men and women because they are not white? Is it probable Christ would ever go into one of the colored Sunday Schools, if he were now in our midst; or, would he do just as he used to, comfort the sorrowful, rebuke the Pharisaic, bless the meek and holy, stoop to lift up the fallen, do good to all, with ' no respect of persons ?' Are we better, wiser, holier than Christ? Is not he or she the best Christian in Lewistown who seeks to do good to the needy, the suffering, the despised ?

Globes for Schools.

Mr. Editor :- 1 wish through your columns to call the attention of Teachers and Direc

tors to the following facts : 1. No person of ordinary intelligence doubts the utility of having Geography taught in our schools.

2. It requires altogether extraordinary skill to enable a teacher to give proper, intelligible explanations of some of the fundamental globe. 3. Cheap globes, costing only \$1.50, deliv-

ered in Lewistown, can be procured, which would greatly increase the teacher's success in explaining, and the pupil's in comprehending Mathematical Geo

ding Mathematical Geography. 4. In almost every district this amount can be raised, even in these hard times, by prop or, intelligent appeals to the common sense

and generosity of school patrons. 5. To derive much benefit from globes this winter, it will be necessary to take immediate action.

I have ascertained the terms on which globes can be obtained from the Holbrook Ap paratus Company, and the price is as I have teachers and those interested in the prosperity of schools act in this matter speedily ? Please let me hear immediately from every one who wishes a globe at this price-from those whose names I have, as well as others; and. if you please, send along the requisite money. AZARIAH SMITH.

THE TIME FOR ACTION HAS COME ! ATTACK OF THE SOUTH CAROLINA Assassins on a Government Vessel!

The Star of the West was dispatched from New York on Sunday last with provisions, stores, and 250 troops for the relief of the gallant Major Anderson, and reached Charleston Bay on Monday evening. If a revenue cutter be sent to Charleston to collect the duties, with the new Collector, there is no necessity, as is supposed, for a collision with the State authorities, unless they should choose to invite it. The Harriet Lane might easily keep guard at the entrance of the harbor, and be entirely out of range of the guns of Fort Moultrie. In twenty days more there will be little revenue to collect, as foreign vessels will shun Charles-

The threats of Governor Wise, which have been re-echoed in other quarters, that the Capitol must be taken possession of and the inauguration of Mr. Lincoln forcibly prevented, have not been unheeded by the President. Orders have been issued to thoroughly organize the militia of the District of Columbia, who are all for the Union, and it is said that ten companies of U. S. troops will be taken to Washington at an early day, as an additional precaution. General Scott will remain there and and take command of the whole force.

It is said that the President will make no nomination for Postmaster General in place of Mr. Holt, now acting Secretary of War, but will continue Assistant Postmaster King at the head of that Department, that gentleman being well qualified by long experince in the Department to discharge the duties of the office.

They declare that the real cause of their discontent dates as far back as 1833. Maryland, and every other State in the Union, with an united voice, then declared that the cause was insufficient to justify the course of South Carolina. Can it be expected that this people, who then unanimously supported the course of Gen. Jackson, will now yield their opinions at the bidding of the modern secessionists?"

We commend this paragraph to the political knaves here and elsewhere who ascribe all the evils under which the country now labors to the election of Lincoln, who thus far has not had a right even to make himself heard. The Border Proposition.

The committee of the Border States (of | 60 years old. which Hon. James T. Hale is a member) comprising Senators and Representatives from Pennsylvania, Maryland, Virginia, Kentucky, Ohio, Indiana, Illinois, and Missouri, in caucus on the 5th, adopted the following propositions as a basis of compromise for the settlement of the difficulties between the two sections :

1st. Recommending a repeal of all the personal liberty bills.

2d. That the fugitive slave law be amend d for the prevention of kidnapping and so as to provide for the equalization of the commisioner's fee, &c.

3d. That the constitution be so amended as to prohibit any interference with slavery in any of the States where it now exists. That Congress shall not abolish slavery in the southern dockyards, arsenals, &c., nor in the District of Columbia, without the consent of the inhabitants of the District, nor

without compensation. 5th. That Congress shall not interfere with the inter slave trade. 6th. That there shall be a perpetual pro-

ibition of the African Slave trade. 7th. That the line of 36 degrees 30 minutes shall be run through all the existing ter ritory of the United States ; that in all"north of that line slavery shall be prohibited, and

that south of that line neither Congress nor the Territorial Legislature shall hereafter pass any law abolishing, prohibiting, or in noy manner interfering with African slavery; and that when any territory containing a suf ficient population for one member of Congress a any area of 60,000 square miles, shall apply for admission as a State, it shall be admitted, with or without slavery, as its constitution may determine

There are a few provisions in these propositions altogether superogatory, but we suppose were adopted to suit the views of ful in business, as is attested in the erec some members. We are glad to note this evidence of good taste among us. Too little attention is generally paid to architectural taste in our buildings, both public and private. The influence of good taste is happy in its effect on morals as well as on refinement. The crection of so perfect and beautiful a building is therefore a cause for general congratulation. It is a gift to the community, and offers just cause for praise to the persons interested. The building is 38 by 54, with a tower at south west corner 12 feet square at base and 84 feet high. The style of architecture adopted is the Romanesque, peculiarly well adapted to churches located among our mountains .----We have earefully examined the workmanship which has been faithfully executed according to designs made by J. An old friend of ours, politically differing with us, after reading the article in the last Lewistown Democrat headed "The State of the Union," said the secessionists at the south need no better advocates of disunion at the north than just such articles. When treason is at a premium, and open traitors like Toombs and others walk the streets of Washington City undisturbed, people may well ask themselves whether we have a National Government at all?

In the published correspondence between the South Carolina rebels and Buchanan, the latter said, speaking on the withdrawel of the troops from Charlescon, "This I cannot do ; this I will not do."

The Helena, Ark., Shield, in its num ber of the 15th inst., intimates that in case of the formation of a Southern Confederaey the 'foreign element' will be placed beyond the reach of any intermeddling in public affairs. That journal remarks as follows:

'It is a gratifying reflection to know that the great majority of the Southern democracy favor the exclusion of foreigners from the right of suffrage, in case a Southern Confederacy is formed We have convers ed with a great number of sensible, influential democrats, on this subject, of late, and they almost universally concede the necessity of such restriction ; it being so perfectly palpable that the foreign element of the country, combined with native antislavery votes, secured Lincoln's election.'
