Add nutmeg and a wine-glass of rose-water; and also add a teaspoon of solution of cream of tartar, and half a teaspoon of solution

Baking about fifteen minutes in a moderately hot oven will be sufficient.

Chicken Pie.-From the above source, we have been furnished the following :--Take a pair of good young chickens, cut them in small pieces, adding a proper quantity of pepper and salt and small strips of salt pork, and put the whole into a saucepan and cover with water. Boil for half an hour, and add flour and butter to thicken the gravy. Provide a large dish for baking it, served with paste; put the whole into the dish and cover again with good rich paste, and bake the pie half an hour. It is best while fresh from the fire.

AGRICULTURAL.

Agricultural Associations --- Their Usefulness.

Mr. Lewis F. Allen, of Buffalo, a wellknown agriculturist, made the following remarks in an address recently delivered at the Rensselaer County Fair:

Associations, in the way of farmers' clabs, town, county, and state agricultural societies, every farmer should strive to promote and attend. No high attainment in any pursuit can be secured except by comparison of one's work with another's. A man who never goes away from his own farm to see another farm, and the crops and stock upon it, and to examine their mode and treatment, cannot be an improving farmer. It is chiefly, I may say almost wholly, through the introduction and continuance of our agricultural societies and associations, connected-as they in many instances are-with mechanics, that been attained that wonderful progress which we see in agricultural proper, and in the inventions and use of farm implements within the last twenty years. In conclusion, I can only remark, that to attain for himself the highest degree of excellence in agricultural attainment, the best faculties of the mind must be devoted to its study; while the labor of the hand Boston Daily Atlas. must be equally devoted to its practice.

Medical Qualities of the Carrot.

Not only do carrots give strength and endurance to sound horses, but also give recovery and health to such as are sick .-There is nothing better, perhaps none so good. When first given, they are strictly diuretic and laxative, but as the horses become accustomed to them, these effects cease to be produced. They also improve the state of the skin. They form a good substitute for grass, and an excellent alterative for horses out of condition. To sick and idle horses they render corn unnecessary. They are beneficial in all chro- Prince of the House of David: nic diseases connected with breathing, and have a marked influence on chronic cough and broken wind. They are serviceable in diseases of the skin, and in combination with oats, restore a worn horse much sooner than oats alone. - Stewart on Stable Econ-

Barrels for Fruit .- Everything in contact with fruit should be clean and sweet. and the vessel in which it is placed should be dry and tight. Old flour barrels should not be used, unless well washed and dried, as the particles of flour left in the barrel will mould and impart to the fruit an unpleasant odor and flavor. Old lime barrels, it is said, are excellent for this purpose-the lime absorbing the vapor and gasses. If this is so, a little fresh slaked lime scattered on the bottom, sides, and top of the barrel, would be beneficial.

A New Book And One Destined to Create A Sensation.

JUST PUBLISHED, THE SUNNY SOUTH, Or the Southerner at Home ;

Embracing Five Years' Experience of a Northern Governess, in the Land of Sugar, Rice, Tobacco and Cotton.

Literary Notices from the Press throughout the Country.

The Sensy Sourn.—"This book is composed of a series of letters, written in an interesting style of a narrative, embodying the most romantic features of social life on different kinds of plantations. We can bear testimony, from our own personal observation of similar seenes in the South, to their truthfulness as here depicted. They are portrayed in a vivid, interesting style, and we would like to see the book in the hands of thousands of deceived people, who have no personal knowledge either of Southerners or Southern life, except what they have gained from partial nournals, or those who intentionally have written to deceive."—Daily Republic, Buffalo, N. The Sunny South.—" We have rarely peeped within the covers of a more appetizing volume. Although not intended as an answer to the foul untruths in the Unele Tom trash of the last ten years, it nevertheless does unmerefully hurl back to their source all lies of such a nature, and we are glad to believe that the book will be read in thousands of Northern homes. The South should also take to it benignantly, for independent of its truthfulness and integrity it is one of the liveliest and most entertaining books of the year."

Fuel Saving, Gas Burning, Airlight COOKING STOVE.

This stove has already won for itself the enviable reputation of being a Complete success, and with the additional improvements consisting of the plates exposed to the fire being double, making it therefore more durable than any other stove in the market. This stove has been gotten up expressly for country trade, as it has been a general complaint and an undeniable fact that the cooking stoves manufactured heretofore have been entirely too light. The Governor Penn exceeds all others by 20 per cent. in weight, which gives it an advantage in throwing out and retaining more heat.
