## From Godey's Lady's Bo Directions for Preserving Fruit, &c.

Gooseberry Jam .- Stalk and crop as many as you require of ripe, red, gooseberries; put them into the preserving pan, and as they warm, stir and bruise them to bring out the juice. Let them boil for ten minutes, then add sugar in the proportion of three-quarters of a cound to every pound of fruit, and place it on the fire again ; let it boil slowly, and continue boiling, for two hours longer, stirring it all the time to prevent its burning. When it thickens, and is jelly like on a plate when cold, it is done enough. Put it into pots, and allow it to remain a day before it is covered.

P.ums .- There are several varieties of plums. The richest purple plum for pres-erving is the damson. There are of these large and small; the large are called sweet damsons; the small ones are very rich flavored. The great difficulty in preserving plums is that the skins crack and the fruit comes to pieces. The rule here laid down for preserving them obviates that difficulty. Purple gages, unless properly preserved, will turn to juice and skins; and the large horse-plum (as it is generally known) comes completely to pieces in ordinary modes of preserving. The one recommended herein will keep them whole, full, and rich.

To Preserve Purple Plums .-- Make a syrup of clean brown sugar; clarify it; when perfectly clear and boiling hot, pour it over the plums, having picked out all unsound ones and stems ; let them remain in the syrup two days, and then drain it off, making it boiling hot, skim it, and pour it over again ; let them remain another day or two, then put them in a preserving kettle over the fire, and simmer gently until the syrup is reduced, thick or rich. One pound of sugar for each pound of p'ums.

To Preserve Plums without the Skins .-Pour boiling water over large egg or magnum bonum plums; cover them until it is cold, then pull off the skins. Make a syrup of a pound of sugar and a teacup of water for each pound of fruit; make it I boiling hot, and pour it over; let them re-boiling hot, and pour it over; let them re-James Shalfont, Adjutant First Regiment Allegheny main for a day or two, then drain it off, and boil again; skim it clear, and pour it hot over the plums; let them remain until the next day, then put them over the fire in the syrup; boil them very gently until clear; take them from the syrup, with a skimmer, into the pots or jars; boil the syrup until rich and thick ; take off any scum which may arise, then let it cool and settle, and pour it over the plums. If brown sugar is used, which is quite as good, except for green gages, clarify it as directed.

Jam of Green Gages .- Put ripe green gages into a kettle, with very little water, and let them stew until soft; then rub them through a colander, and to every pint of FANCY ARTICLES & NOTIONS OF ALL KINDS, pulp put a pound of white sugar powdered fine; then put it in a preserving kettle over the fire, stir it until the whole is of the consistence of jelly, then take it off; put the marmalade in small jars or tumblers, and cover as directed for jelly.

To Preserve Pippins in Slices .- Take the fairest pippins, pare them, and cut them in slices a quarter of an inch thick, without taking out the cores; boil two or three lemons, and slice them with the apples; take the same weight of white sugar (or clarified brown sugar), put half a gill of water for each pound of sugar, dissolve it, and set it over the fire ; when it is boil-source of Aprile, Pear, Peach, Plum and ing hot, put in the slices; let them boil very gently until they are clear, then take them with a skimmer, and spread them out on flat dishes to cool; boil-the syrup until it is quite thick, and pour it over them .--These may be done a day before they are wanted; two hours will be sufficient to to make a deduction of make a fine dish for dessert or supper.

Dra Arter Yorr Fills are the paragon of all that is great in medicine. They have cured my little daughter of alcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long griev-ously atflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Corteright, New Orleans. Your Fills are the prines of purges. Their excellent qualities surpass any cathartic we posses. They are midd, but very certain and effectual in their action on the borels, which makes them invaluable to us in the daily treatment of disease.

Headache, SickHeadache, Foul Stomach.

From Dr. Ellevird Boyd, Baltimore. Dran Buo. Avra: I cannot answer you what complaints I have over d with your Fills batter than to say all that we coes treat with a purpative medicine. I place great depen-dence on an effectual extharlie in my daily contest with disease, not believing as I do that your Fills afford us the best we have, I of course value them highly.

Da. J. C. Arsz. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at more.

Billous Disorders - Liver Complaints.

Billous Disorders - Liver Complaints. From Dr. Theodore Bell, of New Fork City. Not only are your Pills admirably adapted to their pur-pose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my prac-tice proved more effectual for the cure of bilious com-plaints than any one remedy I can mention. I sincercity rejoice that we have at length a purgative which is wor-thy the confidence of the profession and the people.

thy the confidence of the profession and the people. DEPARTMENT OF THE INTERIOR, Washington, D. C., Tith Feb., 1856. Sthe: I have used your Fills in my general and hospital practice ever since your made them, and cannot hesitate to say they are the best cathartic we employ. Their regu-lating action on the liver is quick and decided, conse-quently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilous discuse so obstinate that it did not readily yield to them. Fraternsily yours, ALONZO BALL, M. D., *Physician of the Marine Haspital*.

Dysentery, Diarrhea, Relax, Worms,

From Dr. J. G. Green, of Chicago. Your Pills have had a long trial in my practice, and I

I could them in esteem as non-of-the best aperions I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small does for *diout dysentery and divertura*. Their sugar-crating makes them very acceptable and convenient for the use if women and children.

To Preserve Crab-Apples.-Take off the stem and core them with a penknife, without cutting them open; weigh a pound of white sugar for each pound of prepared fruit; put a teacup of water to each pound of sugar; put it over a moderate fire .---When the sugar is all dissolved and hot, put the apples in ; let them boil gently until they are clear, then skim them out, and spread them on flat dishes. Boil the syrup until it is thick ; put the fruit in what. ever it is to be kept, and, when the syrup is cooled and settled, pour it carefully over the lowest figure by the fruit. Slices of lemon boiled with the fruit may be considered an improvement ; one lemon is enough for several pounds of fruit. Crab-apples may be preserved whole, with only half an inch of the stem on, three-quarters of a pound of sugar for each pound of fruit.

# ADRICULTURAL,

Hay Making. A good deal of hay will be made this month. Most kinds of grass should be cut soon after it is in bloom, and the hay will be much better than if the grass stood longer. With Timothy, however, it is somewhat different : the seeds of this grass should have reached the doughy state before being cut, but if the seeds are in the milky, or perhaps doughy state, it is time they should be cut. The yield will be greater than if allowed to stand longer.

Take great pains in curing your hay. Don't cut down more than you can secure at night. Grass should not be allowed to lay on the ground more than one night, and if put in the cock or winrow the same day it is cut, it will be far better. We like to see sweet, bright, palatable hay for all kinds of stock. It costs but little more to have such, and its nutritive properties are double that which has been exposed to dews and storms, and the sun's hurning rays, after it should have been in D. M. DAVIDSON, burning rays, after it should have been in the stack or barn - Valley Farmer.

# The New Big Tin Coffee Pot Sign.

#### THE MACHINE ONCE MORE.

My Machine is new and runs a little rough, That all can see by the look of the stuff; But be that as it may, I'll still make her sing Of all the improvements and every new thing.

We have made a new Big Coffee Pot Sign, The greatest in the State and new in design, And its a model of some we have for sale Which to please you I know they cannot fail.

Some Tea Pots too of much improved style, The prettiest indeed you have seen for awhile. Also Zinc Bottom Buckets that will not rust, And sold very cheap if you don't ask for trust.

Now for a Stove, I must tell you where to look, And is called the Daylight Gas Burner Cock They're from the foundry and come direct here To the only authorized salesman near.

More things I'd say, but I must do it briefly, Attention to Jobbing, but Spouting chieffy: Lamps and Lanters and Sad Irons too-If you need Silver Plating, I'll do it for you.

Now it becomes me in a short way, To express my thanks to the people and say, I am very much pleased so many come to me For Stoves and Tin Ware although I am wee. mb7 J. IRVIN WALLIS.
