 1819 he

"In denying the right they (the judges of the Supreme Court) usurp of exclusively explaining the Constitution, I go further than you do, if I understand rightly your quotation from the Federalist, of an opinion that the judiciary is the last resort in relation to the ther departments of the Government, but not in relation to the rights of the parties to the compact under which the judiciary is derived.' If this opinion be sound, then, indeed, is our Constitution a complete felo de se. For, in tending to establish three departments, coordinate and independent, that they might check and balance one another, it has given, according to this opinion, to one of them alone the right to prescribe rules for the gov ernment of the other; and to that one, too. which is un-elected by and independent of

the nation * * * Constitution, on this * * * "The Constitution, on this hypothesis, is a mere thing of wax, in the nds of the judiciary, which they may twist and shape into any form they please. It should be remembered as an axiam of eternal truth in politics, that whatever power in any Government is independent, is absolute also; in theory only at first, while the spirit of the relaxes. Independence can be trusted nowhere but with the people in mass. They are inherently independent of all moral law.

In a letter written in 1820, to Mr. Jarvis, he used the following language:

"The Constitution has erected no such single tribunal, knowing that, to whatever hands confided, with the corruptions of time and party, its members would become despots. It has more wisely made all the departments co equal and co sovereign within themselves.'

To Judge Johnson he wrote, in 1823, these striking words:

"I cannot lay down my pen without recurring to one of the subjects of my former letfor, in truth, there is no danger I apprehend so much as the consolidation of our Government by the noiseless, and therefore un-Court. This is the form in which federalism now arrays itself; and consolidation is the present principle of distinction between Republicans and pseudo Republicans, but real fe der

And General Jackson entertained similar opinions in reference to the powers of the Supreme Court. In his message vetoing the bill re-chartering the Bank of the United States, he emphatically said:

"The opinion of the Judges has no more authority over Congress than the opinion of Congress over the judges; and on that point the President is independent of both. The authorities of the State of the thority of the Supreme Court must not, therebe permitted to control the Congress or the executive, when acting in their legislative capacities, but to have only such influence as the force of their reasoning deserve."

Green, Democratic Senator from Missouri, in course of a long and bitter speech against the homestead bill passed by the House, said:

"What is there honest and truthful in voting away my property to some POOR INFAMOUS SCOUNDREL? Do it, if you dare! Do it! Do it! You vote my property away as a borus to lazzaroni, se INFAMOUS SCOUNDRELS who dare not work for a living because you want their votes."

The Homestead Bill passed by the House was intended to give men unable to purchase public lands a settlement by which they could enter the field against speculators, and for being poor this democratic nigger nabob considers them scoundrels.

J. M. Cooper, Esq., for thirteen years editor of the Chambersburg Valley Spirit, has of Mr. Barrett, the sitting member. The vote withdrawn from that paper on the ground that he cannot support Douglas for President. He considers him a traitor to democracy.

Letters of Acceptance of Messrs Lincoln and Hamlin.

The following is the correspondence between the officers of the Republican National Convention and the candidate thereof for

President and vice President:—
CHICAGO, May 18th, 1860.
To the Hon. Abram Lincoln, of Illinois. Sir:—The representatives of the Republican party of the United States, assembled in Convention at Chicago, have this day, by an unanimous vote, selected you as the Republican candidate for the office of President of the United States, to be supported at the next election; and the undersigned were appointed a committee of the Convention to apprise you of the nomination and respectfully to request that you will accept it. Your obliged friend and fellow-citizen,

ABRAM LINCOLN.

A similar letter was sent to the nominee for the Vice Presidency, to which the follow-

ing is the reply:—
WASHINGTON, May 30, 1860. Gentlemen: - Your official communication of the 18th inst-, informing me that the representatives of the Republican party of the United States, assembled at Chicago, on that day, had, by a unanimous vote, selected me as their candidate for the office of Vice Presi dent of the United States, has been received together with the resolutions adopted by the onvention as its declaration of principles.

Those resolutions enunciate clearly and forcibly the principles which unite us, and the objects proposed to be accomplished. They address themselves to all, and there is neither necessity nor propriety in my entering upon a discussion of any of them. They have the approval of my judgement, and, in people is up, but in practice as fast as that any action of mine, will be faithfully and cor-

> I am profoundly grateful to those with whom it is my pride and rleasure politically to co operate, for the nomination so unexpectedly conferred; and I desire to tender through you, to the members of the Convention, my sincere thanks for the confidence thus repos ed in me. Should the nomination, which I now accept, be ratified by the people, and the duties devolve upon me of presiding over the Senate of the United States, it will be my the Bridge Company—the Odd Fellows' earnest endeavor faithfully to discharge them with a just regard to the rights of all.

> It is to be observed, in connection with the doings of the Republican Convention, that a paramount object with us, is, to preserve the normal condition of our Territorial domain as homes for free men. The able advocate and defender of Republican principles, whom you have nominated for the highest place that doubt have their enemies, and will afford can gratify the ambition of man, comes from a State which has been made what it is, by special action in that respect, of wise and good men who founded our institutions.

The rights of free labor have there been vindicated and maintained. The thrift and enterprise which so distinguish Illinois, one of the most flourishing States of the glorious West, we would see secured to all the Territories of the Union; and restore peace and harmony to the whole country, by bringing back the Government to what it was under the wise and patriotic men who created it. If the Republicans should succeed in that object, as they hope to, they will be held in grateful remembrance by the busy and teeming milions of future ages. I am, very truly,

H. HAMLIN. Hon. George Ashmun, President of the Convention, and other members of the Committee.

The Democrat's statement that we admitted all it had said about the tariff, is certainly a most complaisant deduction.

THE TOWN HALL-Its Uses and Abuses. -A public hall is an accommodation to the public, and as long as properly kept in order and a due degree of decorum enforced, it will be frequented by people laying claim to respectability, whether concerts, exhibitions, public meetings or divine services are held there. Lincoln Among the Children. Probably no attribute of our candid

will, after all, endear him so much to the

popular heart as the conviction that he is in summer is only 50 cents per night, emphatically "one of the people." His manhood has not been compressed into the artificial track of society; but his great heart and vigorous intellect have been allowed a generous developement amid his solitary struggles in the forest and the prairie. With vision unobscured by the mists of sophistry, he distinguishes at the first glance between what is true and what is false, and with will and courage fortified by his life of hardship, he is not the man to shirk any responsibility, or to shrink from any opposition. Moreover, he is peculiarly one to win our confidence and affection. To know "honest Abe" is to love him; and his neighbors in the West although voting for him to a man, will mourn the victory which is to deprive them of his presence. The following incident will exhibit Lincoln in one of those unobtrusive acts of goodness which adorn his The circumstance was related by a teacher from the Five Points' House of Inand next for your use; the constable will dustry in this city: "Our Sunday-School in the Five Points was assembled, one Sabbath morning a few months since, when I noticed a tall and remarkable looking man enter the room and take a seat among us. doing both-in short, this is a "free coun- He listened with fixed attention to our extry," and even if you are too lazy to work ercises, and his countenance manifested or too dishonest to pay your debts, there such genuine interest, that I approached him and suggested that he might be willing to say something to the children. As I looked upon the gaunt and sinewy frame of the stranger, and marked his powerful head and determined features, now touched into softness by the impressions of the moment, I felt an irresistable curiosity to learn something more about him, and when he was quietly leaving the room, I begged to know his name. He courteously replied, 'It is Abraham Lincoln from Illinois!"—New York Tribune.

If the Democrat will refer to its Philadelphia correspondence in the paper of May 24, it will there find the very charge made against Mr. Lincoln of which it professes to know nothing!

The democratic Senate, by a close vote -29 to 27-adopted the House resolution to adjourn Congress on Monday, the 18th inst. This action seems to indicate the defeat of the Tariff bill, and also the bill to admit Kansas, though it is not decisive as to either.
