THE MINSTREL,

THE RAIN UPON THE ROOF.

DUET.

When the humid showers gather O'er all the starry spheres, And the melancholy darkness Gently weeps in rainy tears,

Tis a joy to press the pillow
Of a cottage chamber bed,
And listen to the patter.
To the soft rain patter over head,
And listen to the patter
Of the soft rain over head.

Every tinkle on the roof top

And a thousand recollections
Weave their bright hues into woof,
And I listen to the patter,
To the soft rain patter on the roof,
And I listen to the patter
Of the soft rain on the roof.

There in fancy comes my mother, As she used to years agone, To survey the infant sleepers Ere she left them till the dawn:

I can see her bending o'er me,
As I listen to the strain
Which is played upon the roof-top,
By the patter, patter of the rain,
Which is played upon the roof-top,
By the patter of the rain.

A CAPITAL CAMPAIGN SONG.

THE REPUBLICAN WAGON.

There's right and wrong in politics,
And the right is on our side:
So we've harnessed up the wagon, boys,
To let the nation ride.
The Union is our wagon,
And it isn't any sham,
For its crowded with the people,
And its driver's Abraham. CHORUS—Wait for the wagon, Wait for the wagon, Wait for the wagon, For the driver's Abraham.

The wagon is a noble one,

Wait for the wagon, &c.
The mill-boy of the slashes, boys,
Kentucky's Harry Clay,
Once sat upon this wagon
As we're sitting here to-day;
He drove the road of Compromise
By Constitution charts,
And held the reins of Union
All around the people's hearts.
Wait for the wagon, &c.

Wait for the wagon, &c.

In this our famous wagon,
With the people at its back,
Through all the troublous elements
Our Lincoln keeps the track;
And when the hands of Webster shock
The hand of proud Calhoun,
*Twas here upon this wagon box
They sat in close commune.
Wait for the wagon, &c.

So jump into the wagon, boys,
The people are its springs,
We're running on the Union course,
And Lincoln holds the strings.
The Union is our wagon,
And it isn't any sham.
For it's crowded with the people,
And the driver's Abraham.
Wait for the wagon, &c.

MISCELLANEOUS,

Upright Men .- We love upright men Pull them this way and the other, and they only bend, but never break. Trip them down and in a trice they are on their feet again. Bury them in the mud, and in an hour they are out and bright. You cannot keep them down you cannot destroy them. They are the salt of the earth. Who but they start any noble project? They build our cities, whiten the ocean with sails, and supply railroads with cars. Look to them, young men, and catch a spark of their

Silent Influence .- It is the bubbling spring which runs along day and night by the firm house, that is useful, rather than the swollen flood, or the warring cataract Niagara excites our wonder, and we stand amazed at the power and greatness of God there shown. But one Niagara is enough for the continent or the world-while the same world requires thousands and tens of thousands of silver fountains and gently flowing rivulets that water every farm meadow and every garden, and that shall flow every day and every night with their gentle quiet beauty. So with the acts of our lives. It is not by great deeds, like those of the martyrs, that good is to be done; it is by the daily and quiet virtues of life, the meek forbearance, the spirit of forgiveness in the husband, the father, the mother, the brother, the sister, the friend, the neighbor, that good is to be done,

A Great Place for the Coroner .- Some interesting Coroners' statistics are furnished by the New Orleans papers for the months of July and August, 1860 : The total number of inquests was 235, to wit:-13 homicides, 9 suicides, 38 deaths by drowning, 17 by intemperance, 13 by accidental causes, and 145 by various diseases. Of the accused in the homicide cases, two were tried and acquitted, one convicted and sentenced to be hung, four arrested and awaiting trial, four were not arrested, one has remained unknown. The suicides were ail men; four Americans, who died, two by poison, one by cutting his throat, and one by hanging himself; one Frenchman, who shot himself; one Irishman; three Germans, who died, one by hanging, one by a pistol shot, and one by drowning. Twenty of the bound—their waist never. The circum-deceased remain unknown. There were 39 ferruce of their dress is greatest at the cases of sunstroke and 46 of apoplexv. ine oldest deceased was an Airican negro, who died at the advanced age of 115 years.

The Chinese are our antipodes, not only in geographical position, but they do so of our own modes, that a most amusing privilege. chapter might be written on these points of difference.—The following are some of the A Dreadful Accident—A Man Falls from drawbridges, cisterns, fountains, verandahs, particulars:- They shave the hair from the head, instead of that on the face, after they reach fill manhood. The lather-brush looks like a tooth brush, and they lather with warm water only, without soap. They not only always wash and bathe in hot water but will also drink warm water in preference to cold. They begin at the end of a book to read, and read from the top to botof across the page and beginning at the left. and as it appeared he was quite rational, the page instead of at the bottom. The title of a book is always on the outer margin instead of at the top. The leaves are all

being single and printed on both. The pupils in schools study as loudly as they can scream, instead of silently, and in reciting stand with their back to the teacher, instead of face. They locate the seat of intelligence in the stomach instead of in the head. In salutation they each shake their own hands instead of the others. With them the magnetic needle is always said to point to the South, and in naming the four cardinal points they say east, south, west, north. Instead of southwest and northwest, they always say east-south and west-north. Matting is used for mattrasses, instead of on floors, and they use hard pillows (sometimes a block of wood) instead of soft. Long nails are ornamental-if three or four inches, they are of quite an aristocratic length. They put the ears, and driving the right side of his head given name, or the title by which you are called, after the family name instead of before it. So it would be Smith Mr. instead of Mr. Smith. It is impolite to take off your hat in the house. They plaster and whitewash buildings on the outside oftener up children, who are, we believe, at work than on the inner. It is a strong mark of filial regard for a son to buy a coffin as a present to his father, while yet living. On presenting it he says, 'may you live a thou-

sand years!' When a man becomes able, one of the first articles of furniture he buys for himbench or table for years. When it becomes tenanted it is frequently kept in the house for many years longer instead of being taken out and buried, and when thus taken out it is often placed on the surface of the ground instead of beneath it. The inscription is always on the end of the coffin instead of the top. They wear white for mourning instead of black. At funerals, women must weep even if they are not grieved; men must not if they are.

More lanterns are carried at the time of the full moon than at any other. They sell wood and fluids by weight instead of by measure. At a dinner, the dessert is always eaten first. The seat of honor is on the left hand instead of at the right. They eat with two sticks, both in one hand, instead of with a knife and fork, one in each. Their boots and shoes are higher at the toes than at the heels, and mostly made of cloth instead of leather. They use whiting instead of blacking. In laying floors they lay the plank with the smooth surface down on the timbers, while the upper is left rough and unplaned.

In drinking tea, the saucer is placed on the top of the cup instead of at the bottom. They kill themselves to be revenged of an enemy. Men wear gowns, petticoats, beads, embroidery, and gaiters, and women wear pantaloons, not however, 'the pantaloons.' They always mount a horse on the wrong side, and women ride as the men. Military officers carry fans instead of pistols. The plume is on the back of the cap and hangs down, instead of being on the front and standing up. In battle they wait for a ship to sail into line with the cannon on a fortification, instead of moving the gun, and directing it to the position of the ship. In the dress of men, the drawers are large and loose at the bottom, and have no string. while the pants are tight as possible, and are tied around the ancle like drawers. In other words, it might be said they wear drawers outside their pantaloons.

Among us, young men and women choose for themselves and do their own courting, when they become grown (and sometimes before;) in China, this is all done for them by their parents while they are in ants .-With us, ladies have the preference; with them, gentlemen. We educate and honor our wives, sisters and dauglaters, and bring them forward in Society; they degrade theirs, keep them in ignorance and out of sight. A few weeks since he received an order at his Camden depot for fifty copies of the New York Tribune. Accordingly, they proceeded on their mission, and, one night, captured their unsuspecting victim, in Memphis, and conveyed him on board a steamer, and locked him in a state-room. The captain of the boat, on learning their intention, refused to convey the party, and they were obliged to convey their captive across the river in a yawl. Arriving in Camden, Mr Marsh was arraigned on the charge of circulating seditious and incendiary documents, was convicted and sentenced to be hung. Time was, however, given him to send for his wife, and permission given him to procure from the citizens of St. Louis a certificate of former good character, respectability, and loyality. The wife of Mr. Marsh arrived in this city, en route for Camden, and is stopping at Barnum's Hotel, awaiting the completion of a petition already signed by many well known citizens, of all political parties, for the relief of the unfortunate man, whose only crime is embraced in the faithful discharge of his business relations. Mrs. Marsh will leave for Camden to-day with the petition numerously signed, with the heartfelt prayer of the citizens of St. Louis for the safety of her husband from the hands of fanatical fire-eaters .- St. Louis Der ocrat.

Excitement in Martinsville, Ohio-A Vigilance Committee .- For several months past the town of Martinsville, says the Wheeling, Va., Intelligencer, has been infested by a lot of abandoned women and reckless outlaws, whose thefts, burglaries and obscene conduct has been the annoyance of the entire community. The nuisance having become intolerable, a vigilance committee, numbering thirty respectable citizens, was formed on Thursday .-The members of the organization disguised themselves, and, armed with muskets, surrounded a barn full of the obnoxious people, and captured them after a desperate resistance. Destruction of Churches by Fire .- The Boston Transcript says that the church burned at Medford, Sunday morning, is the sixth which has been destroyed by fire in that immediate neighborhood within the past ten years. The Methodists of Cambridgeport, the Unitarians of Cambridge, Somerville and West Cambridge, and the at Malden-a fine edifice destroyed in 1856. At a depth of 175 feet, oil was struck, and it has since been coming to the surface in a voluntary flow one barrel per minute! Think of this, ye men who are anxious to get rich. At \$14 per barrel, a low estimate, this well yields its owner \$20,160 per day. We are assured by parties who have visited the well that there is no humbug in the statement-that it positively yields its barrel per minute.-Erie Dispatch.

The Chadd's Ford Demonstration. On Tuesday afternoon of last week, the

great Lincoln meeting at the Brandywine battle ground took place, The Philadelphia North American says it was one of the largest assemblages ever held in that vicinity. The number of participants is estimated at from 30,000 to 40,000 people. There were nearly 5,000 equipped men, all of whom were drilled in military tactics. These clubs hailed from Delaware, New Jersey, Maryland, Philadelphia, and nearly every section of Chester and Delaware counties, and some from Montgomery and Lancaster counties. They brought twenty bands of music with them. A number of coons and rails figured in the delegations. The banners from Delaware proclaimed 'no more Slave States.' The ground was gaily decorated with flags, and the roads and fields were crowded with vehicles for a mile around. A brass cannon kept up a constant peal from the hill-top. The meeting was organized by the election of Bayard Taylor as President. Mr. Taylor, after returning thanks for the honor, and announeing himself a Republican, introduced the man spoke for nearly two hours, amid the most incessant applause. Mr. John Covode, who was announced to speak, was prevented by his engagements in western

Pennsylvania. Mr. Sherman was followed by Hon. J. H. Broomall, Hon. John Hickman, and Wm. D. Kelley, Esq., of Pennsylvania; N. B. Smithers and J. Aldrich, of Delaware; and Wm. Pinkney Ewing, of Maryland, and others.

Clearfield County.

We learn from the Journal that on the 22d August, information was brought to town that a man was lying dead in the road near Nancy Ogden's about a mile and a half east of Clearfield. M. A. Frank Esq., at once proceeded to the spot and selected a Jury, onsisting of Geo. Thorn, John W. Shugert, Henry Evans, Geo. W. Rheem, Henry W. Park and Henry E. Snyder, who ascertained that the deceased was a man named Frederick Schindel, who, some months since, was employed as bar keeper in the National Hetel in Tyrone City. The Jury rendered a ver-dict "that said Frederick Schindel, in passing along the public highway in Lawrence township, fell dead; that he had no marks of violence appearing about his body, and died of the visitation of God in a natural way." Poor Fred! There is no doubt that property, called the Schutzenburg, which | the demon Alcohol was his destruction. He was buried on Friday in the grave yard on the hill, away from kindred and home, with strangers only to pity his sad and mournful end. It is creditable to the officers and others who were called upon to take an active part in the case, that they had him decently, interred.

On Saturday afternoon, Aug. 25th, our venerable friend Jason Kirk, of Penn township, this county, during a temporary abscence from home, had his house robbed of \$1,080. appears that a stranger, about six feet in height, with heavy sandy whiskers, reddish brown coat and black pants, called at the house and informed a small boy and a girl, who were the only persons about the premises at the time, that a number of cattle were in the corn field, and they had better hurry and turn them out or they would destroy the corn. Whilst the girl and boy were doing this, the scoundrel entered the house, broke open several trunks and two chests, and from one of the latter abstracted the money; about \$600 or \$800 of it was in \$20 gold pieces, \$200 in eagles and half eagles, and the balance in silver. The robbery was not discovered un-til Mr. Kirk returned from Lumber City, in the evening, when persons were sent in pur-suit of the roble; but no arrest so far as we know, has yet been made. An individual answering the description of the one who sent the boy and girl to the corn-field, was seen in Curwensville towards evening. The cattle had doubtless been turned into the corn by the villain for the purpose of committing the

Prof. O. J. Wood: Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the road-side, from which my head received a most terrible blow, causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroy.

thrown from iny sulky against a rock near the roadside, from which my head received a most terrible
blow, causing a great deal of irritation, which communicated to the brain and external surface of the head,
from the effects of which, my hair was finally destroyed over the entire surface of the head. From the
time I first discovered its dropping, however, up to
the time of its total disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, understanding the nature of
the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to
resort to your worthy Hair Restorative, which I have
every reason to believe, produced a very happy result;
