MARK THESE FACTS! Testimony of the whole World.

HOLLOWAY'S OINTMENT. Bad Legs, Bad Breasts, Sores and Ulcers. ALL descriptions of sores are remediable by the proper and diligent use of this medicinal preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin under a boggy diseased condition remain unbroken, it will prevent the ointment from doing any good. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

Diphtheria, Ulcerated Sore Throat, and Scarlet and other Fevers. Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the ointment in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved by a charm.

Piles, Fistulas, Strictures. The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these distressing complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the ointment on the affected parts, but it must be well rubbed in for some considerable time (two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general heating blood.

Indiscretions of Youth; Sores and Ulcers. Blisters, as well as venereal, can, with certainty, be radically cured if the ointment be used freely, and the pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this ointment will remove the humor from the system, and leave the patient vigorous and healthy being. It will require time with the use of the pills to insure a lasting cure.

Dropsical Swellings, Paralysis and Stiff Joints. Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases of such diseases, will yield in a comparatively short space of time when this ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases: Bad Legs, Corns (Soft), Rheumatism, Bad Breasts, Sore Nipples, Burns, Contracted and Sore Nipples, Blisters, Stiff Joints, Sore Throats, Bites of Mosquitoes, Elephantiasis, Skin Diseases, Ulcers, Fistulas, Scabies, Gout, Sore Breasts, Croup, Catarrh of the Throat, Uterine Swellings, Chills, Lumbago, Wounds, Chapped Hands, Piles, Yaws. CAUTION—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON" are discernible in the "Holloway" in every leaf of the book of directions, around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sole Agent for the Manufacturing of Professor Holloway, 20 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in pots, at 25c, 50c, and \$1 each. There is considerable saving by taking the large size.

Directions for the guidance of patients in every disorder, are affixed to each box. my10

BERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND, FEVER AND AGUE, And the various affections consequent upon a disordered STOMACH OR LIVER.

Such as Indigestion, Acidity of the Stomach, Colic, Pains, Headache, Loss of Appetite, Dyspepsia, Constipation, Bilious and Bleeding Piles. In all Nervous, Rheumatic, and Neuritic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Berhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of the disease, and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system. NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

READ CAREFULLY! The Genuine highly concentrated Berhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle, or six bottles for FIVE DOLLARS. The great demand for this medicine has induced a number of unscrupulous imitations, which the public should guard against purchasing. Beware of cheap imitations. See that our name is on the label of every bottle you buy. Sold by Druggists generally. It can be forwarded by Express to most points. SOLE PROPRIETORS, BENJAMIN PAGE, JR. & CO. WOLFE'S PURE COGNAC BRANDY. Wolfe's Pure Jamaica and St. Croix Rum. Wolfe's Pure Scotch and Irish Whiskey. ALL IN BOTTLES.

I BEG leave to call the attention of the citizens of the United States to the above Wines and Liqueurs, imported by Adolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated Schenapp's Schnapps. Mr. Wolfe, in his letter to me, speaking of the reputation of his Wines and Liqueurs, says "I will state my own experience as a merchant and importer of thirty years' residence in the City of New York, that all the Brandy and Wines that I bottle are pure and unadulterated, and that I have never known any one else who has so long and so conscientiously adhered to the truth for themselves. For sale at Retail by all Apothecaries and Grocers in Philadelphia. No. 822 Market st., Philadelphia. Sole Agent for Philadelphia.

Read the following from the New York Courier: EXAMINE FRANKS FOR ONE NEW YORK MERCHANT. We are happy to inform our fellow-citizens that there is one place in our city where the physician, apothecary, and ordinary merchant can purchase pure Wines and Liqueurs, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, although it will repay any student or citizen to visit Adolpho Wolfe's extensive warehouse, Nos. 18, 20 and 22, Beaver street, and Nos. 17, 19 and 21, Market street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy some ten thousand cases—Cases of 150 to 155; and ten thousand cases of Madeira, Sherry and Port Wine, Scotch and Irish whiskey, Jamaica and St. Croix Rum, some very old and equal to any in this country, and a large stock of large cellars, filled with Brandy, Wine, &c., in cases under the Custom House key ready for bottling. Mr. Wolfe's stock of Schnapps last year amounted to one hundred and eighty thousand cases, and we hope in less than two years he may be equally successful with his Brandy and Wine.

His business merits the remembrance of every lover of his species. Private families who wish pure Wines and Liqueurs for medicinal use should send their orders direct to Mr. Wolfe, 25 Beaver street, New York, and make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wine and Liqueurs. We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liqueurs. Such a man, and such a merchant, should be sustained against the tens of thousands of opponents in the United States, who sell nothing but imitations, rumors alike to human health and happiness. sep15

THE GEMS OF THE SEASON. THIS is no humbug, but a practical truth. The pictures taken by Mr. Prackholder are unsurpassed for BOLDNESS, TRUTHFULNESS, BEAUTY OF FINISH, and DURABILITY. Prices varying according to size and quality of frames and Cases. Lewistown, August 23, 1860.

LOCAL AFFAIRS.

SAD CASE OF DROWNING.—As the canal boat Elizabeth, of Newton Hamilton, was on its way with other boats in tow of a steamer, round from Baltimore to Havre de Grace, on Friday night last, Captain Jesse Rice was missed, and it is supposed fell from the boat into the bay and was drowned. It is thought he had in his possession the freight received at Baltimore besides sundry papers. Mr. Rice was about 32 years of age, was a son-in-law of Charles Caughling, of Newton Hamilton, and leaves a wife and two children to mourn his sudden departure from the scenes of life and the companionship of a large circle of relatives and friends.

TORCHLIGHT PROCESSION.—The Wide-awake clubs, &c. celebrated the election of Lincoln and Hamlin on Friday evening last by bon fires, fire-works, torchlight procession, &c., which though not as large as that previous to the October election, made a fine display. The Lincoln Rangers made a splendid appearance in the ranks, with their peculiar uniform and Zouave performance. The Salt River Bell boat and several other matters were got up with much taste as well as satire. Although not called for in the programme, a large number of houses were illuminated and decorated with flags and wreaths.

LINCOLN TURNIP AND RABBIT.—Joseph I. Langton, of Granville township, has left at our office a turnip weighing ten pounds and measuring over 28 inches in circumference. Also, a radish about 18 inches long, of almost uniform thickness for 15 inches, and measuring from 11 to 12 inches in circumference. They are of the Lincoln species, as may be inferred from their size.

THE weather changed on Tuesday with a bleak northwest wind, and yesterday morning the mountains and roofs were covered with a slight fall of snow.

LARGE BEET.—Wm. Lind, who in addition to his vocation of an A No. 1 tailor devotes his mornings and evenings to gardening, left us a beet the other day weighing six pounds, and measuring about 22 inches in circumference. If anybody can beat this beet, send it along.

TOWNSHIP AND LOCAL LAWS.—We are under obligations to the publisher of a volume bearing the above title. It is a compilation of the laws relating to the duties of Justices of the Peace, Constables, Supervisors of roads, &c., a knowledge of which is of importance to every citizen. In addition it contains a number of blank forms for instruments of writing, most in use. The volume is a valuable one, and should be in the hands of every man. We have no doubt it will find a large demand. It was compiled by William T. Haines, a member of the Chester County Bar. J. M. Cogley has the book for sale.

THE LATEST RETURNS.—Another new and complete stock of Winter Dress Goods for Ladies and Gents just received from the Eastern cities by B. K. Firoved, agt. He extends an invitation to all purchasers after examining all other stocks in Lewis town, to call and see the difference in styles and prices. Goods will be sold for cash or country produce. Call all and see.

COSTAR'S RAT EXTERMINATOR.—We had occasion a week or two ago to use this remedy, and since then have not a rat about the house. Its effect was like magic, and we therefore confidently recommend it to our readers who are annoyed with these pests as preferable to arsenic or anything else heretofore used. A box contains sufficient to drive away or kill hundreds. For sale by Charles Ritz—25 cents per box.

LINCOLN ELECTED.—A large invoice of Rich Black Goods, Rhine Silks, and Fancy Silks, such as Solferino colors and a variety of others, just received, and will be sold at low figures by B. K. Firoved, Agt. Buyers will do well by calling to examine the stock. 5 per cent. off for all cash bills over \$5.00. A large stock of Ladies Mourning Goods, also for sale at the same place. Call and see.

Nuisance.—the recess at public schools.

Encourage Your Pupils.

Teacher, drive away those clouds and that portending storm from your brow—they can do no good there. Be cheerful, lively and hopeful, and you will live longer, feel happier, and do more good. Away with that fault-finding disposition! Flatter never, but praise and encourage always when you can judiciously and conscientiously. Have you never felt the want of encouragement? And when it came did it not raise your head like dew the tender plant? Then if you in the full strength of manhood or womanhood, have felt its quickening influence over yourself, why not make it an object in your daily intercourse with those pure and tender minds entrusted for a time to your care, to shed around yourself continually the genial influence of kind and judicious encouragement to habits of mutual forbearance and kindness, self denial, justice and studiousness. EXCELSIOR.

Mr. Editor.—Although there are a great many who endeavor to raise objections to the numerous "fangled" notions which, they say, have crept into school teaching and the school system in these latter days, all thinking men agree that there has been a vast improvement made within the last few years in the cause of Common School education. This is not only the case in one or two particulars, but the revisions and changes have been so numerous, and the advancement so great, that we may say there has been almost an entire revolution in educational affairs in the noble old Commonwealth of Pennsylvania since our late school law has been in force. As a great many old fashioned arrangements have proven to be far from the best, we find a few modern shallow-brained individuals who endeavor to discard all such, while in not a few cases they can give no other reasons than that they are "pleased to term them 'old fogyisms'—just as though our ancestors had not the ability to discover, either intentionally or by accident, any plans worth anything, or, if any were, at first, of any value, old age and long continued practice has rendered them unfit for the present day. Those plans and arrangements which, by being old and long practiced, have proven themselves to be good, are the ones in which we should put the most confidence and be the most eager to copy after. It would be far better for many in this fast age, if some of the old landmarks, of late years lost sight of, were followed by them.

One of the greatest signs of advancement and improvement in the cause of education, is the vast increase in the number of periodicals and books bearing directly upon the teacher's mission. These have nearly all been established or had their origin within twelve or fourteen years, and most of them within five or six years. This is evidence that the public mind is beginning to wake up to the importance of this subject, and that the instruction of youth is fast moving toward that position which duty loudly calls upon us to give it.

We are well aware that the more distant different sections of the country are, the greater their difference in variety in climate, in the occupations, habits and opinions of their inhabitants, and, consequently, in modes and methods which make up their teachers' labors. It is through the agency of the press that we can have access to a knowledge of this variety. Through this agency we can acquaint ourselves with the practice, experience, and results of those who are, or have been, long tried, successful and renowned teachers; we can, as it were, converse with a Page, a Mann, a Northend, and a host of others whose names are in the same illustrious catalogue. But it is not only such who can give good practical ideas to his fellow teachers through the press. That teacher who has not something which would be of use to others, must indeed have very small facilities for originality and observation. Do you say you cannot write? That you have not accustomed yourself to it? This practice like everything else must have a beginning; and there is but one way of ascertaining to a certainty whether your inability is real or imaginary. Have you given that way a fair trial? I need not explain what opportunities for writing have, through the kindness of the County Editors, been offered to the teachers and friends of education in "Little Mifflin." We can have no good excuse for not taking advantage of the opportunity. It is a duty we all as teachers owe to our profession and to ourselves. And we should ever remember that whatever we do for the good of our chosen calling will result in our own personal benefit, and vice versa. TAY.

THE want of really pure Brandy has long been felt in this country, and the opportunity to procure an article of such quality as to supersede the sale and use of the many vile compounds so often sold under the name of Brandy, can be regarded only as a great public good. The Catawba Brandy possesses all the choice qualities of the best imported liquor, and is positively known to be of perfect purity and of superior flavor. As a beverage the pure article is a remedy for Dyspepsia, Flatulency, Cramp, Colic, Languor, Low Spirits, General Debility, &c. &c. Physicians who have used it in their practice and who have been treating twenty-six years speak of it in the most flattering terms, as will be seen by reference to numerous letters and certificates. Novelty in the Art World. Photography on Porcelain.

Secured by letters patent in the United States, England and France, and Belgium. The American Photographic Company, No. 781 Broadway, New York, having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for the following: Miniature Likenesses of Persons on China, presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water-color drawing, and a heretofore unattainable quality of durability, being rendered as imperishable as the natural transparency of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of Photographs on plain surfaces, but upon such as are rounded or of an irregularity—Portraits can be reproduced with faultless accuracy, and delicacy of delineation upon Porcelain ware of any description and dimension used as articles of luxury or household utility, such as Urns, Vases, Breakfast Cups, Toilet Articles, &c.; &c.

directly securing faithful portraits and furnishing a unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the Fine arts desirous of having Portraits on Porcelain, the company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost prices. As the American Company are the owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order

To afford people in every section of the Union an opportunity to possess Portraits on China, to make the following proposition to Residents in the Country who are unable to visit personally the Atelier and Galleries in New York.

Persons sending a photograph, ambrotype, or daguerrotype to the office of the company in New York, accompanied by five dollars, will receive in return by express, free of charge, a

A richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerrotype and ten dollars, they will receive in like manner, A handsome French Vase or Toilet Article, with the portrait reproduced by the patented process. By sending a pair of daguerrotypes and fifteen dollars, they will receive in return

A pair of rich Sevres Vases, with the portraits executed equal to miniature paintings; and, in like manner, portraits can be reproduced on porcelain ware of any variety of utility or finish, ranging in price from twenty to one hundred dollars the pair.

N. B.—Be particular in writing the address, town, county and state distinctly. All letters to be addressed to Manager American Photographic Porcelain Co., No. 781 Broadway, New York.
