Rev. E. W. Appleton, of Lancas ter, will preach in the lecture room of the Episcopal Church this (Wednesday even-

ACCIDENT .- For some time past a number of boys have been frequenting the old armory building, now the property of the school directors, gaining access by climbing on the roof or getting in at the second story window. On Monday evening, Wm. Allison, son of James Allison, deceased, was on the roof, from which he slipped, and in falling his arm caught on one of the spikes in the fence, tearing the flesh in a shocking manner between the wrist and elbow. The whole weight of his body was upheld for some moments in this manner. He was immediately removed to his grandfather's residence, Hon. James Burns, and his wounds dressed by Dr. VanValzah.

FINE STRAWBERRIES.—We received a basket of strawberries from Mrs. Wm. B. Hoffman on Monday evening, the sight of which would have made our "strawberry" neighbor weep. They were remarkable for their uniformity in size, probably averaging 21 or 3 inches in circumference, and were by far the finest lot we have seen this season. Our thanks are of course due the

Considerable feeling has been created among the Ladies Association as well as others by an apparently well-founded report that advantage was taken by some persons to forward liquor in cans, &c., with false labels, in the boxes which were forwarded to our soldiers.

MARKET REGULATIONS .- The Harrisburg Telegraph of last week says that John Paulis, a butcher of that place, was fined \$1 and costs "for selling meat before the hour designated by law for opening the market." We think there can be no doubt as to the power of any borough to regu- bbl. late the sale of meats, &c., and such powed by the courts. At the request of the is now in force prohibiting the peddling of meat at any time except by the quarter, ers, and 20 to 35 for Cows and Calves but at the same time containing some lbs wholesome regulations respecting the butchers which our citizens ought to know and enforce. 1st. They are prohibited, during market hours, from selling meat at any other place than at the market. 2d. Any piece of meat in market is to be considered for sale, as they are prohibited from hanging it away under pretence that it is sold or engaged. 3d. They are prohibited from forestalling the market by going around previous to market hours and engaging meat. 4th. If they endeavor to evade these provisions by keeping a porcertain parties after market hours. The the Juniata River, containing intention is to put all purchasers on an equality, and if this ordinance is carried out it may do it; if it fails, let all market regulations be repealed. The fine for violation is \$5 for each offence.

THE LAST CHANCE. - B. K. Firoved, Agt., Brought, containing reminds our readers that his establishment will positively close in a few weeks, and the ladies lose the best opportunity they ever had for buying Lawns, Bareges and other dress goods lower than they ever bought them before, or ever may again. Remember, he is Lewistown, and the second about two. selling at original cost. In the meantime, those indebted should at once come and square noon.

By the steamer Jura, at Farther Point, we have Liverpool dates to the 6th inst. The sad announcement is made of the death of Count Cavour, the eminent Italian statesman, Executor Estate Mary Jane Robison, dec'd who may with propriety be called the creator of Italian Independence. The death of such a man at this time, when Italy so greatly needed his labors to consolidate and confirm its newly created nationality, is a serious ca lamity. The event had produced a deep effect at Turin. Lord John Russell in his letter to the Admirality directing them uot to permit privateers to bring their prizes into to present them duly authenticated for settle-British ports, says that instruction is given ment. in order to preserve the strictest neutrality. my28 It was rumored that Garibaldi contemplates a visit to the United States.

highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly
scientific principles, after the manner of the celebrated
Holland Professor, Beerhave. Its reputation at home produced its introduction here, the demand commencing with
those of the Fatherland scattered over the face of this
mighty country, many of whom brought with them and
handed down the tradition of its value. It is now offered
to the American public, knowing that its truly wonderful
medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose
constitutions may have been impaired by the continuous use
of ardent spirits, or other forms of dissipation. Generally
instantaneous in effect, it finds its way directly to the seat
of life, thrilling and quickening every nerve, raising up the
drooping spirit, and, in fact, infusing new health and vigor
in the system.
