THE houseneeper.

Curious Discovery in Horticulture .--It is stated that the proprieter of a paint factory in New York State has accidentally made a discovery which threatens to revolutionize horticulture. One of the factory hands having thrown some liquid green paint of a particular kind on a flower bed, occupied by anemones, the flowers have since made their appearance with pesince made their appearance with per-tals as green as grass. The paint had in it a peculiar and very penetrating chem-ical mixture, which has since been applied, with other colors, to other plants, annual, biennial and of the shrub kind—the result being invariably that the flowers so water-ed took the hue of the liquid deposited at their roots. By commencing experiments their roots. By commencing experiments early next year, during seed time, and applying different colors, we shall no doubt soon be enabled to ' paint the lilly,' which was Solomon's ambition.

From Godey's Lady's Book for September

A Pudding without Milk .- To eight so da biscuit, pounded up fine, add eight well-beaten eggs and four teacups of water ; sweeten to your taste; flavor with orange-peel, and bake as milk custards.

Disinfecting or Chlorine Gas .- This is the most powerful and efficacious disinfectant known; was used in cholera in Great Britain and Scotland.

One part black oxide of magnese, three parts of common salt. Pour over a little common vitriol. This makes the gas—a light colored smoke. Do not inhale it, but place it on a table in the hall of the house; the fumes will get up stairs and purify the whole building. A pound will purify the house for a month. It is a good preventive of typhus fevers, even in the worst localities. It is said cholera never came where this was used.

Ground Rice Pudding .- Take a tablespoonful of ground rice and a little suet chopped fine, and add half a pint of milk; sweeten to taste, and having poured it into drops of essence of lemon, and two tablespoonsfull of white wine; add this mixture t) the ingredients in the saucepan, give it a shake or two from right to left, then pour it into a greased dish, and bake in a full market price allowed therefor. moder tely heated oven.

Receipt for Mending Glass or China .--Mix the white of an egg with flour to form a thin paste; put it on the edges of the pieces, then join them, and leave till dry.

Drop Sponge Biscuits .- Half a pound of flour, six ounces of loaf sugar, three eggs, leaving out one white. Beat sugar and eggs together twenty minutes, then add the flour. the flour.

Ginger Biscuits .- Eight ounces of flour, four ounces of butter, four ounces of sifted sugar, half an ounce of ginger, finely powdered. Mix the whole with one egg ,and roll them out quite thin, and cut them with a wine glass. Bake them in a moderate oven.

In answer to a request for a receipt for making Chow-Chow, a subscriber kindly sends us the following :---

Four pounds of cabbage cut fine, four fine, green peppers cut up, a small piece the *pewter !* and don't forget that of alum, and a good deal of salt. Cover Goods at prices to suit the times.
