The Southern Fever.

We deem it useless to print any portion of the balderdash sent over the telegraph wires respecting South Carolina, Georgia, Alabama, Mississippi and Florida taking measures to secede from the Union. In South Carolina there is a great deal of talk and bombast among the tory democrats who vegetate there since the revolution. In Georgia the Governor, who is a sort of "John Brown," has proposed to seize goods of Northern men and other piratical acts and recommended retaliatory measures against all the States who will not turn nigger catchers, but the Union sentiment is strong there and will eventually put down rebellion. The best evidence of the folly of even talking of seceding can be instanced by a few facts relating to South Carolina, in which State the most is said of going to war with the north. By the late census the free white persons of one district are set down at 1,950, the colored Washington population in the same district 12,694; the Westmorela'd whites forming only one sixth of the num- Wyoming ber colored, upward of 12,000 of whom York are slaves. In Lower All-saints district Total the disproportion appears to be still more marked; for instance, in a population of 4,831, only 226 are free persons, 119 of Lincoln over Douglas ticket whom are males. This would give an average of rather more than 38 slaves to each white male in that district. The grand total of slave population in the above dis- will be 92,682. tricts is 16,605; of free persons, 3,195. Here we have a population of which less than one-sixth are white persons, and the

It then goes on to say

"But we doubt Mr. Hale's sincerity on this subject, as we do that of all other politicians out offering practical remedies. The politicians want the subject for a hobby, and that is all any of them care about it. They would not settle the question if they could, so long as it will yield them political capital."

Judge Hale is hardly a politician in the exertions will depend the enactment of a sound tariff the Clinton Democrat can rest easy. By the by, if that paper is interested in a tariff, why not urge on the demopostponed by that body last spring? It is commanding Gaeta. entirely satisfactory to Pennsylvania iron and coal interests.

Negro Vote in Ohio.

Among the late lies circulated by Locofoco editors and orators, is one which was repeated in New York by Herschel V. Johnson, Douglas candidate for the 6725 523 570 Vice Presidency, and re-echoed by the Lewistown Democrat and other papers, to the effect that the Republicans carried the State of Ohio, at the October election, by means of the Negro vote! that 14,000 negroes voted their ticket!! Now let us see what the facts are. From the Cincinnati Gazette we learn that the colored population of Ohio numbers, all told, 24,379; of these, 12,691 are males, and of the males may be objected that some "careful, prudent there are only 5,872 over 21 years of age. The Gazette then goes on to say:

"By the Constitution of Ohio, none but upon the purchaser. And the objection chite males over twenty one can vote; but comes with considerable force since irresponwhite males over twenty one can vote; but the Supreme Court decided that a less than half blood, was white; consequently, if the judges of elections should decide that a lightcolored mulatto was less than half, they might admit him to vote. Now the number of this class is not one-third of the whole amount, and of the 5,827 colored males over 21, not more than 2,000 could possibly come within a legal right to vote. Judge Brinkerhoff's clear majority of the entire vote was 13,004. If, then, every colored man in Ohio had voted the Republican ticket, the Judge would still have had 8,000 white majority be yond that; and if every one voted for him, who had a right, he would have had 11,000 majority. But, so far from this, we challenge all the inspectors of elections in Ohio to show that three hundred colored men actually voted at all; or, that two hundred voted the Repub lican ticket. When we state that half the colored population of Ohio are in the counties of Hamilton, Ross, Franklin, Pike, Fairfield and Gallia, and one or two others, where a negro voting would subject him to being mobbed, it will be seen what an incredible amount of either ignorance or lying is involved in Mr. Johnson's statement.

Hung for the Nineteenth Time-A Western Missouri contemporary tells the following :- On Tuesday last news came to this city that a man was seen hanging between Independence and Maxwell's Landing .-The Coroner was promptly notified of the fact, and he, in the discharge of his duty, as promptly repaired to the scene; but to his surprise, found the man alive, kicking, and walking about as other men do, with no rope around his neck-where the rope ought to be. He (the Coroner) made some inquiries about the man, and the old woman-that is Mrs. Elliott, the wife of the hung man-replied that he was down, but not dead, and further remarked that it was about the nineteenth time he had attempted to hang himself, and had not yet succeeded, but she'd be tetotally darn'd if he mightn't hang the next time until he was good dead-that she would never cut the rope again to let him breathe easy. We understand that Elliott is in the habit of hanging himself every time he has a family jar, and although he has made so many attempts, has never yet got without sight of the house, where his wife would not fail to cut him down before his wind shortened.

Cared by Baryhace's Holland Bitters.—Mr. A. Matchet, a trader, probably as well known as any man in Western Pennsylvana, states as follows:—I met with a farmer in Armstrong country who was reduced by dyspepsia to a mere skeleton. I persuaded him to buy a bottle of Berhave's Holland Bitters, believing it would cure him. Meeting him some months after, what was my astonishment at finding him a hale, hearty man; he told me he now weighed 200 pounds, and that this wonderful change had been produced by Bærhave's Holland Bitters, to which he attributed solely his restoration.'

Coughs and Colds! Coughs and Colds! Seasonable Advice.—Let no one neglect a cough light cold. Thousands, doing so, have had one dded to another, until the mucous membrane, lin air passages, has become excessively irritated, and air passages, has become excessively irritated, and on permanently thickened, and soon chronic cough, omic pheumonia, and consumption successively lop along. The best time to cure all this is when regims. If you are so fortunate as to possess a case Humphrey's Specific Homeopathic Remedies, and rou do not, you ought to at once take a Cough Pill, I then two or three pills per day, with care as to re-wed exposure, will bring you all right in a day or b.

Fire and Thief Proof Chests.

The manufacture and sale of fire and thief proof chests has become a business of immense magnitude; and although confined chiefly to one leading house in Philadelphia, safes of Philadelphia manufacture are now found in every part of the country. The great amount of security which is realized at so trifling a cost makes it a matter of immediate interest to every prudent business man. A certain degree of security can be had by insurance, but the best insurance policy is imperfect where the books and valuable papers are at the mercy of the devouring ele ment; and this fact is so generally understood that no man who makes any pretensions to being a careful business man can afford to be without a proof safe, and hence the great extent of this department of manufacture. men" will not risk the purchase of a so called safe which in the hour of trial must prove itself to be a cheat-an imposition and fraud sible parties are engaged in the manufacture of them. Every reputable business attracts impostors, and the manufacture of safes is not an exception. Parties even from other cities have been attracted to Philadelphia by the well earned reputation of safes manufac tured there, and to a certain extent have brought the business into discredit. But the men who purchase from a house long and well established, whose safes have stood the test of time and whose integrity commands the confidence of the business community, can run no risk. And it may not be out of place here to say that Messrs. Evans & Watson are without a rival in this department of trade. Their sale rooms at No. 304, Chestnut street, always contain a large stock suited in styles and prices to every demand.— Their safes have, wherever tested, added to their well earned reputation, and whatever may be said of other manufactures, certain it is that Evans & Watson's safes are what they purport to be, and he who seeks security will not find it for a less price elsewhere .- From our Exchanges.
