Having ascertained the questions thus propounded, he said thereon, I am not in the habit of answering questions propounded to me in the course of an address, but on this occasion I will comply with the request, and respond very frankly and unequivocally to these two questions.

## LATEST NEWS.

The City of Manchester, from Liverpool to New York, with dates to the 23d of August, brings the information that Garabaldi had effected a landing in Calabria, and that the people were in open revolt against the King of Naples.

The French Government had refused to elevate Spain to the position of a first-class Power.

The gold fever is epidemic in Oregon. Large yields of the precious metal are reported at Walla-Walla, Portland and the country around Puget's sound.

The news from Mexico is of the greatest importance. Miramon was defeated at Lagos on the 18th ult., and after five days' fighting, was forced to retreat to the capital. He lost all his artillery, two of his Generals, and besides, was badly wounded

Colonel Hugh Lindsey, the wellknown showman, died lately at his residence, in Lower Heidelberg township, Berks county, at the age of 55 years.

Holloway's Pills .-- Much Truth in a small ew people are conversant with the manner Few people are conversant with the manner in which the blood is created, or that the stomach with the gastric juices, the secretions of the liver and the action of the lungs are the chief agents for converting the food we eat into blood, hence the great necesity for preserving the stomach in a sound and headthy condition. Nothing has yet been discovered more effectual for this than Holloway's famous Pills, which act directly on the stomach, liver, bowels and circulation. In billious disorders, indigestion, costiveness and all consequent complaints, headach, piles, and debility there is no medicine in use which insures such certain and beneficial results.

## Female Health! Female Health!

Female Health! Female Health!

Thousands of Females suffer from derangements peculiar to the sex. First, and most common among these is, Female Weakness or Whites, or Leucorrhea, with its constant attendants. Lassitude. Prostration, Lame or Weak Back, and General Debility. No one can be entirely well who thus suffers, and in hundreds of cases health is utterly undermined. Old-school medicines and drugs do but little good—often much injury; but HUMPHREY'SSPECIFIC HOMEOPATHIC FEMALE PILLS are just the thing, relieving promptly, and curing permanently. A dollar's worth will do more good than quarts of nostrums, or six months' attendance on a doctor. Six boxes for \$1, Single boxes 25 cts.

"It is Better to Save than to Destroy."

History tells us of a conquerer who died from a pestilence caused by the dead bodies of the vanquished. As a set off against such a libel on humanity, we will point to a philanthropist whose sole aim it is to overcome disease, and rob the grave of victims. The man to whom we refer is a foreigner, an Englishman, but can nowhere be looked upon as an alien, for he knows no distinction race or creed in his efforts to rescue his fellow creatures from the grasp of death.— Our readers will readily surmise that we refer to Thomas Holloway, a name well known in this country and wherever the English language is spoken. The popularity which marvelous remedies have attained in all parts of Europe and America, is without a parallel in the annals of medicine. Here, in the United States, they are recognized as indispensible household curatives. All classes resort to Holloway's Pills in those diseases of the stomach, liver, and excretive organs, so prevalent in this climate, and no preparation is so extensively used as a dressing for wounds, bruises, ulcers, leprosy, cancers, tumors, and other external injuries and diseases, as Hol loway's Ointment.

If a world wide reputation, founded on the successful issues of twenty years' warfare with disease, is any compensation for the labors of the physician, Holloway has unquestionably achieved it. The patronage of monarchs, the gratitude of the million, the hon ors of science, the eulogies of the press—all are his. If he possessed the power of the prince in the fairy tale, of traversing the earth invisible, there are few portions of it where he would find himself a stranger. He would meet with his remedies among the aborigines of America, the luxurious races of Asia, the blacks of Africa. Not only are they standard medicaments of civilization in its old domains, but they seem to be the com panions of its march toward every point of the compass. It is no easy matter for any product of Europe to penetrate into the interior of China; yet, Holloway's Pills and Ointment are there. Nay, more, they are actually advertised in the heart of that exclusive empire. To deny the intrinsic value of articles that have been recognized as specifics for inumerable disorders in all parts of the globe, would be ridiculous. A community may be deluded, but the whole world cannot be deceived for twenty years in a matter of such vast moment to every human being, as the preservation of health and life .- Chicago

Blondin and Farina both carried men on their shoulders over Niagara Falls last week. Rope-walking has certainly gone mad. J. Stewart McEwen, who edits a dem-

ocratic paper in Missouri but don't know who he is for for President, is now engaged in proving John Bell an abolitionist. We commend his articles to the Lewistown Democrat.

As there is a full abolition ticket in the field-Gerritt Smith for President and Samuel McFarland for Vice President-we suppose the Lewistown Democrat will at last let its readers know that Lincoln is not the abolition candidate. We shall see, however.

There has been some commetion on the railroad during the past few weeks, caused by the discovery that frauds had been committed in reselling tickets. A few agents below have been discharged, but thus far none of the regular conductors-a class so gentlemanly and attentive that we should feel much regret to hear any were implicated in this transaction.

For the study of Etymology the following advantages are claimed:—

1. It imparts to the pupil a more thorough and precise knowledge of the meaning of the words of the English language than can be obtained by any other process in the same period of time.

2. It trains the mind of the pupil to habits of analysis and generalization—a desideratum in all systems of education, which is supplied by mathematical studies to the collegiate student, and by this study, it is believed, better than by any other, to the common-school punil.

BOOK-KEEPING.

AN ELEMENTARY TREATISE ON BOOK-KEEP-ING, FOR COMMON SCHOOLS. By S. W. Crittenden, formerly I rincipal of "Crittenden's Philadelphia Commercial College." [Price 45 cts.]

This treatise was prepared with reference to the capacity of the advanced pupils of the "Common" or "Gramman" Schools of our country, of from twelve to fifteen years of age; and elucidates the principles of the science, and the application of those principles to the more simple modes of keeping accounts, so that they may, it is believed, be fully understood by the class of pupils referred to.

The "Counting-House edition" of Crittenden's Book-Keeping (of which the above is virtually a part) is highly commended by many of the best practical accountants of the principal cities in the country. (For their opinion at length, see Descriptive Catalogue.)
