SCOTT'S PREDICTION. His Timely Advice to the President. The Washington Intelligencer publishes the views of Gen. Scott upon Secession.

Gen. Scott expresses his political sentiments as sympathizing with the Bell and Everett ticket, but he does not apprehend any unconstitutional violence or breach of law from the administration of Mr. Lincoln.

He advises the prompt garrisoning of all Southern forts, and says with the army faithful to its allegiance, and the navy probably equally so, and with a federal executive for the next twelve months, of firmness and moderation, which the country has a right to expect—moderation being an element of power not less than firmness—there is good reason to hope that the danger of Secession may be made to pass away without one conflict of arms, one execution, or one arrest for treason.

Of the Federal property in the South he said: "From a knowledge of our Southern population, it is my solemn conviction that there is some danger of an early act of rashness preliminary to Secession, viz: a seizure of some or all of the following posts: Forts Jackson and St. Phillips, on the Mississippi, below New Orleans, both without garrisons; Fort Morgan, below Mobile, without a garrison; Fort Pickens and McKea, in Pensacola Harbor, with an insufficient garrison for one; Fort Pulaski, below Savannah, without a garrison; Fort Monroe and Sumter, Charleston harbor, the former with an insufficient garrison, and the latter without any; and Fort Monroe, Hampton Roads, without a sufficient garrison.

"In my opinion, all these works should be immediately so garrisoned as to make any attempt to take any one of them by surprise a coup de main, ridiculous."

These sentiments, expressed before the Presidential election, and before Secession was looked upon as very probable, are particularly interesting at the present crisis, and give to the country an idea of Gen. Scott's sentiments upon this important subject.

Had Mr. Buchanan followed the advice of the greatest captain of the age—who in 1832 went through this whole controversy at Charleston, and is a good judge of general as well as military matters—all our great Forts, commanding the principal commercial cities would have been preserved, and Secession would have been effectually checked. The evil which men do, lives after them."

The Huntingdon American, in noticing the recent burning of a mail car near that place, says:

"Bright and early on the following (Thursday) morning, 'Young America' from this place, started on a prospecting trip to the scene of the casualty. From an eye witness we have a ludicrous account of the proceedings. With an eagerness that would have done credit to an office seeker, they raked and roused among the ruins, their efforts often proving highly successful in 'finding things.' Letters containing money were sometimes found half consumed. In one case, an epistle containing twenty dollar bills and one five dollar bill, was picked up, burned squarely in half, leaving the half of every note perfectly legible. Of course, there were love letters, business letters, duns, newspapers, etc.—all so burned as to be rendered almost unintelligible. One youth found a letter containing nine one dollar bills; another, five half eagles run together; another, a lump of gold dollars; and five, ten and twenty dollar pieces, and a large amount of silver coin were found, most of which were half melted or very much blackened. A colored boy was the finder of a check on a Philadelphia bank for \$1000; another individual scurped up part of a gold watch, the heat having melted the balance. Besides these articles, almost every youth was the finder of small particles of gold."

A Veteran.—There resides in Shirley township an old man named Ephraim Hockenberry, who saw George Washington on several occasions—at Stony Point, Philadelphia, and several other places. He is eighty-eight years of age, and in indigent circumstances. There are very few men living now who have seen the "Father of his Country." Sixty years have now elapsed since his death—soon there will be none to say—"I have seen Washington."—Shirleysburg Herald.

On the 2d inst., the house of James Gilliland, of Springfield township, was burned with most of its contents, and also the house of Mr. Joshua Johns. It appears they were baking some cakes at Mr. Gilliland's, and in heating the stove, the fire caught fire and burst, whereupon the whole was consumed. They then took the cakes over to Mr. Johns', and in heating the stove, the house also caught and was burned. Thus in baking one lot of cakes, two houses were consumed.—Shirleysburg Herald.

COSTAR'S RAT EXTERMINATOR.—We had occasion a week or two ago to use this remedy, and since then have not a rat about the house. Its effect was like magic, and we therefore confidently recommend it to our readers who are annoyed with these pests as preferable to arsenic or anything else heretofore used. A box contains sufficient to drive away or kill hundreds. For sale by Charles Ritz—25 cents per box.

THE ONLY PREPARATION Worthy any Confidence for RESTORING THE BALD AND GRAY. Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical with those of his, and some being carried away by the wonderful results of Prof. Wood's preparation, and have been foolish enough to have the hair to a restorer's story. Read the following: Bath, Maine, April 18th, 1860. Dear Sir, The Letter I wrote you in 1858 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the case. The inquiries are, first, is it a fact of my baldness and name, as stated in the communication, second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can only answer, invariably yes. My hair is even better than in any stage of my life for forty years past, more soft, thickly, and better colored, and I am not using any medicine, and I only use why it is not generally true, is that the substance is washed off by frequent ablution of the face, when it care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair will continue to be good, and there is so much fraud in the manufacture and sale of various compounds as well as this, it has no doubt, been largely imitated, and some have been without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and I have been examined with surprise, as I am now at an age old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair, which I have just cut, and which I received from a friend of two years ago, for which I am very grateful. I gave it to my friends and thereby induced them to try it, and they were skeptical until they saw it, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can know if my hair will continue to be good, and I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which causes the inventor of the good, I deem it my duty as heretofore, to keep you apprised of the result of my examination, and I assure you that I have no one of my unshaken opinion of its valuable results. I remain, dear sir, yours, A. C. RAYMOND.
