Seasonable Hints about Personal Comforts.

A thin shawl may be made warm by folding a newspaper inside of it. The paper is impervious to the wind and cold air from outside, and prevents the rapid escape of the warm air beneath it. Every one knows that the heat of the body is carried off much more rapidly in a high wind than in a calm. The wind blows away the heat evolved from the body, but in a still air this heat remains, and constitutes an atmospheric envelope so nearly of the same temperature with the body itself that the latter is not so quickly robbed of its natural heat.

A piece of silk cloth, stitched in the folds of a shawl, is more flexible than the paper, and will last a whole winter. It has the advantage of securing inward warmth without the additional weight of a thicker garment.

When you set out on a winter journey, if you are liable to suffer from cold toes, which many people do in spite of 'rubbers', fold a piece of newspaper over your stockings, which you can readily do, if your boots or shoes are not irrationally tight. This is better than 'rubbers', which are, in fact, very cold comforters in extreme cold, while they make the feet sweat in moderate weather. The main use of India rubber over-shoes is to keep out water, and for that they are second only to a stout, water proof, first rate calf-skin boot. There is not a more villainously unwholesome article than the high-topped rubber boot. It makes the foot tender, especially in children, gives an ugly gait, and when left off in any weather, the wearer is liable to 'catch cold.' Saint Crispin is the best friend of the human foot, when his leather and stitches are honest.

The constitutional vivacity and temper of a person has much to do with his endurance of cold. For this vivacity is a sort of nervous fire that lessens the sensibility to outward impressions. An indifferent, milk and water person, without energy and force, is at the mercy of every cold blast that sweeps round the corner. He, and especially she, has no defence but to wear a dozen shawls during the day, and sleep under a bale of blankets at night. Without any mental purpose (unfortunately there are such), though in vigorous health, is much more liable to catch cold than a spirited delicate body bent on some positive pursuit.—*The Century*

About Bedbugs.—According to an article in the December number of Harper's Magazine bedbugs are an American invention, and have been exported from this country to all parts of Europe, excepting Ireland, where a bedbug is never to be found. The insect made its appearance in England as early as 1503, when two noblemen were 'punctured' by them, and the physicians called in great haste. The bug is a parasite of the bat family, and is so tenacious of life that no degrees of cold or heat can affect it. Freeze one until you can break it in two; thaw the pieces and they will survive. Freeze the eggs until they are congealed in ice; let them thaw and they will hatch again as usual. Boil both insect and egg and they will revive as soon as cool. If they can get nothing to eat they will live to propagate on what nourishment they may derive from the atmosphere.

Deer Forest.—The largest modern deer forest is that of the Duke of Athol, which, according to his evidence in the late case of the Earl of Wemyss against Campbell, of Monzie, extends to 100,000 acres. The next is the forest of Farquharson, of Invercauld, but which is partly under sheep, and partly under deer, altogether about 130,000 acres. Next to which ranks Lord Fife's forest, of Mar, about 60,000 acres. There are a number of other deer forests of much smaller extent, but the extent is not much increased much of late years; and by comparison it will be found that the extent of ground under deer is now much less than it was a hundred years ago.—*Pertshire Courier*

Diamond Cement. The diamond cement, which is so useful for joining glass, china, wood, leather, etc., is formed as follows:—
White Glue (or Gelatine) 4 lbs.
White Lead, (dry) 1 "
Soft Water, 4 qts.
Alcohol, 1 "
Boil the glue and lead in the water by means of a water bath. When the glue is dissolved, add the alcohol, and stir until the whole is well mixed. Pour into vials for use.—*Journal of the American Patent Co.*

The Frenchman's Revenge. A tall, raw bone Yankee was riding a diminutive specimen of the donkey tribe through the muddy streets of Gotham, and the animal being very stubborn, Jonathan found it quite difficult to accelerate his pace. He used the persuasive eloquence of a hickory stick, and at each blow he would draw out, 'Git up, Boneyparte!' A little Frenchman in passing, heard with rage the name of his illustrious countryman applied to the ugly beast, and commenced heaping a volley of curses on the head of the offending Yankee. 'Sair, you're shonty the Gaul, 'vat for you call zat ugly animal Napoleon? Sair, I shall have ze grand satisfaction.'

'Git up, Boneyparte!' was the only response.
'Sair, vat for you call zat vagabone horse Napoleon?'
'Git up, Boneyparte!'

Here the Frenchman's rage boiled over, and stamping his foot upon the pavement, he screamed out:
'Oh, by gar, I shall have ze revenge. I have von beetle, mean, sheepish dog at home; I go call him General George Washington, by gar.'

SEVEN YEARS.

THE seven years of unrivalled success attending the

"COSMOPOLITAN ART ASSOCIATION," have made it a household word throughout every quarter of the country.

Under the auspices of this popular institution, over three hundred thousand copies have been printed and distributed—by beautiful works of art on their walls, and choice literature on their tables, the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled with that of any previous year. These contributions are promptly made up, and become a member by subscribing three dollars, for which sum they will receive

1st.—The large steel engraving, 50x35 inches, entitled "FALSTAFF MUSTERING HIS RECRUITS;"

2d.—One copy, one year, of that elegantly illustrated magazine, "THE COSMOPOLITAN ART JOURNAL;"

3d.—Four admissions, during the season, to the Gallery of Paintings, 518 Broadway, N. Y.

In addition to the above benefits, there will be given to subscribers, as gratuitous, over

Five Hundred Beautiful Works of Art, comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

The engraving, which every subscriber will receive, entitled, "Falstaff Mustering his Recruits," is one of the most beautiful and popular engravings ever issued from this country. It is done on steel, in fine line and stipple, and is printed on heavy plate paper, 50 by 35 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office.

Its subject is the noted scene of John Falstaff receiving, in Justice Shallow's office, the recruits that had been gathered for his ragged regiment. It could not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of arts, containing essays, poems, gossip, &c., by the very best writers in America.

The engraving is sent by mail to every subscriber by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the evening of the 31st of January, 1861, at which time the books will close and the premiums be given to subscribers.

No person is restricted to a single subscription.—Those who desire to increase their memberships and to one extra engraving for their trouble.

Subscriptions from California, the Canadas, and all foreign countries, must be \$3.50 instead of \$3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal* pronounced the best magazine in America. It contains catalogues of premiums, and numerous superb engravings. Regular price, 50 cents per number. Specimen copies, however, will be sent to those who subscribe on receipt of 15 cents, in stamps or coin. Address,

C. L. DEKBY, Actuary, C. A. A., 100 Broadway, New York.

THE ONLY PREPARATION THAT HAS

STOOD THE TEST OF YEARS.

And grows more and more Popular every Day!

And testimonials, new, and almost without number might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray and preserve the hair of the youth to old age, in all its youthful beauty.

Battle Creek, Mich., Dec. 21st, 1858.

Prof. Wood:—There will please accept a line to inform you that the hair on my head all fell off twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain relief from any medicine, until I was induced to do so, in consequence of which I have been suffering extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of your Hair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick and black, though short, it is coming in all over my head, feeling confident that another large bottle will restore it entirely and permanently. I feel anxious to persevere in its use, and being desirous of means to purchase any more, I would ask if you would not be willing to send me an order on three agents for a bottle, and receive to myself the certificate of the doctor, in the reward to those that are kind to the widow and the fatherless."

Yours truly,
SUSANNAH KIRBY.

Ligonier Noble Co., Indiana, Feb. 5th, 1859.

Prof. W. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair from a cause unknown to me, began to fall out, and finally, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my hair began to grow again, and I have since been able to discover the cause of the change in my appearance, as my most intimate acquaintances were to recognize me.

At once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, and being the only one that I had ever used, I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars worth of your Restorative, and as a result, I have a rich coat of very soft black hair which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect. Very respectfully, yours,

A. M. LATTI,
Attorney and Counselor at Law.
