Flag of the free hearts only home,
By angel hands to valor given!
Thy stars have lit the welkin dome
And all thy hues were born in heaven:
Forever float that standard sheet!
Where breathe the foe but falls before us
With freedom's soil beneath our feet,
And freedom's banner streaming o'er us.

☞The Legislature of this State met at Harrisburg on Tuesday. The Governor's Message recommends a proper appropriation for putting the military on a war footing, and the passage of a stay law.

IMPORTANT LAW.—By the following section of the military act, it will be seen that no civil process can issue against any of the officers or men now in the service of the United States from this State:

"No execution or other process shall issue against any officer, non commissioned officers or privates, of the militia when called into actual service under a requisition from the President of the United States, or in pursuance of the order of the Governor of this commonwealth, nor shall any such process issue against him until thirty days after he shall have returned from duty to his usual place of residence, or until forty days after he shall have been discharged; and the court, alderman or justice of the peace from which or from whom any such process shall have been issued, shall quash the same, as soon as the fact of any such person being ordered on public duty shall have been proven, and all the costs which shall have accrued in commencing or conducting any such process shall be paid by the person who shall have applied for the said execution or process."

Correspondence Betweed Gen. Beauregard and Maj. Anderson.

We publish below the conclusion of the correspondence between General Beauregard, the leader of the rebels, and Major Anderson, the gallant defender of Fort Sumter. It will be seen by this correspondence that the assault on Anderson and his brave companions was both brutal and unnecessary:

HEADQUARTERS, PROV'L. ARMY, C. S. A.
CHARLESTON, (S. C.) April 11, 1861, 11 P. M.
Major Robert Anderson, Commanding at Fort Sumter, Charleston Harbor, S. C.

MAJOR: In consequence of the verbal observations made by you to my aids, Messrs. Chestnut and Lee, in relation to the condition of your supplies, and that you would in a few days be starved out if our guns did not batter you to pieces, or words to that effect, and desiring no useless effusion of blood, I communicate both the verbal observation and your written answer to my communication to my Government.

If you will state the time at which you will evacuate Fort Sumter, and agree that in the meantime you will not use your guns against us unless ours shall be employed against Fort Sumter, we shall abstain from opening fire upon you. Col. Chestnut and Capt. Lee are authorized by me to enter into such an agreement with you. You are, therefore, requested to communicate to them an open answer.

I remain, Major, very respectfully, your obedient servant,

G. T. BEAUREGARD,
Brigadier General Commanding.

HEADQUARTERS FORT SUMTER, S. C.
2.30 A. M., APRIL 12, 1861.
To Brig. Gen. G. T. Beauregard, Commanding Provisional Army, C. S. A.

GENERAL: I have the honor to acknowledge the receipt of your second communication of the 11th instant, by Col. Chestnut, and to state in reply that, cordially uniting with you in the desire to avoid the useless effusion of blood, I will, if provided with the necessary means of transportation, evacuate Fort Sumter by noon on the 15th instant, should I not receive, prior to that time, controling instructions from my Government, or additional supplies, and that I will not in the meantime open my fire upon your forces, unless compelled to do so by some hostile act against this fort or the flag of my Government by the forces under your command, or by some portion of them, or by the perpetration of some act showing a hostile intention on your part against this fort or the flag it bears.

ROBERT ANDERSON,
Major U. S. A. Commanding.

FORT SUMTER, S. C.,
APRIL 12, 1861, 3.20 A. M.
Major Anderson, United States Army, Commanding Fort Sumter.

SIR: By authority of Brigadier General Beauregard, Commanding the Provisional Forces of the Confederate States, we have the honor to notify you that he will open the fire of his batteries on Fort Sumter in one hour from this time.

We have the honor to be very respectfully, your obedient servants,

JAMES CHESTNUT,
Aid-de-Camp.
STEPHEN D. LEE,
Captain S. C. Army and Aid de Camp.

Stray Bricks and Fugitive Shots.—It is said that when Col. Benjamin Butler, in command of the Massachusetts Regiment, landed, some of the authorities of Annapolis protested against the passage of Massachusetts troops over Maryland soil, when he replied: "Sir, we came here not as citizens of Massachusetts, but as citizens and soldiers of the United States, with no intention to invade any State, but to protect the Capitol of our common country from invasion. We shall give no cause of offence, but there must be *no fugitive shots or stray bricks* on the way."

Like the weather. Keep cool.

LATEST NEWS.

Gen. Thos. A. Power, formerly Adjutant General of Pennsylvania, has been detailed by the War Department to superintend the erection of the bridges destroyed by the Baltimore mob on that portion of the North Central road running through the State of Maryland.

The seventy-first Regiment of New York arrived at Washington on Saturday morning, in good condition, after a hard passage. They went on board the train at Annapolis Junction on Friday afternoon at 4 o'clock. A report of approaching attack brought them out into battle array. The noise of pistol shots and shouts around caused the alarm. For three hours they stood there. At 7 o'clock they took the cars again, but did not move for many hours; the probability of an attack continued for 24 hours. Each man had only two crackers for food.

The volunteers generally are in excellent health and spirits.

Moses Herrick of the Beverly Company, 8th Massachusetts Regiment, met with an accident by the accidental discharge of a gun. His foot is to be amputated.

The Massachusetts Fifth Regiment is at the Treasury Department, and the Rhode Island Regiment at the Patent Office.—The New York seventy-first Regiment and part of the Pennsylvania fifth Regiment are at the building put up for the Inauguration Ball. The Capitol is filled with Pennsylvania and Massachusetts troops, including the Seventh. The latter will go into camp at Georgetown Heights soon, if their camp equipage arrives.

The Pennsylvania Fifth Regiment arrived on Friday evening, after a tediously hard and hungry march. They bore the fatigue and privation well, and though deficient in equipment, have the stout heart and right spirit.

On Friday morning with the arrival of the Seventh New York Regiment and the Massachusetts troops under Gen. Butler, and some other forces, there were 24,000 men in Washington city, stationed at the Capitol, the Treasury Department, the Soldiers' Homes, the Navy Yard, the Arsenal, and at other points. The National Rifles, under Captain Smead, of the regular army, besides seizing the steamer St. Nicholas, with arms and provisions, has for weeks held possession for the Government of the telegraph offices at Washington and Annapolis. Officers are preparing, notwithstanding the alleged sale of Arlington Heights, in Virginia, to Gov. Letcher, by Colonel Lee, late of the U. S. Army, for the erection of earthworks and batteries upon the highlands opposite the Capitol for the defence of Washington.

The Capitol and the Treasury are most effectually barricaded with barrels of cement, flour, and the east iron plates intended for the completion of the great dome of the Capitol. Martial law has been proclaimed over the Capitol. Sixteen thousand barrels of flour are stored in the crypts, together with thousands of barrels of bacon, hogsheads of molasses and tierces of rice.

Considerable consternation has spread through Virginia because of the arrival of the famous General Lane and Capt. Montgomery, of Kansas, with some 200 of their followers.

The President has issued another proclamation, extending the blockade of the ports of the seceded States to those of Virginia and North Carolina.

A serious alarm was created at Hanover, York county, New Oxford, Adams county, and adjacent country, on Monday a week, by an idle report that 500 Marylanders were on their march to those places. The male population turned out en masse, and many ludicrous scenes are reported as having occurred. The improbablity of the thing ought to have checked the matter at once, as the borders there are in close alliance, relatives and dear friends abounding all through. As for 500 others when they will venture to cross the line, we make the prediction they will never return.

As Washington City has nearly as many troops now as are desired there, the forts on the Chesapeake will probably be reinforced to such an extent as to enable the garrisons to take the offensive, if necessary. A force of 15,000 or 20,000 at Fortress Monroe would be a formidable body in the neighborhood of Richmond, which might operate with terrible effect on Virginia should the traitors there raise a hand against the government.

In addition to the 75,000 volunteers, who are in the service for three months, 40,000 regulars have been called for to enlist for three years' service, 25,000 for five years service, and 18,000 seamen for the same term, making a total of 158,000 troops.

Fortifications commanding the railroad and county road, some two miles from Annapolis have been thrown up.

Annapolis has been made a military department. Gen. Butler will remain there. All the movements are kept very secret.

There are full preparations making at Harrisburg to build the bridges destroyed on the line of the Northern Central Railroad. The Pennsylvania Railroad Company has loaned to the Government a number of iron bridge frames, which they have at all times on hand, to put up in case of the destruction of bridges on their own road. A gang of carpenters, two hundred and fifty strong, with other workmen of approved skill, have been quietly concentrated at York since Saturday last. These will be protected by the troops as they advance.

Sills and heavy beams of timber have been forwarded to be used wherever they may be necessary, with any amount of lumber, from Harrisburg. The whole of the civil engineering is placed under the control of Thos. J. Power, a well known engineer. Five regiments were to have moved from Harrisburg on Tuesday for York. The intention is to guard every bridge with troops all the way to Baltimore. When the troops reach that point they will pass around and reach the Relay House, at the junction of the Washington branch of the Baltimore and Ohio Railroad, which will be permanently occupied.

The Legislature of Maryland met at Frederick last week, and its action thus far has been quite conservative, the secessionists having dwindled down to a handful, and evidently scared at the prospect of ropes for traitors.

Baltimore is returning to reason, and we shall not be surprised to learn that the citizens there have taken the traitors and bridge burners in hand. The stars and stripes are again displayed in spite of the mayor and police, and any further molestation of that honored flag will probably end in a revolution that will hurl the bridge burners to destruction.

A few it will be perceived have paid two instalments, and one half his subscription and that of his lady, but of the whole list not more than half have paid anything.—The disbursements thus far amount to about $160. James Nichols has been authorized to collect the instalments now due from subscribers.

DROWNED.—A daughter of John Shimp, named Ida Virginia, aged 16 months, was drowned in the feeder near McCoy's warehouse on Tuesday a week, having accidentally fallen in while playing with her brother, a lad of about 4 years. The boy sprang in after her, and would have speedily shared the same fate, but for timely assistance.

BOROUGH TAX.—At a meeting of the Town Council on Monday last a resolution was passed to reduce the tax to two mills.

John Selheimer was appointed High Constable during the absence of David Wasson.

☞Two colored boys named Joseph Johnson and Wesley Harris were committed to jail by Esq. Hoover on Tuesday, charged with the larceny of sundry brass screws which the rascals cut off from some borough hose at the Lewistown Mills.

SILVER GRAYS.—A company bearing this name, numbering about 70 members, all over 45 years of age, was organized on Monday evening as a Home Guard by the election of Dr. Joseph Henderson as Captain.

Another company, with 87 members under 45 years of age, was organized on Tuesday evening as a Home Guard, and also for service if needed, by the election of Jos. W. Parker as Captain.

JUNIOR HOME GUARD.—Agreeably to a call made last week, the young men of this place assembled at the Apprentices Hall on Saturday evening, for the purpose of organizing a Junior Home Guard, Horace Culbertson in the chair. A committee was appointed to draft a constitution. During their absence, Mr. Azariah Smith made a few encouraging remarks; the committee reported a constitution which with one or two amendments, was adopted and signed by thirty-three. A committee was appointed to report a suitable uniform. The following officers were then elected:

Captain—David Vanvalzah.
First Lieutenant—R. B. Hoover.
Second Lieutenant—T. D. Parker.
3d Lieutenant—J. A. Elliott.
First Sergeant—H. T. Kulp.
Second Sergeant—H. Helman.
First Corporal—A. Parker.
2d Corporal—W. A. Marks.

To qualify an applicant for membership in this company, he must be five feet four inches high, and must not be under 16 nor over 21 years of age. Nightly drills are held by this company, and when in uniform will be a credit to the town.

☞Two little boys, Joseph Selheimer and Wm. Galbraith, stimulated by the pole and flag in front of the Gazette office, got up a subscription paper last week, purchased a pole and material for a large flag which a number of ladies made up, and on Saturday the pole was raised in front of Captain Selheimer's residence and the flag flung to the breeze. Good for the boys.

☞A large national ensign of our Union was flung to the breeze at Locke's Mills on Thursday evening last, amidst prolonged cheering and a round of thirty-four volleys for the Union. "The Star-spangled Banner, long may it wave."

☞A number of ladies met on Monday evening last, and patriotically resolved that in case of need they would tender their services for the care of the wounded and sick, or in any other capacity they could render themselves useful.

☞A meeting of our colored citizens was held last week, Samuel Molson in the chair and Nelson Schofield Secretary, when it was resolved to tender their services to the State and Government "to be used in any capacity, whether to build breastworks, Todig entrenchments, or march to battle". The committee consists of John L. Griffith, R. A. Sanders, Samuel Baptist, Jas. Richeson, Jas. Sherman, Wm. Palmer, Wm. Butler, Wm. Holland, and Jonathan Barrols, Jr.

☞Many letters have been received from the Logan Guards since our last, all satisfactory and breathing a proper spirit. This company in one respect has not been well treated. Having left home and business at a few hours notice, and being told that their equipments would be furnished at Harrisburg, most of them went in their worst clothing. From Harrisburg they were sent to Washington with the promise that their uniforms would be supplied there, which had not yet been done last week. This is not as it should be.

A NEW MOVE.—Ben Firoved, agent, has determined to postpone auction indefinitely, and for a month or so will continue to close out his entire stock of goods at cost or even less for cash or in exchange for any kind of country produce. It consists of a choice assortment of Lawns, Bereges, Organdies, Chintzes, De Laines, Prints, and other desirable articles, exactly suitable to the season, to which he has just added a select lot of new styles truly worthy of attention. Ladies and all others in want of Dress Goods, will find this the time and the Montgomery house, next door to Rudisill's, *the place* for Bargains, and no mistake. Call and see for yourselves!

☞The Rev. David Phillips will preach in the Town Hall at 11 o'clock, A. M., and at 4 o'clock, P. M., on Sabbath, May 5th, and every two weeks thereafter until other arrangements are made.

☞The absence of R. W. Patton at present makes no interference with his business. It will be continued as usual.

☞Refer to the advertisement of Hoofland's German Bitters in another column.—These Bitters are the best remedy known for the cure of Liver Complaint and Billious diseases.

☞Found—A sum of money.

Pay of the Troops.—The following, from an exchange paper, gives the rate of pay allowed in the army of the United States, to which the militia is entitled when called into service:

Major	175 00

Brevet Second Lieutenant	104 50
First or Orderly Sergeant	29 60
Other Sergeants	27 00
Corporals	22 00

Officers are required to provide their own uniforms and equipments, but the men are clothed and armed by the Government.

The Rev. J. C. Fletcher gave us last evening a brilliant lecture on the religion, customs and people of Brazil. Seldom have we relished anything more than the picture he laid before his audience of that exuberant garden of the tropics laden with its strange variety of fruit and flowers, teeming with perpetual harvest for the hand of man. Surely that country must be the garden of the world, and if the people had the enterprise which moves this Yankee nation, imagination could not set a bound to the results they would produce there. As relevant to this comparison the Rev. gentleman stated that the best remedies employed there for the diseases to which they are subject, are invented and supplied to them by our well known countrymen, Dr. J. C. Ayer of Lowell, Mass., and that not the people only but the priesthood and the court of the Emperor down, have constant recourse in sickness to the remedies of this widely celebrated American Chemist.—*Ledger, Boston.*

Piles in Both Forms Cured.

Read This!—"I can only account for my present sound health from the constant, though moderate use of Boerhave's Holland Bitters—having from my youth suffered, at intervals, from Piles, in both forms, sometimes so severely as to completely prostrate me. I have for several months past, though subject to loss of sleep and unusual physical effort, been entirely free from any symptoms of this distressing disease, while my general health is much improved."

Persons doubting the authenticity of this certificate, are requested to call upon or communicate with the proprietors. They will take pleasure not only in referring them to its author, but to many others who have used the Holland Bitters for the same affection, with equal success.

The Proprietor in calling the attention of this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a twelve years' trial before the American people, and its reputation and sale are unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known physicians and individuals in all parts of the country is immense, and a careful perusal of the almanac, published annually by the proprietors, and to be had gratis of any of their agents, cannot but satisfy the most skeptical that this remedy is truly deserving the great celebrity it has obtained.

This Oil acts on the system with electricity—is of pure vegetable preparation. Not the slightest danger of applying it outwardly or inwardly. It at once gives a permanent cure—in most cases from ten to twenty minutes.

The best physiologists of Europe have discovered that all organic derangement of the animal system is the effect of an obstruction of the physico-electric fluid in the organ diseased. A skillful application of this Oil puts in immediate motion the nerve fluid, and the cure is at once accomplished. No bleedings—no vomiting, purging, or blistering is resorted to.

☞None genuine without signature of Prof. C. DE GRATH. Labels signed in writing.

It is a fact long since established, that persons suffering with any diseases of these organs are affected in bodily health and mental powers, and experience many alarming symptoms, among which will be found: Indisposition to Exertion, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, often Enormous Appetite, with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pains in the Back, Heavy Eyelids, frequently black spots flying before the eyes, with temporary suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness. These symptoms, which this medicine invariably removes, soon follow *—Loss of Power, Fatuity and Epileptic Fits.*

Who can say that these excesses are not frequently followed by those direful diseases, INSANITY and CONSUMPTION. The records of the Insane Asylums and the melancholy deaths by Consumption bear ample witness of the truth of this assertion.
