FROM EUROPE.

The latest despatches by the steamer North Briton appear to confirm beyond doubt the entrance of Garabaldi into Palermo. The city was bombarded for several hours and the slaughter large. The fall of Palermo will place the whole island in the possession of the patriots, and its annexation to Italy will soon follow. Another probable result will be the extension of the insurrection to the mainland, and Naples itself may at last be freed from the tyranny of the Neapolitan Bomba.

The overland mail from California brings two important items of news; first, the settlement of the dispute between China and England, by the Chinese acceding to all the demands made upon them, and second, the reported death by assassination of the Tycoon, or temporal Emperor of Japan. It will be recollected that when the coming of the present Embassy was first suggested a strong party was reported to exist in Japan opposed to this and all other intercourse with the outer world. This party have now obtained power through the assassination of the Emperor and the inauguration of a dynasty in favor of their old system of seclusion. Another party, in fayor of the new order of things, was also in expected. The news must naturally be unpleasant to the Embassy, and may interfere with their present movements here as well as render a return to their country dangerous. If the anti-intercourse party should finally establish their power, all the two sworded dignitaries of the Embassy, even down to innecent and vivacious little Tommy, may be required to disembowel themselves as an expiation for having left the empire and become dishonored by intercourse with the outside barbarians. The news has properly been withheld from the Embassy until some further confirmation is obtained, and the members of the Naval Commission express some doubts as to its

critire correctness.

The Western papers come to us filled with detailed accounts of the most destructive tornado ever known in that section of the country. From the Chicago Journal, which publishes a diagram showing the course of the whirlwind, most of the following facts are taken. At 7 o'clock on Sunday evening, the storm started at Cedar Rapids, in Iowa, diviling there into two winds which passed with onceivable rapidity in a wavy line to Camanche: there uniting, they crossed the river into Illinois, striking Albany and passing on to Amboy. The distance traversed was about 150 miles, and this it accomplished in two hours.

The following table is supposed to give with a near approach to accuracy, the numbers of the killed in Iowa:-

2 Mechanicsville, 5 Onion Grove, 1 De Witt, 1 Carnanche, 1 Albany, 4 Blown from rafe

This does not include a large number of killed in Illinois. The manner in which the ternado done its work will be best learned from some incidents, which almost startle be-

Near Cedar Rapids, a man observed the tornado approaching, and instantly threw himself among some hazel bushes with his face to the ground, and clung to their branches for protection. They passed over him, hurling him a distance of some rods, and stripping every vestige of clothing from his Another man was surprised in a similar manner, and threw his arms around a young beech tree, holding on with all his strength, which was considerable, as he was an unusually powerful man. The whirlwind, however, quick as thought, unwrenched his grasp, as one would snap a pipestem, hurled him into the air, and dashed him to the ground, and twice and thrice repeated it, of

Course leaving him a corpse.

Another man, as established by affidavits of respectable citizens of Bertram, the first station east of Cedar Rapids, was caught up from the town plat, hurled in the air, and carried high above the timber, until he was out of sight. Cattle, horses and sheep, were also drawn up in the airy maelstrom, whirled terriffically about and dashed to the earth again with a force which reduced them to a mere pulpy mass. The prairies between Cedar Rapids and Dewitt, were literally strewn with the carcasses of cattle, and the loss in stock alone must be immense. There is scarcely a farmer between the two stations, a distance of forty miles, but has suffered a loss

of either a part or the whole of his stock. At Lisbon, the large brick and frame grain warehouses belonging to merchants of that own, and the freight depot of the C. I. and N. Railroad were utterly demolished and their contents scattered. Ten freight cars were hurled from the track and broken up. One of them, heavily loaded with lumber, was lifted into the air and turned over twice, finally descending with such force as to completely shiver the car and its contents into

Slave Liberation .- We are informed that Mr. John Stewart, sr., of this place, father of our esteemed townsman, Dr. Alexander Stewart, visited Virginia last week and executed freedom papers to all his slaves. None of the slaves were over 30 or under 14 years of age, and on this account they were very valable, in a pecuniary point of view. In whatever light we may view this transaction, we must couclude that it combines wisdom with enevolence, and does great credit to the head and heart of the venerable donor. - Ship-

A very destructive land slide occurred near Sewickley, Pa., on Sunday last, through which the beautiful residence of Mr. R. II. Davis was rendered almost a total loss. The slide commencing early on Sunday marning, and moving at the rate of four inches an hour, the house was soon affected, and before anything could be done to save it, was almost destroyed. Some three hundred men were at work all day on the premises, and but for their efforts the damage would be much more serious. The building cost some \$10,000, and was one of the most elegant structure.

In this unpleasant predicament, I was induced to ry Wood's Hair Restorative, mainly to arrest the faling off of my hair, for I had really no expectation hat gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs, and sensibility to the scalp.

to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex. I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald.

Pond's Fxtract of Hamamelis, OR PAIN DESTROYER. S one of the few domestic remedies which

have come into general use and favor, without puffing. It is the product of a simple shrub, harmless in all cases, and as a domestic remedy unequalled. For Burns, Cuts, Bruises, Soreness, Lameness, Sprains, Rheu-matism, Boils, Ulcers, Old Sores and Wounds, it has not an equal. It is also used, with great success, for Toothache, Headache, Neuralgia, Sore Throat, Colic, Diarrhoea, Hoarseness, and other similar troublesome and painful affections, while it promptly arrests all Hemmorkages. Hundreds of physicians use it daily in their practice, and give it their unqualified recommendation. Sold by our agents and dealers, and by
