#### LOCAL AFFAIRS.

passed over this and the adjoining States on the campaign, 50 cents. Friday evening last, about 10 o'clock, which excited considerable interest among all who had the pleasure or fear of seeing it. Its course, as witnessed by the editor at York, appeared to be a few points north of west to wards the east, emitting a strong white light, tinged with blue. To some it had the appearance of two, three, and four balls of fire, probably caused by reflection. The imposing sight was witnessed from the Lakes into the Southern States, so that its height from the earth must have been many miles, probably hundreds. Various theories, says the Philadelphia Inquirer, have been advanced as to the cause of such phenomenon. The general supposition is that these bodies or substanees have their origin in the atmosphere. Elec tricity, magnetism and hydrogen gas have been made responsible for the peculiar effects. Another idea is that the meteors are the products of nebulous matter, of the same nature of the tails of comets, floating in planetary perfine at 2 87, and family at 3 25. regions, and which, when it happens to be near the path of the earth in its revolution. is attracted by terrestrial gravitation. Still another theory is that there is a zone of lit snother theory is that there is a zone of lit the bodies whose orb intersects the plane of dard superfine is held at \$5 25a5 50; extras the ecliptic, and which are encountered by the earth every time which it passes the point of intersection. If the meteor of Friday was an ærolite, or fire ball, having a stone or sol id mass for its nucleus, there are four theories to account for its appearance. According to some, such ærolites may be projected from volcanoes on the earth, which it may be remarked is exceedingly improbable. The theory which finds the most ardent supporters, is the one already advanced, that the stones are formed in the atmosphere by an aggregation of matter, the result of gaseous vapors. The fourth view is that they are diminitive planets drawn to the earth's sur-

### Fruit Cans! Fruit Cans!

MORRET'S Patent self sealing and self testing airtight Can. This can was ex ensively used last year, and I have made diligent inquiry as to its worth, and found it to be a favorite, because easily closed, perfectly airtight, and easily opened. It is impossible to close this can if not perfectly airtight, and when once closed you have a positive proof that it is airtight. I will insure all fruit seal ed in this way in cans that are sound. Be sure you call at the sign the BIG COFFEE POT. J. I. WALLIS. P. S. We made a great mistake last year, by altering old cans, because there were many air holes we could not discover, that when taken home they could not be closed, and therefore the can condemned. Lewistown, June 12.

### Pond's Fxtract of Hamamelis,

S one of the few domestic remedies which bave come into general use and favor, without puffing. It is the product of a sim-ple shrub, harmless in all cases, and as a do-mestic remedy unequalled. For Burns, Cuts, mestic remedy unequalled. For Burns, Cuts, Bruises. Soreness, Lameness, Sprains, Rheu-matism, Boils, Ulcers, Old Sores and Wounds, it has not an equal. It is also used, with great success, for Toothache, Headache, Neuralgia, Sore Throat, Colic, Diarrhoea, Hoarseness, and other similar troublesome and painful officience wills in record. Brass and iron sights: brass boxes, new pattern and painful affections, while it promptly arrests all Hemmorhages. Hundreds of physi-

MARK THESE FACTS ! Testimony of the whole World.

HOLLOWAY'S OINTMENT. Bad Legs, Bad Breasts, Sores and Ulcers.

LL description of sores are remediable proper and diligent use of this inestimation. To attempt to cure bad legs by plass dges of the wound together is a folly : for where so the wound together is a folly: for kkin unite, a beggy discussed condition re-rucath to break outwith tenfold fury in a fac only rational and successful treatment by nature, is to reduce the inflammation in the wound and to soother the n ighboring adding in plenty of the Gintment as saft is

#### Diptheria, Ulcerated Sore Throat, and Scarlet and other Fevers.

the above diseases may be cured by t Outment three times a day into th troat and neck of the patient: it will soon penetrate and give immediate relief. Medicine taken by the outh nust operate upon the whole system ere its in mence can be felt in any local part, whereas the Oint ient will do its work at once. Whoever tries the un-acht in the above manner for the diseases named, or ay similar disorders affecting the chest and throat, ill find themselves relieved as by a charm.

#### Piles, Fistulas, Strictures.

to above class of complaints will be removed by the above class of complaints will be removed by thy fomenting the parts with warm water, and then nost effectually rubbing in the Ointment. Persons ering from these directul complaints should lose a moment in arresting their progress. It should inderstood that it is not sufficient merely to smear ointment on the affected parts, but it must be well bed in for some considerable time two or three rubbed in for some considerable time two or three times a day, that it may be taken into the system whence it will remove any hidden sore or wound as effectually as though palpable to the cye. There again bread and water poultices, after the rubbing in of the initment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down. Indiscretions of Yourk

#### Indiscretions of Youth ; Sores and Ulcers.

Biotches, as also swellings, can, with certainty, be adically curred if the ointment be used freely, and the bills be taken night and morning as recommended in the printed instructions. When freated in any other cay they only dry up in one place to break out in an-ther: whereas this ointment will remove the humor rom the system, and leave the patient a vigorous and eatthy being. It will require the with the use of the ills to insure a lasting cure.

pins to insure a lasting cure. **Dropsical Swgllings, Paralysis and Stiff Joints,** Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases will yield in a comparatively short space of time when this oint-ment is differently rubbed into the parts affected, even after every other means have failed. In all serious maladies the pills should be taken according to the printed directions accompanying each box.

## TOMATO JABS. J. HOFFMAN, Lewistown, Pa., has

LAMENTABLE OCCURRENCE .- The citizens of Newton Hamilon were startled on Tuesday last by an unusual occurrence in that quiet village, one which it is to be hoped will be a useful lesson to all in the habit of resorting to the vile practice of throwing stones. The circumstances, as near as we can gather them, are as follows : A young fellow named Garrity, formerly a bar keeper of J. G. M'Glaughlin in this place, had been employed by Wm. R. Ewing as a hand on a canal boat, and was discharged for drunkenness. On Tuesday he claimed pay for some lumber on the boat which he alleged was his-Ewing refusedwords ensued, during which Garrity picked up a stone and threw it, striking Mr. Ewing on the head, crushing his skull, and no doubt affecting the brain. He was still living on Tuesday evening, but no hopes are entertained of his recovery. Mr. Ewing was a young man, well known on the canal, highly esteemed, and has a wife and child. Garrity made an attempt to escape, but was arrested and lodged in jail.

The weather continues warm during the day, but since the appearance of the meproduced by such stray bodies coming in con tact with the earth's atmosphere. The oats crop is now being cut, and will yield heavily. A few slight showers have fallen, but not sufficient to help the corn, most of which is in a very backward state.

Somebody's married; but don't want it known.

going down the river Euphrates, he exper-severe attack of Fever and Agne. On dis-his condition, one of the boatmen took from m an Annulet, saying, "Wear this and no Fever you." Although incredulous as to its virtues, lied, and experienced immediate relief, and always found it an effectual protection from ious complaints. ther investigation he found that the boatman d it to miraculous powers, and said that it could obtained from the Priests of the Sun. NORMAL CLASS. ON TUESDAY, July 31, a Class will be organized, at Lewistown, of those who desire instruction and drilling in the branches taught in Common Schools, with the design of teaching.

In the examination this year, greater strictness will be used than was quite possiteor cool at night-an effect it is said always ble last year; and no certificate will be granted to any person who fails to sustain an examination in every branch of study required by law. It is hoped that all who feel themselves deficient in any respect will not fail to attend.

The Normal Class will be followed by an Institute, beginning August 27, and continuing five days.

ny age, as well as restore. Read the followin

Proceed of the main from being gray, and from mining to Oak Grove, S. C., June 24th, 1859. Prof. O. J. Wood: Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to hay prejudice aside, and give your Hair Restorative a perfect test: During the year 1854, I was so unfortunate as to be thrown from my subly gagingst a rock near the road-side, from which my head received a most terrible blow, causing a great deal of irritation, which commu-incated to the brain and external surface of the head, from the effects of which, my hair was anally destroy-the time of its total disappearance, I employed every-thing I could think of, being a professional man my-self, and, as I thought, understanding the nature of the discase, but was finally defeated in every prescrip-tion advanced.

self, and, as 1 thought, understanding the nature of the disease, but was finally defeated in every preseription advanced.
These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have every reason to believe, produced a very happy result two months after the first application. I had as beautiful a head of young hair as I ever saw, for which I certainly owe you iny most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers: moreover, I shall use my influence, which I flatter myself to say, is not a little.
You can publish this if you think proper.
Yours, respectfully, M. J. WRIGHT, M. D. Office of the Jeffersonian. Philippi, Va., Dec 12,1855. Dear Sir:-1 feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper: A gentleman of this place, (a lawyer) has been bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite huxuriantly, and he now has a handisome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can such as the adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can such as the adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can such as the adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can such as the adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can such as the adjoining counties in this and the adjoining counties if you have the proper agents. Yours & c.

THOMPSON SURGHNOR. DB, Wood Dear Sir: Permit me to express the obligations 1 an under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Re-storative as a very wonderful invention, quite effica-cious as well as agreeable. S. THALBERG. The Restorative is mut up in bottles of three sizes cious as well as agreeable. S. THALBERG. The Restorative is put up in bottles of three sizesy viz: large, medium, and small; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart. 40 per cent. more in proportion, and retails for 83. O. J. WOOD & CO., Proprietors, 444 broadway, New York, and 114 Market Street, St. Louis, Mo. And sold by all good Druggists and Faney Goods Dealers.
